CURE FOR SMALL POX .- The "Great Indian Remedy."-When a digger Indian gets the small pox, he closes the door of hut, kills his dog, and then shoots himself. No more simple or effectual plan has yet been devised for arresting the contagion. Try it.

MORE WOUNDED,-Upwards of a hundred more wounded soldiers reached this city from Gettysburg on Friday night, and were placed in the various hospitals established here. All the hospitels in town are now filled with as many as can comfortably be accommodated.

HABEAS CORPUS .-- We learn that od Frilay Robert Pruner, of Bellefonte, Centre county, who had descried from the 45th regiment P. V., and was subsequently arrested and brought here by the provost guard, was released from military custody on a writ of habeas corpus, which had been issued on the application of his father.

TIDIOUTE AND WARBEN RAILBOAD .- Books for subscription of stock to this road have been opened at Herr's Hotel, in this city. The charter of the road is said to be a liberal one, and it is probable that the stock will be taken and the road put under contract at an early day. It will traverse about thirty miles of the oil region, and will doubtless command a large share of the immense oil carrying trade. This, together with the general local traffic along the lumber region of the Allegheny, will offer inducements to the investment of capital.

VOLUNTERR ENGINEER CONPS .- Prisident Kennedy, of the Polytechnic College of Pennsylvania, has been authorized by the Secretary of War to organize a corps of engineers for three years or during the war. The polytechnic corps of engineers, composed chifly of students of the college, is to be recruited to a full regiment, officered by

the maurander's shoulder. Immediately after this, the cavalryman fired at George, who was about forty feet distant, with a cavalry pistol, but the boy fortunately stumbled, and this probably saved his life. The lad's father entered bail in \$500 for his future appearance. Trice is in hospital; his Ps. wounds are not dangerous. Public opinion, beth civil and military, is decidedly against him.

GREAT INCREASE OF PHYSICAL DEGENERACY -It is a remarkable fact that an alarming increase of physical ills and distempers is manifested in all those sections of the country where the draft has come off. Localities which were hitherto famous for their salubrity, and which but a few short weeks ago abounded in men of strong frames and fearfully vigorous digestion, have by the operations of the draft been converted into vast lazar houses, whose inmates groan beneath a weight of complicated diseases. One man is toothless, another rheumatic, a third has the draft in his leg, a fourth has contracted pulmonary phosphoressence by sudden exposure to the draft, a fifth has the intermittent phantasmagoria in his shoulder blade, and so forth ad libitum et nausaum. At the touch of the provost marshal's baton, as if by the wand of the magician, whole communities become affect with this blight, and are transformed into a mass of "wounds and bruises and putrifying sores," of so varied a character as to exhaust the resources of pathological nomenclature. It is to be observed, however, that all females, and also all married males above thirty-five years of age, are not subject to these afflicting dispensations .---This can only be accounted for on the supposition that the married are deemed by Providence to be

already sufficiently affiicted. As illustrative of our observations above, we cite the case of old Lancaster county. This county has been famed for its sturdy farmers and its rich, strength-giving productions. On last "Pfingste

Muntag" we looked with admiration and envy upon the well-formed lads and burom lassies who thronged the streets of the old town on that occasion, thinking to ourselves, as section after section of ambrosial gingerbread filed down their capacions throats, what a sure hold the coming draft

would have upon them. But the provost marshal, after that he had numbered the people, turns his wheel, and presto! we are told that "the pavement in front of the marshal's office is daily crowded

with what look to be hearty men, but who really are poor, sflicted mortals." On Monday, out of 71 examined, 51 were exempted; the next day 51 out of 69 were exempted. The provost marshal, finding the number of applicants becoming so large, sppointed a clork to take down the names of applicants, and has set apart a day for the hearing of each district. If things keep on, the county will not raise five hundred men. Would it not be a good idea to raise a fund for the relief of the suffaring Lancasterians ? P. S .- Would our neighbors object to receiving that fund in the form of a draft ?

THE HOPE PIG-NIC .- The pio-nic of the Hore fire company on Saturday exceeded the most satguine expectations of those concerned in its management. In respect to numbers, enthusiasm, merriment and decorum, it surpassed all its predecessors of the season. Not the slightest exhibition of bad feeling or conduct was manifested throughout the day, and old and young entered into the festivities with a will.

