

LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market streets.

PATRIOT AND UNION.—The DAILY PATRIOT AND UNION can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRANK.

THE MAILS.—Under the change of schedule on the different railroads, the time of closing the mails at the Harrisburg Post Office, December 1st, 1860, is as follows:

Pennsylvania R. R. East—7 a. m.—way mail, 3.50 p. m., 9 p. m. West—6.30 a. m.—way mail, 3.50 p. m., 9 p. m. Northern Central R. R. South—12.15 p. m.—way mail, 9 p. m. North—1 p. m.

BY STAGE.

7 a. m. to Gettysburg, on Tuesday, Thursday and Saturday. 7 a. m. to Jonestown, on Monday, Wednesday and Friday. 1 p. m. to Lewisberry, on Saturday.

CORRECTION.—We are requested to state that Major John Brady will be supported for Councilman by the citizens of the Fourth ward.

IRON CARS.—At one of the machine shops in Philadelphia patterns are in course of preparation for a model iron passenger railway car.

REVIVAL.—It is said that more sinners are now seeking Abraham's (Liscoln) bosom than have been for on the anxious seat for some years.

LOOK OUT FOR THEM.—We learn that a number of counterfeit half dollars were passed in the market house on Wednesday morning. They are well executed, and liable to deceive some of the best of judges.

IT FLOATS ON HIGH.—In the absence of the "Star Spangled Banner," and the members of the Legislature, we have now floating from the dome of the Capitol the swallow-tail pennant. The abbreviation does not suit many of our citizens, and we learn that a project is now on foot to raise a subscription, purchase a flag, and mail it to the mast.

NOR A FULL PARDON.—It appears that many of the papers were led into an error in stating that a full pardon had been granted to Judge Vandersmith by Mr. Buchanan. The term of imprisonment was commuted from twenty years to three years, and the fine is not remitted. Under the terms of this commutation the imprisonment of Judge Vandersmith will cease in May, 1862.

PENNSYLVANIA RAILROAD ELECTION.—The annual election for Directors of the Pennsylvania Railroad was held on Tuesday at the office of the company, and resulted in the re-election of the old Board of Directors, viz:—Messrs. J. Edgar Thompson, Washington Butcher, William R. Thompson, Josiah Bacon, Thomas Mellon, John Hulse, G. D. Baugartner, Wistar Morris, G. W. Cass, Pittsburg; W. H. Smith, Pittsburg.

SCENIC.—Last night several flocks of wild geese passed over the city; their direction was northward, and their cackling somewhat astonished persons on the street. Their flight northward is an indication that the cold weather in this latitude has passed for the present season. The geese flew exceedingly low, and had their migration occurred in the daytime, sportsmen would have had a good time in shooting at them.

THE SPRING ELECTION.—The time is approaching when it will become necessary for our patriotic citizens, who wish to serve their country, to make a plunge, present themselves, and let the people know, through the columns of the PATRIOT AND UNION, that they are ready and willing to serve their country for a compensation. Can we not have a high old time at the next spring election? Come out you zealous patriots and ambitious candidates, and let us see your advertisements, (accompanied with the cash.)

A MURDER.—One of the occupants of the lock-up, on Tuesday night, was a genius in his own way. He was not only a revolver, but a circulator. He borrowed from Peter to pay Paul. The gentleman carried a small slate in his pocket, which he frequently made use of when addressing our citizens and soliciting alms. Mayor Kepner took pity upon the unfortunate individual, (as he supposed,) and discharged him. Shortly after he was found in a room—himself freely indulging in very large potatoes of the extract of corn.

THE LATEST COUNTERFEITS.—Kennedy's Bank Review keeps the public well informed of the appearance of all new frauds on our paper money. From a slip furnished us we notice a new \$2 altered bill on the Bank of New England, Conn. Vig:—Horses and wagon—Washington on right and female bust on left end. Also, \$10's altered from \$1's, on the Continental Bank, Providence, R. I.; Vig:—steamship at sea. Also, a \$3 altered bill on the Saybrook Bank, Conn.; Vig:—a group of females reclining; shield and spread eagle—bust of Franklin on left end.

SUICIDE AT CARLEISLE BARRACKS.—A soldier at Carlisle Barracks, named John Rich, cut his throat on Tuesday morning last with a razor, and was found dead. His bunk-mate stated that Rich for some days appeared melancholy, the effect he thought of some family trouble, but had not given any intimation that he intended to kill himself. He had served a previous enlistment of five years, and it is said, the day before the occurrence he handed over to his bunk-mate about \$100 in gold, to be sent to his grandfather, James Thompson, of New York.

DEATH OF A SOLDIER IN THE MEXICAN WAR.—Joseph W. Briggs, Esq., formerly of Carlisle, died at his residence in Sullivan, Indiana, a few days since. He was born in Cumberland county in 1811, graduated at Dickinson College, and was admitted to practice as an attorney. He married Miss E. A. Clippinger, of Shippensburg, and settled at Carlisle, Indiana, where he entered into the mercantile business, and served also as Judge of Probate, and a member of the Legislature. When the Mexican war broke out, he took command of a company of volunteers, and was wounded in the battle of Buena Vista. He never recovered from the effects of the Mexican climate, and to this may be attributed in part, his early death.

