

LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market streets.

PATRIOT AND UNION.—THE DAILY PATRIOT AND UNION can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRANK.

THE MAILS.—Under the change of schedule on the different railroads, the time of closing the mails at the Harrisburg Post Office, December 1st, 1890, is as follows:

PENNSYLVANIA R. R. East—7 a. m.—way mail, 12:15 p. m., 5 p. m., 8 p. m. West—6:30 a. m.—way mail, 3:50 p. m., 9 p. m.

7 a. m. to Gettysburg, on Tuesday, Thursday and Saturday. 7 a. m. to Jonestown, on Monday, Wednesday and Friday. 1 p. m. to Lewisberry, on Saturday.

COLLECTION.—The carriers of the PATRIOT AND UNION beg leave to say that they will, as usual, collect their dues this morning.

THE Union Prayer Meeting will be held in the Presbyterian Church, on Market Square, this afternoon, at 4 o'clock, as usual.

TERRAPINS.—We do not know where a single dish of this delightful, as well as delicate article, can be found in this city.

OUR exchanges, from all directions, are lamenting the injury to the peach crop, occasioned by the fine weather some two weeks since, which brought forward the buds only to be killed by the severe weather which followed.

SNEEZING.—Considerable small thieving is done now by women, who order dry goods and fancy stores in couples, and while one is engaging the attention of the attendant, the other is secreting articles about her person.

STRAM is employed for heating carriages on the Lyons Railway, in France. It is conducted from the locomotive by pipes to all the cars. The joints are flexible, being made of vulcanized India-rubber.

VERY QUIET.—The election held yesterday passed off very quietly. A stranger passing through the town would hardly think that an election was being held, that would decide the destinies of the nation.

A SLIGHT MISTAKE.—A day or two since we stated Mrs. Allender had been taken before Alderman Maglauchin, on the charge of being drunk and disorderly. It turns out that it was a Miss Allender, who was a non-resident of town. She was discharged, and left town.

OBSTRUCTING A RAILROAD TRAIN.—A man named Daniel Carroll was arrested the other day, charged with obstructing the cars on the Pennsylvania Railroad, by placing an iron chain and piece of rail on the track near Coatsville, with a view of throwing off the first train that might approach.—He was committed for trial.

FIRST OF APRIL CHANGES.—Those of our subscribers who intend removing their places of residence about the first of April, and desiring the place of sending their papers changed, will be good enough to give us timely notice, always being careful to state where they wish them changed from. Early attention to this matter will save trouble, and prevent the loss of papers.

THE MAYOR'S OFFICE.—Only three customers appeared before the Mayor yesterday—two of them were drunk and disorderly, and having no visible means of support, the Mayor sent them over to Mr. Boyd, who kindly furnishes these individuals with food, at the expense of the county. The other individual was on a tramp; had no place to sleep, and volunteered to remain in the lock-up till His Honor, the Mayor, gave him permission to leave the ranch.

A HARD CASE.—The lady we mentioned in yesterday's paper, as having occupied a room in the City Hotel, and being too short of funds to pay her way over the bridge, turns out to be a scamp of the first water. When she was located in the station house, Dan, who is notorious for his generosity, kindly loaned her an extra blanket, and in the morning, after obtaining money from the Mayor, it was found that the blanket and the lady had stepped out together. She no doubt made use of it as an extra skirt.

PASSAGE OF AN IMPORTANT RAILROAD BILL.—On Monday last the Indiana Legislature passed the railroad bill known as the Pittsburg, Fort Wayne and Chicago Railroad Bill, providing that railroads may let their roads go to sale, and organize new corporations, and giving the new corporations the right to reinstate the old bondholders, auditors and stockholders in the same order as before, as first, second, third preferred stock, and stock without any preference. It passed both Houses, and will become a law.

STANDS ON HIS DIGNITY.—It appears that the President and his Cabinet are determined that the people shall not approach them, neither in person, nor by petitioning. Mr. Lincoln has expressed himself to the effect that in making appointments in the districts, he will be guided by the recommendations of the members of Congress from each district. The new Postmaster-General has given out that he will require all applications for office in his department, to be endorsed by members of Congress from the respective districts, and that they will be held responsible for the appointments.

ANNUAL COMMENCEMENT OF THE PENNSYLVANIA UNIVERSITY.—The annual commencement of this time-honored institution, took place this afternoon, at the Musical Fund Hall. There were one hundred and seventy-five graduates, who hailed from all sections of the country, but who came to this city to receive professional instruction where there are first class colleges, and where there is located the magnificent Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth, Philadelphia, where the finest stock of clothing for gentlemen and youths to be found in the world is on hand.

We are indebted to Messrs. Kempton & Mullin, proprietors of the Mt. Holly Springs Paper Mills, for a box of their new style of business letter paper, recently gotten up to meet the wants of business men and others, who object to Commercial Note as being too narrow, and do not wish to use part of a single letter sheet. This overcomes both the above objections—is a perfect sheet, pure wove plate finish, ruled on one side, stamped in centre, near the top, made from best material, free from adulteration, and put up in neat boxes convenient for use.

This is one of the most beautiful specimens of paper that has ever come under our notice, and is in the highest degree creditable to the skill of the manufacturers.

COAL-BURNING LOCOMOTIVES.

The New York Central railroad company have fitted up some of their engines to burn coal instead of wood. The changes from the ordinary wood-burning locomotives are described as follows: A fire brick arch is extended across the furnace under the fire, and back into the furnace about twenty inches from the fire sheet; a dump-grate is put in; a row of hollow stay-bolts surrounds the fire-box immediately over the fire, and to aid combustion, exhaust-pipes are extended up to near the top of the smoke-stack; and a straight twelve-inch smoke-stack, five feet high, is substituted for the ordinary smoke-stack.

