THE ANALGAMATION OF LANGUAGES .- There is a growing endency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in cinnection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electretype and many others whose distinction as foreign words has been worn away by common usage until they seem "native a to the manor born."

IF HEADACHE is the favorite sign by [which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remelied; and its indications should never be neglected. Headaches may be classified under two names, viz : Symptomatic and Idiopathic. Symptomatic Ucadache is exceedingly common and is the precursor of a great variety of diseases among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Anæmia and pletbora are also affections which frequently occasion headache .--Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a State of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instan ces the pain is in the front of the head, over one or both eyes, and sometimes proveking vomiting ; under this class may also be named Neuralgia.

For the treatment of either class of Headache the Ce phalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

BRIDGET.—Missus wants you to send her a box of Cep-halic Glue, no, a bottle of Prepared Pills—but I'm think-ing that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as

the Bick Headache, and wants some more of that mame as related her before. Druggist — You must mean Spalding's Cephalic Pills. Bridget — Och ! sure now and you've sed it, here's the quarther and giv me the Pills and dont be all day about it althet.

## **Constipation or Costiveness.**

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Oostiveness. Often originating in carelessness or sodentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerons dis-eases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are 'Headsche, Colic, Bheumatism, Foul Breath, Piles and others of 1 ke nature, while a long train of frightfal disenses such as Malignant Fevers, Abuesses, Dysentery, Diarrhoca, Dyspepsia, Apo-plexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not un'requently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention when-ever it occurs, and no person should neglect to get a box No one of the "many ills flesh is heir to" is so prevalent ever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

### A Real Blessing.

Physician-Well, Mrs. Jones, how is that headache ? Mrs. Jones- Gone ! Doctor, all gone ! the pill you sent cured me in just twenty minutes, and I wish yoı would send more so that I can have them handy. Physician.-You can get them at any Druggists. Call for Oephalic Pills, I find they never fail, and I recommend them in all cases of Headache. Mrs. Jones -I shall sent for a box directly, and shall tell all my suffering friends, for they are a real dissing.

TWENTY MILLIONS OF DOLLARS SAVED .--- Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggre-gate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the sching heads with his Opphalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, con-taining IRON, SULPHUR, AND PHOSPHOROUS, and which is identical in its composition with the *Hematic Globule*, or red blood. In all diseases accompanied with D E B I L I T Y, pale countenance and nervous derangement, analyzes of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indica-tive of health; while a pale, wax-like skin and counte-nance,=which evinces a deficiency of the red globules,— accompanies a diseased organism. Preparations of IRON have been given for the purpose of supplying the red glo-bules, but we contend that IRON alone, SULPHUR alone, or PHOSPHOROUS alone, will not meet the deficiency in every case, but that a judicions combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the BLOOD FOOD, and its discovery ranks as one of the most scientific and important of the age.
