BY STAGE.

7 a. m., *to* Gettysburg, on Tuesday, Thursday and Saturday. 7 a. m., to Jonestown, on Monday, Wednesday and Friday. 1 p. m., to Lewisberry, on Saturday.

The lock-up on Friday night gave accommodation to three revolving vagrants, traveling nowhere, in search of nobody, and whose wants are satisfied with a loaf of bread, and lodgment on a soft white pine bench.

SHERIFF'S SALE.—Will be sold, on this morning, at 10 o'clock, at the "Novelty Iron Works," in this city, a large and splendid lot of founders' and machinists' tools, patterns, &c. Those engaged in that business will find it to be to their advantage to be present.

ONE OF THE "BLESSINGS."—The Moutour Iron Works, the largest in the State, with one single exception, have stopped, and at least a thousand men have been thrown out of employment in the dead of winter. Another of the blessings that were to follow the election of Lincoln.

CITIZEN, ATTENTION!—A stated meeting of the Citizen Fire Engine and Hose Company will be held at their hall, this (Monday) evening at 7 o'clock. The semi-annual election of officers for the ensuing term will take place, and important business be brought before the meeting. Every member is requested to be in attendance.

G. L. WALTER, Secretary.

THE LATEST.—In order to give our readers the latest news at home this morning, we are compelled to go abroad. Telegraphic dispatches sent from here on Friday declare that Col. M'Clure, who has just returned from Springfield, asserts that General Cameron has *not* been offered a position in Lincoln's Cabinet. We do not know where the reporter gets his information—whether from Col. M'Clure, or from street rumor, but we heard an enthusiastic friend of Cameron's offer to bet on his favorite, and he is a man who always gambles to *win!*

A MISSTATEMENT.—We were led into an error in regard to the matter which appeared in our columns under the head of "A Hard Case," on Friday, and we regret to say that it was through the man's own misstatements. The Steward of the Poor House gave him a room, necessarily removed from the main building, and immediate steps would have been taken for his relief, but he did not like the accommodations, and left. He was anxious to get on to Pittsburg, and, on the application of the Mayor, the Superintendent of the Pennsylvania Railroad forwarded him.

TO BE REWARDED.—Wien Forney, at present a clerk under John W. Forney, in Washington city, it is currently rumored, is to be appointed Superintendent of Public Printing by Governor Curtin. When Mr. Forney was appointed to the position he now holds at present, he was announced as an anti-Lecompton Democrat. His Democracy, with out any prefix, was of the Forney and Hickman order—a sliding scale—a mark to deceive. He glided into the Opposition as natural as a duck takes to water, and, like all renegades, he became more abusive than the old guard itself, swallowing all his previous sentiments, and declaring that he formerly was a knave, a hypocrite, or labored in *error and darkness.*

CONTESTED SEATS.—There is a contested seat from Luserne in the House. The right of Lewis Pughe is resisted by D. L. Chapin, Democrat, and a member of last session. It is asserted that the election inspectors and judges in one precinct threw out thirty-two votes for D. L. Chapin, which elected Pughe by twenty-six majority—The Supreme Court has already decided that the middle name of a man was of no moment when it was known there was no man of that name in the community. The committee was drawn on Thursday last, and is exclusively Republican, so that notwithstanding the decision of the Supreme Court, we shall be much surprised if Mr. Chapin gets his rights. Stewart, Republican, contests the seat of Caldwell, Democrat, from the First Representative District in Philadelphia. The committee is to be drawn on Monday next.

