on Saturday. A grand hop, or sociable party, will be given at

the Exchange this evening. EASTER MONDAY .- April 1st being Easter Mon-

day, we learn that the Cameron Guard contemplate making a grand parade on the occasion. AT WORK .- The superintendent of the State

Capitol grounds has got his men at work fixing up the walks and beautifying the promenades. ON A RISE.—The recent rains have had a tendency to raise the Susquehanna, and the water

comes splurging down in most magnificent array. A CHANGE.—The elections hereafter will be held at Orsinger's, instead of the Park House. Such was the decision of the people on Saturday night last.

PAY DAY.—Yesterday was pay day on the Pennsylvania Railroad, and the attaches of the road were industriously engaged in circulating the spondulix.

THE PAST AND THE PRESENT.-This picture, which we noticed in yesterday's paper, can be seen to-day at the office of Mayor Kepner, in Walnut

THE GOOD WILL.-The members of the Good Will Fire Company are making arrangements to hold a fair at the Exchange next week, commencing

A FIRE.—A slight fire occurred on Saturday night, in Tanners alley. A small shanty received considerable damage, and the firemen of the city were brought into active service.

LOOK TO IT IN TIME.—Persons who own valuable dogs, should see to it in time that they are provided with the necessary collar, and plate upon it, therwise the sassinger market may be glutted.

DEMOCRATS, ATTENTION !- A meeting of the Demcratic citizens of the Sixth ward will be held this evening, at the ward house, for the purpose of selecting a candidate for the office of ward consta- | H. Miller, Jr.; Constable, George Garman. vie.

ELECTION TICKETS .- Candidates for office should remember that the best and cheapest job work is performed at the Patriot and Union Office .-Prepare your tickets in time and get ready for the emergency.

THE TRAVELER'S RETREAT .- The City Hotel contained but three lodgers on Sunday night. They were all volunteers, and in search of employment. Their destination was westward, and being minus of funds, were honorably discharged.

Declines .- We understand that Mr. Bohannon respectfully declines the nomination for constable of the Third ward. This may possibly make it Lecessary to call the citizens of the ward together

again, and fill the vacancy. More Cotton .- Another invoice of this Southen staple was received yesterday, and forwarded to the mill. We learn that the stock already on

hand is enough to keep the operatives busily em-Pleyed for many weeks yet. ONLY A DIME. - The postage on circulars to California and all places on the Pacific coast is now, by

Thursday last, died in this city on Saturday eve-

hing. His remains will be taken to-day to Hun-

aw, ten cents—to be in all cases prepaid—for every

tingdon for interment. THE LEGISLATURE .- Many members of the Legislature have returned to the city, a portion of them having spent the vacation by visiting their families, while others took advantage of the times by visitng "Old Abe," and solicit a situation for them-Edves or their friends. This will no doubt be a

STREET CROSSINGS .- The City Council compels cur citizens to lay bricks along the sidewalks, but, Reglect to attend to their part of the business, which s to see that the street crossings are properly cared for. This is decidedly wrong on the part of our city parents, and we hope that the new Council will treat all alike—the city as well as the citizen.

busy week, and high old times may be looked for.

DEMOCRATIC CITY EXECUTIVE COMMITTEE .- An adjourned meeting of the Democratic City Executive Committee will be held at the house of Daniel 12th inst., at 8 o'clock, for the discharge of their appointed duties as ward conferees. By order of the President. WM. GARRATT, Sec'y.

THE COAL BUSINESS .- It is stated that operations in the coal fields of M'Kean county, Pa., will be commenced, during the coming summer, by an associated company, who intend to make Erie the depot, by shipping from the mines over the Sunbury and Erie railroad. It is proposed, if the Sunbury and Eric railroad is not completed beyond Warren in time, to lay down an independent track to meet the immediate wants of the business, and thus vercome the only remaining obstacle in the way of the enterprise.

We would direct attention to the following from in act of the Legislature, adopted April 13, 1859: Section 1. That every person hereafter elected the office of Justice of the Peace or Alderman hall, within thirty days after the election, if he intends to accept said office, give notice thereof in writing to the prothonatory of the common pleas of the proper county, who shall immediately inorm the Secretary of the Commonwealth of said eceptance; and no commission shall issue until the Secretary of the Commonwealth has received the notice aforesaid.

Counsel to People that are Going to Move .-As moving time is fast approaching, a cotemporary gives the following excellent advice, which, as the almanac-makers say, will suit one latitude as well as another:

In the first place don't move! Remember the famous story of the fish that "moved" out of the frying-pan into the fire-call to mind all the allegories, ancient and modern, respecting the folly of change-see if the leaky roof can't be mended-consider whether the range bakes so very badly—reconcile yourself to narrow kitch-

ens and defective water-pipes—be at peace with all the world, and your house into the bargain, and don't move! But if this advice comes after the bill has been put up and the house let, and another one taken, the next best thing is to arrange matters as philo-

sophically as possible, and the following scraps of counsel may be advantageously adhered to: Don't keep your house in confusion a month before the eventful Higera-a week is quite long

enough to make chaos of.

