PATRIOT AND UNION.—The DAILY PATRIOT AND Union can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRAIN.

COLLECTION .- The carriers of the Patriot and Union beg leave to say that they will, as usual, collect their dues this morning.

THE Union Prayer Meeting will be held in the Presbyterian Church, on Market Square, this afternoon, at 4 o'clock, as usual.

An Oasis.—There is one green spot in the desert waste of Black Republicanism in Bradford. In Athens township Foster received 211 votes, or a majority of 40. Huzza for Athens, the ancient seat of learning. She sustains her famous name.

LARGE FUNERAL CORTEGE.—The funeral of Miss yesterday afternoon, between 3 and 4 o'clock, and discount. Has there ever been a monument built friends and acquaintances. The cortege reached out the transmutation of the baser metals? No from Third street to the canal bridge. A special meeting of the Harrisburg Typographi-

cal Union, No. 14 will be held at the Citizen engine house, on Saturday evening, the 20th inst., at 7 o'clock. A general attendance of the members is requested, as business of importance will be brought before the Union. By order of the Presi-Apvice Granis .- Put on your flannels, and

avoid the night air. Do not sleep directly in a draught of air, neither is it safe to leave a window open at all unless a draught is secured. Do not go out of the house in a profuse perspiration, or even more than ordinarily warm, into a chilly, damp

VERY BUSY .- The Building Committee who superintend the erection of the Court House, are having a tough time of it now. What with watching the progress of the steeple, the trench in front of the building, and the stone-cutters chipping away, it is a wonder some of them do not get cross-eyed!

WHAT SHALL WE DO FOR COFFEE?-It appears from statistics recently published that the consumption of coffee is increasing much more rapidly than the production. Last year the total consumption of Europe and the United States alone was 330,000 tuns. whilst the production of all countries was but 312,000 tuns. The probable consumption of the present year is estimated at 337,090 tuns, and the probable production at 274,-000; and of next year the former at 343,000 tuns, the latter at 345,000.

CITY POLICE.—Two victims emerged from the colls of the lock-up yesterday morning-one giving his name James Fee, and the other James Nelson. Both had been drunk and disorderly, and both were from other localities-not our own town loafers. The Mayor imposed the usual fine, but one had not the wherewithal to "pint," and the other one swore he would rot in jail before he would "come down." They were both accordingly committed, but the fellow in funds relented before noon-paid, and was released.

PHILADELPHIA EXCURSIONISTS,-A party of Philadelphia business men, and men of leisure, to the number of nearly two hundred, arrived in this city vesterday, at noon, on the Northern Central Railroad, dined at the Jones House, and left for home again, via Lebanon and Reading, at 2 o'clock They left Philadelphia yesterday morning, and crossed from Schylkill Haven to Shamokin, and struck the Northern Central at Sunbury. The object of the excursion was probably to enable them to see how the country looks in Autumn. If so, we hope that they were all highly gratified at the "mellow

DYSPEPSY AND ITS SUPPOSED REMEDIES .- Dr. Tucker, of the Medical Journal, has no faith in bran bread, rye bread, &c., as remedies in dyspepsy. They are commonly supposed to exert a good feeling by keeping the bowels open by their mechanical effect of irritation; but it is an absurd idea to give indigestible bran to a stomach already weakened, and whose complaint is that it cannot digest. Bran and other mechanical irritants, though they may relieve the constipation, are not remedial, and only afford a present relief of one symptom, purchased at the risk of aggravating the real difficulty. Dr. Tucker believes that cold and stale wheat bread is the most digestible, and, therefore, the best.

An Improvement in Railroad Chairs .- An employee of the New York and Eric Railroad has recently invented an improvement in the arrangement of track chairs, which has been adopted by that road. Instead of spiking the chairs upon the ties, and resting the ends of the rails loosely in them, where they soon get loose enough to clatter and jar the wheels, and broom the ends of the rails, the chairs are placed between the ties, and fastened in their places by an effectual though simple arrangement of bolts and keys, so that there can be no possible variation in the level of the two ends of the rails, since both must rise and fall alike. The result is, that the cars appear to run upon a rail entirely smooth, making no jar whatever in passing off of one rail on to another. .

PARDONED .- Governor Packer has pardoned Frank Chapin and George Vaughn, who were convicted for passing counterfeit money in the Court of Quarter Sessions of Mercer county at its August term, and who were sentenced to undergo imprisonment in the penitentiary. He also remitted the recognizance of Samuel M'Kay, taken in the sum of five bundred dollars, and conditioned for the appearance of Campbell M'Kay, to answer a charge of passing counterfeit money.

