THE GAIRY, notwithstanding the pressure of the times, is nightly drawing crowded houses. The principal star of attraction now is Miss Anna Rush, one of the most charming vocalists in the profession.

THE SECOND LUTHERAN CONGREGATION of this city have secured the use of the Senate chamber as a place of worship and will occupy it each Sunday until the first of August next, when they expect to have a house of worship of their own.

A PLEASANT PARTY.—The ball of the Liederkants society, given at Frisb's hall on Monday evening, was one of the most pleasant parties of this season. Everything passed off in the happiest manner, much to the credit of the gentlemanly managers.

ANOTHER INVESTIGATING COMMITTEE.—A committee of five was appointed yesterday by the House of Representatives to investigate the accounts of Postmaster Bergner, with power to send for persons and papers. In this, as in many similar instances, a want of time may defeat justice. Let the committee go to work at once.

SENT TO PRISON.—A colored boy named Richard Smith, more familiarly known as "Crazy Rich," was sent to prison yesterday afternoon by Alderman Kline, charged with assault and battery on a child of Mr. John Donner. Rich was throwing stones, as he says, at "some other niggers," one of which hit the child and severely injured it.

EXAMINE YOUR POSTAL CURRENCY.—The Philadelphia Dispatch says that the police of that city have received information that attempts are making to pass counterfeit fifty-cent currency notes. If this is true they will soon find their way to this city, and it behooves our dealers to be on their guard against them.

DRUNK AND DISORDERLY.—Dennis Harlow was drunk and disorderly on Monday night at the corner of Third and Walnut, and officer Campbell escorted him before Alderman Kline, who sent Dennis to prison for twenty-four hours to cool off. Joe Hook, the coffee mill man, was found drunk and lying around loose in the gutters. He was sent over for ten days. Joe is an incorrigible drunkard and an annoyance to the police.

THE STREET LAMP.—At the meeting of the City Council on Saturday last a resolution was adopted appointing a committee to make arrangements with the gas company to secure the burning of the street lamps all night. The old practice of putting out the lights at about eleven o'clock in the evening, we are pleased to say, is about to be abolished. The necessity of having our streets lighted all night is being appreciated by the new Council, and we hope they will not stop in their efforts to give us sufficient light until every street in the city is furnished with lamps.

ATTEMPT TO ESCAPE FROM PRISON.—On Monday night a prisoner named Christ Spayd in the county prison came near effecting his escape by digging through his cell. One of the keepers discovered him in time to frustrate his designs. Spayd is a young man about eighteen years of age, and was committed on the charge of robbing a shoe store on Ridge Avenue. The evidence of his guilt is very conclusive, and we have no doubt of his conviction at the next term of court. He has a very bad character, and has been in the army and deserted several times, the last from Capt. James Gowans's cavalry.

THE PICKPOCKETS AGAIN.—Yesterday a discharged soldier, named Roger Mularkey, appeared before Alderman Kline and made complaint against Michael Coine, head waiter at the United States hotel, charging him with picking his pocket of \$67 in greenbacks. Mularkey alleges that the theft was committed in the dining room of the hotel while he and the accused were standing talking together. The money was in a leather pocket book, and the book was cut from the pocket, the money taken out and the book returned. The accused was committed for a further hearing.

The numerous crowds of lumbermen at present traveling over the railroad offers splendid inducements to the pickpockets, and they are accordingly taking advantage of it. On Monday night one of the gentry "went down" on a lumberman near the depot and robbed him of some \$35. He and his comrades became very much excited, and in their endeavors to find the thief kicked up a considerable rumpus in the neighborhood of the depot. The thief, however, escaped with his booty.

A CONSUMMATE SCOUNDREL.—Some two years ago a man named Thomas McGloone, from Schuylkill county, enlisted in the Seventh cavalry. After the regiment arrived in Tennessee, McGloone proved to be such a scoundrel that the officers of the regiment were compelled to drum him out of the service. Going to Cincinnati McGloone enlisted in the Thirtieth New York Infantry, and after serving a while in Newport barracks his real character was ascertained and he was dishonorably discharged from the service. Coming to Pottsville he enlisted with Captain Wellington Jones, whose company was afterwards stationed in this city on provost duty. While here McGloone enlisted with Capt. James Elder in the Eleventh United States Infantry. Captain Elder furnished McGloone with an entire new outfit, and after considerable exertion got him two months pay from the paymaster at this post. No sooner had McGloone received his pay than he deserted and went to Schuylkill county. Here he had the impudence to write to Captain Elder, enclosing his dishonorable discharge from the service. Determined to make an example of this consummate scoundrel, Captain Elder has taken measures for his arrest, and probably by this time he is secure in the hands of the law. If we are not mistaken, McGloone will receive such punishment as will strike terror to the gang of scoundrels who are traveling the country swindling recruiting officers and the government in this reckless manner.

WAGGONERS AND VAGARIES OF MEMBERS OF THE LEGISLATURE.

Mr. Editor.—In the days of Hamlet, that illustrious descendant of the incestuous King of Denmark deemed himself sane because he knew a hawk from a hand-saw, and the wind from the east. In this city, certain gentlemen who come here to pass laws—and make money in an honest way—give as a test of wisdom their judgment of the merits of beef. All of this class doubtless live upon the fat of the land and hence they have an indefinable right to complain abroad when steaks and roasts do not come up to their standard of excellence. On reference to the file of the House, I find the following bill reported by the Local Judiciary Committee: AN ACT providing for the appointment of a Beef Inspector for the city of Harrisburg.

