PATRIOT AND UNION.—The DAILY PATRIOT AND UNION can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRANK.

Sanford, the enterprising manager of Cork Opera, has a bill before the Legislature to incorporate the Sanford's Opera House Company.

"Tom, what are you leaning over that empty cask for?" "I'm mourning for departed spirits," was the reply.

GETTING BETTER.—The Chief of Police, Henry Radabaugh, who has been laid up for the last few days, is slightly improving.

A PARADE.—The Cameron Guards will make a street parade on Saturday afternoon next at two o'clock.

COURT.—The cases brought before court at the present session have been of an uninteresting character to the public.

WELL UP.—The river is in good rafting order at the present time, and many of the "Yanks" have patronized our store keepers previous to returning to the "regions."

A SLIGHT MISTAKE.—Corney Shell says most emphatically that he will not bore on the island for oil, but whisky, and wants some capable judge to act as superintendent.

BUYING STOCK.—Quite a number of our citizens left town yesterday morning to attend the sale of the stock, &c., belonging to Col. Jacob S. Halde-man.

ATTENTION, MOUNT VERNON!—A stated meeting of the Mount Vernon Hook and Ladder Company, No. 1, will be held this (Wednesday) evening, at 7 1/2 o'clock. By order.

The effects of the panic are seen in the low prices at which many kinds of goods are forced upon the market by manufacturers and jobbers, for the purpose of raising money.

TO CORRESPONDENTS.—Only imagine the feelings of a printer when he takes up a roll of MS., and can no more read it to make anything intelligible out of it, than a monkey can of Chinese hieroglyphics.

The telegraph states that it is settled that Carl Schurz will not be sent as Minister to Sardinia, but will be appointed chief clerk under our new Post Master—Old Abe thinking that birds of a feather should flock together.

BEFORE THE MAYOR.—One poor unfortunate individual was located in the "retreat" on Monday night. He was without money, and had no friends. After procuring a night's lodging, and a cup of coffee, he was sent on his way rejoicing.

RENOVALS.—A number of our rural residents have already commenced the laborious business of fitting. Wagons and carts can be seen daily passing through the streets loaded with all kinds of household and kitchen furniture.

Advertise your business. Do not hide your light under a bushel. Whatever your calling or occupation may be, if it needs support from the public, advertise it thoroughly and efficiently in some shape or other that will arrest public attention.

A VOLUNTEER.—Yesterday an individual who had more whisky than money, volunteered his services to keep one of the cells in the lock-up. The Mayor kindly gave him possession, and he located. He was on his way westward, and was minus the small change for the payment of a night's lodging.

The Dayton Empire relates that some renters in that city, when the landlord comes to collect his rents, meet him at the door with the startling announcement—"Don't come in! we've got the small pox here." The landlord beats a retreat in double quick time, and an indefinite extension is granted.

JAMES FINNIN.—A young man disposed to be disorderly and to indulge in fighting whisky, was arrested by officer Garman, and taken before Alderman Maglauchlin, charged with committing an assault and battery upon William H. Emer. Upon a hearing of the case before the Alderman, the parties clinched hands, swore fidelity to each other, and the case was amicably settled.

OFFICE-SEEKERS.—Many of the patriotic individuals who are willing to serve their country for a consideration, have seceded from the State Capital, and gone to Washington, expecting to make a better impression on "Old Abe" than they did on "Andy." The Washington States says:

"Let any one who wishes to see a sight go to the departments between the hours of ten o'clock and three p. m. Every avenue, passage, corridor and room, to which there is the least chance of access, is crowded and jammed with a species of manhood and half manhood that can be described among the conglomerated mass of office-seekers which infest our city at the present time.

The green 'uns, the sharpers, the tricksters, the business men, the anti-business men, the loafers, the gamblers, the long-limbed, bank, club-sided, whittling Yankee, the puffing merchant, the squatty Dutchman, the finely proportioned dandy, and the poor and wretched deformity; the man who voted for Lincoln, and the man who would have voted for him if circumstances hadn't prevented; the man without whose efforts "Old Abe" would never have been elected; the Seward man, the Sumner man, the Lovejoy man, the Corwin man, the Judd man, the Lincoln man; all may be seen working in and working out, every one confident of success, and sure that he has all the influence on his side which can be brought to bear on the harassed and by no means to be envied official, who may have within his gift one petty, small-salaried and insignificant office. We pity the ninety-nine to be disappointed ones, nor do we envy the one in a hundred who may be the successful applicant and aspirant.

IMPORTANT RAILROAD DECISION.—A decision affecting the responsibility for accidents of railroad companies to passengers, has just been decided by the Supreme Court of Kings county, New York.—The suit was brought by T. T. Edgerton against the New York and Harlem road to recover \$20,000 for injuries alleged to have been sustained by him through negligence. The facts, as reported, were as follows:

On the 28th of February, 1859, the caboose-car of the defendants, wherein plaintiff was a passenger, while approaching Chatham Four Corners, at a slow rate of speed, was thrown from the track against a baggage-car standing on an adjacent track, out of which the body of the caboose was twisted completely in two, and the plaintiff severely injured in his left knee.

The case was first tried at a circuit term, before Judge Lot, in March, 1860. The case of the accident not appearing from the evidence on either side, the defendant moved for and obtained a nonsuit, on the ground that no negligence had been shown. Mr. Jenks, counsel for plaintiff, opposing the motion, on the ground that the fact of the car running off was prima facie evidence of negligence, that a well-constructed car, properly conducted, on a well-built and well-superintended track, could not run off; and that the defendant, in rebuttal, was bound not only to point out the precise cause of the accident, but also to prove that it was one which human care and skill could not prevent.

