

LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market streets.

PATRIOT AND UNION.—THE DAILY PATRIOT AND UNION can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRANK.

THE MAN who plants a tree little knows what he is conferring on posterity—especially if it is a birch tree.

D. W. C. JAMES has withdrawn from the editorship of the Warren (Pa.) Ledger, and is succeeded by Thomas Clemons.

CITIZEN ATTENTION.—A stated meeting of the Citizen Fire Engine and Hose Company will be held at their hall, this (Monday) evening.—Punctual attendance is requested.

A car built wholly of iron is now in use between Pittsburgh and Cleveland. It will be much safer for passengers in case of a collision, as the material resists crushing, and will be entirely free from splinters. The manufacturers intend to run it over various roads, for the inspection of the public.

A DOUBLE SHOT.—A young man named Reisinger, one day last week, shot a black snake and a hen hawk, a short distance from Wrightsville, at a single discharge of his gun. The hawk had swooped down and fastened its talons into his snake's skin, but was quickly made a prisoner in the coils of the snake, when a novel battle commenced for the mastery, which, however, was speedily terminated by Mr. R. killing the twin.

The largest hotel in the world—as they claim, is now possessed by St. Louis, and is nearly completed. It is to be called the "Grand Hotel." It is seven stories above the basement; 112 feet above the sidewalk: fronts 272 feet on Washington avenue, 227 on Green street, and will accommodate 1,200 guests. The islands, now of the Metropolitan, New York city, are to manage it.

A MONSTER CABRAGE.—John Olwine, who has a truck garden on one of the islands of the Susquehanna, had in market on Saturday morning a head of cabbage which weighed 25 pounds net—clear of superfluous leaves. This is what we call a whopper, and hard to beat in this neighborhood. In fact, any other neighborhood. Such a chap worked up into sauer kraut would yield a supply sufficient for a small family for the entire winter.

NEW TIME TABLE.—On the 10th inst. there will be an entire change in the passenger schedule on the Pennsylvania Railroad for the winter months. We shall have the same number of trains running both east and west, but the time of their departure from Pittsburgh and Philadelphia will be so regulated as to form the usual close connections with railroads west from Pittsburgh, south from Harrisburg, and east from Philadelphia.

THE NEW PATRONS lately adopted in the marine corps are now being experimented with at Casey Island, under the direction of Capt. Ward. At a distance of three hundred yards the ball has penetrated seven inches into closely-packed wet sand, which offers a greater resisting force than any other available material. With the advantage of more direct aim and greater force of shot, these muskets are shorter and lighter than the old pattern.

EXPLOSION OF A LOCOMOTIVE.—Two Lives Lost. We learn that on Saturday afternoon last at 3 o'clock, Locomotive No. 209, belonging to the Pennsylvania Railroad Company, exploded at Lemon Place, a station ten miles below Lancaster. The engineer, Alexander Fry, was killed instantly, and John Spring, the fireman, was injured to such an extent that he died yesterday morning. The conductor was also slightly injured.

THE STRIKE.—In our notice of the strike of the moulder at the car factory we could certainly have had no object in view in misrepresenting facts.—We gave the information as imparted to us. One of the strikers desires us to correct. He says: "The employers desired to diminish the time, during the winter months, from ten to nine hours, at the same time expecting the employees to do the amount of work in nine hours that was formerly done in ten; and also to reduce the wages in proportion to the hours. On Tuesday evening, in the great railroad case of Frazier, these giants of the bar dealt blows which, to a layman, seemed deadly, and yet left the court-room arm-in-arm.—Pittsburgh Dispatch.

The changes and changes of political and legal life are admirably illustrated at this time in the Supreme Court. Gen. Foster and Gen. Stoker, recently side by side, in many important cases from Westborough county) arrayed against each other. The fierce contest contrasted strangely with their late political efforts side by side, and show that a lawyer may be at the same time a personal friend and a forensic enemy. On Tuesday especially, in the great railroad case of Frazier, these giants of the bar dealt blows which, to a layman, seemed deadly, and yet left the court-room arm-in-arm.—Pittsburgh Dispatch.

In this case, as in many others, Henry D. Foster was engaged against the Pennsylvania Railroad Company, and yet the Swiss soldier of the Telegraph of this city, asserted before the election that Mr. Foster was the solicitor of the Company. He knew he lied when he penned the article—he knows it now, and yet he has not enough manliness in him to take it back.