In this connection it may not be amiss to say that we notice by the Philadelphia papers that a number of petitions are now in circulation asking Gov. Packer to pardon Robert Thompson, who was convicted of the murder of John Capie. He is under sentence of death, and will be executed in December unless the Governor interferes, which is exceedingly doubtful. There are now about a dozen persons in the Philadelphia prison under sentence of death, or awaiting their trial for murder.

To PREVENT SKIPPERS IN HAMS -ID & COMMUnication to the Cotton Planter, Mr. W. M'Willie says: "There is, according to my experience, nothing easier than to avoid the skipper and all worms and bugs that usually infest and often deatroy so much bacon. It is simply to keep your smoke house dars, and the moth that deposits the egg will never enter it. For the past twenty-five years I have attended to this, and never have had my bacon troubled with any insect. I have now hanging in my smoke house, hams one, two and three years old, and the oldest are as free from insects as when first hung up. I am not aware of other causes for the exemption of my bacon from insects, but simply from the fact that my smoke house is always kept dark. Before adopting this plan, I had tried many experiments, but always either without success or with injury to the flavor of my bicen. I -moke with green hickory; this is destroyed by amoking it with improper wood."

How America Treats Her Inventors and DISCOVERERS .- A great deal has been said of the manner in which our country treats her inventors, discoverers, and men of science, merely because Morse, Goodyear, Howe, Whitney, Woodward, and a few others have been enabled to bag a few thousand dollars by their genius, skill and ingenuity. But for one who has thus been enabled to "sound the hegaw" throughout the land, a thousand have Church, corner of Pine and Second streets, to-morgone down to the quiet grave-not always, however, unwept, nor unhonored-nor even unsung; but the honoring, weeping and singing has in some instances been what Filkins, in the exhaberance of his fancy, calls "over ye left!" Let us treat of a 13,156.— Wash. States.

number of public benefictors. Ever since the original settlement of this continent there has been a scarcity of silver coin, and this has, in a measure, continued up until the present time, as is evidenced in the fact that three times since the Revolutionary war the banks have run out of stuff, and been compelled to "shut pan" on all anxious inquirers. The result was that some inventive genius commenced manufacturing Alice Jane Casey took place from Herr's Hotel, | coin to order, done up in rolls, and sold at a large was attended by a large number of sorrowing to this modern alchemist who so beautifully worked sir! On the contrary, his name is a reproachmay, not a market morning passes that we do not hear some angry tiller of the soil profane about the rascal who invented "counterfeit quarters." Nor does it fare better with his followers, for every one who improves upon the old method, is nicked at

last, and goeth to the Koniacker's cell. There's our friend the Agrarian. He tries to demonstrate his favorite theory to the world that the great mass of mankind would be benefitted by a division of property, and to illustrate his principles practically, he takes one horse from some man's stable who has two. What does an ungrateful public do? Why, sir, instead of becoming convicts to his theory, they actually make a convict of him, and make him do the State service with a

flying shuttle. There's your practical philanthropist, who loves the study of Anatomy. He goes about demonstrating, by cracking a skull occasionally merely to ascertain the exact resistance of an os frontis or occipital bone to a slung shot or handy billy. Then he varies his studies by inserting a knife under the fifth rib of a fellow-citizen. The consequence is, that the community is down on him, and he is taken up, and the Sheriff in turn becomes a demonstrator of Anatomy by ascertaining the exact resistance of the philanthropist's vertebræ to a hemp

rope of given thickness. Who next? Ah! yes, the man who travels on his muscle. He teaches the manty art of self-defence. Himself and a friend, accompanied by one or two hundred gentlemanly companions, go to a se cluded spot in the country for a friendly mill-not one of these where the peaceful vocation of turning cereals into flour is pursued, but on an open plain, when a ring is pitched, and the two gentlemen strip. They enter the ring, and in a peaceful manner commence pummelling each other vigor ously for "\$200 a side"-after shaking hands! As they warm up, their "feints" become realities, and their "fibbing" become truths. One gentleman's eye becomes the color of liver, and the face of the other is like a fiddle without a bridge. In the midst of their innocent amusement, a posse of police walk in and walk off the heroes of the P. R. to jail. A free country, ch?

The skillful, careful and scientific engineer next looms up. He is devoted to his profession, and in experiments on tension, and the expansive qualities of iron, he heats the boiler to a white heat, but just as he is beginning to ascertain interesting results, the boiler separates and sends him, and perhaps a hundred or two more, to kingdom come, "unannointed and unannealed," although the machinery may have been both. The engineer may escape. What then? why he is execrated as a careless, ignorant booby.

