LOCAL NEWS.

THE DAILY PATRIOT AND UNION may be had at Jack's Book Store, corner of Third and Market

PATRICT AND UNION.—The DAILY PATRICT AND Union can be had by Dauphin subscribers, every morning, at the periodical store of J. S. FRAIN.

THE MAILS.—Under the change of schedule on the different railroads, the time of closing the mails at the Harrisburg Post Office, December 1st, 1860, s as follows: PENNSYLVANIA R. R.

East .- 7 a. m. - way mail, 12.15 p. m., 5. p. m., p. m. West. 6.30 a. m. way mail, 3.50 p. m., 9 p. m NORTHERN CENTRAL R. R. South.—12.15 p. m.—way mail, 9. p. m.

North.-1 p. m. LEBANON VALLEY R. R. DAUPHIN AND SUSQ. R. R.

1.30 p. m. CUMBERLAND VALLEY R. R. 7.30 a. m., 1 p. m.—way mail.

7 a. m., to Gettysburg, on Tuesday, Thursday and Saturday. 7 a. m., to Jonestown, on Monday, Wednesday and Friday. 1 p. m., to Lewisberry,

The Democratic citizens of the Fifth ward will meet at the public house of John Raymond on Saturday evening next, at 71 o'clock, for the purpose of electing an executive committee to serve for the ensuing year. By order of the Executive Com-

The Union Prayer Meeting will be held this afternoon in the Presbyterian church, Market Square, commencing at 4 o'clock. The public is invited to attend.

Officer Fleck, constable of the Third ward, who has been confined to his room by sickness for several days past, is again about and attending to his NEW POSTMASTERS .- B. S. Steever, editor of the

Lykens Valley News, has been appointed postmaster of Millersburg, and Thomas Harper postmaster of Wiconisco, in this county. THE LOCK-UP.—Several strolling vagrants were accommodated with quarters in the city lock-up

night before last. They were turned loose yesterday morning. Notice.—The regular monthly meeting of the Harrisburg Typographical Union, No. 14, will be

held this evening, at 7 o'clock, at the Citizen en-B. F. Work, Sec'y. THE SSREET SPRINKLER .- The proprietor of the street sprinkler, Mr. Sanders, informs us that his

valuable institution will be put in operation on Monday next. We hope our citizens will give it the patronage it deserves. Lost.—A five dollar note on the Lebanon Valley Bank, somewhere in Third or Market streets, between North street and the postoffice. The finder

will be liberally rewarded by leaving it at this of-

A HARRISBURG "KNUCK."-We learn from an Elmira (N. Y.) paper that a young man representing himself from this city, has been practicing the game of picking pockets in that place. He was arrested, and is now in prison. Who this "nice

young man" is we are at a loss to know. THE WORKINGMEN'S ADVOCATE.-We have received a copy of a new paper just started in Huntingdon by Messrs. B. F. Miller and Wm. F. Shaw-The paper is gotten up in very good typographical style, and is intended to advocate the interests of the workingmen of the Juniata valley.

Borers for Oil.-We are informed that a party of sanguine individuals have commenced to bore for oil in the Sixth ward, in the neighborhood of Reamshart's old pond. They have erected a banner near by, inscribed with the significant motto-"Hell, China or oil!"

MARKET EXPRESS.-We understand that Mr. George W. P. Davis contemplates starting a market express. Persons residing in Verbeketown, and the outskirts of the city, will, no doubt, avail themselves of this opportunity to save their muscle, and, at the same time, encourage a deserving and enterprising young man.

PARTICULAR NOTICE .- Spring has opened and with it our friend M. H. Lee, of 69 Market street, has supplied himself with a beautiful assortment of ladies sun umbrellas of the latest pattern. Gentlemen who desire to purchase elegant and chaste walking-canes can find as fine an assortment as is to be had in the eastern cities. Mr. L.'s articles are of the best quality and furnished very cheap.†

Uncle Sam's Officers .- Captain Elliott, and Lieutenants J. P. Holliday and C. E. Morris, were in this city yesterday, having came down from Carlisle Barracks to confer with the Military Committee of the Legislature in reference to the passage of the war measures urged by Gov. Curtin in his recent special message. What transpired be- came in vogue. They will, however, still be worn tween them and the Committee we were unable to

At the meeting of the City Council on Thursday evening an ordinance was enacted providing for the appointment of one person as collector of city taxes, and one person as collector of water rents, for the entire city. The ordinance was approved by the Mayor, and is therefore a law. It will be found at length in our advertising columns. Last year the city was divided into three districts, and a collector appointed for each.

