THE Cameron guards will meet at their armory this (Thursday) evening at 7 o'clock. By order of the Captain.

OFF TO WASHINGTON .- Governor Curtin has gone to Washington to urge the claims of his friends for the numerous Federal offices in this State that have not yet been given out.

In Town.-The men with the hand-organs have arrived in town. The juveniles, and those of larger growth who admire this kind of music, will doubtless receive this news with pleasure.

Correction .- We yesterday stated in our pelice matters that Levi Himes was prosecuted by Wm. C. Black, for assault and battery. This was altogether a mistake, as no suit of the kind was brought.

INDIGNANT WIDE-AWAKES .- The Wide-Awake Battalion at Wilkesbarre are so indignant that Lincoln does not "enforce the laws" that they met one night last week and made a bonfire of their caps and uniforms in the public square.

QUITE AN EXCUSE.—A Republican paper says: "The excuse offered for the decrease of four thousand votes in the late contest for Governor in New Hampshire is, that so many were absent at Washington for office."

THERE is no truth in the reported illness of ex-President Buchanan. In a letter written on Monday, to a gentleman in Boston, he says: "My health is excellent, thank God; and I would be happy in my retirement were it not for the condition of the country."

IN THE LOCK-UP.—Six vags were accommodated by our friend Daniel at the city lock-up on Tuesday night. They all belonged to that class that "was not hurt" by the present condition of our national affairs. The whole party departed yesterday morning, with an admonition from the Mayor to leave the city.

KEEP OFF THE SIDEWALKS .- The first case for violating the ordinance in reference to wheeling barrows and hand-carts upon the sidewalks, came up before the Mayor on Tuesday evening. The offender plead ignorance of the law, and was let off by the payment of the costs. The ordinance is a good one, and should be strictly enforced.

COAL SHIPMENTS .- The shipments of bituminous coal from the Broad Top mines, over the Pannsylvania railroad, is at present very heavy. An ave- death to take him out of the world, in which he preparatory to manifesting the subtlety and venom rage of nearly one thousand tons a week have been transferred at this point to the Lebanon Valley branch of the Reading road, to be shipped to Philadelphia and intermediate points.

A SAD AFFLICTION.—A few days since a little child of Thomas W. Peeples died with the scarlet fever, and was buried on Sunday last. We are this morning called upon to announce the decease of another child, which took place yesterday. The former was a bright little boy about two years of age, and the latter a lovely girl of five. We sincerely condole with the bereaved parents in their sad affliction.

AMUSEMENTS COMING .-- We learn that Barnum's living wonders, the Aztec Children, the South Sea Albinos, the Earth Woman, and other wonders too numerous to mention, contemplate visiting this city shortly. The Stereosceptican, which has been on exhibition in Philadelphia for several weeks past, and has drawn large audiences and the highest encomiums from the press, also contemplate a visit to this city shortly.

ROUTE AGENT APPOINTED .- Mr. Lafayette Wood, of Chambersburg, has been appointed route agent on the Cumberland Valley and Franklin Railroads, between this city and Hagerstown, vice Col. John T. Ayres, resigned. Col. Ayres, more familiarly known as "Toby," has filled the office he has just vacated with honor to himself and satisfaction to the community of the Cumberland valley, and in his retirement carries with him the well-wishes of his hosts of friends.

THE WHEAT CROP .- We were informed by an intelligent farmer, yesterday morning, that the wheat crop of this neighborhood presents a very favorable appearance, especially that lying along the bottom lands of the Susquehanna. The estimates of the growing crops, especially just at this season, greatly differ by our farmers, and it would give us pleasure, at any time, to have the opinion of our agricultural friends in regard to this important

THE Farmer and Gardener and American Bee Journal for April have been received. Every page of these handsome monthlies is filled with matter of deep importance to the men who cultivate the soil, or who are engaged in the interesting and prefitable occupation of bee culture. The publishers, desirous of having them thoroughly introduced, will send specimen copies of either or both, without charge, to all who may desire it. The price per year of these journals is One Dollar each .-When both are ordered at the same time, they are furnished at \$1.50, with a handsome book as a Premium. Address A. M. Spangler & Co., 25 North Sixth street, Philadelphia.