ADJUTANT GENERAL.—This little office, although it is worth but $600 a year in this State, while it brings the incumbrent $1,500 in New York, is still not likely to go begging. There are no less than ten applicants in for it—three in Philadelphia alone, viz: Peter Fritz, Gen. W. R. Small and General Bimey. The most prominent man for the position, from the western part of the State, is Gen. J. S. Negley. The General has lately been engaged in the laudable enterprize of turning Wide Awake organizations in and about Pittsburg into soldier companies, but a well-grounded fear that other aspirants would be here to leg among those who are supposed to have influence with the Governor, took possession of him, and he appeared in this city, in *propria persona* on Friday. The General has a great many friends in western Pennsylvania, and he is an ardent admirer of Republican principles—but, as Charley O'Neill says, "with the coupons attached." If appointed, he would no doubt make an effort to have the salary raised, in which he would in all probability be more successful than his predecessor.

UNITED STATES SENATOR.—This is "a day big with the fate of Cæsar and of Rome." Before to-morrow morning the hopes and aspirations of a large number of aspirants will be blasted as the young and promising bud before the breath of the nipping nor'wester. The agony will be over by 10 o'clock this evening, and, although we may not be able to announce to-morrow who the fortunate man is whom fortune has favored, we venture again to say that Mr. Cowan will be the lucky man. At least so it is supposed by those upon whose judgment we can rely. A number of the prominent Republicans, we are informed, met and discussed the matter on Friday night, and finished up the "slate" for Cowan by taking the friends of Pollock and Wilmot both in the Westmoreland boat. The proviso man had much to contend against—especially did his old free trade principles cling to him like the poisoned shirt of Nessus, until his friends were forced to produce a letter of recantation written by him when he was a candidate for Governor in 1857. With all this, it is said, however, that the slate was so arranged as to give him the unexpired term of Gen. Cameron. About that we shall see.

A FEW FACTS GLEANED FROM GOVERNMENT REPORTS.—The permanent public debt of the United States, on the 30th of June, 1860, was $45,079,203, exclusive of outstanding Treasury notes, amounting to $19 690,000. The U. S. Mints coined, during the last fiscal year, $23.448,253 35 in gold; $3 250 636 26 in silver; and $342 000 in cents. The total land surface of the United States and Territories is 3 010,370 square miles, or 1,926. 636. 800 acres. If to this are added water surface, lakes, rivers, &c, we will have a total surface of three and a quarter millions of square miles. Minnesota, with 83,531 square miles, is the fourth State, in point of size, in the Union. Texas is first, California next, and Oregon third. Last year there was 3.896 patents issued, and 28 extended for a period of seven years. The whole number of patents applied for was 5 638. The whole number of Post offices in the United States is 28 918—a decrease from 1859 of 41. The number of postmasters subject to appointment by the President (whose salary exceeds $1 000 per annum) is but 433 Minnesota has but 4; New York has 62—During the last fiscal year, and the quarter ending September 30. 1860, 16.385 361 acres of public lands have been proclaim d for sale. During the same period, 9.648,471 acres have been surveyed and prepared for market, and 12.050 053 72 acres have been disposed of in the following manner:—3,977,619.80 acres have been sold for cash, yielding the sum of $2,021,425.97; 3.379.040 acres have been absorbed by the location of bounty land warrants; 2,037,770 92 acres approved to States under the swamp grants; and 2,655 623 acres under the railroad grants. The number of military bounty land warrants outstanding on the 30th of September last was 74.463, and they will require 8,196,-580 acres of the public domain to satisfy them.—The whole number of pensioners, of all classes, now remaining on the rolls, is 11,284, and the sum required to pay their pensions is $1,001,018.95.—During the past year the amount thus expended was $1,103,562 03 During the year ending June 30, 1860, it cost to "run" the Federal Government the snug sum of $77,462,102 72. The receipts from public lands, customs, and miscellaneous sources, during the same time, amounted to but $39 476 109.43 But $21,615,200 was received from loans and Treasury notes.

