

LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market streets.

PATRIOT AND UNION.—THE DAILY PATRIOT AND UNION can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRANK.

THE MAILS.—Under the change of schedule on the different railroads, the time of closing the mails at the Harrisburg Post Office, December 1st, 1860, is as follows:

PENNSYLVANIA R. R. East—7 a. m.—way mail, 12.25 p. m., 5 p. m., 9 p. m. West—6.30 a. m.—way mail, 3.50 p. m., 9 p. m. NORTHERN CENTRAL R. R. South—12.15 p. m.—way mail, 9 p. m. North—1 p. m.

LEBANON VALLEY R. R. 7.30 a. m. DAUPHIN AND SUSQ. R. R. 1.30 p. m. CUMBERLAND VALLEY R. R. 7.30 a. m., 1 p. m.—way mail.

BY STAGE. 7 a. m., to Gettysburg, on Tuesday, Thursday and Saturday. 7 a. m., to Jonestown, on Monday, Wednesday and Friday. 1 p. m., to Lewisberry, on Saturday.

THE HARRISBURG WIDE AWAKES.—There must have been some extraordinary promises of reward held out to the Harrisburg Wide Awakes, which have not been fulfilled. Consequence—refined and enlarged profanity.

THE LADIES OF ST. LAWRENCE'S CONGREGATION beg leave to inform the public that the Watch, Castor, Bracelet, Cross, &c., &c., will be disposed of this evening, January 2d; also, the articles on the Christmas Tree will be given over to the purchasers.

NO SHOOTING.—The Mayor's notice took effect. Young America had foregone the pleasure of frightening timid people by the discharge of horse pistols and villainous old muskets, much to the relief of nervous old ladies, and in short, to the public in general.

ON A CERTAIN RAILWAY the following intelligible notice appears: "Hereafter, when trains moving in an opposite direction are approaching each other, on separate lines, conductors and engineers will be required to bring their respective trains to a dead halt before the points of meeting, and to be very careful not to proceed till each train has passed the other."

THE ERIC OBSERVER.—Andrew Hopkins, Esq., formerly connected with the press of this city, has purchased the Eric Observer, one of the oldest Democratic papers west of the Allegheny Mountains.

THE LOCK-UP.—James Sheaffer, en route from Carlisle to Lebanon, Thomas Roberts, from the State of Maine, and Thomas Malony, from every place but this, reposed upon the downy city couches, made up of the softest white pine timber of the Clearfield afford.

A LIVE LIXX PICTURE.—We saw yesterday in the room of Mr. Jester, next door to our office, one of the finest oil colored photographs probably ever taken. It is a portrait of Mr. Jester's child, who was thrown up, or enlarged from small picture in a breast-pin, and painted by Mr. Naehtrieb, who is fast winning his way to public favor as an artist.

THE FRIENDSHIP BALL.—We dropped into Brant's Hall about ten o'clock on Monday evening, and witnessed the opening of the Friendship ball—the grand march, and the first cotillion.

A POPULAR REPRESENTATIVE.—The following is a copy of the certificate of the return judges of Pike and Monroe counties for member of the Assembly:

Charles D. Broadhead - - - \$,144 Abraham Lincoln - - - - - 1 David D. Walton - - - - - 1 Henry S. Mott - - - - - 1 Francis Keller - - - - - 2

THIS IS what we call a one-sided affair entirely, and shows the estimation in which our excellent friend Broadhead, and the principles he professes, are held by the hardy sons of the soil in Monroe and Pike. About next fall we shall be able to chronicle a few imitations of the above jug-handle arrangement, we think.

THE ICE CROR.—"Make hay while the sun shines" is an admonition that will apply to other than merely those who "go to grass," for the benefit of cattle in the winter. The ice dealers see the necessity of laying in their supplies when they are to be had of passable quality.

A NEW STIMULANT.—Among European novelties it seems that a new stimulant has appeared, which, if the accounts received of it are true, promises to contest the precedence with opium and tobacco.

WHAT IS IN THE WIND?—On Monday Col. A. K. McClure received a telegraphic dispatch from Lincoln to repair to Springfield forthwith, and setting aside all manner of business, as the subpoena says, he obeyed the summons. We do not know on what question of vital importance the Colonel will be called upon to decide, but by virtue of his late position as Chairman of the Republican State Central Committee, he doubtless has "a voice potential and double as the Duke's," in saying who shall not occupy one of the Cabinet chairs.

IT WILL BE remembered that Gen. Cameron and J. P. Sanderson went on to Springfield on Thursday last, in obedience to a subpoena. Some people get that and that together, and try to deduct something from the great friendship existing between the Colonel and the General, but we confess that we can make nothing out of it.

How do THEY MANAGE?—There is a class of people in this world whose life is a mystery—a perpetual puzzle. We called attention to their cases a few weeks ago, since which time a number of our contemporaries, struck with the force of our remarks, have continued the subject.

It is true that some few persons are able to perform great mental labor, and to study late at night and yet sleep well. Some acquire but little sleep. But such individuals are very rare. Gen. Pichegru informed Sir Gilbert Blane that, during a whole year's campaign, he did not sleep more than one hour in twenty-four. Sleep seemed to be at the command of Napoleon, as he could sleep and awake apparently at will.

M. Guizot, minister of France under Louis Philippe, was a good sleeper. A late writer observes that his facility for going to sleep after extreme excitement and mental exertion was prodigious, and it was fortunate for him that he was so constituted, otherwise his health would materially have suffered. A minister in France ought not to be a nervous man; it is fatal to him if he is.

REMARKABLE CASE OF ANCHYLOSIS.—In the course of the town of Clarkson, there is a note by the marshal, giving the particulars in brief of a very remarkable case of anchylosis which occurred in that town. The case is that of Eli G. Babcock, of Clarkson, who died in February last, at the age of fifty years, after an immediate illness of only three days.

MAJOR ANDERSON IN TOWN!—We have been informed that Major Anderson was in the city yesterday afternoon. Some persons asserted that he had been ordered North by the Secretary of War, others believed that he came on to have a confab with the President concerning the defenses of Charleston harbor; while yet others said he had merely visited Philadelphia for the purpose of procuring a handsome suit from the Brown Stone Clothing Hall of Bookhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth.

TO DESTROY INSECTS IN STORED GRAIN.—Grain is sometimes subject to depositions from the flying weevil or gray moth, which develops and matures in the heart of the grain, and which imparts considerable heat to the bulk of the grain.

SENT IN FOR FIVE DAYS.—James Dailey, Professor of fried, roasted and stewed, keeps a Restaurant, as we say in France, under Gross' Hotel. Business being somewhat lively, owing to the influx of strangers, James commenced kingly the old ditty yesterday,—"Oh! how gracious, how the money rolls in!"

THE UNSATISFACTORY state of the tenure by which foreign literary property is held in this country during the absence of an international copyright law with England, receives almost daily illustration from the doings of our publishing houses.

THE GREAT ENGLISH REMEDY.—Sir James Clarke's Celebrated Female Pills, prepared from a process of Dr. Clarke, M. D., Physician Extraordinary to the Queen.

PURIFY YOUR BLOOD.—BRANDRETH'S PILLS WARRANTED TO CURE FEVER AND AGUE.—The effect of purging with BRANDRETH'S PILLS is to restore the health, no matter from what cause it may be suffering.

SLEEP.—Dr. Cornell, of Philadelphia, contributes to the November number of the Educator an article on sleep, from which we make the following brief extracts:

No one who wishes to accomplish great things should deny himself the advantages of sleep of extraordinary amount. A minister in France ought not to be a nervous man; it is fatal to him if he is.
