

LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market streets.

PATRIOT AND UNION.—The DAILY PATRIOT AND UNION can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRANK.

A. M. STODDARD will open, on Thursday, November 14, an assortment of Fall and Winter Millinery.

GLOOMY.—For the last four days the weather has been gloomy—sultry, with occasional showers—and altogether unseasonable, as well as unhealthy.

A stated meeting of the Washington Hose Company will be held at their Hose House this (Friday) evening, at 7 o'clock. Punctual attendance is required.

LOCAL NEWS.—There was a terrible death in the local news department yesterday. We could not pick up anything of any consequence in our exchange papers, and for finding anything to write about, that was totally out of the question.

A STRIKE.—The coal miners on the Allegheny mountain, in the employ of Watson, Deniston & Co., have made a strike for cash payments. They refuse to go to work themselves, and are trying to prohibit others from taking their places.

LONGERS.—Three able-bodied men were turned out of the lock-up yesterday morning. They were from Philadelphia, on their way to Carlisle, probably to enlist in the army, were out of spoudux, and forced to lodge at the expense of the city.

THE NEW CHIEF OF POLICE.—Isaac S. Waterbury, the newly appointed Chief of Police, we are informed, will enter upon the discharge of his duties next Monday. The appointment gives general satisfaction, the prevailing opinion being that Mr. Waterbury will make an excellent officer.

RETURNED.—The Mayor returned from his gunning expedition on Wednesday evening. The weather was against him to all intents and purposes, and he had but a few hours shooting during the two days he was absent. He bagged thirty-one partridges.

A FATAL ACCIDENT.—Mr. McIntosh, of Newry, Blair county, was killed last week on the railroad near Sonman. Mr. McIntosh was walking through a deep cut on the road when the Eastern and Western trains were passing at that point. He attempted to escape by stepping down, but was struck by the passing cars and instantly killed.

STATE CAPITAL HOTEL.—Col. Omit has put the State Capital Hotel in repair for the winter campaign. Many of the rooms have been newly papered and painted, and all other arrangements necessary for the guests of this old and well-known stand, have been made, and it is to be hoped that the Colonel will receive the usual patronage bestowed upon his establishment.

LAST GRAND RALLY OF THE BELL AND EVERETT CLUB.—A meeting of the Constitutional Union Club, of this city, will be held at the office of Col. John Roberts, in Chestnut street between Second and Third, on Saturday evening, November 3, 1860. All persons favorable to the election of John Bell, of Tennessee, and Edward Everett, of Massachusetts, for President and Vice President of the United States, are cordially invited to be present. By order of the President, E. W. SHELL, Sec'y.

APPLES.—We acknowledge the receipt, by the Adams Express, of a barrel of apples, of the variety generally known as pound apples—not very prime for cooking, but an excellent article for eating, as the four juveniles who have had the run of the barrel for the last three days, will probably readily testify. The apples were raised in Bedford county, and sent us from Hollidaysburg, where they sell for 50 cents a bushel.

THE MAN FROM BRADFORD disposed of his entire lot—3,000 bushels—on Tuesday last.

NEW RAILROAD.—The grading of the Ebensburg and Cresson railroad has been completed to the east end of Ebensburg. The liberality of the citizens and the energy of the officers certainly deserve the highest commendation. It was a great undertaking for a town with only 1,000 inhabitants ever to attempt to make a railroad of ten miles in length; yet the attempt was made, and the road is so far completed that the cars will be running on it before the New Year. The Pennsylvania Central Railroad Company has agreed to commence the laying of the track by the 15th of this month.

ARRESTS.—On Wednesday officer Fleck arrested a man named Jack Pool, a stranger in the city, for being drunk and disorderly, and landed him in jail.

Yesterday he arrested a young black scamp in Tanner's alley, named Charles Duff, the principal in an assault with clubs on one Joseph Parker. Held to bail for trial.

On yesterday he also arrested three young darlings—Frank White, Kaleb Knies and Cassius Marie, on a charge of stoning the house of Charlotte E. Weaver, in Tanner's alley. Justice Beader let them off with a reprimand.

