IMPROVEMENTS .-- Among the other improvements going on in the city is the elevation of the District Attorney's office. All these little works of improvement benefit the working classes, and furnish food to the hungry.

ONE of the detectives in Washington city has seized a lot of counterfeit money, which amounts in the aggregate to \$200,000; a number of plates, dies for counterfeiting gold and silver coin, etc., were also discovered.

Thus says somebody: "The height of politeness is passing round on the opposite side of the lady, when walking with her, in order to avoid stepping upon her shadow." But we think they heat it out West, where, when a lady sneczes, the company give three cheers.

A SLIGHT MISTAKE .- It was Ben Boyer, and not Bowman, who figured in the police arrangements on Monday. Boyer is an oyster dealer and circulates through town with a team, whilst Bowman only deals in the article when he visits a saloon, where he calls for "fried, roasted or stewed."

POCKET BOOK FOUND .- Mr. Haas, the Editor of the Lanaster and Harrisburg Democrat, found a pocket book, a night or two since, which has been left at the Mayor's office. The book contains a who can obtain them by calling at the Mayor's

CANAL OPEN.—The Susquehanna and Tide Water canals between York and Havre de Grace, Md., are now open, and navigation on them has been resumed. The water was let into them on the 17th inst., and the packet boats for the convenience of the lumber men and river men commenced running | running of passenger trains between Eric and forthwith. No ladened boats have yet passed through, but we learn that several are now loading and will start soon.

WAR.-We meet a great many men in the course of our travels who are strongly in favor of settling our national difficulties at the point of the bayonet, but we havn't met any of this class who have volunteered their services, or are willing to shoulder "mush stick" and fight the enemy. There is some difference between a bar-room conversation, enjoying a hot whisky punch, and going to war, locating in a tent, and feeding on pork and beans.

THE MAYOR TURNED CONSTABLE.—Since the Chief of Police has been confined to his bed, Mayor Kepner has been acting on his own hook. On Monday night he made a descent on a party at the corner of Third and Walnut streets, and captured one of the smokes, necked him, and entertained him for a time in the lock-up. As the dark was good at laughing, and having proved that he was a mere spectator, the Mayor discharged him.

PLUMBING.—It will be seen by the advertisement in another column that Mr. Wm. Parkhill has removed his plumbing and brass foundry from Mar sthe contemplated abandonment of the shops, the ket street to Fourth street, above Market, and directly opposite the Bethel Church. Mr. Parkhill is one of the hest mechanics in this line of business in the city, and as many of our citizens contemplate erecting new buildings the ensuing summer, we would recommend them to engage his services.

SPRING GOODS .- Glover, the energetic, enterprising and industrious tailor, has just returned from the East with a choice lot of materials. The cloths, cassimeres and vestings are of a superior quality. The ability of Glover to cut, and his journeymen to make, has never been questioned. So that all who may want a good fit should give him a call .--The store is located in Market near Third street. See advertisement.

PROGRESSING .- The engineers of the Atlantic and Great Western Railroad commenced operations last week between Meadville and the Ohio line .--The work from the junction with the Sunbury and Erie road and on the western end will be commenced at the same time. The survey for a branch road from Meadville to Franklin, about 30 miles, is to be commenced forthwith. It is also understood to be the purpose of the Pittsburg and Erie road to build a branch to Franklin.

A FACT.—All seasons are good for advertising, and particularly now. The dull times are as good as any for the advertiser, for what is going on they get; and while others are grumbling they pay their way, and, with a newspaper as a life-preserver, swim on the top of the waters, while others around them are sinking. Advertising is the sunshine of business. A man makes but little out of retreat they wended their way to parts unknown. this world unless he lets people know he is in it. You will discover, after several minutes reflection, that that's so.

Our or JAIL.-Frederick Keeney, who has been confined in jail for some time, on the charge of shooting a boy named Louk, was released yesterday. It appears that Keeney was playing with a gun, and not knowing that it was loaded, became careless, and through the foolishness of the party, the gun exploded. Keeney was committed by Esquire Hummel, of Hummelstown, and bail being entered yesterday, he was again permitted to snuff the fresh air.

THE FEDERAL APPOINTMENTS IN PHILADELPHIA. Mr. Lincoln keeps the politicians in a perfect fever of suspense, respecting his appointments in Philadelphia. The applicants for places are legion, and queer reasons are urged why some of them should obtain the places they seek. In one instance it was impressed upon the President that a certain party should have a fat berth because his moral character was unblomished, and he looked like a gentleman. "In that case," replied Mr. Lincoln, "he must habitually wear garments made at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chesnut street, above Sixth, Philadelphia." It is evident that this famous establishment has a national reputation.