Then, there's the man who fought the "tiger" with red chips and white chips for years, just to the memory of a good and great man in his day show the world that the thing could be beat -Like Pike's Fine Old Arkansas Gentleman, all of the Arkansas line, he went fifty on the king and "coppered" on the ace, "parleed" in the square, and "called the turn" for his pile. But, unfortunately, before he could demonstrate that "Farrho" could be beat, his money was all gone. The experiment cost him \$10,000. A grateful and sympathetic public said be was one of those who illustrate the adage that "a fool and his money is soon parted."

Last comes the locomotive engineer. He imbibed the queer idea that two trains could be made to pass on a single track if a sufficient impetus were given them. One day he tried it on, and he acknowledged that the thing couldn't be did. He lost his situation, and the company lost \$40,000but he solved the question for the benefit of, and no doubt to the entire satisfaction of all single track railroads, that two trains can not pass on a single track.

Reader, there are others whose genius goes unrequitted, but let us in charity pass them over, as these are quite enough to show the world what up grateful sons of Belial we really are.

CHRISTY'S MINSTEELS will give one of their entertainments at Brant's Hall on Tuesday evening. There are several bands traveling around the country, palming themselves off as "Christy's Minstrels," but the troup who will be here on Tuesday evening is the only genuine one, as the following

certificate attests: "Many doubts having been expressed as to the orginality of the troup called 'George Christy's Minstrels, we hereby certify that we are perfectly convinced that the veritable 'George Christy, is and has been the recognized manager of the company bearing his name, and we commend him to the patronage of all lovers of good music and genuine fun, as one of the best representatives of Negro Minstrelsy and Southern eccentricities now

NEW REGULATIONS ON THE PENNSYLVANIA RAIL. ROAD .- Under the new regulations adopted by the Pennsylvania Railroad Company, which went into effect on the 7th of this month, the swindling game for years past practiced by conductors will be effectually blocked. The new rules provide that "passengers from stations where the company has an agent, who fail to procure tickets at the regular offices of the company, will be required to pay an excess to the conductor. The conductor will, in each case, give the person paying such excess a ticket, which will be a receipt for the full amount paid, if presented to any authorized station-agent of the company. This rule will be invariable, and conductors will be required to carry it out. Pas. sengers from stations where the company has no agent will be furnished with tickets by the conductor, specifying the amount of fare paid, which ticket the conductor will, in all cases, cancel and

ONE OF THEM .- The Statesman of this week contains the outline engraving of one of the Pikes old John Brown placed in the hands of the ignorant negroes, to be used in slaughtering the inof. impercast, as the flavor of bacon is often utterly fensive white men, women and children, at Harper's Ferry, a year ago.

take up before the passengers leave the train.

STILL GLOOMY.—The weather yesterday was still TT WILL PAY YOU ery gloomy.

New Crossing .- The city authorities have put down a crossing over Third street, east of North. They might just as well have made one job of it, and put another across North street, below Third.

Notice.-There will be preaching in the Baptist row morning and evening by visiting clergymen of the Presbyterian Church.

The majority of Curtis (Repub.) for Governor,

There's a man booked up for you!

PREACHING IN BRANT'S HALL -A sermon in memory of Elder John Winebrenner will be preached by Elder A. X. Shoemaker, in Brant's Hall, to-morrow (Sabbath) morning, at 10 o'clock, on account of his sickness, death and future prospects. A number of interesting incidents will be given. The public, and especially his friends, are invited to attend.

QUEER BUILDING.—Some person is erecting a very curiously shaped brick building in Walnut street, near Fourth. It will not be much to brag of in breadth, but it will hold its own with any of them in the way of length. It looms up like a tower-and withal looks exceedingly snug and

Boys on Railroad Tracks .- The boy Eby, who fell under the railroad cars in Mulberry street on Thursday, had his foot taken off at the ankle. Boys, this is sad business. So full of joy and hope on Thursday—to-day, a cripple. And now his pilgrimage through the world must be at a disadvantage none of you would willingly labor under. And what was the cause of this? Disobedience. Let this fact sink deep into your hearts. for there is not a boy goes to that South Ward school who has not been warned by his parents or teacher to keep off the cars. The penalty for disobedience has been a terrible one in this instance, boys, and you will see in it another evidence that it is a safe rule at all times to obey your parents and teacher. They never ask anything unreason-

able, and their advice will never lead to such sad

Onio Penitentiary .- There are at present 949 convicts in the Penitentiary, fifteen of whom are females, says the Statesman. The general health of the inmates is good. There are but few patients in the hospital; among them are two or three cases of typhus fever. As the new cells are ventilated, which is not the case with the old ones, it must conduce materially to preserve the health of the convicts. Quite a number of invalid prisoners are employed in the old chapel, which is now used for a lodging room, in making quilts or coverlets for the use of the institution. There is a library in the prison of several hundred volumes of miscellaneous books, chiefly donated by benevolent individuals. for the use of the prisoners. That is a great family within the walls of the Penitentiary, of over one thousand persons, and the amount of work performed there by the men and the machinery in a single day is enormous.

