

O. BARRETT & THOMAS C. MACDOWELL, Publishers and Proprietors.

Communications will not be published in the PATRIOT AND UNION unless accompanied with the name of the author.

S. M. PETTINGILL & CO., Advertising Agents, 119 Nassau street, New York, and 10 State street, Boston, are the Agents for the PATRIOT AND UNION, and the most influential and largest-circulating newspapers in the United States and Canada.

FOR SALE. A second-hand Adams Press, platform 20x by 26 inches, in good order; can be worked either by hand or steam power. Terms moderate. Inquire at this office.

The Senatorial Fight.

The contest for United States Senator in this State is beginning to assume form and proportions; and from this time until the day of election we may expect to witness an animated canvass for the tempting prize. The last number of Mr. Wilmore's home organ is out in an article advocating his election. It also publishes extracts from other Republican papers favorable to the elevation of the immortal author of the Proviso.

His claims are set forth in tempting array. It is urged in his behalf that he represents prominently the "great principle" which has triumphed in the election of LINCOLN; that he is identified with the struggles and toil that have finally struck down "the domination and insolence of the Slave Power"; that neither the ties of party or the seductions of power and place have caused him to "swerve one iota from the plain path of duty," and that, in short, he is tired of doing duty as a disinterested patriot, and thinks it about time that years of incessant and persevering labor should be adequately rewarded.

Mr. Wilmore has our very deepest sympathy. He really deserves something. He was an advocate of free-soil principles when his rivals were ridiculing him and them; and now that he has brought the whole Opposition party into his platform, common gratitude demands that he should not be thrown overboard in the hour of their triumph. But parties are proverbially ungrateful. Mr. Wilmore may find in his sorrow his very radicalism fatal to his hopes.

And then his Democratic antecedents, in connection with that unfortunate vote for the repeal of the Tariff of 1842, are damaging to his prospects. Old Democrats were quite at a premium with the Republicans for awhile; but now the old Whigs are looking out for their share of profit and honor. Did not Col. Conroy tell the Republicans of Boston to elect men of Whig antecedents to Congress? Think of that, Mr. Wilmore, and tremble.

Furthermore, THOMAS STEVENS, JAMES POLLOCK, A. K. M'CLURE and other old liners have each expressed the opinion to his confidential friends that he is admirably adapted to represent the State of Pennsylvania in the U. S. Senate. These confidential friends have mentioned the matter to other confidential friends, and in this way the public have discovered the very excited opinion that Messrs. STEVENS, POLLOCK and M'CLURE each entertains of himself; which is all right and proper, but not at all calculated to promote the prospects of DAVID WILMORE. But we would not discourage David. Let him persevere, and there is no telling who may carry off the prize. The only sentiment we have to express regarding the great senatorial prize fight is—"may the best man win."

Modified Rejoicings. The jubilant feelings usually attendant upon a political triumph, especially such as has lately been achieved by the Republicans, are ordinarily quite demonstrative and hilarious. A political party which has, at the termination of a great struggle, succeeded in obtaining power, can hardly be expected to restrain the exultant voice of triumph, or to abstain from those outward demonstrations of joy which victory is calculated to inspire.

Of this disposition to celebrate the success of a party which has by the tide of events come into the line of promotion, we have no reason to complain. It has been the course of all political parties, in all countries, so far as we know their history; and under ordinary circumstances, we see no reason why the Republican party in the United States should form an exception to this universal practice.

Circumstances have, however, arisen, says the Journal of Commerce, which seem likely to deprive, and which, in fact, have deprived that party of half the joy which they fancied was in store for them. To say nothing of the meagre character of their victory, and the fact that the Union men have nearly as much reason to celebrate their triumph in electing a majority of the House of Representatives, and thus securing a guarantee against Republican aggression; to ignore altogether the mortifying defeats of Burlingame, Pennington, and other representative men, upon whom their highest hopes were centered; over-looking all these drawbacks upon Republican rejoicings, there is one powerful obstacle to the expressions of delight which would otherwise have made the cities and villages of the North vocal with the notes of victory.

was attended by a catastrophe which was ludicrous only because a good providence prevented it from being fatal, and now such a thing as a Republican demonstration of joy, over their victory, is nowhere spoken of.

