PATRIOT AND UNION .--- The DAILY PATRIOT AND Exton can be had by Dauphin subsoribers, every morning, at the periodical store of J. S. FRAIN.

To THE HORSE-SHOE !-- A special meeting will be held this evening. All members are expected to be on hand. Good music is expected. By order. HEAVY, Janitor.

A Snow Story .-- We had something of a snow storm yesterday, which up to bedtime, however, had not approximated to anything like sleighing. The snow assimilated with the mud most elegantly, but owing to the mild state of the weather, it was all day in the melting mood. If the present fall does not bring us the much coveted quantity sufficient for sleighing, we fear there will be a poor show this winter.

RESIGNATION .- Hon. Eli Slifer, State Treasurer. resigned his office yesterday, and the Governor transmitted the resignation to the Senate, where it was resolved that, the House concurring, an election to fill the vacancy, will be held in the Hall of the House of Representatives to-day, at 1 o'clock. The Republicans nominated Henry D. Moore, who of course will be elected.

EXECUTIVE MANSION .---- Yesterday a joint committee of the House and Senate reported a resolution appropriating \$5,000 for re-farnishing and repairing the Executive Mansion. It is a great pity that this mansion, which is not adapted to the purposes for which it was purchased, either by size or location, could not be sold, and one credit. able to the great Commonwealth of Pennsylvania erected.

BOARD-WALK BEGGARS .- It is a noticeable fact that there are not as many board-walk beggars this winter as heretofore. A friend of ours who makes cause and effect one of his studies, says that it is all owing to the hardness of the times. People will not disburse as liberally as when times ars good, so the beggars find the profession unprofitable, and take to something that pays better 1

FRIENDSHIP STEAMER .- Who is ambitious to have his name handed down to posterity as being. connected with the first steam fire engine ever brought into service in Harrisburg ? Now is the time-and now only. The gentleman or lady who makes the largest donation toward the purchase of that steamer will be entitled to the honor. The proposals are to be opened at the Friendship engine house this evening.

GRAND CONCERT .-- Our readers are referred to another column for the programme of a Vocal and Lawrence Church. sicians, both professional and amateurs, have been engaged, and we may reasonably look for an entertainment second to none ever given in this city. The proceeds are to be devoted to liquidating the debt due on the church edifice, lately purchased by the congregation.

OLIVE VERSUS LARD OIL .- At a late meeting of the Farmers' Club, connected with the American Institute, Professor Mapes assorted that what "we receive as pure olive oil in the market, is nothing more nor less than the surplus lard sent by our pork merchants to France, where it is transformed into the genuine article of sweet oil and returned to be used at the tables of those very persons who exported it in its solid state." This is certainly refreshing information for the lovers of pure, sweet table oil among us, and is no doubt perfectly true. We venture to say that not one-tenth of the oil sold for that of the olive, in our country, is anything else than lard oil.

Any person can convert the common lard oil sold for burning in lamps, into as good sweet oil as that which is generally sold for olive oil, by the following process :

Take, say about a quart of the common oil. and place it in a clean tin pan, and set it on a stove; bring it up to about the heat of scalding water, and then add about one-quarter of an ounce of sal soda dissolved in half a teacupful of hot water .---Stir this into the oil for about five minutes; then take off the vessel and allow it to cool. When the acdiment settles on the bottom of the vessel, the clear should be poured off into a clean bowl through a white cotton cloth, to strain it. The oil obtained by this treatment is sweet and pure, excellent for oiling fine machinery, and for making perfumed oil for the hair, -- Scientific American.

ORIGIN OF PAPER MONEY,-The Count de Tendilla, while besieged by the Moors in the fortress of Alhambra, was destitute of gold and silver wherewith to buy his soldiers, who began to murmur, the necessaries of life from the people of the town. In this dilemma, says the historian, what does this most sagacious commander? He takes a number of little morsels of paper, on which he inscribed various sums, large and small, and signs them with his own hand and name. "These he gave to the soldiery in earnest of their pay. How, you will say, are soldiers to be paid with little scraps of paper ? Even so, and well paid, too, for the good Count issued a proclamation ordering the inhabitants to take these morsels of paper for the full amount thereon subscribed, promising to redeem them, at a future day, in gold and silver. Thus, by subtile and miraculous alchemy, did this cava lier turn worthless paper into precious gold, and his late impoverished army abound in money." The historian adds: "The Count de Tendilla redeemed his promises like a royal knight, and this miracle, as it appeared in the eyes of Agapida, is the first instance on record of paper money, which has since spread throughout the civilized world the most unbounded opulence.".

A GRACEFUL COMPLIMENT TO A WIFE .- The fol lowing neat and beautiful reply was made by the late Daniel O'Connell, in response to a toast given in compliment to his wife, who was the object of his long and affectionate attachment. It was given at a political meeting. The English language could net furnish any thing more touchingly tender and graceful :

There are some topics of so sacred and sweet a usture that they may be comprehended by those who are happy, but they cannot be possibly de-soribed by any human being. All that I shall do is to thank you in the name of her who was the disinterested choice of my early youth ; who was the ever-cheerful companion of my manly years, and who is the sweetest solace of that "sear and yellow leaf age " at which I have arrived. In her name I thank you ; and this you may readily believe; for experience, I think, will show to us all that man cannot battle and struggle with the malignant enemies of his country, uuless his nest at home is warm and comfortable-unless the honey of human life is commanded by a hand that he loves.