THE COURT HOUSE STEEPLE-A Suggestion .- It has been asserted that the builders of our new Court House contemplated placing upon the spire the Indian that used to surmount the old building. Such is not the fact-they have not yet decided what emblem to use. We have therefore a suggestion to make, which we feel satisfied will meet the approbation of all the people of this city, and a large majority of these who reside in the country. Too much of the frame work is now up to make a dome, but let the steeple stop at its present height, and be enclosed and colored so as to harmonize with the stone work of the building, and then let the apex be surmounted by a wooden statue of John Harris, the founder of our beautiful city. This would be eminently proper-a just tribute to and generation. Such a statue would not cost a great deal, and its freshness could be preserved. and it could be kept in repair for years; indeed it is our impression that it would last several generations, or just as long as any other piece of wood. We hope the contractors will take this matter into consideration, and ascertain the public views as far as possible on it.

VIOLATING AN OBDINANCE.—It is well known to most of our citizens that there is an ordinance in existence enjoining the Cumberland Valley Railroad Company to keep flugmen stationed at the Second and Third streets crossings, under a penalty of eighty dollars. Under the borough this ordinance never was enforced, although the company paid no more attention to its passage than if a parcel of geese had gabbled. Several people residing in the neighborhood made complaint before Justices, in two instances, but the arrogant and insolent petty corporation treated the complaints with silent contempt. Fearful to fight a moneyed power, the complainants abandoned the suits.

Under the city authorities, they will find a different state of affairs. Some four or five days ago the Mayor issued his warrant, which was served upon the company's agent, and made returnable last evening. At 7 o'clock the company was not represented at the Mayor's office, but the Mayor went on and heard the testimony, and no doubt gave judgment against them. Of course they will appeal, and it will be for the court to say whether a city shall enforce its own ordinances, or whether corporation shall have the right to set them at

Many a true heart that would have come back like a dove to the ark, after its first transgression, has been frightened beyond recall by the savage cruelty of an unforgiving spirit.

Pleasure, like quicksilver, is bright and shy .-If we strive to grasp it, it still cludes us, and still glitters. We perhaps seize it at last, and find it rank poison.

We notice scores of poetical effusions directed to friends who are in Heaven. Better give poetry of the heart utterance in words and deeds of kindness to friends upon earth. A witty fellow slipped down on an icy pavement.

While sitting, he muttered, "I have no desire to see the town burnt down, but I sincerely wish to see the streets laid in ashes." Good manners should begin at home. Po'iteness is not an article to be worn in full dress only,

No. 832 Market street, Philadelp Sole Agent for Philadelp Read the following from the New York Courier:

Enormous Business for one New York Merchant.—
We are happy to inform our fellow-citizens that there is We are happy to inform our fellow-citizens that there is one place in our city where the physician, apoth-cary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, aithough it will well repay any stranger or citizen to visit Udolffio Wolffe's extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand rendy for ship-nent could not have been less than thirty thousand cases; the Brandy, some ten thousand cases—Virages of 1836 to 1856; and ten thousand cases—Virages of 1836 to 1856; and ten thousand cases of Madeira, Sherry and Port Wines, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wines, &c. in casks, under Custom-House key, ready for bottling. Mr. Wolff's asles of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successforth his Brandies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orders direct to Mr. Wolffs, until every Apothecary in the land make un their minds to discard the missonus stuff from their orders direct to Mr. Wolffs, until every Apothecary in the land make un their minds to discard the missonus stuff from their orders direct to Mr. workers and a constant of the prospense stuff from their orders direct to Mr. workers and discard the missonus stuff from their orders direct to Mr. workers and discard the missonus stuff from their orders direct to mr. workers and their orders direct to mr. workers and the missonus stuff from their orders direct to mr. workers and the missonus stuff from their orders direct to mr. workers and the missonus stuff from their orders direct to mr. workers and the m one place in our city where the physician, apoth-cary