Female College, called for the purpose of taking such action as might be deemed proper by reason Jack's Book Store, corner of Third and Market of the death of Rev. Beverly R. Waugh, Principal of the College, was held on Monday, the 25th inst., at 3 o'clock p. m. Hamilton Alricks, Esq., Vice President, in the Chair.

After the object of the meeting had been stated by the presiding officer, on motion, R. A. Lamberton, A. O Hiester, J. H. Berryhill, Wm. Dock and E. M. Pollock were appointed a committee to report appropriate resolutions. Whereupon the committee reported the following preamble and resclutions; which, on motion of A. B. Hamilton and Major M'Glauchlin, were unanimously adopted:

WHEREAS, We have learned with sorrow of the death of our friend, the Rev. Beverly R. Waugh, Principal of the Pennsylvania Female College at Harrisburg, and as it is becoming that we should give expression to the loss thus sustained by our College and our community; therefore,

Resolved 1. That by the decease of its Principal the College has been deprived of one who, in an eminent degree, possessed those qualifications which so well fitted him for the moral and intellectual training of those who were entrusted to his

2. That the loss of the services of this earnest and upright man is not only a weighty and serious one to the College, but our community may well deplore the removal of a good citizen, who had so won by his worth the confidence and regard of all. 3. That we sympathize with the family of the departed in their bereavement, and feel we can do little more than point them in this, their hour of trial and affliction, to Him who doeth all things well, and in whom the now deceased husband and father so carnestly believed and trusted.

4. That as a mark of our respect for his memory, we attend his funeral in a body. 5. That a copy of these resolutions be sent to

the family of our late friend. On motion of Hon. William Dock, the Board ad-

THE SPOILS THE SOLE AIM AND OBJECT OF BLACK REPUBLICANISM! - A glance at the Editorial columns of the Telegraph of yesterday will convince the reader that the attention of the Republicans is absorbed by the distribution of the loaves and fishes. to the entire exclusion of any thoughts bearing upon the critical condition of the country. The leader refers to the fat salaries attached to the principal foreign missions; another article informs the public that the three Electors from Oregon, instead of sending a messenger to Washington with the returns of the Presidential election, went themselves to the seat of the General Government with the returns, and shared the fifteen thousand dottars which should have been the perquisites of the messenger! Another article gloats over the \$11,250 annual salary of the Minister to Guatamala and Honduras, who has nothing to do but to swing in a hammock all day and flirt at Tertullas with the Senoritas at night! While the editor of the Telegraph was inditing these interesting facts, his mouth was certainly watering at a great rate, and it required at least the appliance of six extra bandanas to prevent an overflow upon his paper. The recapitulation of these magnifinumber of valuable papers, but only to the owner, | cent sums must have suggested most discouraging comparisons with the small affair of the Harrisburg Post-office. Don't you wish you had them all, including the Senoritas?

EARLY COMPLETION .- We learn, from good authority, that Mr. Moorhead, President of the Philadelphia and Erie R. R. Co., is confident that the road will progress so rapidly as to permit of the Philadelphia in less than 15 months. The work will be pressed on with as much rapidity as possible. The completion of this great work will be an era to which all the citizens of Erie may look forward with impatience and delight. It will be productive of results so magnificent that they will suprise many who are now thought quite moderate in their expectations. Erie will then take her proper position as one of the most important points on the lakes, and will be from thirty to forty miles nearer, by direct railroad connection, with the great commercial cities of the seaboard than any other place on Lake Erie.

PARKESBURG SHOPS .-- The Pennsylvania Railroad Company is now engaged taking down the machinery in the shops at Parkesburg, preparatory to removal to Harrisburg. The ground on which the shops are erected was originally presented to the State by George Parke, to hold as long as it should be occupied for the repair of locomotives, &c., and when abandoned for such purpose, to revert to the original owner or his heirs. When the State sold the railroad to the Pennsylvania Company, the shops passed into their hands. Since question as to the ownership of the machinery therein has arisen. The heirs maintain that the machinery reverts to the estate with the ground and buildings. The machinery is valued at some \$15,000 or \$20,000.

