LOCAL BILL PASSED .- The bill authorizing the Commissioners of Dauphin county to borrow money was taken up in the Senate on Monday afternoon, and passed finally.

Republiation .- The commissioners of the county yesterday refused to pay the Mayor's, justices' and constables' fees for the arrest and commitment of vagrants. They are either acting in bad faith igainst a plain law, or under bad advice, let it ome from where it will.

STATE CENTRAL COMMITTEE .- A meeting of the Democratic State Central Committee will be held in the Supreme Court Room this afternoon, at 3 'clock. A large, if not a full turn out, of the members is expected. A large number have already arrived, and many are expected by the trains at noon to-day.

AN EXPENSIVE SUIT FOR TWENTY CENTS .- Mr. David Phillips has just recovered a verdict of six ents from Mr. Michael Martin, a conductor on the Indson River Railroad, for ejecting him from the ars in consequence of a refusal to pay his fare. 'he original sum in controversy was but twenty ents, and already the costs of the suit have eached \$1,000. The case is to be appealed.

SEDATIVE PILLS .- The following is the formula f the most efficacious of pills in the sleeplessness f hypochrondiacs and hysteric persons, and indeed fall persons suffering from nervous affections : Asafestida, one dram; sulphate of morphia, three rains; into thirty pills, one or two at bed-time. rom two to four of these pills daily are of great se in relieving the dry cough to which nervous comen with irregular menstruation are liable.

RUN ON THE SAVINGS BANKS .- Rumors from Philadelphia yesterday, stated that there was a general run on the savings institutions of that city. So much for attempting to get an act smuggled through the Legislature compelling depositors to give three months notice before they can draw out mounts over \$100. Before the bill becomes a law, few, if any, of them will have any deposits

Col. Andrew Horkins .- We had the pleasure of taking by the hand yesterday our old friend Col. A. Kopkins, the founder of the Harrisburg PATRIOT, and at present editor of the Erie Observer. During his brief stay he called upon many of his old acquaintances, who were right glad to get a glimpse of his jovial countenance again. He tells us that he is pleased with his new location, and expects to live for some time to come in Eric.

ARREST OF A DESERTER .- Yesterday evening Chief of Police Radabaugh arrested a deserter from Uncle Sam's rendezvous, the Carlisle Barracks, named Bigler Jerome Montgomery, and put him in the lock-up. The order for his arrest was issued by Major Graham, and brought over by private Van Horn. Mr. Montgomery will be very likely to go back to the place from whence he came by the first Cumberland Valley train that leaves this

LACKAWANNA AND BLOOMSBURG R. R .- At an election held by the stockholders of this company, on Monday, the 14th, the following officers were

President-Col. C. F. Wells, of Athens. Directors—Wm. Swetland, Wm. C. Reynolds, D. G. Driesbach, E. M'Neil, John Brinbin, Moses Taylor, Wm. E. Dodge, John I. Blair, Thos. F. Atherton, Joseph H. Scranton, N. Clapp and H. Gay-lord.

Dr. Clarence H. Frick, of Danville, died at his residence, in that borough, on Monday morning lat. The American says!

Dr. Frick had labored under disease contracted Mexico ever since his return from that country, at the close of the war. He went with the Colum bis Guards from this place, as Lieutenant, and on the death of Capt. Wilson succeeded to the command. He was a brave officer, and was much beloved by his brethren in arms. He leaves a wife, teveral children and a large circle of relatives and friends, to mourn his departure.

BEFORE THE MAYOR.—Leonard Wilt, William Smith, Ohed Miller, John Becker, Michael Smith, and Phillip Otto, were turned out of the lock-up, where they had sought refuge, yesterday morning. They were all working their way by easy stages to the east, and all of them mechanics-one brewer, another a cabinet maker, a third an upholsterer, and one of them a shoemaker, on his been out of work for a long time, and expressed a willingness to do almost anything to keep soul and body together.

