HARRISBURGER PROMOTED.—Our readers will be gratified to learn that W. D. Earnest has been elected Major of the Eleventh Regiment.

FLAG RAISING.—A large and beautiful flag was raised on Bigler and Wilt's saw-mill yesterday morning.

FINE WEATHER.—Yesterday was really a beautiful day, and much was added to its beauty by Sanders, who said "down with the dust," and down it was.

HOME GUARD.—Residents of the Third ward who wish to unite with the Home Guard will find the roll at Military Hall, corner of Third and Walnut streets.

THE HOSPITAL.—There are some five or six men sick in the hospital at Camp Curtin—none seriously, however. The diseases are such as naturally arise from change of mode of life.

We are requested to state that the John McDermott, who was arrested and sent to prison on the charge of passing counterfeit money, is not John McDermott, the painter, residing in State street, who is an honest, law-abiding citizen.

A special meeting of the Paxton Hose Company this evening is called by order of the President, for the purpose of organizing a military company for a Home Guard. A full attendance is especially desired.

JOB WORK.—We have now the largest and most complete job office between Philadelphia and Pittsburg—made so by adding the *Sentinel* material to what already constituted a very complete office. We are therefore prepared to do any kind of job work.

MOVEMENT OF TROOPS.—Another regiment left for York last evening at 5 o'clock. It was composed principally of Pittsburg and Allegheny county soldiers, and made a very imposing appearance as it marched down Market street with bristling bayonets.

TROOPS ARRIVED.—Yesterday morning Captain Filler's company, of Bedford, and two companies from Jefferson county arrived.

At noon the Danville Guards and the Scranton Keystone Guards, accompanied by a fine brass band, arrived. The Danville boys are among the most rugged and manly that have yet arrived.

ARRIVAL OF REGULARS.—Company E, Second Regiment United States Cavalry, Capt. Stohman, arrived in this city from Carlisle barracks yesterday, with housing and trappings. They came over to get their horses, and will go back to-morrow.—There has been an unexpected turn in affairs within a day or two, and the speculations of the wisest are at fault. We predict, however, from the appearance of things, that an important movement is on foot, and before three days important events will develope themselves.

THE PRINTERS FOR THE UNION—*A Whole Office Enlisted.*—We are requested to state that the publication of the *Lancaster and Harrisburg Demokrat* will be suspended for three or four months. All the hands at the office, from the foreman down to the "devil," having enlisted, and the proprietor not being able to procure the services of other printers, he deemed it the wisest plan to "folllow suit," and to join the company also. And so all connected with the named paper, except the associate editor in our city, F. W. Haas, are volunteers in the Steuben Guards, of Lancaster—at this time mustered and sworn in. This is rather showing patriotism by the wholesale.

When the campaign is over, the publication of the *Demokrat* will be resumed as before.

ORGANIZATION OF REGIMENTS.—Two additional regiments have been organized—one on Thursday evening, and one yesterday morning—as follows:

TENTH REGIMENT.

Colonel—George A. McCall.
Lieutenant Colonel—P. J. Dickey.
Major—S. I. Meredeth.
Maytown Infantry, Captain Haines; Steuben Guards, Capt. Bolenius; Lackawanna Rifles, Capt. Robinson; Curtin Guards, Capt. Stover; Washington Light Infantry, Capt. Bechtol; Scott Rifles, Capt. Lebo; Biddle Guards, Capt. McCarmel; Washington Rifles, Capt. Savage; Allegheny Guards, Capt. Easley; Washington Rifles, (Cambria,) Capt. White.

ELEVENTH REGIMENT.

Colonel—Phaeon Jarrett.
Lieutenant Colonel—Richard Coulter.
Major—W. D. Earnest.
Woodward Guards, Capt. Doge; Williamsport Rifles, Capt. Short; Quincy Brady Artillery, Capt. Bonman; Latrobe Light Infantry, Capt. Coulter; Lock Haven Artillery, Capt. Garrett; Danville Rifles, Capt. McClure; Pittston Volunteers, Capt. Colmson; Keystone Infantry, Capt. Bonersmith; Westmoreland Guards, Capt. Wm. B. Coulter; Sunbury Guards, Capt. Bruner.