Of course the Hope boys duly appreciated the very flattering compliment paid them by their friends, and were in their glory. Whilst we were making an honest effort to agitate our excremities to the dulcet strains of the violincelle, one of the educated practical engineers, and report for duty | managers, a nine months' "veteran," came over to within sixty days. This is the first fall regiment us and whispered confidentially, "When the

of engineers called for by the government, and the demand for it at this time would seem to foreshadow an active and offensive fall campaign.

HANBLIN'S COMBINATION "MOUPS .- This large and brilliant combination of talent is announced to appear at Brant's Ball for one week, beginning to-night. They have just concluded a long and very successful engagement at Pittsburg, and we notice that the press of that city speak in high terms of their performance. Upon their programme may be seen the names of many wellknown and favorite commedians and balladists, who have "starred it" pretty extensively throughout the country. The hall in which they are to hold forth is commodious and well aired, and will doubtless be a favorite resort during the week.

REVENUE DECISION .--- Upon a question submitted to the Commissioner of Internal Revenue as to whether moneys belonging to a State, and deposited by State authority in any bank, are liable to tax in the same manner as deposits by private persons, it has been decided that the law makes no difference as to persons or parties by whem deposits are made. The consideration which induced the tax was the privilege enjoyed by banks to use moneys deposited with them, and to make profit by them in their business. Hence it becomes a matter of no consequence by whom or what authority the deposits are made.

A VERY STRONG-MINDED WOMAN .-- Miss Louisa F. Schultz, of Westchester county, N.Y., one of miral would say,) has become tired of "side-saddle riding," and declares her intention, in a communication published in a Boston paper, "to ride astride, or masculine fashion, henceforth." Her habit is a blue dress coat with gilt battons, buff vest, cassimere rants and a quilted dickey. What a gay young duck she must be. We would walk any day three miles to see Schultz cavorting over the plain.

"While eke the courser whereupon she rad, Could run like to a streak while she his back bestrad."

AN ATTACK AND REPULSE.- A cavalerman passing along State street on Suturday evening, after some little conversation with Michael Casey, son of the butcher of that name, demanded a fight out of the young man. This proposition Casey declined, and backed from his assailant until he reached the wall of his father's meat shop. Being thus "driven to the wall," and unable further to avoid a collision, Casey "did his endeavor," and the soldier was knocked out of time. He renewed the attack, however, but suffered a similar and severer repulse. Young Casey was then arrested by the guard, brought before the provest marshal. and sent to the lock-up. His military arrest and imprisonment were unwarrantable, as Casey was a citizen. He was accordingly soon brought cut of the lock-up under the Court House, and will be tried by civil process. His hearing takes place this morning before Alderman Kline. As he merely defended himself from an unprovoked assault, it is not probable that he will suffer much from a full investigation.

Soldier Shor -- John Trice, of Capf. Ryckman's company, 21st Pennsylvania cavalry, was shot yesterday morning near Greenawait's taunery, on Paxton creek, by George Ebrisman, a lad of eleven years. The boy was brought before Alderman Kline, and made a voluntary declaration, which is in substance as follows : Yesterday morning he discovered the said Trice in his father's garden, stealing cabbages ; Trice had cut an armful of them from the stalks, and was about to carry them off, when the declarant told him to desist. Trice did not heed him, and so the said George fired with a pistol and lodged a charge of small shot in

There were many pleasing incidents, but we have not space to go into detail. We must not forget, however, to return acknowledgments to the "old vet." abovementioned for the courtesy with which he treated a humble militiaman.

DRAFT SUSPENDED IN THE BRADFORD DISTRICT. -We learn that on the night of the 18th instant some person or persons unknown, by means of a ladder, antered the back window of the office of the provest marshal of Bradford, county, in the town of Troy, and stole therefrom all the books, papers, vouchers, blanks, &c., appertaining and belonging to the draft in that Congressional district. It is apprehended that this robbery will cause a suspension of the draft in the district for some weeks, as a vast amount of labor must be performed before the papers can again be made ready for drafting. Most of the enrolling officers failed to preserve a copy of the enrollment.

The intensely "loyal" county of Bradford, which gave President Lincola a majority of five thousand votes, is the last quarter in which we should expect to see resistance to the draft inaugurated. Are the Abs. getting shaky in the faith? Can't they stand a little draft? If these outrages had been committed in Berks county or New York the strong-minded "female women," (as the Ad- city; what a howl against the " Copperheads" would go up from the Abolition camp! As it is, that which would be treason in Berks is simply an "irregular proceeding" in Bradford.