WOOD'S MINSTRELS.—This celebrated company, from Wood's Temple of Minstrelsy, Broadway, New York, as will seen by advertisement this morning, will give three of their chaste and refined Ethio-Fian entertainments at Brant's City Hall, commenting Monday evening next. The company comes to us with an excellent reputation and are spoken of very highly by our exchanges. Let them be tested by a full audience on Monday night.

THE Home Journal, which is fair authority on the subject, contains the following item of interest to those who would be "fashionable:"

What do you think of a bit of good sense becoming fashionable? You know there has been a terrible wet blanket over the brilliancy of dinners and small parties, in the necessity of inviting lawful spouses and large families always together. All such people when they "go out," would so much rather see strangers than each other! Well, it is now a fahsionable usage to ask any one of a family, without the rest-even a wife without her husband! And it is therefore to be understood, that no one has a right to take offence at being un-

GRAPHIC .- A juvenile that frequently visits our office, undertook the task of writing an essay a few days since, and selected Man for his theme. We extract the following paragraph from his wonder-

ul production: "Man! What an animal; what a wonderous biped; how wonderful his capabilities; how exbansible his faculties; how incomprehensible hs ways; yes, what a body; what arms; what legs; what hands; what feet; what a nose; what a mouth; what eyes and ears. Well has the psalmlet said man is terribly funny made! But great as man is in his physical department he is infinitely more curiously got up in his mental and moral arrangements. What a mind! How illimitable in its lange. With it, he can soar aloft on pinioned wings to the verge of infinity, and through the vistar of futurity take paneramic views of

LEAKAGE OF GAS.—This subject has attracted omparatively little attention from the general public of this city, upon whom, in reality, the loss by leakage ultimately falls. It has no doubt claimed some attention from the companies, but is entitled to mere. English writers have looked closely into it. But the loss by leakage in all our large cities is really so enormous that American companies ought to be vigilant in watching the condition of their own works. In London it is ascertained that the whole soil below the pavement has become greyish black, emitting an offensive smell whenever opened. On such an occasion the lookers-on imagine that a leak has been discovered, when in reality the smell comes from earth completely saturated from long-standing leakages. This constant escape of gas underground is very injurious. It aggravates the foulness of air emitted from sewers. rendering cellars and basements unhealthy, and converts the moisture of the earth into an aerid alkaline fluid, which some authors say attacks iron so violently that water-pipes, which ought to last a century, become worthless in ten y ears. .

But this is evidently an error, as, if the fluid is virulent enough to destroy water-pipes in that short period, it ought to be able to destroy the gas pipes in even less time; but we have no complaint of such swift destruction. The joints of water pipes frequently become injured without its being known, in which event they become partially filled with gas, thus rendering the water foul and unwholesome. Instances have occurred in London of explosion of gas from a water-pipe from this cause, when a lightened candle was presented .-The leakage in the entire London metropolis is said to be 386,000 feet of gas per annum.

In Philadelphia it amounted, in 1850, to near 3,000,000 feet, or a little over one per cent. of the whole amount made. In 1858 it had reached 35,-000,000 feet, or 8 per cent. of the whole quantity made. In 1859 it was 68,000,000 feet, or 12 per cent. of the product. Thus in hine years the leakage increased to 23 times the amount it stood at in 1850, far exceeding the ratio of production. This loss exceeds \$150,000 per annum, all which, being omy: counted as cost by the company, in reality comes out of the pockets of consumers.

It is now an item large enough to explain the hitherto unaccountable increase in gas bills in spite of all efforts to economise consumption. It is noteworthy, however, that this immense leakage occurs mostly in large cities only. If it occurred in small towns, whose streets are lined with shade trees; the underground escape of gas would inevitably kill them. The great cause of leakage is evidently owing to the imperfect and slovenly mode adopted for closing the joints of the underground pipes, for all the leakage occurs below the surface. not in our dwellings, or it would be immediately discovered and stopped. The settling of new laid pipes frequently opens the joint by a change of position, and it commences leaking without any one being aware of it. A more effectual method of luting the joints is evidently wanted.

