

LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market streets.

PATRIOT AND UNION.—The Daily Patriot and Union can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRAM.

THE MAIL.—Under the change of schedule on the different railroads, the time of closing the mails at the Harrisburg Post Office, December 1st, 1866, is as follows:

- PENNSYLVANIA R. R. East—7 a. m.—way mail, 12.15 p. m., 5 p. m., West—6.30 a. m.—way mail, 3.50 p. m., 9 p. m. NORTHERN CENTRAL R. R. South—12.15 p. m.—way mail, 9 p. m. North—11 p. m. LEBANON VALLEY R. R. 7.30 a. m. DAUPHIN AND SUSQ. R. R. 1.30 p. m. CUMBERLAND VALLEY R. R. 7.30 a. m.—way mail.

7 a. m. to Gettysburg, on Tuesday, Thursday and Saturday. 7 a. m. to Jonestown, on Monday, Wednesday and Friday. 1 p. m. to Lewisberry, on Saturday.

Sleighs were running in West Chester last Thursday. The snow was about 2 1/2 inches deep.

BANKS.—We see it stated that the banks of Philadelphia are now settling the balance due to each other in specie, thus completing the payment of specie on all their liabilities.

Upwards of one million papers of vegetable and flower seeds have been put up at the Agricultural Division of the Patent Office within the past sixty days, and sent to members of Congress for distribution.

IMPROVEMENTS IN THE CITY.—In many parts of the city the "diggers" have been hard at work, preparing a position for the foundation of numerous dwellings to be erected the ensuing summer.

AMICABLY SETTLED.—A female Ethiopian was before the Mayor yesterday, charged with making use of bad language. She promised to do better, and was discharged. Cases of this kind are brought up almost daily, and receive the attention of the Mayor. These petty fights should be settled on the outside.

CONKERS LOUNGING.—We do hope that the officers of our city will pay a little attention to the gangs of half-grown boys who nightly congregate on the street. Not that it is a crime to stand upon the corner, but many of them are so lost to feeling that they frequently insult females, and use the worst kind of language.

DOES NOTHING.—Our aldermen are complaining of the beggarly account of empty boxes, and the want of material to work upon. Can we not get some gentlemen with moral courage and the physical strength to knock another man down? Then we will have an arrest, and perhaps fun, but, at all events, it will make an item, which will duly appear, prefaced with small caps, and concluded with a moral lecture.

SUDDEN DEATH AT ALTOONA.—On Sunday evening last, Mrs. McCreary, wife of Charles McCreary, foreman of the foundry belonging to the Pennsylvania Railroad Company, attended the Baptist church, in Altoona, of which she had been a consistent member for many years, apparently in her usual robust health. After the opening services were gone through, the lady was noticed to cough, and while the Rev. Mr. Sembover was announcing his text, she rose and left the church, proceeding to a house close by, where she complained of feeling very ill, and died in about ten minutes.

HORSES' FEET REQUIRE MOISTURE.—Nine-tenths of the diseases which happen to hoofs and ankles of the horse are occasioned by standing on the dry plank floors of the stable. Many persons seem to think we will have an arrest, and perhaps fun, but, at all events, it will make an item, which will duly appear, prefaced with small caps, and concluded with a moral lecture.

ATTEMPT TO BURN A HOUSE.—On Tuesday night some fend attempted to set fire to the building at the corner of Third and Walnut streets, known as Military Hall. A quantity of burning fuel or turpentine was placed under the door, and set fire to. Fortunately, Mr. Gross, the proprietor of the place, was awake, and hearing footfalls on the porch, came down stairs in time to extinguish the fire. The affair took place about 2 o'clock, and if the flames had got any headway, serious damage would have ensued, as the breeze about the corner was quite lively at the time. No clue to the perpetrator has been obtained up to the present time.

THE MAYOR'S OFFICE.—Two volunteers appeared before His Honor yesterday morning. They were both circulating mediums, and in search of a night's lodging. One of them—Joseph Long—halled from South Hill county, but was born in Germany. Having no visible means of support, and no "spouse" to pay his fine, the Mayor discharged him.

THOMAS JACKSON WAS A VOLUNTEER INMATE OF THE "retreat," on Monday night. Thomas had been sojourning in Texas for some time; but since the conduct he has been out of work, and concluded to seek his fortunes in the North. Having no money, and there being no charge against him, the Mayor sent him on his way rejoicing.