REMARKABLE FEAT—*A Man Shoots His Fingers Off, and then Drinks Thirty Glasses of Beer.*—Mr. Frank Lanman is a man of reputation. It matters but little, in this degenerate age what a man does, so that he becomes a hero. Dr. Kane went to the Arctic regions and came back a hero. Garibaldi freed Italy, and he became a hero. Sam Patch leaped over the Passaic Falls, and was distinguished. Blondin is immortalized on the tight rope, and Heenan takes his place among "the immortal few," through the use of his muscles. The subject of this article is a hero. His first great performance was at a bar-room in St. Louis, about eight months ago. For a wager of $100 he drank one hundred and fifty large glasses of lager beer in less than eight hours. He won both the wager and a reputation.

On Saturday last Mr. Lanman again distinguished himself, as we notice by the St. Louis papers.—Some one entered his saloon on Broadway, and, through malice, or some other bad propensity, cut Lanman's billiard table. Mr. L. was enraged.—He set a good deal by his table. To have it cut, cut him to the quick. He resolved to have revenge. Now, revenge is sweet, if not too dearly purchased. Mr. Lanman paid too much for his.—Snatching up a revolver, he cocked it, and swore by all the gods and goddesses, that he would shoot the fellow that cut his table. While brandishing his shooting-iron around, he hit it against a chair. It went off, (not the chair, but the pistol,) and the charge entered his left hand, tearing away the fingers, and otherwise shattering the member.

The accident did not have the effect of cooling Mr. Lanman's ire. He swore louder than ever, and declared the hand should not be dressed until he had drank *thirty glasses* of lager beer. His friends tried to dissuade him from his purpose, but could not. In less than two hours Mr. Lanman had added another unfading laurel to his brow—He drank the stipulated amount of lager, and said he could stand a little more. A surgeon was then called in, and the shattered hand was attended to.

REARING CHILDREN.—The following rules for rearing children are deserving the attention of every man and woman.

I.—Children should not go to school until six years old.

II.—Should not learn at home during that time more than the alphabet, religious teaching, excepted.

III.—Should be fed with plain substantial food, at regular intervals of not less than four hours.

IV.—Should not be allowed to eat anything within two hours of bed-time.

V.—Should have nothing for supper but a single cup of warm drink, such as very weak tea of some kind, or cambric tea, or warm milk and water, with one slice of cold bread and butter—nothing else.

VI.—Should sleep in separate beds, on hair mattresses, without caps, feet first well warmed by the fire or rubbed with the hands until perfectly dry; extra covering on the lower limbs, but little on the body.

VII.—Should be compelled to be out of doors for the greater part of daylight, from after breakfast until half an hour before sundown, unless in damp, raw weather, when they should not be allowed to go outside the door.

VIII.—Never limit a healthy child as to sleeping or eating, except at supper; but compel regularity as to both; it is of great importance.

IX.—Never compel a child to sit still, nor interfere with its enjoyment, as long as it is not actually injurious to persons or property or against good morals.

X.—Never threaten a child; it is cruel, unjust and dangerous. What you have to do, do it, and be done with it.

XI.—Never speak harshly or angrily, but mildly kindly and, when really needed, firmly—no more,

XII.—By all means arrange it so that the last words between you and your children at bed-time, especially the younger ones, shall be words of unmixed lovingness and affection.

EXPERIMENTS WITH WIRE ROPE.—Some experiments, important to all persons engaged in the manufacture of wire ropes, or who may be accustomed to use them, have just been made by Mr. J. Daglish, who has communicated the results to the North of England Institute of Mining Engineers. The conclusions arrived at were, that half the strength of the rope was lost by heating the wire; that the ordinary joint is much weaker than any other portion of the rope; that if a flat rope was well spliced it was not weakened thereby, but, if the workmanship was bad, it lost from 25 to 33 per cent. of its strength. In either event a round wire rope spliced became 13 per cent. weaker than before. Round steel wire rope will bear more than double the weight required to break iron wire rope of similar diameter.

THE FRIENDSHIP STEAMER.—Some weeks ago the Friendship Fire Company resolved to give the name of their new steam fire engine to the person who would give the largest amount of money toward its purchase. The time for opening the proposals expires on Thursday next, when they will be opened, and the result made known. The collections are still going on, and there is no question about the purchase of the "mersheen" now.—All that is necessary is prompt payment by those who have subscribed.