A HIGH OLD TIME.—On Thursday evening, a party of fast young men, from the ancient city of Philadelphia, and the metropolis of the State, concluded to have a "high old time," and they did. A pair of horses and vehicle was engaged, and five of the bohoys took a ride. Of course there was nothing wrong in that, but they imbibed severial snifters, got drunk, became uproarious, exhilerated, adventerous and obnoxious, thereby interfering with the peace and quiet of the city, and jeopardizing the lives and limbs of the citizens thereof .-One of their fancy freaks was a drive through the market sheds, at the peril of upsetting some of the butchers' blocks, and injuring their own necks .--Another was the nasty manner in which they turned corners, which was decidedly antagonistic to the feelings of many nervous people who were promenading the streets at that time. These proceedings were calculated to raise the ire of many of our citizens, as well as the ambition of the constables, who are always ready to turn an honest penny; and, as a matter of course, the aforesaid young men were cited to appear before His Honor, Mayor Kepner. The evidence against the parties was conclusive, and the Mayor fined them the sum of \$14.60. The fine was paid, and the party went on their way rejoicing, and took another drink. This fast driving through our streets may be fun to the parties engaged in it, but a stop should be put to it by the authorities. If men want to go on a fox chase, let them go into the rural districts.

Interesting to the Ladies .- It may be interesting to our lady readers to learn that the style of bonnets for the coming season contemplates nothing smaller than those worn in the past season. The new Paris shape is very distingue, but it will disappoint some of the ladies who are trying to introduce the flat Marie Stuart fronts. The new style is worn very high, close to the lower part of the face, and slopes very much from the tip to the crown. Ruches will be worn still, but not generally. The hair will be worn in curls and in braids in the bonnets, as was the fashion before ruches in some of the most stylish bonnets. The trimmings for the bonnets will be simple-lace and small flowers, in clusters and in loops on top, or as nearly on the top of the bonnet as it is possible to get them. Fancy straw will be much worn this spring and summer. A great many costly ones have been imported. The dress goods for the coming season are very chaste and beautiful in pattern. In silks and bareges the ground colors for promenade are various shades of gray, brown and green; but the gray seems the favorite color. English bareges will soon be made in gored dresses, having one large flounce on the bottom of the skirt. English grenadines-a much more elegant and expensive fabric—will be made in seven or eight flounces.

OUR COTTON FACTORY.-The Harrisburg cotton factory is at present working a full set of hands. and is turning out a very fine quality of cotton cloth. The company have a full supply on hand, and every day wagon loads of the material pass our office on the way to the mill. How long the supply of cotton will last is very uncertain in the p esent unsettled condition of affairs in the South. If the South continues disturbed and goes into corn growing, and the consumption of cetton trenches much upon the usual stocks in the leading marts, much higher figures must prevail .-These may be called "speculative," but they will be the result of a legitimate and reasonable alarm respecting next year's crop. Unless, therefore, trade receives some miraculous impetus to consume accumulations and to advance prices of goods, the manufacturers will show diminished profits, large stocks of manufactured articles, and larger interest accounts on the wrong side. This view is irrespective of losses growing out of the trade stagnation, and of trouble from Southern tariffs or free trade.

THE GRAIN CROP .- Our neighbors of Lancaster county have made a careful examination of the grain crop, and they have come to the conclusion that it has been materially injured by the frost during the past winter, and it is doubtful whether the tender plant will be able to recuperate. On many farms the roller is being applied, in the hope that pressure will aid the disturbed plants in taking root in the soil again, but whether this experiment will answer the expectations of those encountries of the expectations of those encountries. See advertisement in an interest the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Percetly safe in all cases. See advertisement in another column. the tender plant will be able to recuperate. On gaged in it, remains to be seen.

Signor BLITZ .- The performances of this gentleman have rendered the utmost satisfaction during his short stay here. Yesterday afternoon the juvenile portion of the community visited him and enjoyed themselves to the fullest extent. The State Capital Band, under whose auspices the Signor came here, deserve credit for their discretion in selecting so accomplished a performer. We are only sorry that the performance could not be extended the remainder of the week.