Such is the brief and sad record of the triumph of a political party in a national election. They have succeeded in electing their Presidential candidate, only to create the most serious apprehensions for the fate of the country. Their visions of power and official emolument vanish, as it becomes fearfully evident that to enjoy them without the dismemberment of the Confederacy involves an abandonment of the ultra dogmas of their party, and a surrender of their most cherished notions of political faith. Theirs is a modified joy, which, when analyzed, proves to be but a single remove from actual grief. They are entitled to respect for thus regarding the mournful occasion.

ESCAPE OF AN ALLEGED SLAYER.—She Gets to Sea Without Interference.—A bark bearing the name of the Rondell, had been up to Wednesday last week, sitting out during several weeks, off Barnard's Castle, ostensibly for a whaling voyage. Some of her movements not being exactly compatible with the idea the residents of that section of the sound entertained of an honest commercial outfit, suspicion was excited, which grew into almost downright certainty, when some old sailors in the neighborhood reported that the lower tiers of the hold of the vessel were supplied with a number of well filled water casks. Late upon the night in question she got under weigh from Spring harbor, Long Island, and came to anchor in the open sound, where, we are informed, a steam tug stood in readiness to take her out when she should be prepared, and also that tug carried her supplies to her, at this anchorage ground, during the whole of the night. This choice of difficult procedure, in the minds of those residing on shore, placed suspicion beyond a doubt. Taking advantage of the darkest hours of morning, she is supposed to have put to sea, for when daylight broke the Rondell was among the mist.

The above is taken from the New York World of Tuesday. We find the following account of the seizure of another vessel of the class in that port in the Post of Tuesday evening. The schooner William L. Cogswell, hauled from pier 5, North river, and anchored below Bedloe's Island, on yesterday; suspicion being entertained that she was about to be engaged in the slave trade, she was last night seized by Surveyor Hart, and was taken by a crew from the revenue cutter Harriet Lane, to the Atlantic docks, where her cargo will be overhauled.

The schooner was fitted out for the West coast of Africa, and the examination of her lading will undoubtedly prove that she was fitted out at this port expressly for a slave cargo.

THE IRON MOUNTAIN.—One of the Philadelphia Board of Trade Excursionists, who, in company with a large delegation, is prospecting through the West with a view of drawing business to the Quaker City, gives the following description of the Iron Mountain, Mo: "One of the greatest curiosities of the State is indeed, almost ranking with Niagara and the Mammoth Cave, for unique interest—is the Iron Mountain, which some of our party visited. It is eighty-six miles from St. Louis, reached by a railroad, and is owned by the owners of land, or rather metal, but destined to be extended to Memphis. The chief formations are the Iron Mountain proper and the Pilot Knob. The former is a vast mass of specular oxide, its height above the valley being two hundred and twenty-eight feet, and at its base covering an area of five hundred acres, which give 230,375,000 lbs. of ore. But besides the parts above mentioned, there are one hundred and fifty feet, the ore is found still to continue, and how much deeper is not known.

On the supposition that the size is the same every foot of descent gives 3,000,000 tons of ore. The shape of this mountain is the upper half of an oblate spheroid. Its ore contains 68 per cent. of pure metal. There are three furnaces at the foot of the mountain, but only one now in operation. Pilot Knob, about 8 miles from the Iron Mountain, is 581 feet high, ascending conically to nearly a perfect apex. Its height is 581 feet, and it covers an area of 300 acres. The amount above the surface is calculated at 13,973,773 tons. There is no ore on the surface at the base, but about half way up the inclined plane it is blasted and quarried like granite. It is silicious specular oxide, and contains 54 per cent. of pure metal. The party was vividly impressed with the wondrous extent and value of this great metallic deposit, which would be even more an ignominious mine of wealth than is the case now; if coal were near at hand. Unfortunately, either the ore must be conveyed to the coal or vice versa.

A POLITICAL RIOTER WITH A SWORD BLADE IN HIS BACK.—During the election riot at Illinois, Ill., a man named John Denoar was stabbed in the back with a sword cane. The weapon was driven in about midway of the spinal column, and then broken off within about two inches of the body. It was found impossible to extract the weapon, and Denoar was conveyed from Illinois to the Health Office. A physician was called in, and endeavored to pull out the weapon with a small pair of forceps or pinners. He applied the pinners some half a dozen times and pulled with all the strength he could command, but so firmly was the steel transfixed in the bone that the pinners invariably slipped off, and the "claws" finally became injured in such a manner that the pinners were rendered useless.