GREAT WRITERS.—Some of the most sublime and truthful things ever written were first clothed in the English language. Chaucer and Spenser are the acknowledged fathers of English poetry; Shakespeare and Milton were very respectable sons to the original founders of the institution, and Byron, Shelley and Tennyson stand fair as grandchildren. The writers named, together with Scott, Dickens, Irving, Longfellow and Holmes, have, we admit, written some very passable things; but nothing more truthful and practical ever came from their pens than the assertion that the most elegant garments for gentlemen and youths, to be found in the Union, are those made at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chesnut street, above Sixth, Philadelphia.

RAILROAD MATTER.—The Manheim Sentinel announces with pleasure that the Reading and Columbia Railroad, so important to the interests of that borough, has at last been put under contract, and will be commenced in a short time. The terms of the contract were finally settled by the committee appointed by the Board of Directors—Messrs. Kauffman, Schoch, and the President of the road, Mr. Konigsmacher—and by James Moore & Co., the contractors in Philadelphia, two weeks ago. We learn that the contractors have taken the road at their standing offer, viz: \$600,000, and are to finish the grading, masonry and superstructure; prepare the road for ballasting, cross-ties and track, from the east end of the Columbia bridge to the intersection with the Lebanon Valley road, the company to settle for the right of way. The work is to be ready for the track in 15 months. The prosecution of this work, as it reaches Manheim, will greatly add to the business interests of the citizens, and its completion will be a means of permanent prosperity.

PENNSYLVANIA STATE AGRICULTURAL SOCIETY.—The stated meeting of the Pennsylvania State Agricultural Society was held at their office, in Harrisburg, Tuesday, March 19, 1861. A committee was appointed, consisting of Messrs. Rutherford, Colder and Ziegler, to decide upon contested seats, who made the following report: Your committee appointed in relation to the members elected in the 2d, 3d, 8th, 12th, 17th and 23d districts, beg leave to make the following report: That they find, by the Constitution, that the 2d, 3d, 8th, 17th and 23d districts are vacant, no person being elected therefrom. All of which is respectfully submitted. J. P. RUTHERFORD, J. H. ZIEGLER, W. M. COLDER.

The report was adopted. The Secretary laid before the Society the drawings and communications of P. M. Goodwin, of Luzerne county, with regard to the laying of drain tile, and moved that the thanks of the Society be returned to Mr. Goodwin, and that the drawings and communications be incorporated in the next volume of transactions. Adjourned.

The committee met at 7 o'clock, p. m. Present, Messrs. Haldeman, (President), Buck, Bueher, Baker, Colder, Curwen, Driehack, Drinker, Eberly, Elby, Geary, S. S. Haldeman, Kapp, Mish, Milles, Murcheson and Rutherford.

The Secretary, A. O. Hiestler, read his report, in the course of which he remarked: "Our expenses during the past year were as great as those of former years, while our receipts, as will be found by the detailed report of the Treasurer, were less.—Yet he has the satisfaction, in resigning the onerous and important duties of the office, of knowing that he has, to the best of his ability, discharged his duty; and though our funds have been somewhat diminished, that we have an amount in the treasury sufficient to defray the expenses of the year, and to carry the Society safely through the risks incident to another exhibition; and he now tenders to every member of the Executive Committee his thanks for their uniform courtesy toward him."

The Committee proceeded to elect a Recording Secretary and a Treasurer, when John H. Zeigler was elected Secretary, and John P. Rutherford Treasurer.

The committee on the Essay on Veterinary Science, by Mr. McLure, made a report, and were discharged from the further consideration of the subject. Colder, Rapp and Peters, committee.

The committee on the essay, by General Stokes, on Farm Failures, reported favorably, and awarded him a silver goblet, as offered in the premium list. Gowen, Hamilton and Hiestler, committee.

The committee appointed to examine and report upon the essays of Messrs. Spangler, Guyer and Goodwin, made report, and awarded premium of a silver goblet to Mr. Spangler, with a recommendation that all possessed merit, and that each be permitted to speak for himself by publishing the essays in the next volume of transactions.

On motion, Messrs. Eby, Drinker and Curwen were appointed a committee to revise and report a list of premiums for the next exhibition, and appoint the required number of Judges.

Messrs. Colder, Kapp, Mish, Zeigler and Rutherford were appointed a committee to make arrangements for the tenth annual exhibition.

On motion, it was resolved that the Vice President of each Congressional district be requested to send to the Secretary the names of suitable persons to act as judges.

On motion of Mr. Peters, Mr. Mish and Mr. Rutherford were appointed a committee to settle the account of the retiring Treasurer.

On motion of Mr. Murdock, it was unanimously resolved, That the Executive Committee of the Pennsylvania State Agricultural Society earnestly recommend to the members of the Legislature an appropriation sufficient to complete the building of the Farmers' High School, and that a copy of the above resolution be furnished to the Speakers of the Senate and House of Representatives.

