THE MONEY MARKET .- There never was in the history of the country such an abundance of money as at the present time; it is literally overflowing, and yet all business is paralyzed ; all public confidence destroyed.

N. W. R. R.-We hear it stated that work will be commenced on the old North Western Railroad, now West Pennsylvania Railroad, on the first day of May next. This will be gratifying intelligence to all who feel an interest in that improvement.

REMOVAL .--- It will be seen by an advertisement in another column that B. J. Harris has removed his tin and sheet iron ware manufactory to No. 112 Market street, where he will be pleased to see all his old customers and the public generally.

THE FAIR .-- The upper rooms of the Exchange are crowded nightly. If you are in want of fun, go and see the party, and invest a few dimes in the purchase of the gewgaws which are promiscuously circulated, in most magnificent splendor and gorgeous array on every table in the arena.

PITCHING COIN .- This vice has greatly increased in our city within the last few years. Boys of high and low degree indulge in the sport, and not a Sunday passes but what these juveniles can be found on the outskirts of the town, engaged in the interesting game of "toss."

COCOANUT PUDDING .-- Grate one cocoanut and stew slowly in one quart of milk; pour it upon half a loaf of baker's bread ; when cold, add one pound of sugar, and half a pound of butter beaten to a cream. Stir them well together-then add six eggs beaten light, and then send it to this office.

RATHER HARD .--- A young man who has been working for some time in Honesdale, arrived in the city on Wednesday night, and took lodging in the look-up. He was crippled, short of funds, and Mayor Kepner kindly furnished him wi the necessary material, and the young man started on his way to the city of Brotherly Love. OPENING OF THE CANALS.—The navigation is now open on the Western Division of the Main Line of the Pennsylvania Canal. The water is now being let in on the Eastern Division, and the canal will be in operation by the 25th inst., when the whole line of canals along the Susquehanna, from Havre de Grace to Wilkesbarre, will be open. The important repairs on the Juniata Canals will prevent their opening until near the 1st of April.

THE POLITICAL MILLENIUM OF THE TELEGRAPH. The editor of the Telegraph having, with peculiar self-complacency, read his commission and cast up with arithmetical precision the amount total of the salary, perquisites, contingent charges and pickings of his recently acquired office, breaks out under the following luminous inspiration :

PLACE HUNTERS .- Appointments to office are as pportune now to the unemployed politicians as are shad to the appetite of the good liver. The dcpression in business has made as many idlers as a carcass attracts flies. The appetite is as keen with the one as with the other; but the former have a poor prospect of appeasing it. It is a matter of regret that offices cannot be trebled in number, so that there would be scarcity of employees in me-chanical and mercantile pursuits. There would then be no disappointments, nobody in want, and no struggles at elections. Corruption would disappear, and everybody would rejoice that the greatest good, instead of being distributed to the greatest number, was given to all alike.

There is but one slight error in this brilliant programme of universal office-holding and cousequent happiness; and that is in the more triplication of the present Government offices in the gift of the President. If they were increased a thousand fold they could not satiate the myriads of hungry loafers who are now beseiging "honest Old Abe" for a spoonful of treasury pap, much less would there be any chance for the poor mechanics, to whom our facetious editor refers with so much philanthropy. Meanwhile we would suggest to our embryo

Postmaster the establishment of a branch pest-office in each ward in this city. This would supply places for some of his disappointed competitors, and would, in a slight degree, realize the ingenious idea of conferring an office upon every member of the Republican party, and thereby put a stop to complaint. Of course, in that case, the Democrats would have to pay the taxes-that's all they are good for.

THE INDIANS .- A Philadelphia paper says : An interesting meeting of the friends of the Indians was held at Sansom Street Hall. "Father Beesom" was present, and gave a most impressive account of the outrages which have been committed upon them. In reference to the treatment of the Indians, he said they had been, heretofore, surrounded by a set of bloodsuckers, and he gave a number of instances in which speculators and Government officers had swindled the poor Indians of their money and lands. He asked if it was any wonder that the poor creatures should burn and smart under their wrongs? He gave one instance where the Government had voted \$60,000 for the support and instruction of the Indians, of which sum the disbursing agent received \$38,000, and the balance came back to him in exchange for rum and trinkets. He said some of these men not only robbed but murdered the poor Indians. The Indians feel that the torrent of destruction is steadily flowing from the eastward to the westward. He desired this feeling removed-that as we all lived under the same God, they should be treated as our fellow-men; that we should think as much of the Indian as of the negro !