IVORY TYPES.—Our artist friend, Harry Davis, has had his panorama aside for a few days, stopping at the forty-second scene, and is now devoting himself to the manufacture of Ivory types. This style of picture is the most striking and life-like of any yet discovered. It is a photograph taken on transparent paper, transferred to glass, and some substance put on the back of it which gives it the appearance of a picture on ivory.

HE HAS COMPLETED four from photographs taken by Mr. A. G. Keets—who, by the way, takes them in a style equal to any taken in the best galleries in the world. We were particularly fascinated with one just finished by Mr. Davis of a little daughter of Mr. Rawn, of Milton. Any one who will take the trouble to call at Mr. Davis' room and examine it will agree with us that it is really a gem of art.

THE FIRST WARD FRAUD.—The Telegraph of Saturday makes no effort to deny the fraud perpetrated in the First Ward—the whole thing having been brought home, peradventure, beyond the shadow of a doubt; but there is a lame, shuffling attempt made to excuse it by saying that Miller had voted for Foster, instead of Curtin, we would have said nothing about it! Oh! most wise and logical deduction! In that event, the Telegraph would have expended any amount of virtuous indignation, instead of trying to shield Miller. As an offset, the Telegraph says that a resident of Juniata county voted for Foster in the Fourth Ward. This is put up as a parallel case. The difference, however, is that the Juniata county man was a legal voter of Pennsylvania, so that the worst he could have been guilty of would have been voting on less than a ten days' residence, while Miller was not a citizen of the United States at the time he voted!

PROCEEDINGS OF COUNCIL.—A regular stated meeting of the Council was held at the Council Chamber on Saturday evening—President Gross in the Chair.

Present, Messrs. Metzgar, Colder, Bailey, Garverich, Black, Moyer, Brooke, Martin, Bell, Hachlen and Verbeke.

Minutes of the two former meetings read and approved.

The President laid before Council a bill of expenses amounting to \$31, incurred by the visit of the Prince of Wales. On motion, an order for the amount was drawn.

Also, a communication from the Mayor informing Council that he had appointed Isaac S. Waterbury Chief of Police, vice George H. Morgan resigned.

Also, a communication from the Mayor embodying a transcript from his docket in relation to a suit brought against the Cumberland Valley railroad for violating the ordinance of June 1, 1853, with notice of the company's appeal. Referred to the Ordinance Committee, with power to authorize the Solicitor to prosecute the suit.

The following street crossings were ordered to be made, on petitions from citizens, and on representations made by members of Council: One across Huckleberry alley, in Market street; one across Duckberry alley, in Chestnut street; a man-made walk from the eastern bank of Paxton creek to the foot of Allison's Hill; also, a crossing over Walnut street, from Short street; a crossing over State street, and another over North street, in Canal street; a crossing over North avenue at Ridge road, and another over West avenue, at Ridge street; and another over Paxton street, at River alley.

Mr. Garverich moved that a gas-post be erected at the corner of Canal and North streets: which was agreed to.

Mr. Bell moved that a gas-post be erected at the corner of Cherry alley and Third streets. Agreed to.

Mr. Garverich presented the petition of citizens of the Fourth ward, praying for the laying of water pipe in Sixth street. Referred to Water Committee, with power to act.

Mr. Verbeke presented the petition of citizens of Harrisburg, praying for the appointment of three firemen from each fire company, to act as a special police in case of fire, to prevent the destruction of property and protect it from thieves.—Referred to a select committee, consisting of Messrs. Verbeke, Bailey and Martin.

On motion of Dr. Bailey, an order was drawn in favor of the President for the payment of Scott and Jenkins for putting up the new engine in the Water Works.

Mr. Gross, from the Finance Committee, gave notice that Mr. Thompson's bill for \$391.00 for stop-cocks and fire plugs, had been paid by note at 90 days. Action of committee concurred in.

The bill of Chief Police Morgan for balance of salary, \$33.33 was presented, and, on motion, an order drawn for the amount.

The bill of J. B. Pugh, for \$451.53 was presented. [The reporter did not observe any action taken.]

The bill of Daniel D. Boas for lumber for Good Will engine house, and for other purposes, amounting to \$153.13 was read, and an order drawn.

Mr. Fahnstock's bill for one ton of pig lead, gaskets, &c., was presented, and an order drawn.

The bill of George Patterson & Son for \$51.22 for carpenter work at Market House, was referred back to Market Committee in consequence of informality.

The bill of Stevenson & Hutman, for bricklaying at the Water Works, amounting to \$107.50, was presented, and an order drawn.