SUSQUEHANNA SALMON.—Some few of these finest of all fish taken in the Susquehanna, have found their way to our market this fall, but the prices they are held at places them out of the reach of men who keep no bank accounts, or are not troubled with plethoric pocket-books. The other morning we noticed one weighing about three pounds net, lying in a basket. "Ha! ha!" said we to ourselves, "Mrs. J. we'll trouble you to scale that fellow—we'll have boiled salmon for dinner!" "What's the price?" said we to the dealer. "Seventy-five cents," said he. Well, we didn't dive on boiled salmon that day—we compromised on cabbage, beef and potatoes.

OIL EXHIBITION AT TIDOUPE.—New discoveries of valuable oil wells at Tidoupe are being made nearly every day, says the Warren Ledger. Every body seems to be carried away in the whirl of excitement, and this section of the State is destined to rival California in its palmist days. The centre of excitement is around Tidoupe Island, at present. This island contains some four acres, and until within a few months was considered of no value; consequently it remained in the possession of the Commonwealth till the time mentioned, when a citizen of Warren took out a patent for it at the land office at Harrisburg. Some valuable wells have been found upon the island, and the "squatters" have taken possession of all the adjacent bars and shoal places in the river. The owners of the island complain that this cord of derelicts surrounding their property, is an infringement upon their personal rights, and the whole affair is likely to prove an innumerable number of lawsuits, if not to serious breaches of the peace. Already, we understand, the parties interested have cut drift some of the floating "claims" which surround the island, and this of itself will tend to increase the intense excitement which now prevails. As is usual in such cases the current of popular feeling drifts strongly in favor of the "squatters" and this practical illustration of the principle of "squatter sovereignty." It does not become us to give an opinion as to what is right or wrong in this affair, as the whole controversy will likely come before a judicial tribunal for adjudication.

MIDDLETOWN ITEMS.—We clip the following items from the Journal of yesterday:

Robberies.—It seems that our borough is at present infested with a band of robbers. There is scarcely a night but somebody's kitchen or cellar is robbed. A few nights since, the cellar of Mr. Samuel Landis was entered and robbed of a barrel of mackerel, and all the stables in the house of a large copper kettle were stolen from the premises of Mr. Jacob Rife, and a number of other citizens suffered more or less, by these soundrels, during the present week. It is high time that something was done to put an end to this wholesale system of plunder.

Accident.—On last Thursday afternoon, a young lad of M. E. Center, severely cut in the face with a knife. It occurred during the recess of school hours, while another young boy was cutting at a stick, the knife slipping off struck the unfortunate boy in the face, as above stated. This should teach all others not to use a knife in the above manner, while a number of children are about, and in fact, it would be better if such small boys were not allowed to carry knives at all.

Protracted Meeting.—A protracted meeting commenced in the Bethel Church on last Friday evening, and is still in progress. Rev. J. C. Senneker, of Landisburg, Perry county, and Rev. J. Myers, of Auburn, Schuylkill county, were present.

Attempted Burglary.—We are informed that some soundrel made an attempt to enter the house of Mr. Beck, on last Tuesday night, but evidently suspecting some danger, he relinquished the undertaking. We would advise the following and all those of his stamp not to try again, if they do not wish to smell something that seems like powder and lead. These midnight robberies are becoming too frequent in our place; and why it is that our citizens do not make arrangements to detect these soundrels, we do not understand. A number of persons have proffered rewards, which they intend using on the first person who may attempt to enter their premises.

Sabbath School Lecture.—A free lecture will be delivered in the Lutheran Church on Saturday afternoon, the 11th of November, at 2 o'clock, by Mr. Geo. Kutzman, of this place, for the benefit of the South Ward Mission School, of which Mr. K. is Superintendent. Subject—The Training of the Young. Mr. K. is one of our most intelligent German citizens, and will no doubt deliver an interesting address. The lecture will be in English, and a collection will be taken up at the close, to be appropriated to the assistance of the Sabbath School mentioned. The public are invited to attend.

The Fisherville correspondent gives the following items:

Yesterday, while several children, belonging to J. F. Lantz, were playing on a stack of straw, one of them, aged about nine years, slipped off and fell upon a knotty rail, one of the projecting knots entering his body at a very dangerous place, and serious doubts are entertained for his recovery.