THE COMMITTEE OF PUBLIC SAFETY.—By authority of the Committee of Public Safety, rendezvous have been established in the city of Harrisburg, where books have been opened for the enrolement of such of the citizens from the age of twenty-one years and upwards as may desire to form a Home Guard for public defence. The Committee of Enrolment are—

First Ward—Major R. Hoagland, W. Forster and A. Hamilton. Rendezvous at the house of C. Jauss.

Second Ward—C. Buehler, J. Simons and D. Harris. Rendezvous, D. Harris' Office.

Third Ward—H. Alricks, C. Carson and W. F. Murray. Rendezvous, Military Hall.

Fourth Ward—Major Maglaughlin, L. Barnhart and J. P. Hughes. Rendezvous, adjoining Major Maglaughlin's office.

Fifth Ward—J. B. Hutchinson, J. Martin and S. Bowman. Rendezvous, Squire Hutchinson's office.

Sixth Ward—J. P. Lowry, J. R. Brooks and J Shannon. Rendezvous, Roberts' Tavern.

A. L. ROUMFORT, Chairman.

J. C. KUNKEL, C. C. RAWN, } Sec'ys.

THE VOLUNTEERS.—Up to Thursday evening there arrived in this place 9,588 volunteers, and by adding those that arrived here yesterday, we have an army of ten thousand men formed in the interior of the State, brought together, armed and equipped, and many of them instructed in the skillful use of the musket, within the almost incredible space of ten days! The events which have crowded upon us in that time may justly challenge the admiration of the world, and they are a most forcible illustration of the fast age in which we live.

A half century has not yet passed away since the late war with Great Britain commenced, and yet the contrast between then and now is so marked as to almost bewilder the senses.

In 1812, the troops which marched to the frontiers from the interior claimed credit for reaching Marcus Hook and Baltimore, by forced marches and wagon transports, in ten days, and Lake Erie in fifteen days. Look at the difference! Yesterday a regiment drills in the streets of Pittsburg—this morning it marches through the streets of Harrisburg, having traveled nearly two hundred miles, and the soldiers having enjoyed both rest and refreshment.

It is claimed for the soldiers of the War of 1812 that they were capable of enduring more fatigue than the soldiers of the present day. That may be, but we see among the volunteers a vast majority of hardy and rugged men. Actual engagement and a few months camp life will determine which class are best to endure the privations and hardships of a campaign.

The first call for volunteers was responded to by men out of employment in cities and large towns. These are laborers and mechanics. The former will be able to endure much more hardship than the latter, in consequence of being used to the rays of the sun.

The second response came from men employed in the iron regions, and in the mining districts of the State. Men from the iron manufacturing regions will be able to stand the Southern climate, especially those who have been working in ore banks, burning charcoal, working at the furnace or forge, or coking. The miners, however, whose occupation has been in the bowels of the earth, we fear will suffer terribly, and there is not a few of them—probably not less than two thousand.

The third class, composed of clerks, boatmen, and a few farmers, will all get along well enough, probably, except the clerks, who, unless they have rugged constitutions, will feel the difference between doing business in a store and under a Southern sun.

The next call, however, will bring out the boys whom any sun, short of one hot enough to broil a mackerel, can not effect. We have reference to the farmers—the chaps who can reap, mow or cradle grain from sunrise till dark on an August day. Of these there are comparatively but few in the first offering. The reason of this is that before they could reach the towns and villages the companies were all filled, and some of them on their way to camp. At this time there are, no doubt, upwards of a hundred companies awaiting orders to march; and, as we notice that many of them have been formed in the country, they must necessarily be made up of bone, sinew and muscle.

We have reason to feel proud of the ten thousand Pennsylvanians already in the field. If they are called South, and diseases incident to the climate do not cut them down, they will fill a glorious page of the history of the campaign. But proud as we are of those who have already gone forward, we feel that our admiration of the noble old Keystone will be more than doubled when we see those take the field who are now only awaiting the call of their country to arms.