THE NEW MARKET REGULATIONS .- The new market ordinance, recently passed by the Cits Council, in reference to regulating sales in our "dutch fair," went into operation yesterday morning. The ordinance was generally observed by the country people, but a number of butchers paid no attention to it. They claim that they have rented their stalls until the first of October next. and the City Council have no right to impose restrictions upon them under the present lease. They claim that the stalls belong to them as much as a house or store room belongs to a rentee, and, as such, they have the right to sell at any time they please-subject only to such laws and ordinances as were in operation at the time they took out their lease. If the butchers persist in their course, we have no doubt the new market master will take the necessary steps to test the matter in a court of proper jurisdiction. Our citizens generally approve of the new regulation.

Smoking .- A Few Simple Objections to the "Dis_ gusting Habit."-"The mother of a large family and the widow of three husbands, who all smoked," gives the following simple reasons against the practice. They are from Punch, of course:

1. Because it injures the curtains. 2. Because it is injurious to the furniture gene-3. Because it is not agreeable to breakfast in the

room when the gentlemen have been smoking over 4. Because no man's temper is the better for it the next morning.

5. Because it keeps persons up to late hours, when every respectable person ought to be in bed.
6. Because the smell haunts a man's clothes, and his beard, and his hair, and his whiskers, and his ody, for days afterward—so much so that it is positively uncomfortable sometimes to go near

7. Because it is a selfish gratification, that not only injures those who partake of it, but has the further effect of driving the ladies out of the room. 8. Because it is also an expensive habit, which the ladies, not participating in its so-called enjoyments, cannot possibly have the smallest sympathy

with or appreciation for.

9. Because it has the further effect of making gentlemen drink a great deal more than they otherwise would, and so weakens their purses, besides ruining their constitutions, to say nothing of the many comforts and new dresses that their dear wives and children may have been unjustly deprived of, supposing the same amount of money had only been judiciously laid out at home.

10. Because it gives extra trouble to the servants who have to clean and to ventilate the room the next morning.

11. Because how are one's daughters to get married, if the gentlemen are always locked up in a separate room, paying court to their filthy pipes and cigars?

12. Because it unfits a young man, who is wedded to it, for the refining influences of female society.

13. Because it puts a stop to music, singing, flirting and all rational enjoyments. 14. Because it is a custom originally imported

from the savages. 15. Because we see the nations that smoke the most are mostly the stupidest, heaviest, laziest, dreariest, dreamiest, most senseless and worthless beings that encumber-like so many weeds, only capable of emitting so much smoke—the face of the earth.

16. Because when a man says he is going out to smoke a cigar, there is no knowing what mischief he is bent upon, or the harm the monster is likely

17. Because it is not allowed in the Palace, or Windsor Castle, or in any respectable establish-

18. Because the majority of husbands only do it because they know it is offensive to their wives. And a thousand other good reasons, if one only had the patience to enumerate them all. Pray, did

DISCOURAGING CHILDREN .- The truthfulness of the subjoined suggestions will be endorsed by the experience of quite too many, we fear. They contain much food for thought, and may be read with profit by every parent: It is somewhere related that a poor soldier, having had his skull fractured, was told by the doctor that his brains were visible.-"Do write and tell father of it, for he always said I had no brains," he replied. How many fathers and mothers tell their children this, and how often does such a remark contribute not a little to prevent any development of the brain? A grown up person tells a child he is brainless, foolish, or a blockhead, or that he is deficient in some mental or moral faculty, and in nine cases out of ten the | beginning to renew itself, and the work of vegetastatement is believed, or, if not fully believed, the | ble and animal pro-creation will be rapidly carried thought that it may be partially so, acts like an incubus to repress the confidence and energies of that | lined streams the birds will warble their loves and child. CHECKING PERSPIRATION .- We find in Hall's Journal of Health an excellent article on the subject of suddenly checking perspiration, and the danger attending it. The extract contains good advice, by which all our readers may profit. Says the writer, "multitudes of lives would be saved every year, and an incalculable amount of human suffering would be prevented, if parents would begin to explain to their children at the age of three or four years, the danger which attends cooling off too quickly after exercise, and the importance of not standing still after exercise, or work, or play, or of remaining exposed to a wind, or of sitting at an open window or door, or of pulling off of hands have been discharged, and not a single any garment, even the hat or bonnet, while in a heat. The colder the weather, the more need is there in coming into the house, to keep on all the clothing, except India rubbers or damp shoes, for several minutes afterwards. Very few rooms are heated higher than sixty-five degrees when the thermometer is within twenty degrees of zero, while the temperature of the body is always at ninety-eight in health; so that if a man comes into a room which is thirty | that cannot afford to bear it. So that when the degrees colder than his body, he will rapidly cool is not removed. The first post-office was established in France in 1464; in England in 1581; in Germany in 1641; of Colored Silk; remnants of Delaine; all will be although one authority attributes the authorship of the modern postal system to the Emperor Maximilian, of Germany, for the purpose of facilitating an espionage over his subjects through the medium of other correspondence, and also for the purpose of enriching himself by the profits of the enterprise. The first post in America was established in New York in 1719, under the Colonial Government. In 1789 the direction of the postal business of the country was conferred on Congress by the terms of the Constitution. At that time there were but 75 post-offices in the Union; in 1825 there were 5.677. At the commencement of 1859 there

