Attempted Terrorism.

It is a very remarkable fact that the same men who have enjoyed the unrestricted privilege of misrepresenting and vilifying the Administration of the Federal Government for years, and who have made the greatest noise about "free speech" and a "free press," are just now conspicuously ferocious in their endeavors to stifle every expression of disapproval of the measures the Lincoln administration is taking to initiate civil war.

The present month promises to be an eventful one, and we await its developments with great solicitude. If it shall proclaim our escape from a war with our own kinsmen and friends, none will rejoice more sincerely than we.

On the eve of the late Presidential election, the Rev. Henry Ward Beecher, in a sermon delivered at the Plymouth Church in Brooklyn on the Sunday before, and of which we find a published report in the N. Y. Times of November 4th, used the following characteristic language.

"Thank God! thank God! We are on the eve of a decisive election of a struggle which cannot be stayed from a victorious termination. Some dear timid man will say, 'Oh, my! what will happen?' Well, I'll tell you (advancing to the edge of the platform, with projecting head, each hand supported by a stalwart knee, and with a mournful expression in his eye). Well, I'll tell you nothing!

Under that platform it cannot give equity, justice or equality to the South; and, unless it does, it can never rally the Northern States to make war upon the South, though it may rally a large portion of the Republican party, but not even the bona fide Abolition portion of that party.

pose the olive branch and save a great nation, which folly and madness are intent on plunging into ruin.

The public will be at a loss to determine, says the Journal of Commerce, with present information only, whether the impression so universally entertained for two weeks past, that Fort Sumpter was to be evacuated, was the result of design on the part of the Administration, or whether that impression obtained possession of the public mind purely by accident.

Present appearances, added to the positive declarations of the correspondents of some of the war papers, go to support the belief, that the Administration does not now intend to evacuate that fortress.

Whether an effort will be made to reinforce or provision it, or whether Major Anderson's command will be allowed to be captured or starved into a capitulation, is not definitely known.

We are unwilling to believe that the intimations in an evening paper, in which the President is complimented for concealing his purposes while collecting his scattered forces, are to be taken as including a false impression, which certainly had the sanction of, if it did not originate with, members of the Government.

We incline to the more charitable construction, that he has until recently been wavering, and has very lately brought his mind to the approval of a decided war policy.

The present month promises to be an eventful one, and we await its developments with great solicitude. If it shall proclaim our escape from a war with our own kinsmen and friends, none will rejoice more sincerely than we.

GENERAL NEWS.

A SUPPLY TRAIN MISSING.—It is said that a government supply train for Fort Buchanan, loaded with \$50,000 worth of property, has been driven over the line into Sonora by those having it in charge. The train is nowhere on the road, and had not been seen after passing Burro Canon, some twenty miles this side of Fort McLane. Application will be made to the Sonora authorities for the arrest of the thieves and return of the property.

STEALING COPPER BOLTS FROM A NAVY-YARD.—Some of the employees at the Brooklyn Navy-yard, on Wednesday, made an attempt to carry out a large quantity of the Government property, in the shape of copper bolts, amounting in value altogether to some six thousand dollars. They professed to be carrying out two barrels of shavings, but the watchman thought the horse had a heavy load, and the trick was discovered.

The report that Mr. Huestern, the Dutch Interpreter and Secretary of the American Legation at Yeddo, Japan, has been murdered, is confirmed. It appears he was attacked by Japanese highwaymen while riding through the streets after night, in company with three Government officers, and received a stab which caused his death in a few hours. "Tommy" was among those who came to see the body of the deceased.

DEATH OF A NAVY OFFICER.—Capt. A. Bigelow, late of the U. S. Navy, died at Chicago on the 3d inst., aged 64 years. He entered the navy at an early age, and served with distinction in the war of 1812, and towards its close was taken prisoner by the British. He also served throughout the Mexican war. Subsequently he was appointed to the command of the U. S. steamer Michigan.

WESTERN TRADE.—The Chicago papers speak of the preparations in that city for a very active business, and one of the most profitable ever known in the history of western commerce. The amount of grain on hand, they say, is very large, and the farmers of the West look for another heavy harvest the coming season.

The Norfolk Day Book states that the troops at Fort Monroe are not allowed to pass beyond the picket guard, and the strictest military discipline prevails. On the 1st inst. there was received at the fort from Baltimore twelve boxes of grape shot, together with a great many iron castings, used in mounting guns.

Not long ago the New York Tribune asked why no attempt is made in the South to arm the blacks and organize them into military companies. Prentice answers the question in his usual way, thus:—"Why should black companies and regiments be exposed in war when niggers are worth \$1,500 apiece?"

A NATIONAL CONVENTION.—The National Intelligencer earnestly urges the President to call Congress together without delay, with his executive recommendation to them to submit our national difficulties to the proper arbitration of a national convention constitutionally selected to the particular end of their solution.

PROFESSOR ELECTED.—Dr. Wm. V. Keating has been elected by the trustees of the Jefferson Medical College, in Philadelphia, to fill the Chair of Obstetrics and Midwifery, lately made vacant by the resignation of Professor Meigs.

Mrs. Veronica Knauer, a young married woman, recently hanged herself in New Orleans, because her husband chastised her for infidelity.

LATEST BY TELEGRAPH.

Up to 2 o'clock this afternoon there has been nothing here to begin a war. The excitement of yesterday has subsided, and the citizens discredit the rumors that there is to be an invasion and a forcible attempt to reinforce Fort Sumpter.

Ten companies, or about one-half of the volunteer militia of the District of Columbia, are mustering to-day for inspection, the orders having been issued from headquarters last night. Several days ago the company officers were directed to immediately report the number of effective men, and are believed to be correct, that these ten companies are to be drafted into immediate service.

Much excitement everywhere exists, heightened in a great degree by bogus dispatches, professedly from Charleston, detailing the incidents of a battle in the vicinity of Fort Sumpter. There is no doubt that the military movements here in progress are connected with precautionary measures for the defence of the Capitol, from an apprehended attack from the South.
