want to rent one, this is the time to advertise in the PATRIOT AND UNION. Forger ir Nor .- The Democratic citizens meet

this evening for the purpose of making their nominations for ward officers. Collection .- The carriers of the Patriot and

Union beg leave to say that they will, as usual, collect their dues this morning. THE Union Prayer Meeting will be held in the

noon, at 4 o'clock, as usual. THE POST OFFICE.-We hear it stated that Capt. J. B. Rutherford has been tendered and will accept

the position of Postmaster at Harrisburg. Notice.—The regular monthly meeting of the Harrisburg Typographical Union, No. 14, will be held this evening, at 7 o'clock, at the Citizen en-

B. F. Work, Sec'y. gine house. IRO QUOIS, ATTENTION.—The warriors attached to the Iroquois tribe No. 1, will assemble at the great council wigwam at 7 o'clock p. m. By order of the Sachem.

THE NEW MARKET HOUSE .- What has become of the new market house that was to be erected in town? Have the enterprising individuals who entered into the arrangement seceded or vamosed?

LARGE FUNERAL .- The funeral of Mr. Wm. Colder, Sr., was largely attended on Thursday afternoon, by a large concourse of friends and rela-

THANKS.-We are again under obligations to Mr. C. M. Shell for a pair of ducks. Corney will oblige us next time by bringing "canvass backs" instead of "divers."

SEND IN YOUR NAMES.—Persons in want of one of the most independent Democratic papers published in the State are requested to forward their names to this office at the earliest possible moment.

SPOKEN OF .- We learn that a company of minute men are about organizing in town, and the first meeting will be held sometime next week at the house of Mr. Gross, corner of Third and Wal-

truding, and are not only ugly to the feet, disagreeable to pedestrians, but decidedly annoying to citizens in general.

Mr. J. S. Royal, who was recommended as a candidate for Councilman in the Third ward, by a correspondent in our paper of yesterday, desires us to say that while he fully appreciates the friendly motive of the writer, he respectfully declines a nomination.

FIXING UP,-The proprietors of Independence Island are fixing up and preparing for the advent of the summer solstice. Gentlemen, with small change to spare, who wish to enjoy a pleasant trip, the cool shade, and a good time generally, will please take notice.

MESSRS. EDITORS:-Permit us to suggest the name of Daniel Harker as Councilman for the First ward. Mr. Harker is an old resident of the ward, and is known to be an honest, industrious and an enterprising citizen, and will make a good Coun-MANY CITIZENS.

BE ON YOUR GUARD.-To-day being market day. our readers should be on their guard and see that none of the sharpers are about circulating their bogus coins. A considerable quantity of the material was shoved on Wednesday last, and no doubt another effort of the same kind will be made to-day.

EXTREMELY DULL .- Aldermen, constables and other gentlemen, all complain of the dull times .--Individually, we are disposed to trust to luck, and stare fate in the face ; but, unless times get betterwe will be compelled to sesesh, locate on shad island or some other seaport.

ENERGETIC.—Our Chief of Police has been very energetic within the last few weeks in his endeavors to arrest the swarms of vagrants passing through the town. Many of these revolvers were located, and enjoyed the hospitality of the gay Daniel, and left the next morning rejoicing, returning innumerable thanks to Dan and Harry for their kind-

THE RAILROADS .- Forty-eight of the railroad companies of Pennsylvania, during the year 1860. have made full reports to the Auditor General of their condition. Twenty-six companies refused to report. Of the passenger corporations, nine made returns, in compliance with the law, and fourteen neglected or refused.

THE ICE BUSINESS.—The ice merchants have entered into the business with a gusto this season, and with one exception, we believe all the houses are filled. The prices will be greatly ruduced during the season, and our citizens will soon have an op portunity of enjoying themselves amazingly, provided they have the funds to pay for the smash or julep.

Dull Times .- Go where you will; ask who you may; and solicit whom you please for an advertisement; the only answer you get is, the times are too hard, and we can't spare money for advertising in the paper. Whether this has been brought about by "Old Abe" taking possession of the White House, or not, we are unable to saybut one thing we do know, times are not what they were once.

BENIGHTHD MESSINA .- The city of Messina, in Sicily, with a population of one hundred thousand, does not contain a single newspaper. If the people of that benighted region were in want of elegant and serviceable garments, they would have no newspaper to inform them that Rockhill & Wilson, at the Brown Stone Clothing Hall, Nos. 603 and 605 Chesnut street, above Sixth, Philadelphia, get up the most splendid suits in the world for the wear of gentlemen and youths.