A small child, while playing with a stick, fell off a chair and broke its collar bone.

A very interesting revival is now in progress at Straw's Church; sores are seeking salvation. The exercises are conducted by Rev. J. W. Davidson, Pastor of the E. Lutheran congregation.

CELLAR WALLS AND FLOORS.—Most cellars are built without adequate provision being made for keeping moisture from passing through the walls from the outside, and up through the earthen floors inside during rainy weather. The cellar of a house should be dry, so as to render it comfortable and healthy, as moisture in the lower part of a dwelling generally makes the upper stories damp and chilly, and causes mildew in clothes, books, and all household articles made of cloth and leather. Cellars can be easily built so as to have dry walls, and hard, dry floors; and the latter are invaluable to prevent rats from burrowing, as well as dampness from coming up from the soil beneath. To render the cellar walls dry, they should be coated on the outside with hydraulic cement, mixed with sand. Houses in our cities have their cellar walls thus treated in many instances, but their floors are neglected. To make a cement floor the surface should first be rammed down and leveled; then hydraulic cement mixed with sand, of about the consistency of thick mortar, should be laid on to about one inch in thickness, and its surface levelled with a scraper made of a thick plank. In laying down such a floor sections of about eight feet square should be marked off, and finished one after another. A coat of clean sand or gravel, one inch thick, should be laid on the top of the cement; and, after it has stood about half an hour, the whole should be rammed down smooth with a pounder, when the work is complete, after the surplus sand has been swept off. In a few days such a floor becomes hard as a stone, and quite impervious to water.

A BLACK REPUBLICAN FRAUD.—On Wednesday last, on information of officer A. J. Wicket, Conrad Miller was bound over to take his trial at the next sessions for illegal voting at the late election. The proof of his doing so consists in the fact that he never took his final naturalization papers until Monday last.

As frauds of this kind were no doubt extensively perpetrated throughout the State in order to give Curtin the large majority he received, and as it will no doubt be repeated again on Tuesday next, we caution our Democratic friends to be on their guard. The following section of the law provides for the punishment of such offenders:

"97. If any person, not by law qualified, shall fraudulently vote at any election within this Commonwealth, or shall be present at such election, shall vote out of his proper district, or if any person knowing the want of such qualification, shall aid or procure such person to vote, he or she, or the person so offending, shall, on conviction, be fined in any sum not exceeding two hundred dollars, and be imprisoned for any term not exceeding three months."

Conrad Miller was taken to the polls by Alex. Koser, and he voted the entire Republican ticket. Of course his guilt is clearly established. It is also due to the purity of the ballot-box to ascertain whether Koser was cognizant of the fact that Miller was not a qualified voter, and also whether Miller received any bribe, in "meat, drink, money or otherwise," for which the law provides a penalty.

Koser is a butcher, and most liberally patronized by Democratic customers, none of whom have any objections to squandering the profits he has made off them on Wide Awake parades or Black Republican jubilees, but they do most emphatically object to him leading up illegal votes to the polls, to aid in defeating those who are legally entitled to vote, and they will not let the matter rest either.

LYKENS ITEMS.—We clip the following items from the Journal of yesterday:

Progressing.—The Washington Rifle Company is practicing the Zouave and other new drills, with a view to attending the inauguration of Gov. Curtin. As Harrisburg does not profess to have a military company, we presume the Washington Rifle Company will have to represent the county and receive the companies from abroad.

Good Shooting.—Dr. Geo. Dock, of Harrisburg, visited these regions on a gunning excursion last week. He bagged sixteen partridges, six pheasants, and two rabbits, which, we take it, is a pretty fair day's work.

Confirmation.—Bishop Bowman, of the Protestant Episcopal Church, assisted by Rev. M. Leacock, of Harrisburg, was expected to administer the rite of confirmation to several persons in this place, last evening.

A mule was killed by being jammed between two cars in the Short Mountain mines, on Friday last.

A deer was wounded on the mountains near town on Tuesday of last week.