A BUMMER.—The most miserable, hopeless scrap of humanity is an idle man-a man whose chief aim of life is to "loaf"-to waste in listless lounging and mental and physical inaction the years of his short life. There are scores of such beings in every town and city-miserable loafers whose sole occupation is to avoid employment of any kindwhose lives can scarcely be called lives-who die one after another, and leave behind them-what? The cold tear of sympathy? No, but the forlorn and broken hearts of many friends. We have known many men of brains, not only here but elsewhere, who were addicted to indulging in, and partaking of, the intoxicating beverage, and yet they lived and died as men.

BEFORE THE MAYOR.—The "retreat" on Monday night was crowded with lodgers. The cells contained ten individuals, who were arrested on various charges. Three of them were arrested for drunk and disorderly conduct, and being minus the necessary amount of pewter, they were sent by express to the other side, there to remain ten days. Three "vags" were brought up who were also short of change; one of them, however, was fortunate enough to have a dollar to pay his fine, and the balance were discharged. The others were volunteers, and after enjoyinng the hospitality of the

No BIRTH WANTED.—As a steamboat was about to start from Cincinnati recently, a young man came on board, leading a blushing damsel by the hand, and approaching the polite clerk, said in a suppressed voice:

"I say, me and my wife have just got married, and I am looking for accommodations."

"Looking for a berth?" hastily inquired the clerk, passing tickets out to another passenger.

"A birth! thunder and lightning, no !" gasped the astonished man, "we haint but just got married; we want a place to stay all night you know."

SECESSION.—Go where you will, promenade the streets in any direction, and you will find the people seceding from their domicils. Whether this is in consequence of the high rents and tyrannical landlords, or for fashion's sake, we know not. But one thing is certain, if some of the capitalists of this city would erect a number of small tenements, and rent them out at a reasonable price, they would reap the benefit.

LOOK OUT FOR THEM .- Philadelphia, at the present time, is infested with a lot of burglars. The detectives of the city are upon their track, and will no doubt compel them to leave that locality. In that case, we may look for the appearance of some of them in this neighborhood.

Circulars containing valuable information, with full descriptions of each case, will be delivered gratis. on application. Address myl-dly v. O. Box 99, Philadelphia, Pa.

A MEETING of the trustees of the Pennsylvania | THE HARRISBURG FIREMEN AND THE LEGISLATURE.

MR. EDITOR :- I see by the proceedings of the Legislature that the appropriation usually granted to the Fire Department of this city will most likely be withheld this session. For the information of the firemen of this place, and their friends, I will inform them what influences were brought to bear to defeat a measure so important to them. Last fall the Republican party of this county placed in nomination two gentlemen of this city; one for member of the House of Representatives, the other for Sheriff of the county. Both of these men are what the world would call clever; but as all men have their weak spots, so had they. The former instead of staying at home, as his best friends advised him to do, commenced perambulating the county, making spread eagle speeches in which he compared his reception by the people to the triumphant entry of Washington into Trenton. He even went so far as to assert that circumstances, and not intellect, had made Franklin a greater man than himself. This gentleman overlooked one very important fact, and that was that the common school system of our good old Commonwealth had been doing its work in Dauphin county. The ambition of the candidate for Sheriff ran in somewhat a different direction from that of our Legislative friend; he conceived that he held the voters of Dauphin county at his disposal; he openly declared that he carried the political key of the county, and by his acts no doubt believed that Dauphin county and all the people in it, both old and young, male and female, were created expressly for his benefit. The people thought differently; they took the key out of this aspirant's hands, and with it locked him up in obscurity and oblivion. Defeated candidates rarely place the causes of their defeat upon themselves; this was the case with our two friends. After pitching about furiously for some one on whom to throw the blame of their discomfiture, they finally charged the firemen of Harrisburg with being the cause of it, and proceed to bore the Legislature to withhold the usual ap-

propriation. Another prominent actor in this matter is a certain Third street lawyer, who aspired to show his goodly proportions before "Old Abe," on the occasion of his recent visit to this place. This gentleman was appointed by the legislative committee to a prominent place in the procession, and so determined was he to show himself to the best advantage that he went to Philadelphia to consult Rarey upon horsemanship, and I heard it rumored that he had consulted a military friend of his on the propriety of wearing a chapeau and plume. The hopes and preparations of this gentleman were cut short by the firemen, who determined that they would not be marshalled by a man who had so bitterly denounced them in a speech in a recent campaign-they elected their own marshal, which left our friend high and dry; horsemanship, chapeau, plume, spurs and all-hence his opposition.