A REMARKABLE CLOOK .- The Memphis Argus thus describes a singular timepiece now in that city :

A gentleman, lately returned from Germany, Instrumental Concert, to be given for the benefit brought with him a clock; to be given as a New Asta St Lawrence Church All the leading mu. Year's gift, which is certainly one of the most extraordinary specimens of multum in parvo that we ever beheld. Besides recording hours, half hours, quarters and semi-quarters, each by a different bell of peculiar sound, it indicates on one dial the time in hours, minutes, seconds and half-seconds; en another it indicates the century according to Jewish, Christian and Turkish reckoning, the year according to each of these, the month of each year, and, finally, the day of the month ; on another dial the solar and lunar months are contrasted, and, finally, on the last dial a barometer prophecies the weather, and two thermometers give the degree of heat according to the Farenheit and Reamau scales. The size of this instrument, which requires but one winding, and that only at intervals of eight days, is one foot square.

Losr.-A gold seal with cornelian setting, containing two ambrotypes. The finder will be liberally rewarded, and confer a great favor by leaving the same at the Brady House,

> UNION EATING SALOON .--- Joseph Burkhart having removed from the "White Hall," and taken the above saloon, Market street, near Dewberry alley, is now prepared to furnish his customers with the best of oysters, Reading Ale, Lager Beer, &c. Give him a call. 3(†

NEW AIR LINE ROUTE

NEW YORK.

Shortest in Distance and Quickest in Time

BETWEEN THE TWO CITIES OF

NEW YORK AND HARRISBURG, VIA

NOTICE.

EXCELLENT MARKET .-- Yesterday morning our market was abundantly supplied with everything but poultry, and, thanks to the vigilant officers who are watching the forestallers, at prices not out of the reach of poor people. For the first time within the memory of the oldest inhabitant butter could be bought at 17a18 cents, eggs at 18, and and meat at 7a8, on the eve of an inauguration, or during the second week of the sitting of the Legislature.

GOBB HOME .--- All the notable politicians, drawn hitherto to superintend the election of a United States Senator, have gone home, but the places made vacant by them are rapidly filling up by those who have axes to grind. It would be something of a job to count up and make out a complete list of all the gentlemen already here, and to be here, who whould be willing to serve the people as flour, bark, whicky and leather inspectors, port wardens, &c., &c.

THE SCRAWBLE FOR OFFICE .- The " wild hunt" for office in the Senate and House has ceased. Yesterday in the Senete three folders and an additional Transcribing Clerk were voted in by resolution, and for a time things were quite lively by the efforts of Senators not in the " ring" to get their men in. We regret to notice a few very accommodating, and very obliging efficers of the last session left out in the cold-but sich is life. Its all a lottery, with a prependerance of blanks in the scheme .

A POUNTAIN ON THE PUBLIC GROUNDS .- We call the attention of Senators and members of the Legislature to the fact that but few public parks like the one in which our Capitol stands, are without a fountain. We do not presume that our grounds are without a fountain from motives of economy, bat rather because the want has been overlooked. When the trees and walks are filled with ice and sleet, the beauty of such an institution does not strike one very forcibly, but certainly nothing could add more to the ornamental portion of the Park than a handsome fountain, and we have discovered a very excellent location for it. The round plat of ground lately used for the deer pen is the spot. Albion. The entire cost of its erection could not exceed a thousand dollars. The area of ground enclosed would make a very fine pond, and the whole thing could be kept up at a comparatively trifing expense. We hope that it will not be overlooked in the general appropriation.

Postage .- For several winters past our excellent Postmaster, Dr. G. W. Porter, effected an grrangement by which letters and papers for Senators and members of the Legislature, as well as both branches of the Legislature could be transmitted from any part of the State, and the postage due on them paid here by the State. In view of the fact that many documents so forwarded are of a public nature, in which the people at large are equally interested, such an arrangement was eminently proper; but, it seems, that no arrangement of the kind has been entered into for the present session, the department having ruled that all letters must be prepaid by stamp at the office where would be well for the country press throughout the other bargains.

BUCHANAN AND LINCOLN .- The President, it is understood, scouts the idea that Mr. Lincoln cannot be inaugurated, at Washington, on the Fourth of March. He says that if he lives until that day he and the President-elect will ride together to the capitol, smilling benignantly upon the surrounding thousands of their fellow-citizens, and both looking their very best in new and elegant suits made especially for the occasion by Rockhill & Wilson, at their Brown Stone Clothing Hall, Nos. 603 and 605 Chesnut street, above Sixth, Philadelphia.

A SENSATION IN MARKET .--- Yesterday morning there was a display of fat cattle in market well

calculated to start the flow of gastric juice in an epicure. They were Durhams which Mr. A Koser. the butcher, is slaughtering for the inauguration, and which he purchased at a steep price expressly for that purpose. They are to be killed either today or to-morrow, and the meat will be for sale at Mr. Koser's stall in the market house on Saturday morning.

SPLENDID FAT DURHAM CATTLE .--- One of our enterprising butchers, Mr. Alexander Koser, has purchased of Jacob S. Haldeman, Esq., two of the largest, finest and fattest young Durham oxen in this region of country, which he intends slaughtering and serving up to our beef-eating citizens. We subjoin the pedigree of these splendid animals, as furnished by the gentleman who raised them :

SNOW BALL, bred by Jacob S. Haldeman, Fairview, York county; three years old Sept. 1, 1860. Got by Mr. Gowen's celebrated Dake of Cumberland, dam Victoria by Prince of Wales, granddam imported Virginia by Enterprise, &c.