The Postoffice Department has been notified by the contractor that the new one cent stamped envelopes, combining the new improvement of the disselving lines, are now ready for distribution .-These envelopes are chiefly intended for circulars, and have been issued in response to memorials from publishers and merchants of the large cities-They will, during the present week, be distributed among the most important postoffices, for sale by them at one dollar and ten cents per thousand, exclusive of the stamp, which is a reduction of forty cents per thousand upon the rates of the present one cent stamped envelopes, comprising the im-

CHANGE OF SCHEDULE .- A new schedule goes into operation on the Pennsylvania Railroad, on Monday next, the 15th inst., when the trains will leave this station as fellows:

EASTWARD. Through Express 1.15 a.m. Fast Line 6.20 a. m. Lancaster Accommodation 7.30 a. m. Mail Train 1.15 p. m. Harrisburg Accommodation 4.10 p. m.

Harrisburg via Mt Joy 4.20 p. m.

WESTWARD. Through Express 3.05 a. m. Mail Train 1.10 p. m. Fast Line 4.05 p. m.

Houses:-If you have met with the following before, it will bear re-perusal. Hard times are at hand; all must learn retrenchment and econ-

"One great source of distress to many is the hiring of more expensive houses than they can afford. You don't want double parlors. A sunny little parlor is sufficient, and then you will be obliged to retrench on parties. If there is not enough closet room, you will be obliged to re-trench on your wardrobe. If there is no nursery, you will have your children out more in the open air, where they ought to be. If there is no smoking room, you will have to drop the practice of smoking. The smaller your house is, the less room you have to furnish, warm and keep clean. We have seen kitchens as pleasant as parlors, their presiding geniuses more ladylike than half our millionaire's wives. If there is the genuine sparkle in a diamond, it will be as bright in the kitchen as in the parlor. If people really want to live more cheaply, let them abandon the gilded palaces that entail an almost endless expense.— Let women give up the vain idea of making a show, and try, instead, to make happy homes. A great deal—more, perhaps, than the world ima-gines—depends upon houses."

PRIZE FIGHT IN THE CAPITOL .- The newspaper correspondents at this city frequently get off some good things. The following account of a prize fight that occurred in the rotunda of the Capitol, one day last week, we copy from one of their let-

An artist and a member had soms words in regard to a matter of business. The artist said he did not believe the member was all his fancy had painted him. The member waxed wroth, and exclaimed, "Ye gods! can a Roman Senate long de-(Our Senate was debating the fish bill.)-There was a clinch, a short struggle for mastery, when the member and artist rolled over on the marble pavement. This was the first round.

Round 2. They both came up to the scratch in fine style. The member chass yed around, while the artist, as cool as a cucumber, following him, and watching a favorable opportunity, let fly his right on the member's smeller.

3. Some light sparring, when the member caught a paltaog under the left lug.
4. The artist was decidedly the coolest man of the two. The member made a feint a la Aaron Jones, but the artist gracefully parried the blow, and both retreated to the apple-stands in opposite corners.

5. Some heavy work, the member vainly trying to get his right on his adversary's potato trap. A clinch-both down. 6. Both came up willingly. The member let fly his right, but the artist, who has a quick eye to see, dodged the blow.

7. The member received a slight touch on his left peeper. 8. The member made a desperate rally, took the artist between wind and water, and sent him sprawling into an apple basket.

9. The artist got the member's head in chancery, when the marshal raised a cry of "foul." 10. This round was characterized with much fine

11. Both men now appeared to be in earnest.-They struck out wildly, and each semed determined to draw first blood 12. The member received an awful sockdolager his smeller. Cries of "first blood for the ar-

tist." 13. The member hopped about nimbly, and let fly his bunch of fives on the potato trap of the ar-

The sparring from this up to the twentieth round did not vary much. 20. Both men showed much fatigue. The artist

made a feint, the member dodged, and they both fell down over the cake stand. 21. The artist got a "natural" and the member "bustled" on the twenty-second round. The marshal shouted out "time!" but neither came up to the scratch, and so the fight ended. The spectators desire to return thanks to the marshal for his courtesy and gentlemanly bearing

BOND OF UNION YET DISCOVERED BETWEEN THE NORTH AND SOUTH

PROF. WOOD'S HAIR RESTORATIVE. READ WHAT A DISTINGUISHED PHYSICIAN OF ST. LOUIS SAYS OF IT.

