TO AGRICULTURISTS.

LIME AS A MANURE.—The application of lime to the soil as a medus of enrichment, has been practiced in all well cultivated countries, at every period of authentic history. The axiom, for a long time received by some as the quintessence of wisdom-"That lime enriches the father, but impoverishes the son," embodies an error that has been, and still is productive of. much harm. It is true that the wonderful fertility it produces, when applied in liberal quantities, and for several years in succession, ultimately fall off; yet this is no evidence that it must impoverish the land, as a natural and inevitable result. The same observation or "maxim" will be found equally applicable to gypsum, saltpetre, nitrate of soda and common salt, all of which are recognized as invaluable fertilizers, and capable of augmenting the productiveness of any soil to which they are judi-ciously and systematically applied. When, however, they are used liberally for a certain number of years, the land has been afterwards found to be weaker and less productive than before. It will require nearly four hundred bushels of lime to the acre, to add one per cent. to the soil. Most crops take not less than ten substances, one of which is lime, and if this be lacking—though the other nine constituents or elements may be in excess—the crop will not be perfect. By adding lime, a luxuriant growth is secured; the application is repeated, but after a few years the crops fail-there is a diminution of product, no profit is realized, and

the farmer in despair. One would suppose that a very slight degree of reflection would be sufficient to satisfy him of the cause. While he has been liberal in his applications of a material that supplies one ingredient, he has neglected the other nine, and, as a natural consequence, the soil has grown poor, and can no longer produce a remunerating crop. Allow me an illustration.

The iron smelter fills his furnaces with iron ore and coal;—he applies fire but obtains no iren till he throws in lime. He adds this, and obtains a flow of metal. The dose is repeated and another flow follows; but in time this is discontinued, and to obtain more metal he is compelled to put in more ore and coal; then the lime produces its legitimate effects. So in the use of lime in agriculture. If we supply only lime, we shall certainly reap poor crops: but if, along with it, we furnish a supply of matters rich in the other ingredients of vegetation, we shall produce the advantageous effects resulting from the first application. Lime must have something to work on, and with; it must be applied in conjunction with humus, or so soils in which humus already exists, or its application will be of no avail. The man who expects to reclaim a sterile soil by liming only,

for his pains. According to Spungel's analysis, the quantity of lime and magnesia, in the several crops named, is as follows:

need not be surprised if he has only his labor

Magnesia Whest.... Barley.....Oats Wheat straw
Barley straw
Oat straw
Red Clover Turnipa....

An able author, in some remarks on this subject, says:

"Much labor has been exhausted in trying to ascertain the best method to enrich the ground to receive the seed, so as to produce the best crops. After using the various kinds of dressing that have been discovered, none have proved better than lime, when used on land where corn is planted. Lime has, in itself, many valuable properties. It gives a suitable degree of heat to cause immediate vegetation. It guards it from worms, insects and animals that often destroy one-half of the first planting; it causes an early and rapid growth, that ripens the grain before the frost appears. When lime is used for other kinds of grain, it has the same effect upon corn; it has also the valuable quality of guarding it against mildew. No grain sown on land so prepared, will suffer from this great evil by which so many valuable fields have been destroyed."

The best method of using lime is to mix it with old barn manure, in the proportion of oneeighth lime, and to place it immediately in the hole with the corn. When used for other kinds of grain it should be spread on the top of the ground after it is plowed, and harrowed in with the grain. No one can fully estimate the value of lime for this purpose, unless they try the experiment. The average difference in a crop is from one-third to one-half more by using lime. It is also almost the only sure prevention of vermin on fruit trees in this section of the country. Lime placed about the body of the tree early in spring will prevent their in-crease. Slacked lime, mixed with soap and water, used as wash on the parts of the tree where these insects have deposited their eggs, will destroy them entirely. This has been proved by the writer.

