FELTON'S ALBANY STRAWBERRIES.—Mr. Wm. E. Hargett, gardener at Allison's Hill, will accept our thanks for a box of these strawberries, the product of his own grounds. They are of unusually large size, sweet and thick flavored. His crop is good this season, and he has the fruit for sale on market days, with other choice products of his garden.

BET ONE LEFT.—But one company—that of Capt. Baldwin, unattached, which arrived on Tuesday—was left in Camp Curtin. The last company of nine months' men, belonging to the 137th regiment, left yesterday noon for home, having been mustered out and paid off. The grass on the renowned fields of Camp Curtin will now get a chance to shoot up an inch or two, but another flattening awaits it on the return of the drafted heroes, a few weeks hence.

A TREAT FOR THE SABBATH SCHOOL CHILDREN.—The Superintendent of the State Lunatic Asylum continues to instruct and amuse the children of the various Sabbath schools of the city with exhibitions of the beautiful scenic effects of the large dioptric magic lantern belonging to that institution. The Methodist Sabbath school not long since attended in a body and enjoyed the entertainment, and a like amusing and instructive diversion was also kindly furnished the schools of the New and Old School Presbyterian churches, the former attending on Monday and the latter on Tuesday evening. It is a pleasing and profitable pastime, and the parents and teachers are placed under obligations to those through whose kindness it is afforded.

NEW TELEGRAPH PROJECT.—A new telegraph line, between Philadelphia, Harrisburg and Pittsburg, will be in operation by next fall. The new wires, two in number, will leave Philadelphia and pass through Lancaster and Harrisburg to Chambersburg, proceeding from thence to Pittsburg, and connecting with western lines about to be organized, extending to Chicago and Cairo. A direct connection will also be established between Baltimore and Pittsburg, and Baltimore and Harrisburg. About the time of the completion of these works, an independent set of wires will be in position between New York, Albany, Buffalo and Chicago.

VERY SUDDEN DEATH.—Mr. John Mitchell, residing on Second street, died suddenly of hemorrhage of the lungs about half past ten o'clock on Tuesday night. He has of late been in the employ of Messrs. Kanaga & Co., proprietors of the Girard House, in Philadelphia, and was on a brief visit to his family in this place at the time of his death. He was on the street, apparently in high health, exchanging greetings with his acquaintances, but an hour before the hand of death was laid upon him. The announcement of his death was unexpected, and it seemed to his friends a fact incredible that in one short hour he should have gone from the light and life of earthly existence to the pale realm of the dead. Mr. Mitchell was about forty-five years of age, well spoken of by his numerous acquaintances, and leaves a wife and children to mourn the loss of a husband and father.

CERTIFICATES OF ELECTION GRANTED.—The judge and tellers appointed to hold the election of officers of the Harrisburg cemetery certify that Hamilton Alicks was elected president and Daniel W. Gross, Dr. John H. Fager, William Collier and Randolph F. Kelker were elected managers, and that there was a tie vote between Collier and Small. They report the vote as follows, to wit: For President—Hamilton Alicks had 139 votes; R. A. Lambertson had 137 votes.

Managers.—D. W. Gross had 168 votes; John H. Fager had 152 votes; William Collier had 151 votes; R. F. Kelker had 149 votes; John A. Small had 138 votes; William H. Cleankner, 133 votes; A. K. Fahnestock had 128 votes; William F. Murray had 124 votes; H. F. M'Rayno had 120 votes; George Zinn had 109 votes; And K. Black had 17 votes; H. Alicks had 2 votes, and there were 3 scoters 4 votes.

FIRE IN WALNUT STREET.—The residence of Mr. Joseph Newman, Walnut street, below Fourth, was discovered to be on fire about 10 o'clock yesterday morning. The alarm was immediately rung, and the various companies were promptly on the ground and soon put a damper on the further rampage of the flames. The Citizen company was the first to play upon it, and made a splash of it in double-quick time. The fire was in the second story of the rear of the building, between the weather boarding and chimney, and seems to have originated from a defect in the latter. Had it gained much headway, it would in all probability have communicated to the houses adjoining, the one being the residence of Mr. Bomgardner and the other the saloon of Mr. Biester. But the prompt action of the firemen averted such a disaster, and, as affairs now stand, seventy-five dollars will probably cover the loss. The building is owned by Mr. Joseph Lowengard, a clothier on Market street, and is fully insured.

Mr. Lowengard desires, through our columns, to return the following: CARD OF THANKS. Mr. Editor: Permit me through the medium of your paper, to return to the various fire companies prominent and generous in their efforts for the rescue of my property, when endangered by fire this morning. Its preservation is due to their exertions, and I shall ever cherish the lively feelings of gratitude toward them for the kindly services they have rendered me to-day.