Don't undertake to "clear up" things generally. It is not economy to bargain away your husband's best coat to a rag-man, mistaking it for his old moth-eaten toga-neither is it wisdom to burn all the receipts and family papers, along with old letters and newspapers," just to get them out of

the way!" Don't think it necessary to feed your household on cold beans and luke-warm tea, or to quarter them on floor-beds with carpet-bags for their pillows, because they happen to be getting ready to

If your husband is a "handy men," send him about his business as early in the morning as possible, on moving day. "Handy men" are nuisances at any period, but at such a time they are an aggravation beyond the power of words to describe. Keep your wits about you, and when your courage begins to fail, just beister it up with the com-

fortable conviction that what a woman can't do, is not worth doing at all! Don't pack the canary-bird and the cat together, and object decisively to the dressing-glasses being steadied with coal-scuttles or smoothing-irons. Convince the cart-man at once that you are the d irecter of affairs, not he, and don't let him impose upon you in the matter of short loads. What if you are only a small woman, and he an Irishman of the amplest pattern? Napoleon was not a six-

PENOCRATIC NOMINATIONS.—At a meeting of the Democratic citizens of Harrisburg, held at the various ward houses, the following persons were placed in nomination as candidates to be supported at the ensuing election:

First Ward .- Council, Daniel Hocker: School Director, George Welker; Assessor, Ambrose Taylor; Judge, Alex. W. Bergstressor; Inspector, Henry Zimmerman; Alderman, George B. Caldwell; Constable, A. Jackson Wickert; Executive Committee, William Hamilton, William H. Cleckner, John Knepley.

Second Ward .- Council, Jacob Hachnlen; Assessor, Daniel Snyder; Judge, Edwin Pollock; Inspector, Philip Linn; School Director, A. Boyd Hamilton; Constable, Marks Snyder.

Third Ward .- Council, John Stahl; School Director, John Till; and for the unexpired term of Dr. Wm. R. DeWitt, John Edwards; Assessor, Josiah Royal; Judge, George Bailey; Inspector, James Fitzgerald; Constable, John Bohannon .-Ward Committee, William K. Verbeke, George Bailey, and Theo. F. Scheffer.

Fourth Ward .- Council, David Mayer; School Directors, John Till, John C. Fager, John Edwards, (for unexpired term;) Assessor, John Tomlinson; State has recovered against it. Judge, Andrew Schlayer; Inspector, Geo. Forbes; Constable, John Stoufer. Executive Committee, Wm. Garratt, Levi Wolfinger, Owen McCabe.

Fifth Ward .- School Directors, Amos W. Young. John Till and John Fager ; Assessor, Patrick Jordan : Judge, George Brenizer; Inspector, George

Sixth Ward .- Council, John Brooks; Alderman, John Christ; Assessor, Jacob Barnhard; Judge, Jacob Hummelbach; Inspector, Wm. Stephen; Constable—there being a tie vote between Mr. Essig and Mr. M'Clintock, no nomination was made; but the meeting adjourned to meet again this (Tuesday) evening.

GRAND CONCERT BY THE HARMONIC SOCIETY.-It will be seen by reference to our advertising columns, that the Harmonic Society proposes giving a grand concert of sacred music, in the First Lutheran Church, Fourth street, on Thursday evening next. The programme is of quite a miscellaneous character, comprising Ries' celebrated Contata, "The Morning," an excellent selection of "Old Folk's Music," which, we venture to promise, will be well performed, and be a reminder of old times to very many of our citizens, such as they have never before experienced. The last part will be made up of choice selections from some of the best composers, quartetts, &c., concluding with that magnificent masterpiece of the immortal Handel, "Hallelujah! For the Lord God Omnipotent Reign-

We confidently predict the entire success of the Harmonic," in this concert; and, as an indication of this, we learn that the tickets are rapidly selling. Citizens and others had better supply themselves beforehand, as it is understood no tickets will be sold at the church doors.