Mrs. Haldeman's bill for \$17 was presented, and an order drawn.

A large number of small bills for constructing gutters, repairing streets, &c., properly certified, were presented, and ordered to be paid.

John Young's bill for tallow \$23.40—informal—laid over.

Peter Wood's bill for sodding, &c., at reservoir grounds, for \$6.50, was presented, and ordered to be paid.

The contract with George Powell for grading Ridge avenue at 18 per cubic yard was read and approved. It will be remembered that Nicholas Stabler was the lowest bidder, but failing to comply, the job was given to George Powell, the next lowest.

Council agreed to grade Ridge road above Broad street to a low place near Sayford's alley.

The report of the City Regulators was read, which made the amount of excavation necessary \$934 cubic yards.

On motion of Mr. Verbeke, the Commissioners of the Fifth district were authorized to contract for cutting down the crossings of Broad and Cumberland streets and Hammon's lane, at the same price.—Dr. Bailey, from the Water Committee, reported a set of rules for the government of the Water Works. One of these prohibits any person from visiting the interior of the works, except the Mayor, Councilmen and such persons as they may introduce—thus excluding loungers entirely from the establishment.

Mr. Verbeke called the attention of Council to the subject of forestalling in the market, and hoped that some plan would be adopted to effectually break it up. If it was not the market-master's duty to prevent it, or his other duties interfered, Mr. Verbeke was in favor of appointing a special officer to give forestalling his undivided attention. A special committee was appointed to confer with the market-master.

On motion, adjourned.

THE GOLD DOLLARS.—The Associated Press agents telegraph from Washington as follows: "As much has recently been said in public papers of the re-coining of gold dollars into pieces of larger denominations, it may be stated that orders for that purpose had been issued by the Treasury Department on two special occasions only, and then on representation that the smaller coins occasioned much inconvenience in the receipts and disbursements; for no sooner are they paid out than they are again returned in business transactions, there appearing to be a redundancy of them among commercial classes. The assistant treasurer at New York was, for the greater facility in counting, authorized to have about two millions of them re-coined, and the assistant treasurer at St. Louis voted of one hundred and fifty thousand for similar reasons. This re-coining, however, applies to the original or earlier issues, which, it is known, are smaller in circumference and thicker than the later and superior coin. Of the former there are now nine millions, and of the latter six millions in circulation. While the gold dollars are a great convenience in small, it is considered that there is a redundancy of them for large transactions, and hence the recent special orders in relation to the new coinage. There does not seem to be any purpose so to reduce the amount of this description of dollar as to inconvenience the public.

CATAMOUNT SHOT.—Mr. George Walk, residing at the water station on the railroad, about a mile from Wrightsville, shot a very large sized wild cat on the river hills, near the "Roundtop," on Thursday evening last. The animal was chased up and treed by Mr. W.'s dog, and was killed by a discharge from a shot gun, five shot finding their way to its heart. This is rather unusual game for that region.

TESTING HOWITZERS.—The Velocity of Cannon Balls.—On Friday last, says the Pittsburgh Dispatch, a large number of cannon, cast at the Fort Pitt Works, previous to the destruction of the old works by fire, were proved under the inspection of Lieutenant Boggs, at the new proving ground, on the right bank of the Allegheny river, nearly opposite Tarentum. Twenty-one of the guns were 24 pr. howitzers, carrying a six-inch ball, and eight 52 columbiads, and all stood the test of firing as completely as that of measurement. Some curious illustrations of the force and rapid flight of the balls were observed in the firing. Two of the balls, ranging rather low, passed through a "worm fence," one of them cut out its width from the rail next the top, without moving it from its place, although more kept in position by the ends of two adjoining rails, and the other sheared off the end of a rail, dropping it without lifting it out of place.—One of the howitzers was fired at a large sycamore tree, and it was supposed that the shot had missed as the tree gave no indication of being hit. It was afterwards brought down by training two of the 54 pounders on it at the same time, when it was found that the six-inch ball, fired with the light gun charge, had passed entirely through the tree, and knocked down another small tree in range at some distance back. One of the 64 pound (eight-inch) balls had also passed right through the center of the tree, and the other cut out its width on one side. According to the experiments of Dr. Hutton, the flight of a cannon ball is 6,700 feet in one-quarter of a minute, or three hundred miles per hour. It follows, therefore, that a railroad train, going at the rate of seventy-five miles an hour, has a velocity one-fourth that of a cannon ball.