Look to It in Tike. - Are we to be flooded with all serts of promisory notes and shinplasters, and have all kinds of spurious matter in circulation amongst our population? The Philadelphia Ledger, of a recent date, states that "it is understood that an effort will be made by parties interested in the country banks, on the re-assembling of the Legislature of this State, to procure the passage of a bill legalizing the issue of small notes. A proposition to allow the banks to charge 7 per cent. interest will also be urged. The latter is probably the thing most desired, but both parties will be asked, in order to have a margin for compromise. If one is refused the other may be granted. The 7 per cent. proposition we pass for the present, but thus early, and at once, denounce as unnecessary and wholly uncalled for, the issue of small notes. Whose interest or convenience is to be served by this retrograde movement in our currency? Not the public's, surely, for they are more profitably and more conveniently served by the use of specie, of which the supply was never more abundant than now .--Then why increase the use of paper, which was never more distrusted, and seldom more depreciated than it has been for the past three or four months? There being then no scarcity of coin, and altogether too much paper, as is proved by its depreciation, why do an act that will lessen the amount of the one in circulation, and increase and still more debase the other? For every paper dollar put in circulation a dollar in specie is withdrawn. It is a mistake sometimes made by super-Do Ir Now .-- If you have a house to rent, or ficial reasoners, that the lower the denomination of bank bills, the greater will be the volume of currency, falsely assuming that the small notes are additional to the specie already in circulation .-The issue of bank notes under the denomination of \$5, simply enables the banks, at the expense of the community, to increase their coin by exchanging the one for the other. The banks do not give out their notes for nothing—they always take the nominal value, dollar for dollor, in coin-and when the law forbids the use of the smaller denomina-Presbyterian Church, on Market Square, this aftertions of paper, they have no alternative but to pay out specie. This necessity on their part, keeps in free circulation a sound and reliable currency, one that never depreciates, and one that is known by all, passing as freely and as fully in one part of the Union as another. As no intelligent man considers a small bank note as desirable as a gold or silver dollar, no intelligent, honest man should favor the contemplated change of law authorizing

> the supplanting of the superior by the inferior. LLOYD'S MISSTREL'S .-- As will be seen by an advertisement in another column, this troups will give three of their unique entertainments, at Brant's City Hall, next week. The Philadelphia Press has the following in regard to this troupe:

Lloyd's Minstrels-Musical Fund Hall.-This popular and fashionable resort is nightly filled with admiring crowds to witness the performance of this great constellation of stars. We but repeat what every one says: "That this is the best and most perfect minstrel organization that has ever appeared in this city." Wambold, Bidaux, Schwicardi and Eastmead, form the vocal quartette, and should be heard by all lovers of good singing and harmony. The comic department is most ably represented by Charley Fox, Billy Birch, J. Andrews and Cool White. Master Albertini is a most excellent dancer and personator of female charac-The instrumental, under the direction of August Asche, is excellent, and the entire performance is of that refined and artistic school that cannot fail to please. They appear every evening this week. Go and see them.

ARE THE CAUSES OF DIPTHERIA AND CATTLE DIS-EASE IDENTICAL.—At the regular monthly meeting of the Philadelphia Agricultural Society, a member called attention to the fact that Dr. Grenough, in his recent work upon diptheria, notices the fact that this disease arises from the same source, or from the same primitive agency, as the complaint A REMEDY WANTED .- Many of the iron fixin's, | known as the cattle disease. The gentleman menor stop-cocks, on the pavement of our town are pro- | tioned the fact, hoping that the views and experi ences of the members of this Society would be called forth. Another member remarked that a case, or rather thread of facts, had recently come to his knowledge, occurring upon a neighbor's farm, where a number of laboring families lived closely together, as in a village. They were troubled seriously with the new disease, and eleven persons died. At the same time his neighbor notified him of the fact that he had lost a number of fine cows from the effects of the "cattle disease." and other animals were affected.