St. Louis, July 10th, 1860.

O. J. Wood, Esq.: Dear Sir—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative after a trial of five years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, neither has there been up to this time.

After my hair many different parts of the state of

After my hair was completely restored, I continued its After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Resterative and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbur; saying they had used it, and without effect. In every instance, however, it proved by probing the matter, that they had not used the article at all, but had used some new article, said to be as good as yours, and selling at about half

not used the article at all, but had used some new article, said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandroff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this or to refer parties to me. Any communication addressed to me, care box 1920, will be promptly answered. Yours, truly, JAMES WHITE, M. D.

Warren Springs, Perry Co., PA., June 7th, 1850.
PROF. WOOD: Dear Sir—I was induced more than a year ago to try your valuable Hair Restorative, for the purpose of cleansing my head of deaduuff I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Ross's Drug Store and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other uppleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you.

H. H. ETTER. Yours, &c., H. H. ETTER.

Bloomington, Ind., July 30th, 1859.

Dear Sir:—I here send you a statement that I think yeu are entitled to the benefit of. I am a resident of Bloomington and have been for over thirty years. I am now over 50 years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative, but supposed there was more fiction than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment, commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, iollowing directions as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till I have used three of your small bottles, and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair, as any man, or as I had in my youthful days when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off, and is as soft and fine, and feels as oily, as though it was just from under the hands of a French shampooder. Many of my acquaintances irequently say to me, "Buttler, where did you get that fine wig?" I tell them it was the effects of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head. Yours, truly,

FREDERICK T. BUTLER,

Bloomington, Monroe County, Indiana. PROF. WOOD'S HAIR RESTORATIVE.—In another col-umn will be found an advertisement of this well-known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaoriginal color. The Hair Restorative also cures cutaneous cruptions, and prevents the hair falling 'off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative.—Boston Olive Branch.

Wood's Hair Restorative. - We are not in the habit of puffing every new discovery, for nine cases of ten they are quack nostrums, but we take great pleasure in recommending Professor Wood's article to all whose half recommending Professor Wood's article to all whose half is falling off, or turning gray. Our well-known contri-butor, Finley Johnson, Esq., has experienced the bene-fits of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be us rare as snow in Summer .- Baltimore Patriot.

Wood's Hair Restorative.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this arti-le has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another descript in In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innoxious.—Bos ton Transcript, April 22, 59.

A GENUINE BOON .- In our capacity as conductor of a a describe Book.—In our capacity to advertise the cure-public journal we are called upon to advertise the cure-alls of the day, each of which claims to be unadultera-ted in its composition and infallible in its curative effects—with what justice we leave our readers to deter-mine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article that we give it our endorsement as all that its inventor and vender claims it to be. Its effect upon a falling head of hair is universally known to ellect upon a falling head of hair is universally known to be magical; like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely growing hair to try the Restorative.—Columbia

QUACK NOSTRUM—The majority of hair washes, hair dyes, hair tonics, hair oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows and new-paper headings, as hair preparations, are all humbugs of the first water; their real merit, when they possess any, is, that they do no harm. Hog's lard, whale oil, lard oil, sweet oil, seented and colored, make up, when in beautiful wrappers, and white flint glass bottles, the costlicat character of tonics, and when thus costly, are baptised with some tri-syllable term, and caught at by verdant young and old of both sexes. Such is not the character of Prof. Wood's Hair Restorative. This gentleman comes before the world without any 'thighfalutin' Xilophloforium or any other astounding and startling catch-penny term; he simply advertises a Hair Restorative—what it expresses, precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, Wood's Hair Restorative, and as you value your scalp, aye, your very brains, amply nothing else; for it may be that you will get some worse substance than perfumed lard oil on your cranium. Remember. Wood's Restorative for the Hair is the best article extant.—New York Wood's Hair Restorative, and as you value you