VERY TRUE.—The editor of the Boston Post indulges in more truth than poetry. The following are a few of his last "wise saws and modern instances":

A dentist is not, necessarily, mad because he shows his teeth.

The most successful progress is that of the man who rolls the wheelbarrow, for he carries all before him.

The British vulgar fraction—"alf and 'alf."

Mad and Money.—A young heeler.

An unpopular reason for going to sea.—Leeks. The Governor of Virginia can do what he pleases, but we would advise all who love the Union not to go and do like Wise.

An unlucky day.—The Day of Algiers.

LETTER FROM ALTOONA.

Correspondence of the Patriot and Union.

ALTOONA, Oct. 30, 1860. MESSRS EDITORS:—A coal mining company in the Allegheny coal region have for years been in the habit of paying their laborers in goods, of which frequent complaint has been made by the miners. Previous to the late State election, they, the laborers, were promised that if they would vote for Curtin they should thereafter be paid half money and half goods. The proposition was accepted, but the firm failing to pay any money, a strike was the consequence—and a riot being anticipated this (Tuesday) morning, two volunteer companies, accompanied by the sheriff of Blair county, proceeded to the mines to quell the anticipated riot. Up till now (10 o'clock, p. m.) we have heard no news from the seat of war. Is comment necessary? If so, you may make it. I will not; but it is easy to see by this what base means were resorted to in order to carry the election for the Black Republicans.

Yours, J. K.

NEW PAINT WITH THE OX-CHLORIDE OF ZINC.—Prof. Dussance gives an account of a new economical paint with the ox-chloride of zinc. There are two ways to manufacture it. First, take chloride of zinc prepared by the ordinary process, and free of acid, concentrating the solution so that when cold it marks fifty-eight degrees Beaume. Then prepare a solution containing, for three gallons, four and one-half pounds carbonate of soda; mix the two solutions in the proportion of nine parts of the first for three gallons of the second. This liquid so prepared, is mixed with the white of zinc, to form a paint of the ordinary consistence, which is applied immediately. Analysis shows that in the above proportion there is one equivalent of chloride of zinc for one equivalent of oxide. If the sulphate of zinc be used, it must be a solution marking 40 degrees Beaume, adding for every gallon one ounce of borate of soda. These solutions could be kept for a long time, but the white of zinc must be added only when ready for use, and there must be prepared only the quantity sufficient to work one hour. This paint gives a very fine white, and it covers as well as oil painting.—It is very adhesive and solid; its price is half that of the oxide of zinc; it is without smell, and may be applied on wood, iron or cloth. It does not, however, mix well with coloring matters, and must be applied only as white paint.

THE SUTILETY OF POISONS.—At a recent discussion before the Society of Arts in London, on the detection of arsenical poisoning, Dr. Letheby traced the progress of toxicological research from the trial of Donald, in 1815, up to the present time. A little while before that period, ten grains of arsenic were required to make a metallic test satisfactory in a court of law. Afterwards Dr. Black improved the process till he could detect the poison if he had one grain to operate upon. It was then thought a marvel of toxicological skill when Dr. Christison said he only required the 10th of a grain; but now we can trace the presence of the 250,000,000th of a grain of arsenic! It is to be feared that the detection of this particular poison has reached an almost dangerous degree of delicacy, and extreme caution is necessary in examination for its criminal administration. We live surrounded by means of unconsciously absorbing traces of arsenic; we breathe arseniated dust from the green wall papers of our rooms; the confectioners supply it wholesale in their cake ornaments and sweetmeats; the very drugs prescribed for our relief are tainted with arsenic; nay, more, even our vegetable food, as Prof. Davy has lately pointed out, may be contaminated with arsenic; and there is probably no drinking water containing iron without a trace of arsenic as well. The poison may thus be stored up in the system till, in the course of years, the amount becomes appreciable.

