IF HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the real, and viswe tin tous light it may be looked ou as a sa eguard intended to give notice of disease which might therwise escape attention, till too late to be remedied; and it indicatio is should never be neglect d. Head. aches may be cla-sided under two names, viz : Symptomstic and bliop this Symptomatic leadache is exceedingly commonand a the precursor o a great variety of diseases, among which are Apoplexy, dout, 8h umatism and all febrire diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headacne, of henatic dise se constitut ng bilinus heanache, of worms, constinution and other disorders of the bowels as well as renal and uterioe effections. Diseases of the heart a e very requestly then led with H-a aches; A .æmia and plet ora are also affections which frequently occasi n headsche.-Iniopathic II at tache is also wely common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a State of apparently sound health and pros ratius at ouce the neptal and physical energies. and in oth r instances it comes on slowly, heralded by depression of spirits or accrebity of temper. In most instan ces the pain is in the front of the head, over one or both eyes, and sometimes prov. king vomiting; under this class may also be named N. strutgua.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

#### Constipation or Costiveness.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little unier too d, and so much inglected as Co tiveness. Often originating in carelessness or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of man, of the most fatal and dangerous desases, and unless early eradicated it will bring the inferer to an antimely grave. Among the lighter evils of which costived as is the usual attend in are Heada he, (olic, Rheumatism, Foul Breath, Files and others of I ke nature, while a long train of frightful diseases such as Malignant Fevers, Absenses, Desenbery, Dierboard, Dyspepsia, Apoplexy, Epitepsy Paralysis, Hyster at Hypochondriasis, Metaucholy and Insanity, first indicate their presence in the system by this alarmin, symptom. Not un requently the diseases named originate in Tonstipation, but take on an independent existence, mless the cause is eradicated in an arrly stage. From all these considerations it fellows that the disorder should receive immediate attention when eye, it occurs, and no person should neglect to get a box of Cepinalle Pilts on the first appearance of the complaint, as their timely use will exped the insidious approaches of disease and destroy this dangerous foe to human life.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of als celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from to al loss by this valuable invention. Having made his older a household word, he now proposes to do the world still greater service by curing all the aching heas with his Cephalic Pills, and if they are as good as his Glue, Head-aches will soon wants away like snow in July. Glue and it is estimated that each hottle saves at least ten aches will soon vanish away like snew in July

RESTORING THE BALD AND GRAY.

THE BALDAN DGRAY.

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Professor Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

BATH, Maine. April 18, 1859.

PROF. O J. WOOD & Co.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and else where, has given rise to numerous enquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much trand in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely imitated, and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my ever, and nutureus may examined it with surprise, as I am now of years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair t ken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful: I gave it to my friends and thereby induced them to trust warm was proposed to the state of the state. grateful: I gave it to my friends and thereby induced them to try it; many were skeptical until after trial, and then purchased and used it with universal succ ss. I will ask as a lavor, that you send me a test by which I can discover fraud in the kest-rative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty, as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquire of me of my unshaken opinion of its valuable results.

AARON'S RUN, Ky., Nov. 20, 1858.

PROF. O. J. WOOD: Dear Sir:—I would certainly be doing you a great injustice not to make known to the world, the wonderful as well as the unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Hair Restorative Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was I will therefore take occasion to recommend this invaluable remedy to all. who may feel the necessity of it. Respectfully yours, REV S. ALLEN BROCK.
P. S.—This testimonial of my approbation for your valuable medicine (as you are sware of) is unsolicited; but if you think it worthy of a place among the rest, insert if you wish; if not destroy and say nothing.

# D MOTT'S CHALYBEATE RATIVE PILLS IRON.

An apericat and Stomachic preparation of IRON puri-fied of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no pre-paration of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case. An aperient and Stomachic preparation of IRON puri-

onceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Appections, Emaciation, Dys-PEPSIA, CONSTIPATION, DIARRHERA, BYSENTERY, INCIPIENT CONSUMPTION, SCRCFULOUS TUBERCULOSIS, SALT RHEUM,

CONSUMPTION, WHITES, CHLOROSIS. LIVER COMPLAINTS, CHRONIC HEADACHES, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &C. In Cases of General Debility, whether the result of

PIMPLES ON THE FACE, &C.

In Cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description or written attestation would render credible. Invalids so long bed ridden as to have become forgothen in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent majamus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinute cases of contiveness, without ever being a gustric purgative, or inflicting a disagreeable sensation.

It is this letter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In DYSPERSIA, innumerable as are its causes, a single box of these Chalybeate Fills has eften sufficed for the most habitual cases; including the attendant Costiveness.

In unchecked Diarrica, seven when advanced to Dysrn Terry, confirmed, emaciating, and apparently malignant the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incirent Consumerton, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scroylous Tuberculosis, this medicated iron has

I beg leave to call the attention of the citizens of the
United States to the above Wines and Liquors, imported by Underhow Wolfe, of New York, whose name
is familiar in every part of this country for the purity
of his celebrated Schiedan Schafps. Mr. Wolfe, in
his letter to me, speaking of the purity of his Wines
and Liquors, says: "I will stake my reputation as a
man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and
Wines which I bottle are pure as imported, and of the
best quality, and can be relied upon by every purchaser."
Every bottle has the proprietor's name on the wax, and
a fac simile of his signature on the certificate. The
public are respectfully invited to call and examine for
themselves. For sale at Retail by all Apothecaries and

Enermous Business for one New York Merchant.—
We are happy to inform our fellow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality.
We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit UDOLPHO WOLFE's extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases—Vintages of 1836 to 1856; and ten thousand cases of Madeira, Sherry and Port Wines, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wines, &c. in casks, under Custom-House key, ready for bottling. Mr. Wolff's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years ne may be equally successf with his Brandies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their criers direct to Mr Worfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Liquors.

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing IRON, SULPHUR, AND PHO-PHOROUS, and which is identical in its composition with the Hemain Globule, or red blood. In all diseases accompanied with DEBILITY, pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a deficiency of the red globules. A companies a diseased organism. Preparations of likin have been given for the purpose of supplying the red globules, but we contend that IRON alone, SULPHUR alone, or PHOSPHOROUS alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to it normal standard. This point, never before attained, has been reached in the BLOOD FOOD, and its discovery ranks as one of the most scientific and important of the age. Its effects in age. Its effects in