ANIMAL FOOD.—The following summary of the different foods to which the proximate constituents of food are applied in the animal economy will be useful: 1. The earthy substances contained in food, consisting chiefly of phosphate of lime and magnesia, present the animal with the materials of which the bony skeleton of its body principally consist. They may be called, therefore, bone material.

2. The saline substances—chloride of sodium and potassium, sulphate and phosphate of potash and soda, and some other mineral matters occurring in food—supply the blood, juice or flesh, and various animal juices, with the necessary mineral constituents.

3. Albumen, gluten, legumin, and other nitrogen-containing principles of food, furnish the animal with the materials required for the formation of blood and flesh; they are therefore called flesh-forming substances.

4. Fats and oily matters of the food are employed to lay on fat, or to support respiration and animal heat.

5. Starch, sugar, gum, and a few other non-nitrogenized substances, consisting of carbon, hydrogen and oxygen, are used to support respiration, (hence they are called elements of respiration) or they produce fat when given in excess.

6. Starch, sugar, and the other elements of respiration alone, cannot sustain the animal body.

7. Albumen, gluten, or any other albuminous matter alone, does not support the life of herbivorous animals.

8. Animals fed upon food deficient in earthy phosphates or bone-producing principles, grow sickly, and remain weak in the bone.

9. The healthy state of an animal can only be preserved by a mixed food which contains flesh-forming constituents as well as heat-giving principles, and earthy and saline mineral substances in proportion, determined by experience, and adapted to the different kind of animals, or for the purpose for which they are kept.

THE EXHIBITION AT BRANT'S HALL.—There never was an exhibition of any kind in this city that became so popular in so short a time as the Pan-theo-n-the-a, now on exhibition at Brant's Hall. For this there are three good and sufficient reasons. First, the paintings are far superior to anything of the kind ever brought here, and are alone worth seeing, independent of any other attraction. Secondly, Miss Pettee, an accomplished vocalist, with an admirable voice of great compass and richest tones, sings four or five of the choicest songs of the day in an artistic manner, every evening, which are alone worth more than the price of admission. Thirdly, as a wind-up, the managers, in a spirit of recklessness, at the end of each entertainment, distribute promiscuously among the audience a large number of valuable gifts, which is highly gratifying to the recipients, and a source of great excitement and amusement to the entire audience.

We say, let every one go to-night, which, by-the-by, is the last night, and we pledge our reputation that no one will be dissatisfied with the entertainment.

HOUSE AND SIGN PAINTING.—If any of our citizens want their dwellings improved, want a sign painted, or want anything in the painting line, they should call upon our friend Cranberrybank, in Cranberry alley. He can do the work well, and at the most reasonable prices.

A REDUCTOR.—We learn that the City Council have reduced the salary of the Chief of Police to the sum of \$20 per month. How they expect a man with a family to live on that and do his duty, is more than we can understand.

HOW TO BREAK BAD HABITS.—Understand clearly the reasons, and all the reasons, why the habit is injurious. Study the subject till there is no lingering doubt in your mind.

Avoid the places, the persons, the thoughts, that lead to temptation. Frequent the places, associate with the persons, indulge in the thoughts, that lead away from temptation.

Keep busy. Idleness is the strength of bad habits. Do not give up the struggle when you have broken your resolution once or a thousand times.—That only shows how much more need there is for you to strive.

When you have broken your resolution, just think the matter over, and endeavor to understand why it was you failed, so that you may be on your guard against a recurrence of the same circumstances.

POSTMASTERS' FEES.—From remarks which we frequently hear as to the pecuniary value to the incumbents of our largest postoffices, it is evident that the subject is about as little understood as any other connected with postoffice matters. For instance, quite an intelligent merchant recently insisted, in our hearing, that the New York postoffice was worth "all the way from \$6,000 to \$15,000 per annum to the postmaster." The facts are simply these: This matter of the compensation of postmasters is entirely regulated and controlled by law. All offices where the commissions amount to \$2,000 and upward are designated as salary offices, \$2,000 being the maximum pay allowed from that source, and an additional \$2,000 to be taken out of the receipts for box rents—making \$4,000 the highest compensation to any postmaster. A larger sum than this cannot be realized without resorting to acts made criminal and felonious by laws of Congress, and punished by the severest penalties.—Even were a postmaster inclined to take the risk of such penalties, as well the ruin of private and official character, such are the checks and restraints now enforced, that the "pickings and stealings" which many outsiders so flippantly talk about are entirely out of the question. And if it were not so, the indulgence in such practices would involve perjury, as a postmaster is required to make oath that he has kept nothing from the Government, in the way of fees or emoluments of any kind, to which he is not legally entitled. It will thus be seen that the New York postoffice, with its 232 clerks, 117 penny-posts, \$1,000,000 annual revenue collected, and its \$500,000 bonds, under an honest administration of its duties, cannot be made to net more, if any, more than some other offices, with perhaps a dozen clerks, a few thousand collections, and requiring surties of one-fifth the amount.—We intend soon to prepare a statement of the emoluments received annually at the large postoffices in the several States.—Hobbs & Mal.

