THE AMALGAMATION OF LANGUAGES .- There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to in organte them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in cinnection with Mr. Spalding's great Headache remedy, but it will soon te used in a more general way, and the word Cephali; will become as commonas Electretype and many others whose distinction as foreign words has been worn away by common usage until they seem "native a to the manor born."

IF HEADAGHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a sateguard intended to give notice of disease which might (therwise escape attention, till too late to be remedied; and it indications should never be neglected. Head. aches may be classified under two names, viz : Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, onstipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Aræmia and plethora are also affections which frequently occasion headache .-Idiorathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a State of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instan ces the pain is in the front of the head, over one or both eyes, and sometimes proveking vomiting; under this class may also be named Neuralgia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relicving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the merring index.

#### Constipation or Costiveness. No one of the "many ills flesh is heir to" is so prevalent,

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Co diveness. Often originating in carelessness or sedentary habits; it is regarded as a alight disorder of too little consequence to exoite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which contiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of i ke nature while a long train of fr ghtful diseases such as Malignant Fevers, Abcesses, Dysentery, Diarrhoza, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hyprehondriasis, Melaushely and Instaity, fast indicate their presence in the system by this alarmin, symptom. Not un requently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

TWENTY MILLIONS, OF DOLLARS SAVED .- Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus mak gate of twenty millions of dollars reclaimed from to al loss by this valuable invention. Having made his dilue a household word, he now proposes to do the world still greater service by curing all the aching heal's with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

IFOVER EXCITEMENT, and the mental care and anxiety incident to the close attention to business or study, are among the numerous causes of Nervous Headachs. The disordered state of mind and body incident to this distressing complaint is a futal blow to all energy and ambition.—Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiet the over-Fills whenever the symptoms appear. It quiets the over-tasked brain, and soothes the strained and juring nerves, and relaxes the tension of the stomach which always ac-companies and aggravates the disordered condition of the brain.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of Heddache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

RESTORING THE BALD AND GRAY

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Professor Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

BATH, Maine, April 18, 1859.

PROP. O. J. WOOD & Co.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given riss to numerous enquiries touching the facts in the caso. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; the faces my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when it care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely imitated, and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair tiken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful: I gave it to my friends and there

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In cases of GENERAL DEBILITY, whother the result of
acute disease, or of the continued diminution of nervous
and muscular energy from chronic complaints, one trial of
this restorative has proved successful to an extent which
no description or written attestation would render credible.
Invalids so long bed-ridden as to have become forgotten in
their own neighborhoods, have suddenly re-appeared in the
busy world as if just returned from protracted travel in a
distant land. Some very signal instances of this kind are
attested of female Sufferers, emaciated victims of apparent
manasmus, sanguineous exhaustion, critical changes, and
that complication of nervous and dyspeptic aversion to air
and exercise for which the physician has no same.

maiasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanenta remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspersia, innumerable as are its causes, a single box of these Chalyleate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrence, even when advanced to Dysen tent, confirmed, emaciating, and apparently malignant the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incircust Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrovelous Tubercoulous, this medicated iron has had far more than the good effect of the most cantiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheunatism, both chronic and inflammatory—in the
latter, however, more decidedly—it has been invariably well
reported, both as alleviating pain and reducing the swellengs and stiffness of the joints and muscles.

In intermittent fevens it must necessarily be a great
remedy and energetic restorative, and its progress in the
new settlements of the West, will probably be one of high
renown and usefulness.

No remedy has ever been discovered in the whole history
of medicine, which exerts such prompt, happy, and fully
restorative effects. Good appetite, complete digestion,
rapid acquisition of strength, with an unusual disposition
for active and cheerful exercise, immediately follow its use.

ALL IN BOTTLES.

I beg leave to call the attention of the citizens of the United States to the above Wines and Liquors, imported by Undleho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schiedam Schapps. Mr. Wolfe, in his letter to me, speaking of the purity of his Wines and Liquors, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves. Engranous Business for one New York Courier:

We are happy to inform our fellow-citizens that there is one place in 'our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the bestquality. We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit Udolpho. Wolff's extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos 17, 19 and 21, Marketheld street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases—Vintages of 1836; and ten thousand cases of Madeira, Sherry and Port Wines, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wines, &c. in casks, under Custom-House key, ready for bottling. Mr. Wolff's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successf with his Brandies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orlers direct to Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe, for the accommodation of Wolfe.

We understand Mr. Wolfe, for the accommodation of we understand Mr. Wolffs, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of op-ponents in the United States, who sell nothing but imi tations, ruinous slike to human health and happiness. The attention of Invalids, Physicians, Clergmen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing IRON, SULPHUR, AND PHOSPHOROUS, and in its composition with the Hamiltonian in the composition with the composition with

In all diseases accompanied with DEBILITY, pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a deficiency of the red globules,—accompanies a diseased organism. Preparations of IRON have been given for the purpose of supplying the red globules, but we contend that IRON alone, SULPHUR alone, or PHOSPHOROUS alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the BLOOD FOOD, and its discovery ranks as one of the most scientific and important of the age. Its effects in