Removal.—The office of Capt. R. I. Dodge, superintendent of the recruiting service of Pennsylvania, has been removed from Second street to his former quarters on Third street, above Market, adjoining the PATRIOT and UNION buildings.

POLICE AFFAIRS.—Before Alderman Kline.—About one o'clock yesterday morning officer Campbell arrested Mary Casey, known as "Irish Mary," for street-ranning and vagrancy. Mary has been more or less without a "local habitation and a name" during a good part of her natural life, and has divided her days pretty equally between the inside and the outside of public "fastnesses. She had one more hearing yesterday, and "maun lie in prison stragg" for the next thirty days.

An Irishman named James Devine, who had been prowling around the depot for several nights past, apparently on the look out for prey, was arrested by officer Deosters early yesterday morning for stealing a knapsack, haversack, blanket and other articles of clothing from a discharged soldier named Thomas Roach. The latter was quite drunk at the time of the loss, and had been sleeping with his luggage under his head. Officer Deosters observing this, and having reason to suspect the designs of the fellow, kept a sharp eye out and made frequent reconnoissances in the neighborhood of the sleeper, on one of which he found the man's baggage missing and his pockets rifled of their contents, some thirty-five dollars. He soon got on the track of Devine, and before long came upon him behind a board pile on the other side of the canal, leisurely undoing the bundle of clothing and re-packing it. Upon being arrested, he made a vigorous resistance, but was finally reduced to subjection and brought into the aldermanic presence, and was committed to prison to await a hearing, which will take place as soon as Roach recovers from the effects of his intoxication and can collect his thoughts and state the facts in an understandable manner. No money was found on Devine's person, and it is thought that the money lost by Roach was taken by some other person.

Yesterday afternoon a man answering to the name of "Dutch Fred" was arrested by officer Campbell on Walnut street, for disorderly conduct and drunkenness. Sent up for twenty-four hours. "Fred" had over \$200 worth of "opium" on his person. John Sickle, alias "Gunboat," one more drunk and disorderly, was brought before the alderman, and sent to the tomb for forty-eight hours. Arrested by officer Brooks, on the corner of Fourth and Market.

THE INCOME TAX.—The Commissioner of Internal Revenue has decided that the profits of a manufacturer from his business are not exempt from the income tax in consequence of his having paid the income tax upon articles manufactured by him. A merchant's return of income should cover the business of the year 1862, including previous years. Uncollected accounts must be estimated. Old debts considered hopeless, if paid within the time covered by the return of income, must be included in the tax. Debts considered lost at the end of the year 1862, due to the business of the year, may be deducted. Interest is considered income only when paid, unless it is collectable, and remains unpaid by consent of parties. Income derived from coal mines must be returnable, though the tax has not been paid in coal produced. Contingent funds of manufacturing corporations made up during 1862, and not distributed, should not be returned as income of stockholders. Undistributed earnings of a corporation made previous to September 1862, are not considered income of the stockholders. Every member of a limited partnership, making no dividend or division of profits until the expiration of the partnership, must return his share of the profits arising from the business in 1862, as if the division of profits had been made. Firms as such will not make returns—Charitable, literary and scientific institutions are wholly exempted from the income tax. These decisions are highly important in their character, and will, as far as they go, assist each individual in making out his return properly, though there are numbers of questions yet arising under the law, which require early official interpretation and announcement.

CAPT. EDWARD DE ROY.—This gentleman has returned from his last obligation to the Government, and will spend the next summer months here. He is ready to form a class for gentlemen in the art of self defence with all kinds of arms—small and broad sword and bayonet exercises, for youths calisthenics and fencing. The Times says of Captain De Roy: Capt. De Roy, who has in this city a school in fencing, is undoubtedly one of the most accomplished swordsmen in America. He has a long experience in the practice of this art, and his system comprises the best improvements and most approved methods known to the masters of the art in Europe. As a teacher he is excellent. One of our citizens, who has been well taught in fencing under the old rule, informs us that the Captain's system is in all respects the thing equal in all respects to the most advanced system of the old Capt. De Roy, a Hungarian, has fought in many battles in Italy and his own country, before coming to America, where he has been for many years connected with West Point, and other military schools, becoming intimately acquainted with some of the most eminent military men in the country. The art that he teaches is one that is likely to be of great practical utility to every man, in these times, and it should be diligently acquired by all young men especially. Even as a beneficial exercise, it is superior to a gymnasium. He can be seen at the State Hospital Hotel.

BARCLAY'S PANORAMA.—A very large and highly interesting audience were present at Brandt's Hall last night, to witness the exhibition of Barclay's panorama of Jerusalem and Periscope of the Holy Land. As many far abler critics than ourselves have passed favorable judgment upon it, we prefer to leave them to speak in reference to its merits. Bayard Taylor says: "It gives the most satisfactory idea of Jerusalem which can be obtained without visiting the Holy City." Prof. Hackett says: "It is unquestionably the fullest and most perfect representation of sacred scenes and objects ever presented to the public in this country." Rev. Dr. Darbin, Dr. Bacon, and many others, all testify in a similar manner as to the merits of the painting. It exhibited sixteen weeks in Boston and one month in Philadelphia, and has been visited by thousands of citizens and over one hundred Sabbath schools. While at Syracuse, over forty car loads of excursionists came to see it from neighboring towns. To-night is its second and positively its last appearance in this place.