In many parts of England they estimate the value of their land in some proportion to the nearness of access to the lime-kilns, on account of its valuable properties when used for dressing. Farmers should give more of their attention to this subject, and use lime more liberally where the soil is not calcareous. - Germantow

TANKS FOR LIQUID MANURE.-The tank should be built of solid masonry, either rubble or well burned brick laid in the best mortar, and well packed between the walls and back and underneath with dry brick clay; the bottom should be flagged or laid with brick. If the soil is wet, it must be comparatively shallow, unless good drains be laid outside it to intercept and carry off the water; if dry, the tank may be made comparatively deep; the shape must be governed by the site, and may be either round or oblong, more or less wide, and in length according to requirements. It should be arched overhead to keep out rain or other water. The capacity of a tank for 30 cows and 60 pigs depends on the periods it is intended to empty them; about a month is necessary for the contents to forment and ripen. A tank to contain the quantity of urine voided by the above animals for one month should contain about 1,000 cubical feet, but to effect your object in the best manner there should be a system of at least three such tanks, viz., one ripened and using, one filled and ripening, the other filling .- Irish Farmer's Gazette.

GAS LIME AS A MANURE .- At the meeting of the North Lancaster Agricultural Society, the application of gas lime was entered fully upon by several farmers present at a discussion on manures. Nearly all of these spoke highly of the benefits which had resulted from its application, when applied at the rate of 9 to 10 tons, The evidence of Mr. Baxter was most conclusive as to the benefits from gas lime to pasture lands and meadows. We may mention that we have seen lands which have been dressed with gas lime some years ago, and the crops were better than those on the surrounding farms, but whether this was the result of the application of gas lime, or whether the outlay on other manures had been greater, we did not ascertain -very probably, both causes were in operation.-North British Agriculturist.

KANSAS FOR SHEEP .- Gov. Medary, of Kansas, has written an article for the Ohio Cultivator, from which we copy the following:-"In my travels through the territory. I have pursuaded myself that Kansas is the best sheep and wool growing country in the Union, Texas not excepted. I have examined the country south and west, and have got myself into quite a fever on the subject. Extraordinary as has been our drought, I have not seen a spot on high or low lands, nor upon broken hill points. where sheep could not live and fatten Is there any other soil in North America that can show such a tenacity for moisture? I think not."

AUTUMN APPLICATION OF MANURE. -- If farmyard manure is to be applied in autumn it should de carted out on the land, and immediately spread. It may lie so exposed for weeks. It is believed by the growers of potatoes that when the farmyard manure is applied at this season there are fewer diseased tubers, with less liability to check in the growth of the crop, than when this manure is applied at the period the potato sets are planted. Swedish turnips are also believed to grow more freely when the land is manured in autumn-a portion of portable manures being applied when the seed is sown.—*English påper.*

A LABOR CALL.—The N. E. Farmer informs us, that Mr. Benjamin R. Wilson, of Bristol, R. L. has a bull calf born on the 8th of April, which now weighs nearly 800 lbs. At the age of four months it weighed 600 lbs.; at five months 505; at six months 705 lbs. It is half Devonshire and half Durham, is of a dark red color, well proportioned, and in every way a very splendid animal.

THE RED SPIDER. -The Michigan Farmer publishes the following receipt, discovered by Dr. A. Bush, of Detroit: twelve ounces common soft soap : three ounces (by measure) turpentine or campline, mix well together. This is for six gallons of water, which must be stirred well together, and applied with a commen garden syringe, or the same proportion for any quantity.

Miscellaneous.

THE AMALGAMATION OF LANGUAGES .-- There is a growing endency in this age to appropriate the most expressive words of other languages, and niter a while to interperate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming populatized in cinnection with Mr. Spaiding's great Headsche remedy, but it will soon be used in a more general way, and the word Cephali, will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native a to the manor born."

'ardly Realized.

Hi 'asi 'n 'crrible 'eadache this batternoon, hand I stepped nto the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache?'? "Does it hache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'oner it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

ILI HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases. among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Arzemia and plethora are also affections which frequently occasion headache.-Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a State of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes proveking vomiting; under this class may also be named Neuralgia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the merring index.