THE PRINCE OF WALES AND JUDGE VONDERSMITH. We clip the following interview between the Prince of Wales and Judge Vondersmith at the Eastern Penitentiary, from one of our Philadelphia papers, changes:

"The Royal party arrived at the prison about 1 o'clock on Wednesday, in company with his Honor, Mayor Henry, Hon. Richard Vaux, and a number of the other city officials. When the party arrived at the entrance, there was an unusual number of persons gathered in front of the prison in order to get a sight of the future King of England. On the arrival of the Prince and suit at the institution, the party was put in charge of the warden, John R. Holloway, Esq., who accompanied them hastily through the building. The Prince expressed a great deal of satisfaction. The Prince and party were then conducted to the cell of Judge Vondersmith, the only inmate of the institution that he visited. When the Prince entered the cell he took the Judge by the hand and received him very kindly, and explained the cause of his visit to him. The Prince expressed upon the walls of his cell a number of dried flowers, which the Judge had very artistically arranged upon drawing paper. The Prince examined them and appeared much interested in the flowers. The Duke of Newcastle and suite were standing at the door of the cell when the Prince received the Duke to enter; he was then introduced to the Judge by the Prince. They spent about fifteen minutes in conversation with him. After the interview, the Prince and Duke expressed great sympathy for the Judge to the officers of the institution, and hoped that the Executive would extend his clemency in his case when application is made for the general sympathy of the Royal party for the Judge, and several of them remarked, 'what a pity for such a noble-looking man.' * * * I believe that the sympathy is general throughout the community for Judge Vondersmith's liberation. I do hope that an effort will be made soon for his liberation by his friends in Lancaster."

THERE is an old proverb which declares that none can tell where the shoe pinches save he that wears it. The maxim has a thousand applications. A husband who appears to have found his wife a good deal less of an angel than he had imagined in the days of his courtship, lets out some domestic secrets in the following graphic manner:

I own that she has charming looks That on her shoulders fall; What would you say to see the box In which she keeps them all?— Her taper fingers, it is true, Pressed me to the heart; I wish my friend, you only knew How terribly they scratch!

WOLFE'S PURE COGNAC BRANDY. WOLFE'S PURE MADEIRA, SHERRY AND PORT WINE. WOLFE'S PURE JAMAICA AND ST. CROIX RUM. WOLFE'S PURE FOOTBALL AND IRISH WHISKY.

I beg leave to call the attention of the citizens of the United States to the above WINES and LIQUORS, imported by ODOLPHO WOLFE, of New York, whose name is familiar in every part of this country, and who, by his celebrated SCHNAPPS, SCHNAPPS, &c., has made his name known to all the people of this country. He is a man, my standing as a merchant of thirty years' residence in the City of New York, that all the BRANDY and SHERRY which he imports are of the best quality, and can be relied upon by every purchaser. Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the cork. The public are respectfully invited to call and examine for themselves. For sale at RETAIL by all Apothecaries and Grocers in Philadelphia.

GEORGE H. ASHTON, No. 832 Market street, Philadelphia, Sole Agent for Philadelphia.

Read the following from the NEW YORK MERCHANT'S ENORMOUS BUSINESS FOR ONE NEW YORK MERCHANT.

We are happy to inform our fellow-citizens that there is no place in our city where the physician, the grocer, and country merchant, can go and purchase pure Wines and Liquors, so pure as imported, and of the best quality. We are happy to inform you that we have a large stock of merchant's extensive business, although it will be necessary for you to visit ODOLPHO WOLFE'S wine warehouse, Nos. 18, 20 and 22, Market street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been more than thirty times the amount of the quantity of his celebrated SCHNAPPS, SCHNAPPS, &c., and ten thousand cases of Madeira, Sherry and Port Wines, Scotch and Irish Whisky, Jamaica and St. Croix Rums, and every very old and new brandy in this country. He also has three large cellars, filled with Brandies, &c., in casks, under Custom-House key, ready for bottling. Mr. Wolfe's sales last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successful with his business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors, and who desire to purchase them at the lowest price, will find Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Liquors.

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a case, containing a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to human health and happiness. We are happy to inform our fellow-citizens that there is no place in our city where the physician, the grocer, and country merchant, can go and purchase pure Wines and Liquors, so pure as imported, and of the best quality. We are happy to inform you that we have a large stock of merchant's extensive business, although it will be necessary for you to visit ODOLPHO WOLFE'S wine warehouse, Nos. 18, 20 and 22, Market street, and Nos. 17, 19 and 21, Marketfield street.