Before Alderman Maglauchlin.-On Saturday evening, Charles Madden felt galorious, and concluded to go on a bender. Charley was flush of funds, in the comment, and, drunk as any man should wish to be, at the time he was presented to friend Boyd, of the "Continental," in Walnut street. The said Charles felt disposed to imbibe some of the State street whisky, which he did, and the consequence was, Charles located. While occupying the position of a warrior taking his rest, he was observed by officer Garman, who, with the kindest of feelings, and by the help of a "one-wheel conveyance," Mr. Madden was safely propelled, and securely ensconced in durance. The Alderman thinking that Charles was disposed to sober up, and become a better if not a wiser man, committed him for forty-eight hours, and he is now on his winding way to the rural districts, or some sea-

AN INTOLERABLE NUISANCE .- The accumulated dirt of the winter has blown about the streets during the last week in a manner far from agreeable to promenaders, or those whose business compelled Wagner (Seven Star Hotel) on Tuesday evening, the them to be out. At times it was almost impossible to avoid the clouds of dust, and not only the clothing of pedestrians suffered, but their eyes were filled with it, almost blinding them. To add to the discomfiture, the ashes that had been left upon the streets for removal, but which had been neglected, as it too often is, were also blown about, so that between the dust and the ashes it was almost impossible to move through the streets. Had the streets been in a condition the public had a right to expect, very little inconvenience would have been experienced from the high wind, and we hope the Chief of Police will take the matter in hand, and see that the supervisors do their duty.

> Horse Stealing .- With the number of detectives and the various societies now organized throughout the country, it is very surprising that these desperadoes can carry on their depredations with such impunity. Hardly a day passes but what we hear of a horse being stolen in some part of the State, and the Mayor's office is play-carded with bills from every section of the country, offer-

> ing rewards for the apprehension of these thieves. Chronic invalids should read Dr. Stewart's ad-

vertisement in another column

To WHAT STRANGE USES MAY WE COME .- The New York Advertiser says the Polytechnic Association is, at its next meeting, to be feasted with sugar made, by chemical transformation, from old rags, and with a pudding made from the gelatine of old shoes. Leather being composed of tannin and gelatine, the tannic acid is extracted, and the gelatine is then purified from the discoloring tannite of iron, after which it is fit for culinary purposes. In this latitude we work up the raw material as nature intended. For instance, we take the fleece of sheep and make it into cloth, to be made into the elegant garments for gentlemen and youths for which the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chesnut street above Sixth, Philadelphia, is so famous.

FATAL ACCIDENT .-- A man by the name of Josiah Sohn living a few miles above Mechanicsburg, was killed vesterday on the Cumberland Valley railroad. He attempted to cross the track just as the morning train for Chambersburg was approaching, and being deaf, did not hear the repeated sound of the whistle; the cow-catcher caught him and threw him against the fence, killing him immediately. No blame can be thrown on the engineer, and it is only to be regreted that people are so reckless and careless in walking on or across railroad tracks. The deceased was a mason by trade, a sober, industrious, and much-respected man of about 58 years of age; he leaves a wife and several children to mourn over his loss.

LLOYD'S MINSTRELS, who are to appear at Brant's Hall, on Wednesday, Thursday and Friday next, are highly spoken of by the Philadelphia papers. The Sunday Atlas says: This fine band of performers closed their first visit to our city last evening. This band is one of the best we have ever had the pleasure of listening to. We bespeak for them a kind reception wherever they may go, and we shall always be glad to welcome them back to our city. Philo A. Clarke, Esq., the advertising agent of this company, is a gentleman of strict integrity and a pleasant and lively companion. Cool White, the stage manager, is one of the best in the country.

SCANDINAVIA.-Professor Slingding has arrived in town, and proposes to deliver a lecture before the people of this city. The Professor takes the position that the Scandinavians discovered America long before Columbus existed. The Professor is a man of letters, and has published a book of upwards of four hundred pages, and as a cotemporary remarks-"That part of it which relates to the religious and political institutions of the Northmen. will be interesting to all nations, while the portion which treats on the discovery of America by the Northmen long before Columbus came into the world, will have a peculiar value in this country."

SIGNED.—The Governor has signed the bill for the commutation of the tonnage tax on the Pennsylvania railroad, and also the bill affording relief to and changing the title of the Sunbury and Erie railroad company. The latter company will hence forth be known as the Philadelphia and Eric railroad. By the passage of the bill in reference to the Pennsylvania railroad, the litigation pending between it and the Commonwealth is at an end, the company being relieved, as we are informed, not only of further charges on account of tonnage, but also of the judgments of \$255,000, which the

Tom Bennert.-This notorious rowdy and "peace keeper" was brought before Alderman Maglauchlin, charged with chicken stealing. Thomas is well known in this community as one of the most troublesome smokes to be found in the east end and he is now charged by one Elizabeth Marshall with stealing a lot of chickens on the 8th of March. Elizabeth says that Thomas, in company with an Irishman, started out on a nocturnal excursion at the above-mentioned time, and on their return th chickens "wore dar." Bennett was bound ove for his appearance at court.

Poor Dog Tray.-Yesterday morning an insane dog, who, under the mistaken idea that he could stop a milk-cart, and put an end to fast driving, with all the firmness of a Norman Senator, but the physical strength of a pigmy, threw himself under the wheels of the car of the milkman, and thereby lost his life. The dog was a blooded one, (judging from the quantity that circulated on the cressing,) and we have no doubt but what Nehemiah, or some other poet, will give us a dogerel on the death of the unfortunate animal.