The Doctor endeavored to loosen the weapon in a variety of ways, but to no purpose. It had been driven in with so much force that it was even more strongly transfixed in the bone than a nail driven into a stick of wood. Dr. Smith finally procured a pair of shoemaker's nippers and made another effort. After one or two trials he succeeded in securing a good purchase upon the weapon and extracted it. It measured in all five inches—three inches of which had penetrated the spinal column, and there remained firmly imbedded for twelve or fourteen hours.

OIL IN WESTERN VIRGINIA.—Astonishing Discoveries.—The Clark county, Virginia, Journal contains a letter from Wirt Court House, which gives an account of the extraordinary discoveries of oil now being made in Western Virginia. He gives some instances as follows: Mr. Karns leased a piece of ground (two acres) from Mr. Ratbone, only six miles above mine, for twenty years, and at the depth of 150 feet reached a vein of oil which yields fifteen barrels, of thirty gallons each, per day, worth at the lowest price, twenty-five cents per gallon, and for which lease of two acres he (Mr. K.) has been offered \$70,000. This well has been in operation, without any decrease in quantity, for over three months. Mr. Ratbone, after he saw the success of Mr. Karns' well, sank one himself below Karns' on the river, and I was there the evening he commenced at six o'clock, p. m., and pumped until six o'clock a. m., just twelve hours, and filled a cistern containing 130 barrels, of 40 gallons each—that is to say, 5,200 gallons of pure oil, worth twenty-five cents per gallon. Ratbone's well still continued to pour out the same quantity of oil up to last night, but they had to stop the pump for want of cisterns and barrels; and Mr. Karns told him that I had the best and surest prospect of oil, next to Ratbone's, on the river.

The New York Seventh Regiment have established a gymnasium, the finest in the city, at a cost of \$20,000.

GENERAL NEWS.

BRUTAL MURDER OF A FARMER AT NEW LOTS, L. I.—On Tuesday morning, Theodore Colyer, a farmer living at New Lots, Long Island, N. Y., was found murdered in his barn. It appears he was, the night previous, in a store, where he exhibited a sum of money, in the presence of two strangers, who subsequently followed him to his barn, near his dwelling, where he murdered him, and robbed him of from \$125 to \$200, and his gold watch. The skull of the deceased was literally split in two, and the blood scattered over the floor. It is supposed that he offered some resistance, as a straw cutter was found lying near at hand, covered with blood, and this could not have been the weapon used by the murderers, as the nature of the wounds show that they were inflicted with an axe, or some other heavy, blunt instrument. The police are on the tracks of the murderers.

FURTHER FROM MEXICO.—Terrible Slaughter. A private letter from the highest authority at Vera Cruz confirms the accounts we have already published of the massacre at Guadaluajara. Among other things, it is said that a mine was sprung upon the liberals, in their assault upon the city, and five hundred of their number were instantly killed. So far, however, from arresting their progress, this only infuriated them the more, and forcing their way in by six different breaches at the same time, they slaughtered the enemy at their works, and slaughtered all who stood in their way. The execution of the opposing general, Castillo and his officers, is doubtless to be attributed to this infuriated spirit.—N. O. Picayune.

QUEEN VICTORIA'S HEALTH.—Queen Victoria's departure from Brussels, on her return to England, was delayed for two days by a cold which she caught in Germany. It is a striking proof of the excellence of the constitution of Queen Victoria, and of her physical training and regularity of habit, that during the twenty-three years she has been on the British throne, she has never been confined to her room from sickness for a single day, excepting upon the occasions when she has succumbed to the number of the Guelph olive branches.

DEATH OF ONE OF THE FOUNDERS OF CINCINNATI.—Major Thomas M. Carnahan, late of Frankfort, Ky., died of dropsy on Saturday week, at the residence of Nicholas Longworth, Esq., of Cincinnati. He was one of the original proprietors of Cincinnati, and after the company laid out the city, sold out his interest to Bakewell, Page & Co., of Pittsburgh. In his various real estate operations he had amassed a handsome fortune. At the time of his death he was 86 years old.