ANOTHER MONSTER GUN.—Another big gun, designed for the harbor defenses of New York, passed over the Pennsylvania road yesterday morning. It is a 15-inch Columbiad, cast at the Fort Pitt works, and weighs 50,000 pounds. It was so ponderous as to break down the car in which it was mounted, delaying it some hours before for repairs. Its calibre was of such a size that a boy of fifteen crawled into it with ease, and it was probable that the concussion of its discharge would shake the earth in as handsome a style as "Jove's artillery" used to rock the rugged sides of Mount Olympus. Its superiority over the latter consists in its being rifled. This gun is somewhat larger than the celebrated "Floyd gun," cast at the same works about two years ago, which weighed 49,949 pounds. New York will soon have armament sufficient to thunderstrike the "wooden walls" of the combined navies on the other side of the "pond."

REMOVAL.—The office of Capt. R. I. Dodge, superintendent of the recruiting service of Pennsylvania, has been removed from Second street to his former quarters on Third street, above Market, adjoining the PATRIOT and UNION buildings.

A CASE OF CONSCIENCE.—A circumstance came to our knowledge yesterday which exhibits in a striking manner the lasting nature and power of conscience. Mr. Wm. K. Verbeke, executor of the estate of Joseph Thornton, who died in this city last February, received a note yesterday post-marked Boston, enclosing a ten dollar "green-back," accompanied by the following note: "The enclosed ten dollars belong to the estate of Joseph Thornton." No name was signed. In a world lying in wickedness and abounding in rascally and heartless deacons, an act of repentance such as this is like a cool oasis in the desert of sin, and shows that, however far a man may swerve from the path of uprightness, he is seldom utterly forsaken by the "better angels of his nature."

AYER'S COMPOUND EXTRACT SASSAPARILLA.—No other remedy is more noted in this country than a reliable Alternative, and the sick have been so long and so generally cheated by the worthless preparations of Sarsaparilla, that they are disgusted even with the genuine. Yet the drug cannot be blamed for the impurities from which they have suffered. Most of the so-called Sarsaparilla in the market contain little of the virtues of Sarsaparilla of anything else. They are made of sugar-water and worthless, while a concentrated extract of the active variety of Sarsaparilla compounded with Dock, Stillingia, Iodine, &c., is as it ever will be, a powerful alternative and a medicinal remedy. It is Ayer's Extract of Sarsaparilla, as its title wonderful. It is a great variety of complaints which require a powerful alternative, and it is abundantly shown. Do not, therefore, discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while you have the real thing. Do not, Ayer's—then and till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's Remedial Almanac, which the agents below named will furnish gratis to all who call for it. Sudden Fluxions of Heat, Burning of the Head, and other symptoms of Constant Irritations of the Brain, and great Depression of Spirits.

PARTICULAR NOTICE. There are many preparations sold under the name of Bitters, put up in quart bottles, compounded of the cheapest whisky or common rum, costing from 20 to 40 cents per gallon, the taste disguised by Anise or Coriander Seed. This class of Bitters has caused, and will continue to cause, as long as they can be sold, hundreds to die the death of the drunkard. By their use the stomach is weakened, and the result is all the horrors attendant upon a man's life and death. For those who desire and will have a Bitter, we publish the following receipt: Get One Bottle Hoofland's German Bitters and one bottle of Good Brandy or Whisky, and the result will be a preparation that will far excel in medicinal virtues and true excellence any of the numerous cheap Bitters now in the market, and will cost much less. You will have all the virtues of Hoofland's Bitters in connection with a good article of Brandy, at a much less price than these inferior preparations will cost you.

The Proprietors have thousands of letters from the most eminent PHYSICIANS and CITIZENS, Testifying of their own personal knowledge, to the beneficial effects and moral virtues of the Bitters. From Rev. J. Newton Brown, D. D., Editor of Eccequippedia of Religious Knowledge. Although not disposed to favor or recommend Patent Medicines in general, from distrust of their ingredients, and the effects of the same, I yet feel constrained to say that I have never received from any simple preparation, in the hope that he may thus contribute to the benefit of others. I do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for years, under the impression that they were chiefly an alcoholic mixture, and an insupportable effect on the stomach. But, for the removal of this prejudice by proper test and encouragement to try them when suffering from great and long continued debility. The use of the Bitters, in the case of the writer, has been followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them. Philadelphia, June 23, 1861. J. NEWTON BROWN.
