AT WORK AGAIN .- The Harrisburg cotton mill, which had suspended operations last week, on account of some of the machinery being disarranged, resumed operations again ydsterday morning.

WAR MUNITIONS GOING WEST .- Twelve cars passed through this city for the West on Saturday evening, loaded with muskets and munitions of war. They were from the Frankfort arsenal, near Philadelphia, and were but part of the supply that the Government is sending to the West.

THE NEW ADJUTANT GENERAL .- There was a report yesterday, and generally credited by everyne, that Gen. Geo. W. Cadwallader, of Philadelphia, had been appointed Adjutant General of the State. Gen. Cadwallader has served his country in the Mexican war, and is a gentleman well versed in military matters. He will no doubt make an efficient officer and reflect credit upon his

GONE INTO SLAVERY .- A colored man, who says that he was formerly a resident of this city, has been arrested in Hawsville, Ky., and placed in prison as a fugitive from labor. Joseph Bell, the alleged fugitive, writes that he was formerly from this city and that he is a free man, and if funds are not sent to him he will be sold into slavery. As no movement has been made here by the friends of "free labor for free men," we suppose that by this time Joseph has been sold into "everlasting bondage." So things go.

Another New Arrangement.—The Pennsylvanis railroad company inaugurated another new arrangement yesterday. The freight trains upon the whole length of the road have been divided into three divisions—the first from Philadelphia to this city, the second from here to Altoona, and the third from Altoons to Pittsburg. The conductors, brakemen and enginemen run through from the points designated; and, by the new arrangement, quite a number of old employees have had their services dispensed with. By the new arrangement the company expect to effect greater despatch, and reduce the number of hands employed in nunning

SATURDAY NIGHT Rows .- The absence of a police force to protect our city from the swarm of midnight carousers who are abroad upon our streets, gives to that class the widest scope. On Saturday night last several parties of young men made night hideous with their revelry, and about midnight two rival parties met on Fourth street, just back of the Capitol, and a general fight was the consequence. Several of the parties were severely injured, but none of them seriously. The neighborhood was disturbed for over an hour by their howls, and not an officer was to be found to arrest any of the parties. Such things will be so long as our City Council neglect to give us an effective night police.

MILITARY MEN IN TOWN.—Quite a number of military men from the country have paid our city a visit since the recent war news have come to hand, and doubtless they have come here to receive appointments from the Governor. We met Gen. James S. Negly, of Allegheny county, in the city yesterday. Gen N. is the Brigadier General of the Allegheny volunteers, and has come to this city, backed up by his command, for the appointment of Adjutant General. The General is an affable gentleman, but from what we could learn yesterday his aspirations would have to give way to a gentleman from Philadelphia, who, it was generally acceded, had the inside track for the appoint-

WHY WAS IT?-At the last stated meeting of the City Council a resolution was unanimously adopted to appoint James Lewis a police officer, without salary. At a late special meeting the resolution was rescinded, and, consequently, the services of a gratuitous officer was dispensed with. This proceeding looks to us as though the City Council did not wish to have us protected by policemen, even if their services were to be had for nothing. Some of our citizens are ungenerous enough to think that our councilmen were swayed by personal considerations in the matter, but we are loth to believe that they would deprive us of policemen when their services could be had for nothing. How is

HEALTH -Health, says an exchange, like virtue, seems more easy to admire than to achieve. Is it not, indeed, the virtue of the body, and only to be attained by compliance with a system of rigid rules, and a life of scrupulous exactitude? No. Its preservation involves no such sacrifice, and cannot be purchased, indeed, at any such price. Health is no more a thing of rules and systems than life is, or joy, or that highest thing which exists on earth, the goodness of a true Christian man, flowing warm from his heart, effortless and unconscious. Ne man is truly happy who is thinking of his happiness; so no man is truly healthy who is thinking about his health. Happiness, goodness, health, all are of one kin; all consist in the full outpouring and inflowing of our life with that which is around us. One word might also define them all, and that word is-sympathy. A man is happy when his heart bounds to another's joy, or thrills with pity for sorrows which his hand relieves, or his affection heals. He is good when his soul lies open to his Maker, and his desires find their fulfilment in the Eternal Will. He is healthy when his body is in harmony with the ceaseless activities of nature; when his blood is warm with the soft kiss of air, his muscles vigorous with hearty toi', his brain fertile in wise and earnest thoughts, his heart glowing with generous purposes. When a man lives most out of himself, then dees he most truly live. Health is a thing of freedom; it exists in ceaseless adaptation to all the infinite variety of nature-ever the same, yet ever new. This is, it a great part, the secret of its pleasantness. Health knows no monotony. The ever-varying influences of the boundless world enter into it, and mould in to their sway. The invisible forces which regulate the grand rythm of the universal order, sweep through it, and draw forth each its own meledy. The living body should thrill with every thrill of the wide earth, as the aspen leaf trembles in the tremulous air. Its perfectness lies in its continual change.