HOW MR. FILLMORE VOTED.—The Buffalo Republican says: "On the morning of the election one of the first to offer his vote at the 9th ward polls was our respected townsman, ex-President Fillmore. In a dignified, manly, and frank manner, Millard Fillmore deposited his vote against sectionalism and for the straight Union electoral and State tickets. It was a vote he may well be proud of, and one that will add additional lustre to his national reputation."

TRAGEDY AT BARSTOWN, KY.—A Mr. Talbot, the keeper of a hotel at Barstown, Ky., was shot and killed by a young man named T. Hine Slaughter, about a year ago. Slaughter got a change of venue from Nelson to Bullitt county, and recently was admitted to the jury, refusing to agree upon a verdict. On Saturday last Mr. Talbot, a son of the murdered man, shot and killed Slaughter in the streets of Barstown as an act of revenge for the death of his father.

VENERABLE VOTERS.—Ebenzer Mower, who completed his one hundredth year in October last, voted in Worcester, Mass., on Tuesday. He has voted at every Presidential election, commencing with a vote for Washington in 1789. Ralph Farnham, the surviving hero of Bunker Hill, voted in Acton, Me., Tuesday. He expects to vote for two more Presidents at least. We hope his life may be prolonged a vote for half a dozen. He will then be 125 years old.—Boston Herald.

RAD FAILURE IN CONNECTICUT.—The Pacific Knitting Company, at Manchester, Conn., has failed, having not only sunk the entire capital of \$50,000, but drawing heavily on the personal property of the shareholders. This was not an incorporated company, and the shareholders are individually liable. They have within a few days past held a meeting and assessed themselves sixty per cent. on their shares to meet liabilities. The liabilities are about \$80,000.

POPULATION OF NEW YORK.—Increase of Nearly 200,000 Since 1855.—The census returns for the City of New York are all in, except for the Second ward, and one district in the Twenty-first ward. The totals make the present population 821,113, or 101,208 more than in 1855. This is rather short of the expectations of a great many who had put down the population of the city as at least \$50,000. The total in 1850 was 515,547.

DR. TRYG CENSURED.—The N. Y. Churchman, the organ of the High Church Episcopalians, has a severe article upon Rev. Dr. Tryg, for having assisted in laying the corner-stone of a Methodist chapel, and for having appeared in the pulpit of a Presbyterian Church as a participant in the proceedings of the Evangelical Alliance.

A NAIL IN THE BRAIN.—Geoffrey J. Levalle, who was shot in a fight with T. B. Kershaw, at Petersburg, Va., died on the 12th instant. The wound was inflicted on the 15th of October, and the nail was charged with a horse-shoe nail. The nail was found in his brain, where it had been for nearly a month.

AN OFFER DECLINED.—It is stated that Mr. Forrest has been tendered an offer of an engagement by Mr. Buckstone, of the Haymarket Theatre, London, for fifty or one hundred nights, commencing in the fall of 1861, but declines making any professional engagement for that city.

KANSAS SUFFERERS.—There was a large and spirited meeting at Providence, R. I., on Monday night, to adopt measures to relieve the people suffering from famine in Kansas. Governor Sprague presided. Several speeches were made, and a handsome sum was subscribed.

AN EFFORT IS BEING MADE TO RAISE \$7,000 TO MAKE THE CONNECTICUT NAVIGABLE TO HARTFORD. The old Union company, chartered to keep the river deep enough for trading vessels, has ceased to do anything except to take tolls, and the river has filled up mean while.

MURDER AND SUICIDE.—A few days ago, at New Orleans, a man named Martin Porter deliberately shot dead a courtesan named Emelie Scull, with whom he lived, and immediately after blew out his own brains. They were both recently from New York.

SWEET POTATOES GOING NORTH.—Eight hundred bushels of sweet potatoes were carried to New York on Saturday last, on the steamer Jamestown, and about four hundred barrels of the same vegetable left there on Monday on the steamer Knoske.