THE UPPER END .--- The Lykens Journal says : On Friday morning last, a man named Thomas Hand, an American, working in the Big Run Gap coal mines, was struck by falling coal, and instantly killed. The deceased was an admirable workman, and was much esteemed by all who knew him. He leaves a wife and one child in a somewhat destitute condition. By the exertions of Wm. Hemingray, Esq., lessee of those mines, a considerable sum was collected for their support.

On Monday evening a man by the name of John Shehan, was seriously injured by falling coal in the mines of the Lykens Valley company.

On Tucsday evening a man named Thoma was own his way to Philadelphia, where his friends | Booker, was dangerously injured by being caught critical.

THE CHANGE .- During the last week the importation of specie at New York, with the amount en route from San Francisco, as advised by the Pony Express, amounts to \$4,066,469. This avalanche of specie adds largely to the vast amount of money lying idle in the bank vaults waiting for a settlement of the irrepressible conflict, and the consequent revival of business.

ORIGIN AND PROGRESS OF THE EDUCATION OF THE BLIND .--- The public is respectfully informed that E. W. Whelan, an experienced teacher of the blind and now interested in the establishment of a literary magazine, adapted to their use, will deliver a lecture on the above subject in the hall of the House of Representatives, on Friday evening, the 22d inst., commencing at $7\frac{1}{2}$ o'clock. The public, and especially the members of the Legislature, are invited to attend. Admission free.

TWO MORE NIGHTS OF THE GREAT PAN-TEC-NA-THEC-A.-Owing to the immense crowds of people who have not seen this splendid exhibition, at Brant's City Hall, the proprietor will remain two days longer; and for each exhibition has made out a list of splendid presents, which will be given away after the exhibition is over. Among the presents for each evening is a Ladies' Splendid Gold Watch, a Gold Clasp Family Bible, a Silver Cake Basket, a Silver Goblet, an elegant copy of Shakspeare's Works, with other elegant books .---The presents for each evening amount to about forty in number, valued at \$125.00. If we were a lady we would go to the Pan-tcc-na-thec-a these two evenings, sure, as the proprietor says he will give these presents away whether there are five persons or five hundred in the hall. He says he gives these presents away to advertise his exhibition, and we think he is doing it very effectually. The exhibition is certainly the finest thing ever in Hacrisburg, and everybody should see it.---There is scarcely a scene shown, but that is worth the price of admission. Go early if you want a seat.

In a recent case before the Superior Court, in Worcester, Judge Lord presiding, in which certain parties, employees of the Norwich and Worcester Railroad Company, sued that company for damages for injuries sustained by a collision on the road, the Court ruled that one person in the employ of the defendants could not maintain an action for injuries received through the want of care of other persons also in their employ, if the other persons were proper and suitable men for the railroad company to employ. The plaintiffs thereupon became non-suits.

A WANDERING MINSTREL .-- One of the gayest larks that has made application for lodging, presented himself on Wednesday night. Callender, with his usual big-heartedness and the keys, admitted him. In the morning he turned out to be a regular Jim Baggs-a minstrel, a performer on the flute, and a man having music in his soul. He was hard up for small change, had no place to go, and concluded he would "burn" in the lock-up .---When the Mayer appeared, our musical friend was brought forth, who went through several operatic airs, which so delighted the audience that the Mayor discharged him.

LLOYD'S MINSTRELS .- This popular band of Ethiopian delineators will be here again on Monday and Tuesday, March 25th and 26th. The troupe have been on a tour to the West and are drawing crowded houses at Pittsburg, where they are performing at present. Mr. Wambold, who has been appear with the troupe on their recent visit, has ing. The troupe are on their way to New York, April

This troupe on their last visit drew crowded houses and gave general satisfaction. During their entertainments mirth and jollity reigned, and nothing like an obscene word or a vulgar joke came from any of the Company. We predict for them full houses on their arrival.

