WORTHY OF ANY CONFIDENCE FOR

THEBALDANDGRAY.

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Professor Wood's preparation, and have been forced to leave the field to its resistless swy. Read the following:

BATR, Maine, April 18, 1859.

PROF. O. J. WOOD & CO.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and else where, has given rise to numerous enquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thirty, and better colored; the same is frue of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by whiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely imitated, and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottels last summer, for

CHALYBEATE RESTORATINE PILLS OF IRON Awaperient and Stomachle preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen, Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their

practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depressien of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case,

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diabrhera, Dysenter, Incipient Consumption, Screetulous Tuberculosis, Salt Rufer, Misminstrulation, Whites, Chlorosis, Lyver Complaints, Chronic Headaches, Rhedwatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description or written attestation would reader credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Bufferers, emaciated victims of apparent manasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nexvous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation. Entit is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspersia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

to this remedy and restorative, in the cases peculiarly at fecting them.

In RHSUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, with probably be one of high remown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disponition for active and cheerful exercise, immediately follow its us.

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing IRON, SULPHUR, AND PHOSPHOROUS, and which is identical in its composition with the Hematic Globule, or red blood. In all diseases accompanied with DEBILITY, pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a deficiency of the red globules,—accompanies a diseased organism. Preparations of IRON have been given for the purpose of supplying the red globules but we content that IRON alone, SULPHUR alone, or PHOSPHOROUS alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the BLOOD FOOD, and its discovery ranks as one of the most scientific and important of the age. Its effects in

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The BLOOD FOOD will be found a specific in all CHRONIC DISEASES of the THROAT or LUNGS, such as Asthma, Bronchitis, Coughs, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrotula, Gravel, St. Vitus' Dance, Pever and Ague, &c., its efficiency is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as is those harrassing those harrassing FEMALE COMPLAINTS