AUSTRIAN CRUELTY.—A Lombard friend of mine was sitting in one of our cafes, the other evening, when a young itinerant cantatrice entered, and regaled the company present with some vocal accompaniment of an asthmatic harp or carinated morceau from the Trovatore, to the usual accompaniment of an asthmatic harp or cracked guitar. Her song ended, she went round the circle, tin saucer in hand, collecting contributions, and as she stopped before my friend he recognized her somewhat worn but far from unattractive face as belonging to a countrywoman of his whom he had been in the habit of seeing and hearing some years back in the cafes of Mantua. "What brings you so far away from home?" said he; and added, jestingly, "Have the Austrians been too hard upon you, too?" The girl's countenance darkened over in a moment, and she turned away without a word, to one of the other tables, while another of the sitters remarked to my friend: "She was flogged, you know, at Mantua, by the Austrians;" and to a question on the subject put to her later, in all kindness and sympathy, by the former speaker, she replied, with bitter emphasis: "Ay, they did flog me, if you want to know. They gave me four-and-twenty lashes for no crime or sin; and after that Mantua was no home for me!"—Florence Correspondence of the Athenaeum.

FOREIGN IMMIGRATION TO VIRGINIA.—It is stated that a company has been formed in France, by Bellot des Minieres and others, with a capital of \$10,000,000, for the purpose of forwarding immigration to Virginia, and they have bought of James M. Bennett, Esq., and others, 70,000 acres (at \$1 per acre) in Gilmer and Calhoun counties, and intend to colonize it. The company (called Swiss) is heavily backed by capitalists.

ACCIDENT ON THE CAMDEN AND AMBOY RAILROAD.—On Tuesday morning the way train which left Bordentown for Philadelphia, was derailed by the track a mile and a half above Burlington, by the breaking of a truck under one of the cars. The three cars in the train were extensively jumbled up together, and they were badly smashed. By great good fortune none of the passengers were hurt. An engineer named Parsons sustained some slight injury.

I. O. F.—The Grand Lodge of the District of Columbia have elected the following officers for the ensuing year: George Browne, M. W. Grand Master; James Skirving, R. W. Deputy Grand Master; John H. Bartlett, R. W. Grand Warden; John T. Bangs, Grand Secretary; Martin Johnson, Grand Treasurer; James A. Brown, Grand Representative to Grand Lodge of the United States.

THE BUFFALO FIRE.—The remains of Mr. Carland and two female servants have been taken from the ruins of the Clarendon Hotel. Search for others has been discontinued, as no one else is missing. The full extent of the loss of life by this fire, as far as known, is four persons.

HEAVY VERDICT.—In the Superior Court of Boston, in the case of Joseph Bugbee vs. the Malden and Melrose Horse Railroad, the jury found for the plaintiff and assessed damages of \$5,500 for personal injuries sustained on the road by the plaintiff.

AN EDITOR INDICTED FOR HOMICIDE.—The grand jury of Campbell county, Va., have found a true bill against Geo. W. Harwick, editor of the Lynchburg Republican, for shooting and killing Joseph Patton, at Lynchburg, last June.

HOPS.—The value of the hop crop of the United States, this year is estimated at \$4,000,000—nearly all in Osego, Oneida, and Madison counties, N. Y.

The New York Commercial learns that two or three hundred colored families will remove from Baltimore to New Haven, Ct., in the coming spring.

The remains of Mrs. Lumsden, and adopted daughter, lost in the Lady Elgin, have been recovered, taken to New Orleans, and buried.

The subscription raised in France for the relief of the Syrian Christians amounts to 404,165 francs.

LATEST BY TELEGRAPH. The Steamer Canada at Boston. Boston, Nov. 15. The China advices received at London by the Overland Mail, are contained in papers furnished by the arrival of the Canada. The dates from Hong Kong are to Sept. 12. It is reported that Lord Elgin and Baron Gros had gone to Peking as guests of the Emperor, under a special escort of cavalry. The conquest of the Taku forts is described as a dashing affair. The allies were established at Ootang, and had to march twelve miles before they arrived at the objects of attack. They found the road fortified with mine, and other military preparations indicating unwonted skill. The allied army worked together harmoniously and with equal gallantry in the attack. The English troops captured the fort.