PITTSBURGH COUNCILMEN SENTENCES.—On Thursday morning, the recalcitrant Councilmen of Pittsburgh, against whom attachments were issued for not assessing a tax to meet the interest due on certain of the railroad bonds of that city, were before the Supreme Court sitting in that city. The return of the writs were read, and after much conversation between counsel as to the sufficiency of the return, the Court retired for consultation, and after an absence of half an hour, the Judges returned, when, through Judge Lowrie, the Court made the following decision:—J. Ross, J. Dain, A. Thayer, C. Bourman, E. J. Miller, W. Bailey, J. Rees, T. Robbins, W. W. Mills and W. H. Lutton were sentenced to pay a fine of \$5 each and costs. J. Tomer, R. Thompson, S. Morrow, J. Quinn, W. J. Taylor, A. B. Hayden, J. Duncan and J. Lang were ordered to pay \$25 each and the costs; and A. G. McCandless, Captain Ward, G. Hill and W. Rowbottom \$50 each and the costs. The parties then left for the Sheriff's office, where the fines were paid, and so ended the mandamus cases. This, we suppose, may be taken as the establishment of the fact that the authorities of municipal corporations have the right to contract debts binding on the persons and property of tax payers, and that the courts can enforce the levying and collection of such necessary taxes as are required to pay the interest and principal of all such liabilities.

TERRAPIN OF LIFE IN THE TERRAPIN.—A singular fact came under our observation on Saturday last, which goes to prove the remarkable fact that a terrapin can live longer than any other living creature, without food or water. Early in the spring Major John Brady purchased a dozen terrapins, used seven of them at his hotel, and placed the other five in a box, with the intention of taking them to Loretto in the summer. The box was placed in the back yard, and the terrapins were entirely forgotten until Friday evening last, when the box was opened and they were all found alive and in as good condition as when placed in the box. For a period of five months they had no food and no water, except the little that found its way through the holes of the box when it rained.

It would be an interesting experiment in natural history to pen up a terrapin and see how long it actually could live on the recollection of what it did eat when at liberty. We think this throws the fabled idea of the bear sucking his paw during the winter entirely in the shade.

RAILROAD DECISIONS.—The District Court in Cincinnati, on the 14th ult., decided two railroad suits, on appeals from the Courts below. The first was the case of Mr. Herron against the Indianapolis and Cincinnati Company, in which a judgment had been rendered in the Common Pleas for the plaintiff for the value of a horse, which was killed on the road, near Sedamsville. The judgment was reversed by the District Court, on the ground that there was no testimony showing the negligence of the defendant, the horse having strayed upon the track at the crossing.

The second case was that of a passenger against the Little Miami Railroad Company for the value of a trunk lost, which was checked at Baltimore for Cincinnati. The Court held that the check and purchase of the ticket was sufficient evidence of the contract that the baggage should be safely delivered at the depot in Cincinnati. Defendants held to be liable.

AN EXCELLENT JOB.—The galvanized iron cornice now being put on the new Court House, by Mr. B. J. Harris, is handsome, durable, and decidedly one of the finest features about the building. Galvanized iron is coming extensively into use for building purposes, and as it never corrodes or warps out, it must prove cheaper in the end than any other material used where it could be substituted. Mr. Harris is the agent for it in this city, and is prepared to put up cornices, or apply to any other purpose for which it is adapted.

PARDONED BY THE GOVERNOR.—Lawrence Hechinger, who was sent to prison at the August Court in Berks county, for six months, for keeping a gambling house, has been pardoned by the Governor. On the trial of the case, it appeared that on one occasion Hechinger permitted a party to play cards, and that the loser paid for the larger. A good many people considered the sentence too severe, and a petition for his pardon was forwarded to the Governor, signed by many citizens, and likewise by almost every member of the bar—hence the pardon.

DAVID HAYNES, Pres't

H. K. PARSONS, Sec'y.

NEW GOODS! NEW GOODS!—Having returned from New York, I have received now a large lot of goods, all of which I bought at auction. One hundred pieces of beautiful Set Flower De Laines, the best quality, which generally sells for 25 cents, at 20 cents; 50 pieces Unbleached Muslin, the best in town, at 10 cents; 150 pieces of Cassinette, Satinets and Cassimeres, from 25 cents up to \$1.25 a yard; 25 pieces of White Flannel, cotton mixed, at 15 cents; 25 dozen of White Merino Stockings at a pair; 50 dozen Gent's Wool Socks, 20 cents a pair; 10 dozen Gent's All- linen Pocket Handkerchiefs with Colored Borders, very fine, 31 cents; good Marino Undershirts and Drawers, at 65 cents and 75 cents a piece. A lot of beautiful Traveling Baskets. Best Calicoes, 10 cents, warranted fast colors.