THE LOCK-UP.—This institution on Tuesday night contained no less than seven lodgers, the majority of whom were arrested for being drunk and disorderly. The entire party being short of funds were furnished with lodgings for the night, and received a reprimand from the Mayor in the morning, when they were discharged. The names of the occupants of the Tombs are as follows:—Wm. Johnson, from the British dominions; John Myers, native and to the manor born; Edward Miley, an emigrant from the Gem of the Ocean; John Brown, once a resident of Maine, but recently from the Southern Confederacy; John Saylor, never knew where he was born; Joseph Presby, was Irish decidedly, and John Horel, would have taken more men and more brains than was ever concentrated in the Peace Congress to tell where he did come from.

DIPHTHERIA AN OLD VISITOR IN NEW ENGLAND.—The throat disease, now known as diphtheria, is said to be an old disease with a new name. The word is from a Greek word signifying skin, and should be spelled diphtheria, and not, as it usually is, diphtheria. The disease visited this country as long ago as 1737, and raged with great violence. We find, says the Portland Transcript, in Parson Smith's Journal, frequent notices of its ravages in this region. Under date of October 31, 1737, he says a fast was held on account of this throat distemper. It was an epidemic, and commencing at Kingston, N. H., spread through New Hampshire and Massachusetts, and was two years in reaching the Hudson river. In New Hampshire not less than one thousand persons fell victims to this malignant distemper, and in Boston four thousand persons had the disease, and one hundred and fourteen died. In May, 1737, Parson Smith mentions that seventy-five had died of it in this town. Under date of October 13, 1737, he says—"This is still bad at Scarborough. No one has lived that has had it of late." It was the most fatal scourge that ever visited New England, and rapidly carried its subjects to the grave; the throat swollen, became covered with ash-colored specks, great debility and prostration ensued, with putrefaction. Under the improved methods of treatment of the present day, it is less fatal.

THE MANUFACTURE OF ICE.—This is a subject which possesses less interest at the present time than it will have, let us hope, a few months later. Nevertheless, a very ingenious discovery, by M. Carre, of a method of obtaining it, by a simple process, in the hottest summer, deserves attention. He takes two strong iron bottles, connected together with an iron pipe, and nearly fills one with a concentrated solution of ammoniacal gas in water. After connecting the bottles together, and making the joints secure, the one containing the ammonia is put over a fire, whilst the other dips into water. The action of heat upon the ammonia drives off the gas, which, not being able to escape, condenses under the enormous pressure in the other bottle as a liquid. When this is effected, the bottle is removed from the fire and cooled, whereupon the ammonia in the second vessel rapidly assumes a gaseous form, and abstracts so much heat from the water by which it is surrounded as to freeze a considerable quantity. The operation may be repeated without disconnecting the retorts, until a sufficient amount of water is frozen. Ice made in this way is said not to cost more than ten cents a hundred weight.

MECHANICS.—Mechanics, notwithstanding the fashion of the world—being considered aristocracy to put on airs and turn up their noses at the idea of associating with them, are beginning to be valued at what they are worth, as all men should be, and if they do not attain position in society, and in the world, it is not because they are mechanics. If they do not conduct themselves in a manner to be worthy of it, they have no right to expect it. The learned professions are so crowded that it takes a man of more than ordinary talent to acquire any more than a competency. Men are beginning to train their sons, and very properly, for other things beside law and medicine. And we find young men who have received the advantages of a liberal education turning their attention to mechanism; as more likely to secure their independence. That man shall work is a decree from Heaven, and that a man who works for a living is not entitled to as much respect as the man who gets a living without working for it, is an idea which, if it ever existed, is fast vanishing from the minds of men.

PAPERING ROOMS.—The Scientific American remarks that many lives have been lost from the laziness or ignorance of paper hangers, who have laid one paper over another, instead of tearing off the old before hanging the new. There is a very handsome house near one of our best provincial towns, which could never keep its tenants. At last, it stood empty, and became worthless, because infectious fever seized upon every family that lived in it. A ready-witted observer promised the owner to find out the cause. He traced the mischief to one room, and presently conjectured what was the matter there. He let a slip of glass into the wall, and found it, next day, dimmed with fetid, condensed vapor. He tore down a strip of paper, and found abundant cause for any amount of fever. For generations the house had been papered afresh, without the removal of anything underneath. And there was the putrid size and fermenting papers inches deep. A thorough cleaning put an end to the fever, and restored the value of the house.

THE CUMBERLAND VALLEY RAILROAD.—It will be remembered by our readers that in 1857 an act was passed by the Borough Council, compelling the officers of the Cumberland Valley railroad to station flagmen at the crossings of Second and Third on Mulberry street. This edict of our city fathers has never been obeyed, and it became the imperative duty of the Chief of Police to execute the ordinance and carry out the laws of our city authorities. Accordingly, officer Radsbaugh yesterday cited the officers of the road to appear before the Mayor and answer the charge of violating the ordinance passed June 21, 1857, in which they are required to station flagmen or watchmen at the corners of Second and Third streets on every occasion when the train passes. Several witnesses were called and examined, and the evidence went to prove that the company had violated the law. Judgment will no doubt be entered against them, and they will be compelled to pay the fine of eighty dollars, the amount of the penalty.

THE INAUGURATION BALL.—The inauguration ball, at Washington, last night, was a splendid affair. At eleven o'clock, the orchestra performed "Hail to the Chief," and President Lincoln entered, escorted by Mayor Berth. Senator Anthony came next, and then followed Mr. Douglas, escorted by Mrs. Lincoln. She wore a rich blue silk dress, with laces and diamonds. Judge Douglas was attired with unusual taste, having on a full dress suit, which he had obtained at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth, Philadelphia. On this occasion it was remarked that Mr. Benton's objection, that the "Little Giant's" coat-tail was too near the ground, was not valid.