THE MAYOR'S POSITION .- Many persons are under the impression that the Mayor of the city does not possess all the power delegated to an Alderman This is an erroneous impression, and ofttimes makes people think that our Mayor is only a parient empowered to convict drunk and disorderly characters. Such is not the fact. His Honor has all the rights and privileges of an Alderman-to examine cases of every description, commit or discharge, at his option, all culprits, and otherwise act as other magistrates do. Many persons, not being aware of this fact, have been in the habit of bringing their criminal charges before an Alder man, supposing that it was necessary to do so; but such is not the fact. The Mayor has not only the authority, but the ability, to adjudicate all cases brought before him fairly, honestly and impartially.

BEFORE THE MAYOR .- On Thursday evening a young man named Hugh Caslow, who hailed from the city of Lancaster, was arrested by the Chief of Police and taken before the Mayor. The young candidate had in his possession a large lot of copper, evidently belonging to some railroad company. He had also a sack containing a lot of bed-clothes When arrested, Hugh was in the company of John Carwell, of Conewago, and both were made to appear before his Honor the Mayor yesterday morning. There being no evidence against Carwell, he was discharged. · Caslow was sent to jail for ten days, as a vagrant, and in the meantime the officers will endeavor to find out whether the articles in his possession were stolen or not.

THE STUDY OF THE SKY .- A large part of the public are not aware of the extensive discoveries in astronomical science made during the past year -including no less than four new asteroids and four new comets. The asteroids were all detected within a single week in September-two at Paris. a third at Berlin, and the other at Washington .-The entire number of knewn asteroids is now 62, of which four were discovered by American asrronomers. Of the comets, the first was discovered in Brazil, the second in Hamburg, the third at Cambridge, and the fourth at Marseilles. Not a year has passed since 1847, without the discovery of some new planetary body.

Modest Applicant .- Carl Schurz, the peripatetic orator, is an applicant for the mission to Sardinis. His modest appreciation of his own fitness is best illustrated in a dispatch he sent to the Governor of Wisconsin to appoint Commissioners to the Peace Convention, which is in the following language: "Send Commissioners; me one of them, to strengthen our side." Is it not very nearly time that American citizens were appointed to represent American citizens abroad?

THE WHEAT PROSPECT.—The present season is said, by those whose interest it is to keep booked up in such matters, to be an exceedingly favorable one for the growth of the wheat crop. So far as we have heard, the wheat fields throughout the county, and indeed throughout the State, present a very flourishing appearance. Providence still smiles upon our land, notwithstanding the political troubles with which we are afflicted.

The Democratic citizens of the different wards of the city of Harrisburg are requested to meet in their respective wards, on Saturday, the 9th inst., at 7 p. m., as follows, for the purpose of making nominations for ward and city officers:

First ward at the house of C. Janss. Second ward at the Seven Stars Tavern. Third ward at Military Hall. Fourth ward at the house of James W. Morgan. Fifth ward at the Fifth Ward House.

Sixth ward at the Park House. By order of the Democratic Ward Executive

WASHINGTON'S BIRTH-DAY .- The Hollidaysburg Standard, of last week, says: Our musical friend, "Sivinson." has experienced much joyous feeling since his return from Harrisburg on the 22d, and thinking that the only way to purge himself of this exuberance was to become ethereal and translate himself to the unsubstantial regions of the Nine, he has furnished us with the following delightful reminiscense of his late excursion. He is evidently looking down at us through a-horn:

"Shot's" merry voice cries out, "my boys, The birds are singing—hush your noise With "Batz" sedate, and "Gafter" loud, There's lots of fun in such a crowd; And not forgetting, all the while, "Delaney's" wit and pleasant smile. Then here's a pledge, in bumpers bright, To "Washy Boys" and Friday night!

PURIFY YOUR BLOOD.—BRANDRETH'S PILLS WARRANTED TO CURE FEVER AND AGUE.—The effect of purging with BRANDRETH'S PILLS is to restore the health, no matter from what cause it may be suffering. They take out all impurities from the system; and they have the same power of expulsion over miasm, poisonous vapor of decayed vegetables, or indeed any poisonous exhalations breathed by man whatever. In fact, if the blood is poisoned, it is impure, and impure blood results in disease.

BRANDRETH'S PILLS, though innocent as bread, yet they are carable of purifying the blood and curing disease. So, they cure all kinds of fevers, all asthmas, catarrhs, costiveness and painful affections of every kind.

BOND OF UNION YET DISCOVERED BETWEEN THE NORTH AND SOUTH,

PROF. WOOD'S HAIR RESTORATIVE. READ WHAT A DISTINGUISHED PHYSICIAN OF ST. LOUIS SAYS OF IT.