CHANGE OF CLOTHING .- A Caution .- A medical journal gives some timely advice which we commend to all our readers. Don't be in haste to put off woolen garments in spring. Many a bad cold, (who ever saw a good one?) rheumatism, lumbago, and other aches and pains, are lurking in the first sunshiny days, ready to pounce upon the incautious victims who have laid aside their defensive armor of flannel. Any sudden changes in the system are attended with more or less of danger, but the body can accommodate itself to almost any condition, provided it be assumed gradually. The use of flannel guards against sudden change of temperature. In a warm day, when perspiration

flows freely, if it is allowed to pass off rapidly, the quick evaporation carries with it much heat from the body, and a chill may be produced, followed by the derangement of some function, as cold in the head, or unnatural discharge from the bowels. Flannel contains much air in its meshes, and is therefore a slow conductor of cold or heat. Evaporation proceeds from it more slowly than from cotton or linen, hence its excellence as a fabric for clothing. Many persons wear it next to the skin the year round, and find it a shield against prevolent complaints in summer. No general rule can be given as to this; it must depend upon the constitution and employment of the individual. In all cases, however, flannel should not be laid aside until the weather is settled permanently warmin this latitude usually after the first day of June. The change should be made in the morning, never

in the after part of the day, when the energies are

partly abated and the air is usually growing cooler.

Interesting Interview Between Senator Douglas and the President.

WASHINGTON, April 15. Senator Douglas called on the President last night, and had an interesting conversation on he present condition of the country.

The substance of it was, on the part of Mr. Douglas, that while he was unalterably opposed to the Administration in all its political issues, he was prepared to sustain the President in the exercise of all his Constitutional functions to preserve the Union, and maintain the Government, and defend the Federal Capital. A firm policy and prompt action was necessary. The capital of our country was in danger, and must be defended at all hazards and at any expense of men and money. He spoke of the present and future, without any reference to the past. President Lincoln was very much gratified with the interview.

Latest from Charleston.

CHARLESTON, April 15. Major Anderson, with his command, departed in the Isabel for New York to-day. In saluting his flag before leaving, a pile of cartridges exploded, killing two men and wounding four others. One was burried in the fort with military honors, and the other is to be buried by the Carolina troops. The wounded were brought to this city. The confederate and Palmetto flags were raised on the fort, which is garrisoned by Palmetto guards. It is believed that the war vessels have established a blockade.

10,000 BRAUTIFUL STEEL PLATE ENGRAVING. OF THE LORD'S PRAYER FOR SALE! VALUABLE PROPERTY GIVEN AWAY! The idea of representing the LORD'S PRAYER by an engraving, and of ornamenting and arranging it in such a manner as to produce at once a model of neatness and taste, was conceived and carried out by ORMSRY, the

celebrated Bank-note Engraver of New York city. It commences with exquisitely executed words of "Our FATHER." and then follow in succession the other parts of the Prayer, every phrase of which is engraved in the most elegant and tasteful manner. Near the bottom of the picture as superbly executed head of OUR SAV IOUR, and encircling the upper part of the engraving are ten angels, each bearing one of the TEN COMMANDMENTS.

The engraving has received the most unqualified praise from the religious community, as there is nothing of a sectarian character about it, having been recommended by clergymen of all denominations. As an ornament it is one of the most splendid ever published in this country, and is destined to take the place of a poorer class of engravings. The size of the plate is 20x28 inches, and is unquestionably the cheapest engraving ever offered in this country.