New Jersey. TRENTON, Nov. 15. The official vote of the State is now in. The following persons are chosen electors: William Coolidge, Joel Parker, Dem.; Theodore Runyon, Dem.; Joseph C. Hornblower, Rep.; Chas. E. Elmer, Rep.; Edward W. Irvin, Rep.; Isaac W. Scudder, Rep. The three Douglas Democrats are elected by between 2,000 and 4,000 majority. The straight Douglas ticket carried just enough votes from Vroom, Wurts, Condit and Brewer to defeat them. Brewer and Wurts are defeated by some 1,500, while the others lose it by from 100 to 300.

Financial Affairs in Baltimore. BALTIMORE, Nov. 15. There is a better feeling in commercial circles to-day. There was a moderate run on the Citizens' Bank, but all demands were promptly met, and the best informed express full confidence in the soundness of that institution. Many manufacturing establishments, clothiers, etc., have reduced the number of their employees, which affects severely the working classes, but it is hoped that confidence will soon be measurably restored, and the former activity in trade resumed.

Citizens' Bank of Baltimore. BALTIMORE, Nov. 15. A special correspondent of a Philadelphia paper is sending very exaggerated reports from this city. There was a slight demonstration made at the Citizens' Bank yesterday, but all demands were promptly met. Shares sold at a slight decline, but higher than two weeks since.

From Washington. WASHINGTON, November 15. A dispatch received at Charleston, from the Governor of Florida, states that Florida goes with South Carolina.

Monetary Affairs at Augusta. AUGUSTA, Ga., November 15. The brokers of this city by Kentucky and Tennessee Money at 5 per cent. discount, payable in Georgia and South Carolina money.

Virginia. ALEXANDRIA, Va., Nov. 15. The Gazette has returned from 147 counties, which give Bell 472 majority. The remaining counties gave Letcher 178 majority.

Georgia. The popular vote of Georgia exhibits the fact that their was a majority of 2,000 votes cast against Breckinridge.

Death of a New York Canal Commissioner. UTICA, N. Y., Nov. 15. Saml. H. Barnes, the Canal Commissioner elect, died of Erysipelas at Norwich last night.

Sailing of the Steamer Hammonia. NEW YORK, Nov. 15. The Steamship Hammonia sailed at noon to-day, for Hamburg, with \$45,000 in specie and 117 passengers.

SPECIAL NOTICES.

MRS. WINSLOW. An experienced nurse and physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation, and allaying all pain, and is sure to relieve the bowels. Depend upon it mothers, when you rest to yourselves, and relief and health to your infants. Perseverance in all cases. See advertisement in another column. Sent by mail, 25 cents per bottle. No. 126 Broadway, New York.

THE GREAT ENGLISH REMEDY.—Sir James Clark's Celebrated Female Pills, prepared from a prescription of Sir J. Clark, M. D., Physician Extraordinary to the Queen. This invaluable medicine is useful in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a specific remedy can be relied on. TO MARRIED LADIES. It is peculiarly suited. It will in a short time bring on the monthly period, and will regulate the system. Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits. THESE PILLS SHOULD NOT BE TAKEN BY FEMALES DURING THE FIRST THREE MONTHS OF PREGNANCY, BUT AT ANY OTHER TIME THEY ARE SAFE. In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Stiffness on slight exertion, Prolapsion of the Heart, Hysterics and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution. Full directions in the pamphlet around each package, which should be carefully preserved. N. B.—\$1.00 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle, containing over 50 pills, by return mail. For sale by G. A. BANNVART, Harrisburg. j7-dawly

IMPORTANT TO FEMALES. DR. CHEESEMAN'S PILLS. The combination of ingredients in these Pills are the result of a long and successful practice. They are mild in their operation, and certain in correcting all irregularities, painful menstruation, removing all obstructions, whether from the bowels, or other parts, and in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from interruption of nature. DR. CHEESEMAN'S PILLS was the commencement of a new era in the treatment of those irregularities and obstructions which have been so long and so generally considered incurable, and the beloved to the young, the beautiful, and the beloved to the premature grave. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline. DR. CHEESEMAN'S PILLS are the most effectual remedy ever known for all complaints peculiar to the female sex. To classes which are unreliable, inducing, with certainty, periodical regularity. They are known to thousands, who have used them at different periods, throughout the country, and are mild in their operation, and certain in correcting all irregularities, painful menstruation, removing all obstructions, whether from the bowels, or other parts, and in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from interruption of nature.