St. Louis, July 10th, 1860.

O. J. Wood, Esq.: Dear Sir—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative after a trial of five years. I or your mair Restorative after a trial of five years I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, neither has there been up to this time.

this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruif. I do not imagine the facts above mentioned will be of any particular atvantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the nast three years, and have taken pride and pleasure cupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it, and without effect. In every instance, however, it proved by probing the matter, that they had not used the article at all, but had used some new article said to be as good as yours and selling at about half not used the article at all, but had used some new arti-cle, said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humungs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been

no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the gray nair, scan hear, annual in, and every disease the scalp and head are subject to.
I called to see you, personally, at your original place of business here, but learned you were now living in New

York.
You are at liberty to publish this or to refer parties to me. Any communication addressed to me, care box 1920, will be promptly answered. Yours, truly, JAMES WHITE, M. D.

Warren Springs, Perry Co., PA., June 7th, 1850.
PROF. WOOD: Dear Sir—I was induced more than a year ago to try your valuable Hair Restorative, for the purpose of cleansing my head of dandruff I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Ross's Drug Store and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c., than at any time since I have been achild. I consider your preparation of great value, and although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you.

Yours, &c.,

Bloomington, Ind., July 30th, 1859.

Dear Sir:—I here send you a statement that I think you are entitled to the benefit of. I am a resident of Bloomington and have been for over thirty years. I am now over 50 years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative, but supposed there was more fiction than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my youngerdays a beautiful black, I concluded I would make the experiment, commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directious as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till I have used three of your small bottles, and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair, as any man, or as I had in my youthful days when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off, and is as soft and fine, and feels as oily, as though it was just from weater the heards of a French shammoer. dandruff, and the hair ceased entirely falling off, and is as soft and fine, and feels as oily, as though it was just from under the hands of a French shampooer. Many of my acquaintances frequently say to me, "Butler, where did you get that fine wig?" I tell them it was the ef-fects of your Restorative. It is almost impossible to convince them that it is the original hair of the same Yours, truly, FREDERICK T. BUTLER,

Bloomington, Monroe County, Indiana. PROF. WOOD'S HAIR RESTORATIVE.—In another col-umn will be found an advertisement of this well-known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cuta-neous eruptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentle have known for many years as persons of the most re-liable character. Don't dye till you have tried this Re-storative.—Boston Olive Branch.

WOOD'S HAIR RESTORATIVE .- We are not in the habit of puffing every new discovery, for nine cases of ter they are quack nostrums, but we take great pleasure in they are quack nostrums, but we take great pleasure in recommending Professor Wood's article to all whose hair is falling off, or turning gray. Our well-known contributor, Finley Johnson, Esq., has experienced the benefits of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in Summer.—Baltimore Patriot.

WOOD'S HAIR RESIDENTIVE —Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristinc vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a val-uable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other imsuch as to effectually eradicate dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another descriptin In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound. If it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innoxious.—Boston Transcript, April 22, '59.

A GENUINE BOON .- In our capacity as conductor of a A distribute Boos.—In our especies we conductor of a public journal we are called upon to advertise the curculis of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects—with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable Restorative—we are so well assured of the notable qualities of the article that we give it our endorsement as all that its inventor and vender claims it to be. Its effect upon a falling head of hair is universally known to be magical; like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely growing hair to try the Restorative.—Columbia Spy.

QUACK NOSTRUM —The majority of hair washes, hair dyes, hair tonics, hair oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows and new-paper headings, as hair preparations, are all humbugs of the first water; their real merit, when they possess any, is, that they do no harm. Hog's lard, whale oil, lard oil, sweet oil scented and colored, make up, when in beautiful wrappers, and white flint glass bottles, the costlest character of tonics, and when thus costly, are baptised with some tri-syllable term, and caught at by verdant young and old of both sexes. Such is not the character of Prof. Wood's Hair Restorative. This gentleman comes before the world without any 'highfalutin' Xilophioforium or any other astoundin; and startling catch penny term; he simply advertises a Hair Restorative—what it expresses, precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, aye, your very brains, srply nothing else; for it may be that you will get some worse substance than perfumed lard oil on your cranium. Remember. Wood's Restoration of the professor was a state of t tive for the Hair is the best article extant.—New York