An English Bailway Invention for Stopping BAILWAY CARS .- Mr. James Higgin, of Manchester, England, has brought before the public au in-Ventien for controlling railway trains that he assames will do away with the use of the common brake now used. The wheels of the cars are made without flanges, and of a great diameter; the bodies of the cars are only about four inches above the rails; the parts of the cars immediately above the rails are provided with plates of iron, with projecting flanges at one or more parts fitting within the rails, such projecting flanges serving the purpose of the flanges now used on the wheels. When it a desired to stop the train, the cars are lowered bedily, by means of shafts, wheels and screws, or Other equivalent devices, to bring the places above

telerred to on the rails. The locomotive, tender and cars are connected by shafts to suitable couplings, and the gearing for lowering the carriages on to the rails is brought within convenient reach of the engine-driver and of the conductor or other appointed person on the train. The cars are lowered and raised clear of the rails by an auxiliary steam-engine or other convenient machinery. In case an axle should break, or other accident occur, to bring one of the cars suddenly to the rails, the apparatus for lowering the other cars is instantly and automatically brought into operation by means of a spring or itetion apparatus, which is acted upon by the in-

OIL ITEMS .- Some tall stories are told of oil in the vicinity of Parkersburg, Va. It is stated that on one tract of land, near that place, one and a half miles long, there are three oil wells in operation, one of which, the "Rathbone," yields three hundred barrels per diem. It takes one hundred and thirty coopers to keep it in barrels. One other yields forty-nine barrels daily, and another twenty; two others are ready for their engines, and are assured of a generous yield of oil. The last well finished is owned by Mr. Lewellen. At the depth of one hundred feet two inches he struck a vein of oil, which forced his boring tools out of the well. Then followed a stream of oil the full size of the orifice, three and a half inches, and it was forced into the air full fifteen feet. Two workingmen seized a plank, and endeavored to cover it, but the oil forced it out of their hands. They finally took the sinker, and wrapping it with rags, forced it in the orifice, and weighed it down. This well, without pumping, will yield a barrel of oil a minute.

The last number of the Franklin Citizen contains the following: "A fountain well was opened on the Buchanan farm, on Saturday week, which has thrown Oilville and the mouth of Oil Creek generally into a feverish state of excitement. It yielded during the first week, without the aid of a pump, about 550 barrels of oil, about 25 or 30 of which were wasted before the well became manageable.— Curtis & Co., the fortunate proprietors, have certainly made a grand strike.

The Knapp well, near it, again overflowed. on Friday last, and threw out some 50 barrels before it stopped. The Wadsworth well, also, started another overflaw on Friday night, and on Saturday was still yielding at the rate of about forty or fifty barrels in twenty-four hours. It flowed in waves, or regular pulsations, at intervals of about five seconds. The blowing of this well was as strong, and loud as blowing off of steam on a steamboat, and could be distinctly heard half a mile. Indeed. this entire section seems to have been recently visited by an oil-quake of great severity. An eyewitness vouches for the truthfulness of these ac-

FAMILY ESTIMATES .- While there are families in which there exists a preposterous over-estimate of the talents and acquirements of their several members, there are other families in which the rifle bullet has glanced off in the opposite direction, and in which there exists a depressing and unreasonable under-estimate of the talents and acquirements of their several members. I have known such a thing as a family in which certain boys, during their early education, had it ceaselessly drilled into them that they were the idlest, stupidest and most ignorant boys in the world. The poor little fellows grew up under that gloomy belief that they are very bad. At length, happily, they went to a great public school; and, like rockets they went up forthwith to the top of their classes, and never lost their places there. From school they went to the University, and there won honors more eminent than had ever been won before. It will not surprise people who know much of human nature to be told that through this brilliant career of school and college work the home belief in their idleness and ignorance continued unchanged, and hardly at its end was the toil-worn senior wrangler regarded as other than an idle and useless blockhead. Now, the affection which prompts the under-estimate may be quite as real and deep as that which prompts the over-estimate, but its manifestation is certainly the less amiable and pleasing. I have known a successful author whose relatives never believed, till the reviews assured them of it, that his writings were anything but contemptible and discreditable trash.