- FROM DAUPHIN .--- A correspondent writes :--- Mr. Editor : That fatal disease, scarlet fever, has been prevailing to an alarming extent, in our midst, for the past six months. It has entered our families, and made our homes desolate by taking away one and another of the loved ones of earth. But, inasmuch as Christ hath said, suffer little children to come unto me, &c., we know He doeth all things well. Yesterday, one of its victims, Agnes Shiffler, an interesting girl of fifteen summers, was committed to the tomb by her friends and relatives. The children of the Sabbath School, of which she was a member, followed her in procession, each bearing a twig of sprace, which they cast into the grave as a token of love and esteem for one who gave evidence that she left the nursery of the . church for a brighter home in Heaven.

Messra. Stone, Quigley & Co. have taken the contract for building the bridge at Dauphin-the part that was destroyed by the storm. They are lumber is delivered.

BEFORE THE MAYOR .- The "retreat" was occupied on Wednesday night by five volunteers. At the levee before the Mayor, yesterday morning, the first individual brought forth was a female, who hailed from Easton, and was on a tramp to Pittsburg. She was discharged.

The next customer was a young man, who stated that he had been at work in Baltimore, and was on his way to York. Being short of funds, he located in the look-up, and was discharged by the Mayor.

The third individual was of German extraction, and said that he had formerly worked in Carlisle. Being out of work, and having no place to go, one of the bystanders thought that he should make application to the new postmaster for a clerkship. He was discharged.

#### THE METHODIST CONFERENCE.-To the fraternity of Methodist ministers, the next few days will be a period of much anxiety and suspense. The Methodist minister, unlike the minister of any other denomination, has no fixed abiding place. The Conference shapes his course, and where he is to go is unknown to any one until the "appointments" are announced at the close of the proceedings. The minister remains in his charge for two years, forms friendships and endearing ties. At the end of two years, the pleasant friendships are but pleasant memories, and at the bidding of the Conference he departs to a new field of labor, there to spend two more years with the same results, to be again transferred to fresh fields of usefulnes,

until he departs to his rewards, "bearing his sheaves with him." INDIGNATION MEETING .--- It is reported that some of our most influential citizens have determined to call a meeting, and see what can be done in relation to the Post Office. Many of them are impressed with the idea that it would be better to secede, and start a new post office on Independence or Bailey's island, and apply for a new postmaster severely indisposed for some time, and could not in this region. Here is a chance for some good man, and an aspirant for office, because Old Abe recovered and is now in fine voice, and our citizens | promises to appoint any honest man to office, who will receive a rich treat in the way of ballad sing, belongs to his party, and says he's sorry that he made several sad mistakes. The new postmaster and will open out at Niblo's Saloon on the first of | of Harrisburg will have to look out for his chances, as, from present appearances, we think all money will be sent through the new post office.

> FICKLE-The present month thus far. The first day of March opened boisterously, gradually subsiding into a more genial mood, proclaiming that "Spring time has come again."

Subsequently, warm rains washed the face of earth of every trace of snow, sending huge volumes of water down the mountains' sides, through the aqueducts, to the great reservoir, the ocean .-

Anon the "Wavering flakes begin to flow," and now the earth is enveloped in a covering of "frozen mist," as if winter, loath to yield his supremacy, holds earth once more in his chilling embrace.

GREAT CITIES .--- London is the largest city in Europe, and Paris is the most splendid. But neither London, with its vast wealth and extent, nor Paris, with all its splendor, possess an establishment to compare, in all respects, with the celebrated Brown Stone Clothing Hall of Rockhill & Wil-

son, Nos. 603 and 605 Chesnut street, above Sixth, Philadelphia. This great store is not alone remarkable for its splendid exterior, its vast extent, or its elegant fittings; but it is equally famous for here, and will go to work at once.