The plaintiff appealed, and a new trial was ordered. The evidence in this did not differ materially from that on the former occasion. After an absence of several hours, the jury brought in a verdict for the plaintiff of \$4,500, and the court granted an allowance of \$200.

A RIDE UP A CAR LOAD OF HOGS.—The Springfield Republican of Thursday says that a poor wanderer from that city, who wished to make his way East as cheap and soon as possible, had a difficult and disagreeable passage to Springfield, over the Western Railroad, on Monday evening. While the eastern stock train was standing upon the track in Greenbush, Monday afternoon, the economical traveler got inside of a freight car loaded with live hogs, consigned to Hartford or some other point on the Southern Road. The car was uncomfortably filled, and the time consumed by a freight train between Albany and Springfield being nearly eight hours, the new passenger became weary and asleep with his swinish companions. The latter being hungry, and considering the room of the former better than his company, they resolved upon a lunch, and commenced devouring the poor fellow. One of his ears was badly bitten, his face disfigured and both his boots fairly gnawed from his feet, while the remaining portions of his body and garments were indescribably defiled. He was not discovered until the train arrived in Springfield.

SINGING IN SCHOOLS.—The practice of singing, lately introduced into our common schools, is becoming very popular. It is certainly an excellent idea. The practice gives relief to the tedium of the exercises, and enlivens the pupils so that they can afterwards apply themselves more vigorously. It is not waste of time but an actual gain. Pupils can accomplish more in a day when the exercises are interspersed with singing than otherwise. It makes a school more easy to govern, as it has a soothing, refining, moralizing and elevating tendency.

By its practice the vocal organs are developed, the voice improved, and the pupils are enabled to read better. At any rate, an education is incomplete without a practical knowledge of this science, and there is no good reason why it cannot be partially obtained in this way.

THE Post Office Department has been notified by the contractor that the cheap one-cent stamped envelope, combining the most important post office facilities, for sale by them at one dollar and ten cents a thousand, exclusive of the stamp, which is a reduction of forty cents per thousand upon the rate of the present one-cent stamped envelope, comprising this improvement.

St. PATRICK'S DAY.—Sunday was the anniversary of the natal day of Ireland's patron saint, and wherever a true son of Erin walked abroad there was the true remembrance and the enthusiastic love for the greatest day in the calendar.

The legend of St. Patrick says the saint drove the toads and reptiles out of Ireland, and the land has been free of these pests ever since. It would not be amiss if a patron saint should be born for America, who would drive out of the land and put under the ban of perpetual exile all the reptiles including "toadies," "land-leeches and serpents," who have been defiling, sucking and stinging the country's heart for the last twenty-five years.

Mr. LINCOLN and PORT SUMPTER.—It seems that Mr. Lincoln has not yet made up his mind about the evacuation of Fort Sumpter. Major Anderson has been consulted concerning the matter, and he is understood to have written to the War Department that he can still hold out for several weeks, and that he would not only be safe in his entrenchments, but that his happiness would be complete if he could have free communication with the North, and secure a full supply of seasonable garments from the Drows Stone Clothing Hall of Rock-hill & Wilson, Nos. 608 and 605 Chesnut street, above Sixth, Philadelphia.

DAUGHTERS OF TEMPERANCE.—The members of the Good Samaritan Council, Daughters of Temperance, are now holding a fair at the Exchange Hall, in Walnut street. The affair will be continued during the week; the object being to raise funds for the purpose of paying the debts contracted in fixing up their hall.

Preserve our OFFICE.—The change in the political character of the National Administration will be followed by a corresponding change in the material of the subordinate departments of the Federal Government. But there is no fear that Governmental duties will be neglected in these departments, in consequence of these outgoings. For every patriot who unwillingly leaves the service of his country, there are fully fifty who are not only willing, but anxious to fill his warm berth.

Our OIL.—The oil excitement is beginning to rage in Greene county, and other parts of the State. We would not be much surprised if the fever was to break out here. Harrisburg has always been celebrated for its borers, and if some enterprising individual will only strike a vein, we will bet our pile that our Harrisburg borers will work hard to find out whether there is any merit in it or not; the same as they do with other "chances" which come before the Legislature.

HINTS ABOUT RATS.—A correspondent of the Gardener's Monthly says: "I tried the effect of introducing into the entrance of their holes, runs or hiding places, small portions of chloride of lime or bleaching powder, wrapped in calico, and stuffed into the entrance holes, and then loose by spoonfuls into the drain from the house. This drove the rats away for a twelvemonth; when they returned to it they were treated in the same manner, with like effect. The cure was most complete. I presume it was the chlorine gas which did not agree with their olfactory."

THE RIVER BUSINESS.—The river has been at first-rate rafting stage during the past week. The last number of the Columbia Spy says: The rafts commenced dropping in on Sunday afternoon, and have been arriving almost every day since. Some seventy or eighty lumber rafts, principally from the North Branch, are now lying at our wharves and above the bridge. About twenty timber rafts have passed down, and nearly the same number of lumber rafts. Some twenty rafts lie at Wrightsville, and we hear of a few at Marietta. The sales here have been light, and buyers very backward. The rivermen are doubtful about seeking a market below, owing to the unsettled state of the political relations between the North and South. From what we can learn we imagine that the main body of lumber and timber will be held back for the later Spring freshets. We hope when it does come it will be at one time, and with a rush. The river trade dribbled along through the Spring months is scarcely felt, while a general influx of rivermen within a few weeks makes a stir in our town that is sensibly appreciated.