Ir will be seen by the advertisement of Col. Wallower, that he has resumed the forwarding and commission business, which he is prepared to conduct with promptness and energy. His numerous friends, as well as our business community generally, will doubtless welcome his return to an occupation for which he is so well fitted by industry and uprightness.

THE STRONGEST

BOND OF UNION YET DISCOVERED BETWEEN THE NORTH AND SOUTH,

PROF. WOOD'S HAIR RESTORATIVE. READ WHAT A DISTINGUISHED PHYSICIAN OF ST. LOUIS SAYS OF IT.

St. Louis, July 10th, 1860.
O. J. Wood, Esq.: Dear Sir—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative after a trial of five years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle of since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, mither has there been up to this time.

this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it, and without effect. In every instance, however, it proved by probing the matter, that they had however, it proved by probing the matter, that they had not used the article at all, but had used some new article, said to be as most one. not used the article at all, but had used some new arti-cle, Said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been

no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this or to refer parties to me. Any communication addressed to me, care box 1920, will be promptly answered. Yours, truly, JAMES WHITE, M. D.

Warren Springs, Perry Co., PA., June 7th, 1850, PROF. WOOD: Dear Sir—I was induced more than a year ago to try your valuable Hair Restorative, for the pear ago to try your valuable Hair Restorative, for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Ross's Drug Store and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.— I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it elean, &c., than at any time since I have been a child. I consider your preparation of great value, and although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you.

Yours, &c.,

H. H. ETTER.

Bioomington, ind., July 3011, 1899.

Dear Sir:—I here send you a statement that I think you are entitled to the benefit of. I am a resident of Bloomington and have been for over thirty years. I am now over 50 years of age. For about twenty years past with his beauth through considerable grows and weather the property of the send weather the send was the send was a send weather the send was th now over 50 years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative, but supposed there was more fiction than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment, commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directions as nearly as I could. I soon discov-ered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till I have used three of your small bottles, and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair, as any nan, or as I had in my youthful days when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off, and is Extract Butter of the hair ceased entirely falling off, and is uandrun, and the har ceased entrely latting off, and is as soft and fine, and feels as oily, as though it was just from under the hands of a French shampooer. Many of my acquaintances frequently say to me, "Butler, where did you get that fine wig?" I tell them it was the effects of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head. Yours truly Yours, truly, FREDERICK T. BUTLER,

Prof. Wood's Hair Restorative —In another column will be found an advertisement of this well-known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most re-liable character. Don't dye till you have tried this Restorative.—Boston Olive Branch.

WOOD'S HAIR RESTORATIVE .- We are not in the habit of puffing every new ciscovery, for nine cases of ten they are quack nostrums, but we take great pleasure in recommending Professor Wood's article to all whose hair is falling off, or turning gray. Our well-known contributor, Finley Johnson, Esq., has experienced the benefits of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as

Wood's HAIR RESIDEATIVE —Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes, Its ingredients are such as to effectually eradicate dandruff and other importants which operate so injuriously to the hair. It such as to effectually eradicate dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another descriptin. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound: if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innoxious.—Boston Transcript, April 22, '59.

A GENUINE BOON .-- In our capacity as conductor of a A GENUINE BOON.—In our expactly as conductor of a public journal we are called upon to advertise the cure-alls of the day, each of which claims to be unadultera-ted in its composition and infallible in its curative ef-fects—with what justice we leave our readers to deter-mine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable Restorative—we are so well assured of the notation qualities of the article that we give it our endorsement as all that its inventor and vender claims it to be. Its effect upon a falling head of hair is universally known to be magical; like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely growing hair to trythe Restorative.—Columbia State

QUACK NOSTRUM—The majority of hair washes, hair dyes, hair tonics, hair oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows and newspaper headings, as hair preparations, are all humbugs of the first water; their real merit, when they possess any is, that they do no harm. Hog's lard, whale oil, lard oil, sweet oil, scented and colored, make up, when in beautiful wrappers, and white flint glass bottles, the costliest character of tonics, and when thus costly, are baptised with some tri-syllable term, and caught at by verdant young and old of both sexes. Such is not the character of Prof. Wood's Hair Restorative. This gentleman comes before the world without any 'highfalutin' Xilophloforium or any other astoundine and startling catch-penny term; he simply advertises a Hair Restorative—what it expresses, any other astunding and assistance—what it expresses, precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, aye, your very brains, apply nothing else; for it may be that you will get some worse substance than perfumed lard oil on your cranium. Remember, Wood's Restorative for the Hair is the best article extant.—New York