CAMP CURTIN.—It was our intention some days ago to offer a few remarks on the loase and apparent reckless and careless manner in which things are conducted at Camp Curtin; but fearing that any strictures of the kind would be attributed to political bias by people abroad, we have waited until complaint and censure would come from some other quarter. This we find in the letter of the intelligent correspondent of the *North American*, dated at this place on Thursday, from which we extract the following:

This miscellaneous, disorderly condition of things brings me to a point where the sharp criticism of the public press can alone remedy an accumulating and crying evil The discipline of the soldiery is not nearly severe enough. Too many strangers are admitted to the camp ground. Women of all classes in life are admitted without even the formality of a pass from a military officer. Passes are granted promiscuously to their friends by officers of inferior grade. Thus there is a total want of system. The result is that squads of men get out every night into the town and drink, and are exposed to every chance for the contraction of diseases, which not only render them unfit for duty, but in many instances destroy the force and vigor of the constitution, and bring them prematurely to the grave. I understand from a visitor to the camp at York, where there are now more than 4,000 men concentrated, the same ease of access and exit prevails there.

Not only will such indulgence prevent any rigidity, and, therefore, excellence of drill, but it will tend to make the soldiery idle, listless, careless, unambitious of any achievement beyond the mere momentary pleasures of the hour. This is the fault of the general commanding; he has abundant power not only to control but to check these evils most effectually.

Again, the *debris* of meats, bread and vegetables thrown away from the rude tables of the soldiery, are exposed upon an open lot to the fierce hot rays of the sun. The work of decomposition at once begins, noxious exhalations arise, malaria is rapidly engendered, and fatal diseases break out.—The conditions of camp life, even with the most rigid attention to hygiene, are never favorable to health. But if such causes are added to the want of sufficient ablution of the person to promote a healthy condition of the skin, if unclean underclothes are worn for many days consecutively, and an unusual amount of exercise taken under a scorching sun, there is a hundred per cent. chance in favor of the procreation and dissemination of all kinds of disease peculiar to this form of life.—Nothing but the high, airy location of the camp, swept as it is by the bracing breezes from the mountains, will prevent the fulfilment of a forewarning as sad as this is.

Let but midsummer be reached, when these breezes shall have lost their oxygenized inspiration, and disease and death, in every form, will overtake those who came hither to die, if at all, at the cannon's mouth and the bayonet, amid the blazing glory of the battle field, and not to waste life away in a loathsome and sickening hospital. It is the right, as it is eminently the duty of the public press, to compel the proper enforcement of discipline, and proper attention to hygienic regulations.

Here are sentiments which must elicit a cordial response from every patriotic heart. The number of flags floating from public buildings and private dwellings in our city, indicate a becoming respect, here, for the glorious stars and stripes:

The Stars and Stripes! What power shall stay
Immortal Freedom's onward way?
The Heavens are the triumphal arch
Through which she takes her mighty march!
The mighty march! Nor shall she halt
Till, like the spangled, azure vault,
O'er every land around the world
The Stars and Stripes shall be unfurled!

THE LADIES IN FAVOR OF THE WAR.—On Monday evening last, the town of Easton was surprised by a parade that took down anything that has yet taken place, in the shape of a demonstration, even in these excited times. About nine o'clock a company of about fifty ladies, headed by a fife and drum, carrying three large flags, each decorated with a red white and blue sash, marched through several of the streets and were addressed in the Square by S. C. Cook, Esq. Bully for them.

FACTS WORTH KNOWING.—To take white stains from varnished furniture, produced by burning fluid, cologne or spirits. Mix lamp oil and fine sifted wood ashes to a consistency as thick as cream, and rub the spots, and they will disappear.

To take ink spots from mahogany. Touch with oil of vitriol for a moment or so, till gone, then wash off with warm water.

To drive a wrought nail into a solid oak timber. Immerse first the nail thoroughly in sweet oil, then drive.

To take out the sting of a bee or wasp. Apply at once strong potash water, if obtainable. Else saleratus water.

To prevent or cure the poisonous effects of ivy. Chew freely and swallow limitedly the leaves or green twigs of white pine.

To take out spots produced by acids from cloth, calico or any fabric. Touch with "volatile sal ammonia," or spirits of hartshorn, and they will disappear.