It is astonishing, Messrs. Editors, that members of the Legislature should be influenced by such men as these, especially the two former; because a ten minutes' conversation with either of them should be convincing proof of their littleness. If they and been men like Washington or Franklin, or if they really had held the destinies of 40,000 of the good citizens of this Commonwealth in their keeping, and subject to their bidding, then I would not be astonished to hear of them having influence; but the estimation those men have of them. selves, and that placed upon them by others, is so widely different, that I am astonished that in a matter of so much importance they have had a hearing. I ask the Legislature to let these fellows to themselves, to work out their own salvation, and settle their own petty squabbles, and do justice to our firemen.

PROF. WOOD'S HAIR RESTORATIVE. READ WHAT A DISTINGUISHED PHYSICIAN OF ST. LOUIS SAYS OF IT.

St. Louis, July 10th, 1860. St. Louis, July 10th, 1860.

O. J. Wood, Esq.: Dear Sir—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative after a trial of five years. I commenced using your Restorative in January. 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular atvantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Resterative and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it, and without effect. In every instance, however, it proved by probing the matter, that they had not used the article at all, but had used some new article, said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt. After my hair was completely restored, I continued its

no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

JAMES WHITE, M. D.

Warren Springs, Perry Co., PA., June 7th, 1850.
PROF. WOOD: Dear Sir—I was induced more than a year ago to try your valuable Hair Restorative, for the purpose of cleansing my head of dandruff I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Ross's Drug Store and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a lew gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you.

Yours, &c.,

H. H. ETTER.

Bloomington, Ind., July 30th, 1859.

Dear Sir:—I here send you a statement that I think you are entitled to the benefit of. I am a resident of Bloomington and have been for over thirty years. I am now over 50 years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative, but supposed there was more fiction than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment, commencing in a small way. I purchased one of a beautiful black, I concluded I would make the experiment, commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directions as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till I have used three of your small bottles, and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair, as any man, or as I had in my youthful days when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off, and is as soft and fine, and feels as oily, as though it was just Just received, our Spring Stock of WALL PAPER, BORDERS, FIRE SCREENS, &c., &c. It is the largest and best selected assortment in the city, ranging in price from six (6) cents up to one dollar and a quarter (\$1.25.) E. M POLLOOK & SON, mar23

Below Jones' House. Market Square as soft and fine, and feels as oily, as though it was just from under the hands of a French shampoor. Many of my acquaintances irequently say to me, "Butler, where did you get that fine wig?" I tell them it was the effects of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head. Yours truly Yours, truly, FREDERICK T. BUTLER,

> PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well-known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaoriginal color. The Hair Restorative also cares cutaneous eruptious, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative.—Boston Olive Branch.

WOOD'S HAIR RESTORATIVE .- We are not in the habit Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for line cases of ten they are quack nostrums, but we take great pleasure in recommending Professor Wood's article to all whose hair is falling off, or turning gray. Our well-known contributor, Finley Johnson, Esq., has experienced the benefits of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in Summer.—Baltimore Patriot.

WOOD'S HAIR RESTORATIVE .- Unlike most specifics. Wood's HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost baid because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other important its which operate so injuriously to the hair. It such as to effectually eradicate dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innoxious.—Bos ton Transcript, April 22, 359.

A GENUINE BOON .- In our capacity as conductor of a public journal we are called upon to advertise the cure-alls of the day, each of which claims to be unadultera-ted in its composition and infallible in its curative ef-fects—with what justice we leave our readers to determine. In one instance, however-Prof. Wood's Hair Restorative-we are so well assured of the notable qualities of the article that we give it our endorsement quanties of the article that we give it our endorsement as all that its inventor and vender claims it to be. Its effect upon a falling head of hair is universally known to be magical; like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely growing hair to try the Restorative.—Columbia Spa.

QUACK NOSTRUM—The majority of hair washes, hair dyes, hair tonics, hair cils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows and new-paper headings, as hair preparations, are all humbugs of the first water; their real merit, when they possess any, is, that they do no harm. Hog's lard, whale oil, lard oil, sweet oil, scented and colored, make up, when in beautiful wrappers, and white fiint glass bottles, the costliest character of tonics. and when thus costly, are baptised with some tri-syllable term, and caught at by verdant young and old of both sexes. Such is not the character of Prof. Wood's Hair Restorative. This gentleman comes before the world without any 'highfalutin'' Xilophloforium or any other actounding and startling catch-penny term; he simply advertises a Hair Restorative—what it expresses, precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, asy, your very brains, apply nothing else; for it may be that you will get some worse substance than perfumed lard oil on your cranium. Remember, Wood's Restorative for the Hair is the best article extant.—New York Day Book.