GOV. CURTIN'S APPOINTMENTS.—The editor of the *Telegraph* is *informed* that Gov. Curtin *has* made the following appointments. He does not state who his informant is, but there is a semi-official smell about the announcement that justifies the belief that he speaks from the record:

Secretary of State—Eli Slifer, of Union county.

Deputy Secretary—George W. Hamersly, of Philadelphia.

Attorney General—Sam'l A. Purviance, of Butler county.

Whisky Inspector—William Butler, of Mifflin county.

Physician of the Port of Philadelphia—Doctor Clark, of Philadelphia.

Messenger to the Governor—Samuel Miles, of Centre county.

Adjutant General—James S. Negley, of Pittsburg.

Western Flour Inspector—Thomas Collins, of Pittsburg.

Sealer of Weights and Measures—J. D. Owens, of Pittsburg.

ECLIPSES THIS YEAR.—There will be four eclipses this year, as follows: 1. An annular eclipse of the Sun, January 10; invisible in America. 2. An annular eclipse of the Sun, July 7; invisible in America. 3. A partial eclipse of the Moon, December 17, (16th in California,) early in the morning; visible. Size only 2 22 digits, or about 1.5 of the Moon's dise. Beginning at Boston at 2h. 43m.; New York, 2h. 31m.; Philadelphia, 2h. 27m.; Washington, 2h. 15m.; Charleston, 3h 7m.; Detroit, 1h. 55m.; Cincinnati, 1h. 50m.; Chicago, 1h. 37m; St. Louis, 1h. 26m.; San Francisco, 11h. 37m., evening of 16th. The eclipse becomes largest 51 minutes after the beginning, and ends 1h. 42m. from the same. 4. A total eclipse of the Sun, but only partial in the United States, Dec. 31. The Sun will rise visibly eclipsed more or less, and it may be seen in all the States east of and adjacent to the Mississippi river, except Iowa. Eclipse ends at Washington at 8h. 36m. in the morning. Size in the Atlantic States about 6 digits. In Texas, Arkansas, Missouri, Illinois and Wisconsin, the eclipse ends just at sunrise.

OIL WELLS IN KENTUCKY.—Oil wells are among the new features of Bourbon county, Kentucky. The Paris *Citizen*, of December 21st says:

A gentleman, living near the Levy, beyond Flat Rock, informs us that, having, some time since, seen indications of the existence of oil in the earth near his residence he determined to ascertain in what quantities it might be found. He sank two wells, one of them seventy feet and the other about one hundred and sixty feet deep, with the most satisfactory results. From these wells he has gathered several gallons of oil which has been analyzed and proved to be of the best quality. All that is now lacking is to test the abundance of the supply, which will be done as soon as a suitable pump has been obtained to draw the oil to the surface. The gentleman alluded to has visited the oil regions in Pennsylvania and Virginia, and assures us that he finds, where he has been experimenting, all the indications of the presence of oil that are found there. Among these indications are, the character of the rock passed through, and the presence, in very large quantities, of inflammable gas.

Lithography is an art of such universal dissemination, and performs so important an office in the great business of publishing that few persons probably think how very recently it was discovered. Mr. George Scharf, a well-known engraver, who died near London last month, at the advanced age of 72, was the first artist who practiced lithography in England. He was born at Munich in the year 1788, and learned the art from Sennefelder, who invented it. He had resided England 44 years.

Among the articles on exhibition at the Wisconsin State Fair was a new invention by Wm. H. Paine, of Sheboygan, to supercede the usual chain used in surveying. It consists of a steel measure, which coils up like a tape measure, but is so tempered as to be perfectly straight when uncoiled.—The whole weight of the instrument does not exceed three pounds.