To remove a glass stopper if fixed in any bottle so as not to be removed. Pour a few drops of sweet oil around the same; set in the sun, and it will soon work down and release the stopper.

To cure burns or scalds. Cover them at once with wheat flour, sweet and nice, and let them remain. They will heal rapidly, and all heat will be drawn out.

CONSTRUCTION OF CANNON.—While unsuccessful attempts have been made to construct cannon of large masses of malleable iron, some of the manufacturers of large cannon have arrived at the conclusion that the true system to be followed is that of constructing them of several parts, combined in such a manner as to render every portion of the metal available in resisting, by its tenacity and elasticity, the strain exerted upon the gun by the explosion of powder. The method of construction thus proposed consists in preparing, in the first instance, cylinders—or rings, to be afterwards braced together—and in shrinking upon these other rings, of which the internal diameter is somewhat less than the external diameter of the first rings or the cylinder. The latter are thus placed in a state of compression, while the external rings are in a state of tension. Other rings are again shrunk upon the outer ones, according to the size of the gun and the strain which it has to bear. In this way, the whole of the metal composing a heavy gun or mortar is arranged in a condition most favorable to the effectual resistance of a sudden strain applied from the interior. A gun constructed on this plan has exhibited very great enduring powers. Some enormous mortars have also been constructed on the same principle and applied in practice.

REMEMBERING THEIR FRIENDS.—We saw at the depot yesterday two boxes directed to the Union Guards, of Petersburg, labelled provisions. The motives which prompt such remembrance are noble, but it should be known that there is an abundance of every thing in that line at Camp Curtin, and if we are rightly informed there is enough to keep a small army wasted there every day.

CITY POLICE.—The lock-up was tolerably well filled on Thursday night—a majority of the occupants having been drunk and disorderly—the vagrants finding it quite comfortable enough to take outside lodging. Two of those arrested were sent over for five days, and one for 24 hours. The balance were let off.

The popular beverage known as bock Lager Beer, from H. Frish's State Capital Lager Beer brewery, will be served at Frish's International House, and by his customers through this city this day. 1t*

ASTONISHING.—It is quite a sight to see the ladies crowd to the new store opened at the corner of Second and Walnut streets, in Shoemaker's row. They sell splendid Ginghams at 10 cents per yard; Ladies' white handkerchiefs at 3 cents apiece; also, splendid carpets for 18 cents, worth anywhere 15; Rugs, Druggets, Mats and Mattings at uncommonly low prices; Dress Silks as low as 70 cts. per yard. Another lot of those fashionable Dress Goods, together with 5 and 6 cent Muslins, just arrived.

Don't forget the place, corner of Second and Walnut streets. A. EINSTEIN.

SPECIAL NOTICES.

We have been shown a document signed by the Mayors in office of the cities of the United States and Canada, certifying to the superior excellence of Dr. Ayer's Compound Extract of Sarsaparilla and to the value of all his remedies as articles of great public utility. Such evidence from such high sources bears us out triumphantly in the position we have long maintained with regard to Doctor Ayer's preparations, or more particularly our advertisements of them. No publishers need be more opposed than we are to the promulgation of quackery in any shape, but we knew when we began, that his remedies were above any suspicion of deception—that they were about the best it is possible to produce for the cure of disease, and that they have the confidence of all communities where they are known. Not alone because the Mayors of the whole country believe them useful to their people, but because we know from experience that they are so to ours, do we believe we are rendering a substantial service to our readers in making their virtues known to them.—*Courier, Princeton, Ky.*

Mothers, read this.

The following is an extract from a letter written by a pastor of the Baptist Church to the *Journal and Messenger*, Cincinnati, Ohio, and speaks volumes in favor of that world-renowned medicine—MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING:

"We see an advertisement in your columns of Mrs. Winslow's Soothing Syrup. Now we never said a word in favor of a patent medicine before in our life, but we feel compelled to say to your readers, that this is no humbug—WE HAVE TRIED IT, AND KNOW IT TO BE ALL IT CLAIMS. It is, probably, one of the most successful medicines of the day, because it is one of the best. And those of your readers who have babies can't do better than to lay in a supply. sep29-d&wly

ONLY ONE DOLLAR EACH!