MUSLINS, MUSLINS, MUSLINS!—1,000 yards the very Best Unbleached Muslin, 10 cents; 2,000 yards beautiful Bleached Muslin, 10 cents; 2,000 yards of the best long Cloth Muslin, 12 cents; which I will sell by the piece at 114 cents. A large lot of remnants of Calicoes, to be sold cheap; remnants of Colored Silk; remnants of Delaine; all will be sold cheap. Delaine, Broche Shawls, other Shawls, Cassinets, Cassimere for pants, Black Cloth, at cost price. A splendid assortment of Cambrics, Jaconets, Cambrie Bands, Hem-stitched Handkerchiefs, from New York auction; white and colored Flannels, at cost price. For cheap goods call at

SPECIAL NOTICES.

WARRANTED IN ALL CASES FOR CHRONIC THERMAL FEMALE PILLS. For the prevention and cure of all those difficulties to which the female system is peculiarly liable, arising from irregularities of the menstrual system.

TO MARRIED LADIES they are particularly recommended, as they prevent difficulties, and restore nature, no matter what cause the obstruction may be. A few days in the use will produce the desired result, and although no powerful, yet no injury will ever result from its use. But those who are pregnant should not use them, as they are effectually contra-indicated.

THE BEST!

WORCESTER'S ROYAL QUARTO PICTORIAL DICTIONARY. This Dictionary is the recognized standard of the English language throughout the world. It is the standard authority for the Official Records and Documents, and the Public Printing of the United States, and is the only standard recognized by our eminent authors.

It is the BEST DEFINING and PRONOUNCING Dictionary in any language, and contains over one hundred and thirty thousand important words and meanings not found in Webster's Unabridged.

It is illustrated by more than 1,000 superb woodcuts; 5,000 words are accurately pronounced, together with full Tables of Proper Nouns Pronounced. No student can afford to be without it.

That it is the best Dictionary in every department of Lexicography, is the opinion of our most competent scholars.

From George P. Marsh, L. L. D., Author of Lectures on the English Language. I have examined the new edition of Dr. Worcester's English Dictionary with care, and have formed a very favorable opinion of its merits.

Accuracy in orthography and etymology—the written and spoken language, and the history of words. Precision and distinctness in definition; Fullness in vocabulary, and truth in historical etymology.

The work of Dr. Worcester is unquestionably MUCH SUPERIOR to any other general Dictionary of the language in EVERY ONE of these particulars, and it is the only one that ranks first among the existing works to a complete knowledge of English philology.

From William Cullen Bryant and Washington Irving. The new and authentic etymologies, the conciseness and completeness of the definitions, the nicety with which the different shades of meaning are so judiciously distinguished, and the scrupulous accuracy of the work in all its departments, give it, in my judgment, the highest claims to public favor.

From Prof. Oliver Wendell Holmes, Boston. It is, indeed, a monumental work, and one of which our city and country may be proud as long as we have a city, a country and a language.

From Charles Dickens, England. It is the most remarkable work of which America will be justly proud, and it is the only English Dictionary which will long have reason to respect your name, and to be grateful to you.

From Herbert Colridge, Secretary of the London Philological Society, England. Your magnificent treatise on the English language is a masterpiece of research, and it is a pleasure to me to see it so cordially thanked for your kindness.

From the Rev. W. W. Wood, D. D., Master of Trinity College, Cambridge, England, Author of "History of the Inductive Sciences." I have repeatedly consulted the Dictionary since it was published, and I can assure you that it is MORE COMPLETE AND EXACT than any of its predecessors.

ALL PERSONS who have any Affection of the Lungs or Throat, or Chronic Diseases, and wish to cure them, should consult Dr. STEWART, who has had many years' experience in different sections of the United States and Canada, and has cured cases which have been treated without benefit by what are esteemed the best physicians in the Union.

He has been in Harrisburg for many months, and has restored to health, invalids who had expended hundreds of dollars with Physicians and Patent Medicines, and can refer to some of the best families in Harrisburg, and can give the names of persons in the city, and nearly all the States, whom he has cured of almost every Chronic Disease.

He does not profess to cure all diseases after the manner of the Quacks, and the impostors, Dr. STEWART, has a sound opinion in regard to curability after examination. The medicines of Dr. S. are vegetable, and derived from more than 100 different kinds of plants, and are entirely free from the use of any of the poisonous and deleterious ingredients of the Quacks, and the impostors.

NEURALGIA, RHEUMATISM, SCIAPHA, DYSPEPSIA, LIVER COMPLAINT, COLIC, SPRAINS, BRUISES, SCALDS, FALLEN FINGER, FALLEN TOE, DYSPEPSIA, GOUT, CANCERS removed by a new remedy procured in Canada. When so requested, Dr. STEWART will visit patients at their residences.

Terms Moderate. In regard to qualifications, Dr. S. refers to Professors F. A. D. and M. D. of Philadelphia, and to Hon. Thomas Corwin, of Ohio. He has long been in the city, and has cured many cases, and has long been in the city, and has cured many cases, and has long been in the city, and has cured many cases.

WASHING MADE QUICK AND EASY. HARRISON'S HOUSEHOLD SOAP. It is DETERSIVE. It removes all dirt, and washes with or without rubbing. It is BRILLIANT. It removes all stains by Oil, Paint, Printer's Ink, or Blotting Paper. It is BLEACHING. It bleaches brown clothes white, and white clothes whiter.

It is ECONOMICAL. It saves wear and tear, time, labor and money. It combines all the good, and none of the bad properties of the other Soaps, therefore it is a perfect Household Soap.