were 28,573. OUR MARKETS.—The abundance of provisions of all kinds at market, yesterday morning, had a tendency to make the sales more numerous than usual, as it brought down prices, and gave the poor man an opportunity to invest. Fish were plenty; shad from the Potomac selling at 20@37 cents apiece; rock and salmon 25@40 cents a string. Butter was selling when the market opened at 25 cents per pound, but came down as low as 16 cents. Eggs were rather scarce, and brought 14@ 16 cents a dozen. Country provisions of all kinds were selling at rather below usual rates.

An Ohio paper publishes the following item: A deaf man named Taft was run down by a passenger train and killed, on Wednesday morning, half a mile north or Greenwich station, near Cleveland. He was injured in a similar way about a

House CLEANING .- The season of house cleaning is now upon us, and hand-scrubs, mops, etc., are flourishing in almost every house. If there is anything we dread, it is the habit many housewives have of drenching their domicils, from cellar to garret, with soap-suds every spring and fall. According to our notion, a little cleaning now and then is a much better, and certainly a more comfortable, way of doing things, than allowing the dust and dirt to accumulate for six months or a year, and then deluging things generally with water and soap. It puts us in mind of the chap who could'nt see how some people combed their heads every day, as he did his only once a week, and then it nearly killed him.

PASSOVER WEEK .- The Jews have just completed the celebration of the Passover. The Passover commemorates the providential escape of the Hebrews in Egypt, when God, smiting the firstborn of the Egyptians, passed over the houses of the Israelites, which were marked with the blood of the Paschal lamb. In addition to special services, the Jews very strictly refrain, during the Passover, from all leavened bread. A peculiar cake, described in Exodus xii., is baked and watched, from the mixing of the meal, with the most jealous caution. The Passover fasts are considered the most solemn of all Jewish holidays .-The first two days are considered of more importance than the others, except the last, which is the greatest day of all. It is always well observed, and is looked upon with solemnity, from the fact that memorials are then offered for the dead, in accordance with the customs of ancient Jerusalem.

THE FRUIT .-- We feel gratified in believing, and in being able to report our belief, that the quaking and apprehensions about the loss of a fruit crop for the present season were quite premature, at least in this region. We have seen enough, within a day or two, with our own eyes, of peach, pear and cherry trees to induce the strong belief that the newspapers and the public generally have cried out long before they were hurt in this respect .--The kind of fruit trees just mentioned furnish as good hope of a full crop as at any similar period of former seasons. Of course, the danger is not over, and if April should prove wet and frosty, the destruction may be great; but it has not taken place yet, and may not do so at all. We are confirmed in these views by the testimony of one of our most experienced horticulturists and gardeners, who states that, according to a pretty extensive examination by him, the prospect of a full crop of all the above kinds of fruit was never greater than

WELCOME SPRING .- That dreaded visitation, that closing chapter to the gloomy book of winter, and that prelude to the fascinating poem of spring, the equinoctial rains-may now be regarded as over We may now expect green leaves and golden sun_ shine, flowers and singing birds. OUR BUSINESS ASPECTS .- We took occasion yesterday to converse with several of our husiness men, in different parts of the city, in reference to trade at the present time, and from the information they gave us, we are inclined to believe that "somebody's hurt." From the small green grocer to the large dry goods merchant, the complaint is the same—few customers and small sales. The present crisis in our National affairs has the effect to induce all our workingmen and mechanics to retrench in their expenditures, not knowing how soon they may be thrown out of work. Although none of our large workshops have been entirely suspended in their operations, still a large number establishment in this city (if we except the works of the Pennsylvania railroad) are working a full force of hands. A stroll along Market street, the principal business thoroughfare of this city, will look for anything better for some time to come, although we hope that the present gloomy foreboding may soon pass away, to give place to the long expected "good time a-coming." The lessons of economy that will be inculcated by the present depressed times, we hope will have the effect to restrain that wild spirit of reckless expenditure which characterizes so many in this community passing cloud of adversity no longer hangs over off, too much so often, even if the external clothing | us the sunshine of prosperity may become brighter

And to you we appeal to detect the illness or deckine not or ly of your daughters before it be too late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affect on will uneringly point you to PROF WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in tim

of need.