WHEREAS, As is evidenced by the tables of a majority of the hotels of this city, that the public are greatly imposed upon, especially during the session of the Legislature, by being compelled to eat a very inferior and cheap article of beef; and whereas, This evil is being alarmingly worse from year to year, as is proven by the persistence of the butchers of Harrisburg compelling the aforesaid high-toned and liberal hotel proprietors to buy only the poorest and toughest beef, because it is cheaper; therefore, That a committee of five, composed of two members of the Senate and three of the House, to be appointed by the Speakers of the respective Houses immediately on the organization of the same, in each and every year hereafter, whose duty it shall be to select a proper and competent person to serve as an inspector of beef in Harrisburg during the session of the Legislature.

Sec. 2. That should the aforesaid butchers of this city of Harrisburg, or any of them, continue to impose further upon the hotel proprietors of this city, by selling them cheap and low priced beef of a lower grade of inferiority than herein enumerated, namely, steaks with more than three wrinkles of the horn, and roasts with more than six inches of neck, any one so offending shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in a sum not less than fifty dollars and undergo imprisonment in the county jail for a period not exceeding thirty days, and be fined on a lump sum during all said imprisonment.

Now, a word or two on this subject. The astute and well-fed members should not be too hard upon our butchers and landlords—they should ponder over the many conveniences they enjoy here that many do not enjoy at home. Do not our municipal authorities wink at the existence of fairs, banks, palaces of pleasure, concert saloons, etc., got up with an eye single to their enjoyment? Have we not billiard saloons, oyster saloons, and skillful physicians who can effect a cure in from three to five days? Do not the landlords in a most liberal spirit permit gentlemen to turn their rooms into bar-rooms, and invite their friends to aid them in drinking up the demijohns of whisky and brandy and smoke the cigars sent them by gentlemen interested in the passage of bills? Certainly this is dealing justly by guests, if we consider the amount of National and State tax the landlords have to pay for the privilege of selling whisky. And yet, with all this, they must needs find fault with the steak! About the time of the wind-up of the session heretofore, when it was time for the Honorable gentlemen to settle their bills, they always endeavored to terrify the hotel-keepers and washwomen into an abatement by offering a bill to remove the Capitol. That dodge has become threadbare, and the idea now is to operate upon landlords by slandering them in the above manner. It is the work of a few, and I'll bet a hat to-day with either of them that none of the authors of the above intended satire get any better beef at home than they do at any of the hotels in Harrisburg. It is the old story—men who have little at home expect much abroad—niggers at their beck to do their bidding—the choicest edibles the markets afford—in short, they want Continental fare and accommodations at Bull's Head prices, and because they cannot succeed in so arranging matters, they are dissatisfied. Well, let them remain so until something better turns up.

THE PATXON FIRE COMPANY.—The trustees of the Paxton fire company have had conveyed to them a lot of ground, situated on Second street above Vine, and intend immediately to build a substantial and beautiful engine house. The lot is twenty-six feet on Second street running back one hundred feet, and cost six hundred and fifty dollars, which was paid in cash by the company. We learn that it is their intention to erect a building seventy feet deep and two stories high, surrounded by a beautiful canal. On the first floor the apparatus of the company will be kept and also a large room for their meetings. The second floor will be used for balls, concerts and public meetings. The Paxton is now one of the most efficient fire companies in this city, and in their endeavors to erect themselves a comfortable and substantial house should receive that aid from our citizens which their humane and disinterested efforts for the public good so eminently entitle them.

MICHAEL COINE'S CASE.—At a further hearing of Michael Coine's case yesterday, before Alderman Kline, it appeared that the discharged soldier, Roger Mularkey, was not robbed at the United States hotel, and that Michael Coine had no hand whatever in the robbery. Mularkey was drunk and did not know where he lost his money, and the probabilities are that some of the traveling pickpockets relieved him of his greenbacks. Alderman Kline promptly discharged Mr. Coine from arrest, who it appears bears an excellent character for honesty. His arrest and imprisonment was made solely on the statement of Mularkey, and there was not the slightest corroborative evidence that he had a hand in the robbery.

MELANCHOLY ACCIDENT.—An infant son of Mr. Charles Buehler, residing on Chesnut street near Fourth, met his death yesterday in a very distressing manner. The child was playing in the yard near a barrel about half full of water. Whilst leaning over the barrel he lost his balance and pitched in head foremost. There was no person present in the yard with the child, and when his brother went in search of him he found him in the barrel quite dead. Little Henry was about three years of age and a very promising child. The funeral will take place from the residence of the parents to-morrow morning at ten o'clock.

PERSONAL.—Major General E. O. C. Ord, the hero of Drainesville, one of the most gallant soldiers of the United States army, is at present in this city and stopping at the Jones House. Brigadier General Thomas A. Welch, of Columbia, late Colonel of the 45th P. V., passed through this city yesterday on his way to join his command, which is now in Kentucky, in Burnside's corps.

REBEL PRISONERS.—Yesterday noon quite a crowd was congregated at the depot of the Pennsylvania railroad company, to see a lot of rebel prisoners who were on their way from Camp Chase, in Ohio, to Fort Delaware. The prisoners were principally officers of the rebel service, captured at Arkansas Post, and were all from Texas.

ANOTHER BIG GUN.—We saw yesterday at the railroad another of the monster fifteen-inch guns, on its way to the Brooklyn navy yard. It was cast at the Ft. Pitt works in Pittsburgh, and is intended for the New iron clad battery named "The Iron clad Hancock" in the name of an old citizen and has two turrets. She is intended for the defense of the harbor of New York.