HONORS TO MAJOR ANDERSON.—In all parts of the country, movements have been inaugurated with a view to doing honor to Major Anderson, for the course he has pursued in Charleston habor. Salutes have been fired, meetings have been held, and swords have been presented. We also learn that it is in contemplation to present the gallant Major with a full civilian's suit from the Brown Stone Clothing Hall of Rockhill and Wilson, Nos. 603 and 605 Chesnut street, above Sixth, Philadelphia.

A LARGE LOT OF GOODS received to-day, suitable for presents, which will be sold off much below their real value. 60 dozen of Hem-stitched and Grass Linen Handkerchiefs, at 20, 25, 37 and 50 cents a piece; 100 Sets of Collars and Sleeves, direct from New York auction, at very low prices; Gents' Plain and Bordered Linen Handkerchiefs; beautiful lot of Lace Curtains; Chenille Scarfs, at 12½ and 25 cents; 10 pieces of Cassimere for pants; 10 pieces of Cloth, for Cloaks; 25 pieces of all kinds of Flannel; 2,000 yards of best brown Muslin, for 10 cents; Woollen Socks, 15, 20 cents; Undershirts, Drawers, 50, 62, 75, and a great many other bargains.

Rhoads' Corner.

## SPECIAL NOTICES.

*from the Independent, New York, July 28, 1859.*

GLUE.—Our advertising columns contain some testimonies to the value of a new article known as "Spalding's Prepared Glue," useful to housekeepers for mending furniture. It is prepared with chemicals, by which it is kept in the proper condition for immediate use, the chemicals evaporating as soon as it is applied, leaving the glue to harden. We can assure our readers that this article has the excellent phrenological quality of "large adhesiveness."

WE call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is FOOD FOR THE BLOOD, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health. We notice that our druggists have received a supply of this article, and also of the world-renowned DR. EASON'S INCUNTIFE CORDIAL, which every mother should have. It contains no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

☞ See advertisement. au17-d&w3m

MRS. WINSLOW,

An experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitate the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column. aug19,1859-d&wly

Mothers, read this.

The following is an extract from a letter written by a pastor of the Baptist Church to the *Journal and Messenger*, Cincinnati, Ohio, and speaks volumes in favor of that world-renowned medicine—MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING:

"We see an advertisement in your columns of Mrs. Winslow's Soothing Syrup. Now we never said a word in favor of a patent medicine before in our life, but we feel compelled to say to your readers, that this is no humbug—WE HAVE TRIED IT, AND KNOW IT TO BE ALL IT CLAIMS. It is, probably, one of the most successful medicines of the day, because it is one of the best. And those of your readers who have babies can't do better than to lay in a supply. sep29-d&wly

The constantly increasing demand from those who have long used the PILLS, and the satisfaction which all express in regard to their use, has induced me to place them within the reach of all

The Profession well know that different Cathartics act on different portions of the bowels.

The FAMILY CATHARTIC PILL has, with due reference to this well established fact, been compounded from a variety of the purest Vegetable Extracts, which act alike on every part of the alimentary canal, and are good and safe in all cases where a Cathartic is needed such as Derangements of the Stomach, Sleepiness, Pains in the Back, Pain and Soreness, Costiveness over the whole body, from sudden cold, which frequently, if neglected, end in a long course of Fever, Loss of Appetite, Creeping Sensation of Cold over the body, Heartburn, Headache, or Pain in the Head, all INFLAMMATORY DISEASES, Worms in Children or Adults, Rheumatism, a great PURIFIER of the BLOOD and many other diseases to which flesh is heir, too numerous to mention in this advertisement. Dose, 1 to 3.

Price Three Dimes.

The Liver Invigorator and Family Cathartic Pills are retailed by Druggists generally, and sold wholesale by the Trade in all the large towns

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP,
FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is SURE TO REGULATE THE BOWELS. Depend upon it mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found *in fifteen or twenty minutes* after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world.