10,000 BEAUTIFUL STEEL PLATE ENGRAVING OF THE LORD'S PRAYER FOR SALE!
VALUABLE PROPERTY GIVEN AWAY!

The idea of representing the LORD'S PRAYER by an engraving, and of ornamenting and arranging it in such a manner as to produce at once a model of neatness and taste, was conceived and carried out by ORMSBY, the celebrated Bank-note Engraver of New York city. It commences with exquisitely executed words of "OUR FATHER," and then follow in succession the other parts of the Prayer, every phrase of which is engraved in the most elegant and tasteful manner. Near the bottom of the picture is a superbly executed head of OUR SAVIOUR, and encircling the upper part of the engraving are ten angels, each bearing one of the TEN COMMANDMENTS.

The engraving has received the most unqualified praise from the religious community, as there is nothing of a sectarian character about it, having been recommended by clergymen of all denominations. As an ornament it is one of the most splendid ever published in this country, and is destined to take the place of a poorer class of engravings. The size of the plate is 20x28 inches, and is unquestionably the cheapest engraving ever offered in this country.

Who that loves Art—who that delights to study a fine engraving—who that would possess a beautiful Picture—who that would receive the impressions which such a work is calculated to impart, wou'd fail to secure a copy when the price is only ONE DOLLAR, with the chance of securing for that sum in addition a permanent home or another valuable Gift?

As a work of art this valuable and beautiful engraving is worth more than the dollar asked for it, as will readily be acknowledged on an inspection of it; but the subscribers intend to make a Gift Distribution to purchasers of the engraving of valuable presents, as follows:

1 House and Lot in York Borough;
2 Building Lots:
2 Buggies; Quinn & Palmer's make, warranted;
1 Rockaway;
100 Valuable Books;
50 Barrels of Flour, warranted;
1,000 Gilt Frames to suit Engraving of Lord's Prayer;
500 Steel Plate Engravings—Birth of Christ; Magnificent Looking-glasses;
Gold and Silver Watches;
All kinds of Jewelry, embracing Cameos, Florentines, Mosaic, Gold Stone, &c.

A Gift worth from 50 cents to $500.00 with each Engraving sold.

When the Engravings are all sold, a meeting of the purchasers will be called at Washington Hall, York, Pa., when the Gifts named above will be distributed in such manner as the purchasers may determine—the purchasers selecting a committee of disinterested persons to make the awards in such manner as they may designate.

The proprietors, from the favorable manner in which this Gift Enterprise has been received, and the number of Engravings already sold, hope to be able to have the whole amount disposed of by the first of July ensuing, and when all are sold they will notify the purchasers and have the distribution of the Gifts proceeded with.

This Engraving has received the commendation of the Reverend Clergy, our first citizens, and, indeed, of all classes, who enter into it with interest and spirit.

Send on ONE DOLLAR and four Red Stamps to pay postage on Engraving, and you are sure to get it by return mail. Address AUSTIN & WEHRLY,

THE LORD'S PRAYER.

We have carefully examined this Engraving, offered for sale in this community by Messrs. Austin & Wehrly, and do not hesitate to pronounce it one of the finest works of American Art we have ever seen. The design is beautiful, the style of execution is superior, and the illustrations are excellent. Its appearance will at once secure for it the admiration of a refined community, and recommend it to the Christian public. It is highly ornamental, and is calculated to exert a refining influence in a family, and an elevating and purifying effect upon the morals and religion of society, and it should meet, as we understand it deserves, with a rapid and extensive sale.

BANK LETTER AND BUSINESS LETTER PAPER!

We would call attention to a new article of paper, called BUSINESS LETTER, which has been gotten up to meet the wants of business men and others who object to Commercial Note as being too narrow, and do not wish to use part of usual letter sheet.

This overcomes both the above objections; is a perfect sheet; pure wove; plate finish; ruled on one side; made from best material, free from adulteration, and put up in neat boxes convenient for use.

We also have a paper called BANK LETTER, similar to the above, except it has but half the number of lines on, so as to allow a printed blank or heading above.

For sale by THEO. F. SCHEFFER,

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years