O. J. WOOD, proprietor, No. 444 Broadway, New York, and No. 114 Market st., St. Louis, Mo., and sold by all good druggists. Price one dollar per bottle. Read what the Press says, after the roughly testing the matter, and no one can have a doubt.

Prof. WOOD'S Restorative Cerdial and Blood Renovator is a genume medicine of real merit, pleasant to the taste and invigorating to the system. While it purifies the blood and soothes the nervous ir itation, it sids the organs of digestion to perform their functions, and resist the assault of disease. It is a checical compound so skillful'y comfined that while it exhila ates it does not provoke the lassitude which usually follows excitement. A tonic, composed exclusively of vegetable matter, it is absolutely ceneficial, and no ill effects can possibly accompany its use It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia. Papitation of the Heart, Falling of the Womb, and other delicate diseases to which woman is subject. For Sickness of the Stomach, Bilious A'tacks, Liver Complaints, Costivenes: Dyspossia, Consumption, and a host of evils fiesh is heir to, it is a certain cure.—

St. Louis Morning Herald. St. Louis Morning Herald.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the Classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Prosperine in a box. After some delay the me senger returned, and as soon as the lid of the box was removed, out flew all the ills that flesh is heir to.—Fortunally, hope was found in the bottom of the box. Prof. WOOD'S Restorative Cordial revives the recollection of the story, for it is vigorates the blood, aids the organs of digestion, imparts strength to the netwous system, and fortifies the ctadel of health, so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injulious results can possibly follow its us. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption. Faintness, Giddiness, tite, Dyspepsia, Consumption. Faint, appetite, Dyspepsia, Consumption. Faint, &c., will find here an infallible panacea.—St. Louis Daily Express.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD REN-PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD REMOVATOR is, without doubt, the best tonic Codial in the wirld. To those who are supering from General Debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove: It impurities of the blood, and eradicate all traces of disease. It can be taxen by the weakest stomach, while those in good health will at once feel its exhibit, ting power. We are confident that after using one be lee of this Cordial none will be for a day without it.—New Yark Leader. it .- New York L. ader.

A Pure, Healthy Tonic, and one free from the dele-terious and injurious effects sure to f. flow these in ordi-nary use, has long been felt to be a desid-ratom in the medical would. Such a tonic, and one so skillfully commedical world. Such a tonic, and one soskillfully com-bined from the vegetable kingdom as to act in perfect accordance with the laws of vature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organ-of which the human body is composed, is offered in Prof. WOOD'S Restorative Condial and Blood Renovator. Hence, it is restorative death it add and young. Reader try it Perfectly adapted to old and young. Reader, try it — Thousands have already done so, and the testimony is universal in its favor.—New York Atlas.

PROF. Wood's RESTORATIVE CORDIAL AND BLOOD RESTORATOR, for the cure of General Debility, or Weakness arising from any cause; also, Dyspepsis, Nervousness, Night Sweata, Incip ent Corsumption, Liver Complaints, Bilhousness, Loss of Appetite, Female Weakness in all stages; also to prevent the contraction of disease, is certainly the best and most agreeable Cordial tonic and Renovator ever offered to the afflicted, and so chemically combined as to be the most powerful ton c ever known to medical sience. Reader, try it. It will do you good. We have no hesitation in recommending it, since we know it to be a safe, pieasant and sure remedy for the we have no nestation in recommending it, since we know it to be a softe, preasont and sure remedy for the diseases enumerated —New York Dispatch.

IF Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without any doubt the first article in the market for Purifying the Plood and strengthening the system. We have no hesitation in recommending its use to all.—New Yorker.

LOOK TO YOURSELF IN TIME.—How many, in consequence of a false delicacy, suffer from sup; ressed, pair fut or obstructed menstruation, and think because they are young that bye-and-bye nature will work itself clear from obstructions, and all come right in the end, little dreaming that the seeds of death are already germinating in the system because the vital energies are impaired, and the entire animal economy deranged, debilitated; and yet, careless of themselves as they are, if are medy wee set before them which would restore all the functions of the system, and re-invigorate the body, they would take it, and thus be in time to save their lives.—Parents think of this, and at once give them a buttle of P.O. Wood's Restorative Cordial and Blood Renovator.