MUSLINS, MUSLINS, MUSLINS!—1,000 yards the very best Unbleached Muslin, 10 cents; 2,000 yards beautiful Bleached Muslin, 10 cents; 2,000 yards of the best long Cloth Muslin, 12 1/2 cents; which I will sell by the piece at 1 1/2 cents. A large lot of remnants of Calicoes, to be sold cheap; remnants of Colored Silk; remnants of Delaine; all will be sold cheap. Delaines, Broche Shawls, other Shawls, Cassinetta, Cassimere for pants, Black Cloth, at cost price. A splendid assortment of Cambrics, Jacquets, Cambric Bands, Hem-stitched Handkerchiefs, from New York auction; white and colored Flannels, at cost price. For cheap goods call at S. LEWIS, at Rhoads' Old Corner.

PURIFY YOUR BLOOD.—BRANDRETH'S PILLS WARRANTED TO CURE FEVER AND AGUE.—The effect of purging with BRANDRETH'S PILLS is to restore the health, no matter from what cause it may be suffering. They take out all impurities from the system; and they have the same power of expulsion over miasm, poisonous vapor of decayed vegetables, or indeed any poisonous exhalations breathed by man whatever. In fact, if the blood is poisoned, it is impure, and impure blood results in disease.

BRANDRETH'S PILLS, though innocent as bread, yet they are capable of purifying the blood and curing disease. So, they cure all kinds of fevers, all asthma, catarrhs, costiveness and painful affections of every kind. Sold, price 25 cents, at No. 294 Canal St., New York, and by all Druggists. Also, by GEO. H. BELL, corner of Second and Chestnut streets, Harrisburg, and by all respectable dealers in medicines. sold-d&wlm

PAIN-TEU-N-A-THE-G-A-Y GO AND SEE THE GREAT EXHIBITION AT BRANT'S HALL TO-NIGHT!

Prof. WOOD'S Restorative Cordial at Blood Renovator is only a genuine medicine of real merit, but is late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their decline. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

Prof. WOOD, proprietor, No. 444 Broadway, New York, and No. 114 Market St., St. Louis, Mo., and sold by all good druggists. Price one dollar per bottle. Read what the Press say, after thoroughly testing the matter, and no one can have a doubt.

Prof. WOOD'S Restorative Cordial at Blood Renovator is only a genuine medicine of real merit, but is late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their decline. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

Prof. WOOD'S Restorative Cordial at Blood Renovator is only a genuine medicine of real merit, but is late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their decline. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

SOMETHING MORE VALUABLE SILVER OR GOLD. IT WILL RESTORE THE WEAK! REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY AND VIGOR. PROF. WOOD'S RESTORATIVE CORDIAL. BLOOD RENOVATOR. In peculiar what its name indicates, for while pleasant to the taste, it is revivifying, exhilarating and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renews the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all.

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly adapted to the system of the aged, and never followed by lassitude or depression of spirits. It is composed entirely of vegetable, and thus thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of CONSUMPTION, BRONCHITIS, INDIGESTION, NEURALGIA, MIGRAINE, PALETTITUDE OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY CALLED FEMALE WEAKNESS, AND IRRREGULARITIES.

There is NOTHING ITS EQUAL. Also, Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangements of the Urinary Organs. It is the only cure of the Rheumatism following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the diseases at once, if already attacked. TRAVELERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon change of climate and water, and yet it is never followed by lassitude or depression of spirits. It also prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits. LADIES not accustomed to much outdoor exercise should always use it. MOTHERS should use it, for it is perfect relief, taken a month or two before the final trial, will pass the dreadful period with perfect ease and safety! There is no mistake about it! THE COBBLER AND THE MILLINER TRY IT! MOTHERS TRY IT!

And to you we appeal to detect the illness or decline not only of your daughters before it is too late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their decline. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

Prof. WOOD, proprietor, No. 444 Broadway, New York, and No. 114 Market St., St. Louis, Mo., and sold by all good druggists. Price one dollar per bottle. Read what the Press say, after thoroughly testing the matter, and no one can have a doubt.