MASONS ON THE CRISIS.—The Masonic fraternity of New Albany, Ind., held a meeting on the 15th. and addressed a long letter to their brethren throughout the Union. The whole letter breathes but one sentiment -that of love for the Union .-From it we make the following patriotic extract:

The influence of love is potent, and a Mason's love, knowing no East, no West, no North and no South, can it not—ought it not—be used, and used successfully, in removing the difficulties by which we are environed, and bringing together, as brethren, those who now are at variance with each other? The glorious structure of our Government was raised by men, many of whom we, as Masons, have delighted to call brothers. He who was first in war, first in peace, and first in the hearts of his countrymen, we hail by the endearing appellation, Brother George Washington; and shall we not use some exertion, make some sacrifices, grant some concessions, and use every means of conciliation in preserving and perpetuating that to the formation of which our illustrious brethren pledged, their lives, their fortunes and their sacred honor? As Masons, we have been charged "to be true to our government and just to our country," and shall we not use all our influence to see every just cause for discontent removed, that united, free and happy, "E Pluribus Unum" may steadily advance in civil. ization, and all the blessings which flow from amity and concord.

Let our motto, then, brethren, as Masons, be "concession and conciliation," in a spirit of bro-therly love, asking nothing but what is constitutionally right, submitting to nothing that is wrong; but wishing to surrender everything but honor and constitutional rights for the safety and preservation of our beloved Union.

ANGRY LETTERS .-- An angry letter is much flercer than an angry speech. There the words remain scorching, not to be explained away, not to be atoned for by a kiss—not to be softened down by the word of love that may follow so quickly upon spoken anger. This, at least, should be a rule through the letter-writing world, that no angry letter be posted till four-and-twenty hours shall have elapsed since it was written. We all know way to Lynn: All of them complained of having | how absurd is that other rule of saying the alphabet when you are angry. Trash! Sit down and write your letter; write it with all the venom in your power; spit out your spleen at the fullest; it will do you good. You think you have been injured; say all that you can say with all your poisoned eloquence, and gratify yourself by reading it while your temper is still hot. Then put it in your desk; and, as a matter of course, burn it before breakfast the following morning. Believe us, that you will then have a double gratification.

> AN UNPAVORABLE SEED TIME IN ENGLAND.—The London correspondent of the National Intelligencer under date of Dec. 13, writes:

To the short comings and losses occasioned by a bad harvest has succeeded a very unfavorable seed time. The long continuance of wet weather has caused wheat-sowing operations to be almost entirely suspended, until the best season for that important business is fast passing by. This makes the prospect of the next harvest almost as bad as that of the present year. This would be a grie-vious affair for both growers and consumers. It is almost generally admitted that the product of the last harvest fell one-third below an average. The general climate of England has been, during the year 1860, very much like that which the High Peak of Derbyshire is said to be favored with-"nine months' rain, and three months' damp wea-

ther." MEN AND ANIMALS .- How superior are men in intellectual and moral qualities to the animal creation! For example, let a bird discover a store of seeds or fruits, and the foolish thing goes and tells: of his good fortune, and all the birds in the neighborhood flock to enjoy it. Even a little ant will bring his whole tribe to feast upon a newly distreased friction produced. The said enring or covered dainty: But let a man discover a mine of friction apparatus may also be in connection with, gold, or any kind of valuable treasure, and he will the starting lever of the locomotive, to shut off the respect to himself as long as possible, and take the start at the same time. proatest care to conceal at from others.

THE ULTIMATUM OF SOUTH CAROLINA.—South Carolina has laid down an ultimatum that will hardly be complied with, or that if complied with, will searcely afford satisfaction to her sister States. The fact is, every day seems to complicate political matters, and many people have determined to cease racking their brains for a remedy for a disease racking their brains for a remedy for a disease racking their brains for a remedy for a disease it is peculiarly and a speedy cure may be relied on. RELIEF AND HEALTH TO YOUR INFANTS. We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, and CAN SAY, IN. CONFIDENCE AND TRUTH 6114, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO. EFFECT A CURE, when thindy used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten y ars experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is CLARE. In almost every instance where the infant is in fifteen or twenty minutes after the syrup is adminis

tered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in the most EXPERIENCED and SKILLFUL NURSES IN New England, and has been used with NEVER PAILING SUCCESS IN

THOUS AND SOF CASES.

It not only relieves the child from pain; but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will all the child store that the state of the store and energy to the whole system.

nost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily reme-died, end in death. We believe it the BEST and SUREST REMEDY. IN THE WORLD, in all cases of DYSEN-TERY and DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PRE-JUDICES, NOR THE PREJUDICES OF OTHERS, stand between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used.