BRIDGET —Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills—but I'm thinking that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before.

Druggist — You must mean Spalding's Cephalic Pills.

Bridget.—Oak! sure now and you've sed it. here's the

Bridget.—Och! sure now and you're sed it, bere's the quarther and giv me the Pills and dont be all day about it aither.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiyeness. Often originating in carelesaness or sedentary habits; it is regarded as a slight disorder of too little consequence to Often originating in carelesaness or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the uniferr to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of 1 ke nature. While a long train of fr ghtful diseases such as Malignant Fevers, Abcesses, Dysentery, Diarrheea, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melaucholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician—Well. Mrs. Jones. how is that headache? Mrs. Jones—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggists. Call, for Caphalic Pills, I flud they never fail, and I recommend

them in all cases of Headache

Mrs. Jones —I shall send for a box directly, and shall
tell all my suffering friends, for they are a real blessing.

TWENTY MILLIONS OF DOLLARS SAVED .- Mr. Spalding has sold two millions of bottles of his celebrated Prepared has soid two millions of bottles has centrated the hard city of the and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from to 'al loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

ILF OVER EXCITEMENT, and the mental care and anxiety ILF OVER EXCITEMENT, and the mental care and anxiety incident to the close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition.—
Suderers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING —Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cophutic Pill for relief of Headache, and the use of Quinine for the prevantion of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

IF Din you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food? How totally unfit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

conalic A. Cure cure cure NervousHeadache Au kinds of Headache.

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained. They seldom fail in removing the Nausea and Head-

ache to which females are so subject. They act gently upon the bowels, - removing Costive-

For Literary Men, Students, Delicate Females, and all persons of sedentary habits, they are valuable as a Laxative, improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any 'disagreeable taste renders it easy to administer them to

might be given from Indies and genflemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec. 21, 1858.

PROF. WOOD: Thee wilt please accept a line to inform thee that the hair on my head fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short; it is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee woulds not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those who are kind to the wildow and fatherless."

Thy friend.

Luosier, Noble Co., Indiana, Feb. 5, 1859.

PROF. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances we

ause of the change in my appearance, as my more inti

cause of the charge in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was preducing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can buy.

ouy. As a mark of my gratitude for your labor and skill in As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recom-mended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect. Very respectfully, yours, A. M. LATTA, Attorney and Counsellor at Law. Depot 444 Broadway, and sold by all dealers through-out the world.

Medical

As apertent and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Anthorities, both in Europe and the United States, and prescribed in their prescribed.

practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every

conceivable case.

Innuxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following omplaints, viz: In Debility, Nervous Affections, Enaciation, Dys-IN DEBILITY, NERVOES REFERENCE, DESCRIPTIONS, EACHTONS, DESPETABLE, CONSTIPATION, DIARRHOGA, DESCRIBER, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, LIVER COMPLAINTS, CHRONIC HEADACHES, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &C.

In cases of General Debility, whether the result of the continued diministion of persons

acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description or written attestation would render credible.

this restorative has proved successful to an extent which no description or written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaclated victims of apparent manssmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nexvous Affactions of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or indicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanenta remedy for Piles, upon which it also appears to exert a distinct and specification by dispersive the least tendency which forms them

so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action. by dispersing the local tendency which forms them. In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costineness. In unchecked Diarrhese, even when advanced to Dysen Tery, confirmed, emaciating, and apparently malignant the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incirents and physicians, in several very gratifying and interesting instances.

nteresting instances. In ScroyuLous Tuberculosis, this medicated iron has an sometimes tuberculous, this medicated from has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of femalescannot be too confidently invited to this remedy and restorative, in the cases peculiarly aftering them.

In RHRUMATISM, both chronic and inflammatory—in the

In RENUMATION, both chrome and inhammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellangs and stiffeds of the joints and muscles.

In INVERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high repower and usefulness.

renown and usefulness.