Please call at Law's, at the old stand of John Rhoads, Esq., deceased.

For Sale & To Rent.

RARE CHANCE FOR INVESTMENT.

SALE OF VALUABLE HOTEL PROPERTY IN THE CITY OF HARRISBURG. That well-known and valuable hotel property known as the "SUSQUEHANNA HOUSE," now in the occupancy of Wm. Moeherman, situate on the east end of Market street, and immediately opposite the Pennsylvania Railroad Depot, will be offered at PRIVATE SALE until the 4th of December next, and if not sold before that time, will be put up at Public Auction on that day.

This is the most desirable property in the city of Harrisburg for hotel business. Its proximity to the Pennsylvania Railroad Depot, and the depot of all the railroads centering at Harrisburg, makes it more convenient and accessible to the traveling public than any other hotel in the city.

Further information in regard to this property and as to the terms of sale, may be had by applying to W. H. MILLER, Auctioneer at Law, North corner Market Square, (Weyler's Building) second story front.

NOTICE TO SPECULATORS! VALUABLE BUILDING LOTS FOR SALE! A number of large size BUILDING LOTS, adjoining the Round House and Work Shops of the Pennsylvania Railroad Company, will be sold low and on reasonable terms. Apply to a223-46m JOHN W. HALL.

NOTICE.—A parochial residence being about to be erected with St. Patrick's Church, the Rev. R. Mather offers for sale the place wherein he resides. Application to Rev. P. MAHER or Major BRADY, May 3, 1860.—my4-4t

FOR RENT.—A Commodious Two-Story DWELLING HOUSE, (in Second street, below Pine) with white Hall, large Back Building, Marble Mantels in Parlors, Gas in all Rooms, all the rooms just papered and painted. The second story divided into seven rooms, one of which is a Bath. This, in connection with the fact that the house has just been placed in the most thorough repair, makes it one of the most desirable houses in the city. Enquire of E. M. POLLOCK, 421 1/2 Market Square, Harrisburg.

FOR SALE.—A Vacant Lot of Ground, situated in the borough of Harrisburg, adjoining the corner lot of other owners of Second and State streets. The lot has a front of 66 feet. For particulars enquire of [Jan20-4t] E. O. WILLIAMS.

FOR RENT.—TWO BRICK TWO-STORY HOUSES on Pine street, between Second and Third; also, Mrs. Cline's COTTAGE and several FRAME HOUSES. Enquire of MRS. MURRAY, [Jan11-4t] Corner of Second and Pine streets.

FOR SALE.—One Teamster's Wagon, two Coal Carts, one large Cart, suitable for farming purposes. Apply to my15 JAMES M. WHEELER.

Medical.

MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP, FOR CHILDREN TEETHING. which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is SURE TO BRING DOWN THE TEETH IN A FEW DAYS. It gives rest to yourselves, and relief and health to your INFANTS.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity and gives tone and energy to the whole system. It will be most instantly relieved.

GRIPING IN THE BOWELS, AND WIND COLIC, and overcome constipation, which, if not speedily remedied, leads to the most dangerous and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHAE IN CHILDREN, whether it is from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PRESENT SUFFERING, AND THE FUTURE SUFFERING OF YOUR CHILD, between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine. Full directions are given on the face of each bottle. None genuine unless the name of CURTIS & PERKINS, New York, is on the outside wrapper.

It is the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS IN

HUNDREDS OF CASES. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity and gives tone and energy to the whole system. It will be most instantly relieved.

HUNDREDS OF CASES. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity and gives tone and energy to the whole system. It will be most instantly relieved.

GRIPING IN THE BOWELS, AND WIND COLIC, and overcome constipation, which, if not speedily remedied, leads to the most dangerous and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHAE IN CHILDREN, whether it is from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PRESENT SUFFERING, AND THE FUTURE SUFFERING OF YOUR CHILD, between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine. Full directions are given on the face of each bottle. None genuine unless the name of CURTIS & PERKINS, New York, is on the outside wrapper.

It is the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS IN

HUNDREDS OF CASES. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity and gives tone and energy to the whole system. It will be most instantly relieved.

GRIPING IN THE BOWELS, AND WIND COLIC, and overcome constipation, which, if not speedily remedied, leads to the most dangerous and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHAE IN CHILDREN, whether it
