THE AMALGAMATION OF LANGUAGES .- There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate then into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becom-ing popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as commonas Electrotype and many others whose distinction as foreigu words has been worn away by common usage until they seem "native a to the manor born."

'ardly Realized.

Hi 'ad 'n 'crrible 'eadache this hafternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e. "Hexcredingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'oner it cured me se quick that I 'ardly realized I 'ad 'ad an 'eadache.

HEADICHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a saleguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied ; and its indications should never be neglected. Head. aches may be classified under two names, viz : Symptomatle and Idiopathic. Symptomatic !I cadache is exceedingly common and s the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rhaumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterioe affections. Diseases of the heart are very requently attended with Headaches; Ausmia and plethora are also affections which frequently occasion headache.... Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a State of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instan ces the pain is in the front of the head, over one or both eves, and sometimes provoking vomiting; under this class

may also be named Neuraigia. For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, reliering the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

BRIDGET.—Missus wants you to send her a box of Cephalic Gue, no, a bottle of Prepared Pills—but I'm thinking that's not just it naither; but perhaps ya'll be afther Enowing what it is. Ye see she's nigh dead and gone with the Sice Headsche, and wants some more of that same as remived her before.

Druggist — You must mean Spalding's Cephalic Pills.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Go diveness. Often originating in carelessness or sedentary habits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous discases, and unless early cradicated it will bring the sufferer to an instinctly grave. Aimoig the lighter evils of which co-tiveness is the usual attendant are Headanhe, Colic, Rheumatism, Foul Breath, Piles and others of I ke nature, while a long train of fr. phiful diseases such as Malignant Fevers, Abcesses, Dysentery, Dlarrhea, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Metancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unrequently the diseases named originate in Constipation, but take on an independent existence on less the cause is eradicated in an early stage. From all these considerations it fellows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life. No one of the "many ills flesh is beir to" is so prevalent,

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has soot two multions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from to al loss by this valuable invention Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heas a with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

ILTOVER EXCITEMENT, and the mental eare and anxiety incident to the close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this di-treasing complaint is a fatal blow to all energy and ambition.—Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jurring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FAOT WORTH ENOWING —Spaiding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY—Among the most important of all the great medical discoveries of this age may be considered the syst-m of vaccination for protection from Small Pox, the Cephalic Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

DID you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the loathing and diegust at the sight of food? How totally unfit you were for pleasure, conversation or study One of the Cephalic Pills would have relieved you from all the suffering which you then experienced For this and other purposes you should always have a box of them on hand to use as accasion requires. use as occasion requires.

By the use of these Pills the periodic attacks of Nerous or Sick Headache may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained. They soldom fail in removing the Nausea and Head-

to the digestive organs, and restoring the natural elasticity and strength of the whole system. The CEPHALIC PILLS are the result of long investization and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering [from Headache, whether originating in the nervous system or

from a deranged state of the stomack They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Professor Wood's preparation, and have been foreced to leave the field to its resistless sway. Read the following:

PROF. O J. WOOD & CO.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and else where, has given rise to numerous enquiries tonething the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much iraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely imitated, and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I sond you a lock of my hair taken off the past week. I recgived your favor of two quart bottles last summer, for which I

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description or written attestation would render credible.

no description or written attestants would remer teamer to.
Invalids so long bed-ridden as to have become forgotten in
their own neighborhoods, have suddenly re-appeared in the
busy world as it just returned from protracted travel in a
distant land. Some very signal instances of this kind are
attested of female Sufferers, emaciated victims of apparent distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent majasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanents are medy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspersia, innumerable as are its causes, a single box of these Chalybeate Pills has eften sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrica, even when advanced to Dyska Terr, confirmed, emaciating, and apparently malignant the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incorprish Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scopfilous Tybergoulosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

Mr. Wolfe, in his letter to me, speaking of the purity of his WINES and Liquors, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a isc simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves. Read the following from the New York Courier:

ENORMOUS BUSINESS FOR ONE NEW YORK MERCHANT.—

We are happy to inform our fellow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit UDOLFHO WOLFF'S extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand dozes; the Brandy, some ten thousand cases of Madeira, Sherry and Port Wines, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wines, &c. in casks, under Custom-

Liquors.

We understand Mr. Wolff, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to human health and happiness.

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing IRON, SULPHUR, AND PHOSPHOROUS, and which is identical in its composition with the Himatic Globule, or red blood. In all diseases accompanied with DEBILITY, pale countenance and nervous derangement, analyses of the blood show a dediciency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and counts. nance,—which evinces a deficiency of the red globules—accompanies a diseased organism. Preparations of IRON have been given for the purpose of supplying the red globules, but we coutend that IRON alone, SULPHUR alone, or PHOSPHOROUS slone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the BLOOD FOOD, and its discovery ranks as one of the most scientific and important of the age. Its effects in