No remedy has ever been discovered in the whole history No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to R. B. LOCKE & CO., General Agents. my22-d&wly 20 Cedar Street, New York.

TO THE CITIZENS OF NEW JERSEY AND PENNSYLVANIA,
APOTHECARIES, DRUGGISTS, GROCKES AND PRIVATE FAMILIES.
WOLFE'S PURE COGNAC BRANDY. WOLFE'S PURE MADEIRA, SHERRY AND PORT

WOLFE'S PURE MADEIRA, SHERRY AND PORT
WINE.
WOLFE'S PURE JAMAICA AND ST. CROIX RUM.
WOLFE'S PURE SCOTCH AND IRISH WHISKY.

ALL IN BOTTLES.

I beg leave to call the attention of the citizens of the United States to the above Wines and Liquors, imported by UDOLPHO WOLFE, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schiedam Schapps. Mr. Wolfe, in his letter to me, speaking of the purity of his Wines and Liquors, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves. For sale at Refail by all Apothecaries and Grocers in Philadelphia.

Read the following from the New York Courier:
Enormous Business for one New York Courier:
Enormous Business state the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit Unolfin Wolfe's extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand dozer, and Port Wines, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wines, &c. in casks, under Custom-House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amo

Liquors.
We understand Mr. Wolff, for the accommodation of We understand Mr. Wolff, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to human health and happiness.

For sale by C. K. KELLER, Druggist, sole agent for Harrisburg.

M A N H O U D,

HOW LOST, HOW RESTORE D.

Just Published, in a Sealed Envelope.
A LECTURE ON THE NATURE, TREATMENT AND RADICAL CURE OF SPERMATORRHOEA, or Seminal Weakness, Sexual Debility, Nervousness and Involuntary Emissions, producing Impotency, Consumption and Mental and Physical Debility.

BY ROB. J. CULVERWELL, M. D.
The important fact that the awful consequences of self-abuse may be effectually removed without internal medicines or the dangerous applications of caustics, instruments, medicated bougies, and other empirical devices, is here clearly demonstrated, and the entirely new and highly auccessful treatment, as adopted by the celebrated author, fully explained, by means of which every one is enabled to cure himself perfectly, and at the least possible cost, thereby avoiding all the advertised nostruns of the day. The Lecture will prove a boon to thousands and thousands.

Sent under seal to any address, post paid, on the receipt of two postage stamps, by addressing Dr. CHAS. J. C. KLINE, 480 First Avenue, New York, Post Box 4,586.

which will be sold but not recommended as I cana

Besides the above named articles, I have a very large at

ortment of other miscellaneous articles, which the publi

The attention of Invalids, Physicians, Clergyman, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing IRON, SULPHUR, AND PHOSPHOROUS, and which is identical in its composition with the Hematic Globule, or red blood. In all diseases accompanied with DEBILT TY, pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tintof the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a deficiency of the red globules,—accompanies a diseased organism. Preparations of IRON have been given for the purpose of supplying the red globules, where the purpose of supplying the red globules, but we contend that IRON alone, SULPHUR alone, or PHOSPHOROUS alone, will not meet the deficiency in every case, but that a judicious combination of alithese elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the BLOOD FOOD, and its discovery ranks as one of the most scientific and important of the age. Its effects in CONSUMPTION of the selection of the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restere the color, and clothe the skeleton frame with flesh. The BLOOD FOOD will be found a specific in all CHRONIU DISEASES of the THROAT or LUNGS, such as Asthmo, Bronchitis, Coughs, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In Dyspensa, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c., its efficiency is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as is those harrassing.

FEMALE O MPLAIN TS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed o preparations, patent or officinal, in point of definitions. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the BLOOD FOOD to any part of the United States or Canadas upon receipt of price—\$1 per bottle, \$5 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by CHURCH & DUPONT, No. 469 Broadway, New York And sold by them, and by all respectable Druggists.

For sale by C. A. BANNVART, C. K. KELLER and D. W. GROSS & CO., Harrisburg.
