TWENTIETH DISTRICT -The drafting in the 30th Congressional district, composed of the counties of Crawford, Venango and Clarion, began at Meadville yesterday, under the direction of Provost Marshal Derrickson. The quota for the district is 2 600 men.

NEW COUNTERFEIT,-Counterfeit \$2 bills on the Stroudsburg Bank, Pennsylvania, are being circulated, The vignette is the figure of a train of cars going to the right, and a figure 2 in each corner. The paper is light and flimsy, and the whole note badly executed. The counterfeiters' appear to watch the issue of the printed counterfeit detectors, and flood the country immediately after the appearance of these preventives to fraud:

HEMP "AS IS " HEMP.-Judge Landis, residing at Halifax, informs us that there is now growing upon his grounds a stalk of hemp twelve feet five inches high, and which measures ten inches in circumference a short distance above ground --Some of its lateral branches are five feet long. Can any hemp producer hereabouts or elsewhere "climb over" these figures? Such a wonderful growth of hemp looks prophetic. It hints of "biz." By the time everybody's hung that deserves hanging, "hemp will be hemp."

THE LIVERYNER'S PICNIC .- The liverymen's pienie will come off at Hoffman's Grove on Thursday next, the 20th. This affair is to be conducted with the most liberal spirit, and we have no doubt it will be a pleasant affair. Ladies and children

Mosquiross .--- These remorseless insects now begin to sing their sanguinary songs, and to luxuriate upon the rich blood of young maidens and half-developed infants. Angry looking blotches on the face, arms and hands of those living where the bloodthirsty "critters" abound, betoken sleepless nights, endless rolling over in bed, and violent slapping with the hands to annihilate the airy tormentor. Let such keep their nails in good order, for the scratching era is fairly begun. We would remind the sufferer of the fact that coal oil is highly spoken of as a defence against mosquitoes. It should be rubbed upon the face and bands, and may be perfumed in order to make it more agreeable. Many persons find mosquito bites poisonous, ending in painful sores. These should not mind the feeling and smell of oil upon their skin, if by that means they might escape from the mos-

quito purgatory. We close this subject with the following magnificent "ode tu a muskeeter," written by one who had been bored into a poetic frenzy by the above "insecks," and may be truly said to have "learned in suffering what he taught in song :" You wicked blud sucker, why doant You uro yure livin sum wa beside Litin down on peeple and insurten yure Long bill to git blud-litin on Foskses noses, an when tha git mad an Begin to slap, leave? HARRISBURG CEMETERY .--- At a recent meeting of the Board of Managers of the Harrisburg Cemetery the following matters of interest to lot-holders and others were disposed of;

A map of the cemetery grounds was ordered to be made, containing the walks, lots and names of the lot-holders marked thereon ; which, when finished, will be open for examination at all times at

the keeper's house. A resolution was adopted requiring undertakers to furnish to the keeper the rough boxes twelve hours prior to the time fixed for the funeral, except in cases of contagious diseases and other spe-

cial cases. Also, one recommending to lot-holders not to appoint funerals to take place on the Sabbath before one o'clock in the afternoon, except in cases of contagious diseases. The object being to allow the keeper opportunity to attend public worship

once on Sunday. The following resolution was passed :

Resolved, That hereafter the cometery will be closed to all visitors on the Sabbath day until one b'clock in the afternoon, to afford the keeper the opportunity of attending public worship in the morning.

Messrs. Coldor, Kelker, Gross and Small voting for the resolution, and Mr. Cleckner and Mr. Alricks, President, voting against it.

Resolutions were also adopted providing for the erection of a number of benches for the accommodation of visitors, the opening of the old road, and the path along the stream, and the clearing away of the underbrush ; also, to arrange a suitable

HARRISBURG FEMALE SEMINARY .--- It will be seen by advertisement elsewhere, that the fall term of this favorite institution begins on Wednesday, September 2d, under the direction of the excellent principal, Mrs. S. E. Dixon. This seminary now. affords every facility for the culture of the mind, and its conduct, under the auspices of its present accomplished and lady-like principal, elicits the highest praise from both patrons and visitors. We commend the seminary to the favor of all parents who would entrust the education of their daughters to worthy and efficient hands.

To KEEP OFF FLIES .--- The application of a mixture of one-third petroleum or kerosine oil and two-thirds lard oil to the bodies and legs of horses will be found effectual in keeping off the flies which annov them so much during hot weather. It may also be used with much advantage on cows. A horse uneasy, fretting and stamping, becomes, after the application, at once quiet. Those who sympathize with the noble animals in the constant teasing endured by them from these pests, will be glad to use any harmless remedy which will spare incessant work, when not called to labor in harness. Horses will keep better on a less supply of food, for the repose thus obtained. Cows will give better and more milk from the rest they will get from the use of this mixture.

FRAUDULENT ENRCLLMENT .--- We are informed by gentlemen from Snyder county fully conversant with the facts, that a gross fraud has been perpetrated upon that people by the enrolling officer under the Conscription law. In one township some forty have not been enrolled, all of them subject to draft; another, some fifteen, (loyal men of course,) and it is even alleged that the officer did not enroll his own name, but instead thereof Icserted the name of his father, some fifty or sixty years of age. The worst feature of the case is that these facts have been laid before the Board of Enrollment-some of them sustained by the affidavits of the most respectable men in Snyder county -and yet the draft goes on, and no effort is made to correct this foul wrong. Yet "we must all sustain the government," and, no matter how heavy the burden or how galling the yoke, all must be patiently borne to prove our "loyalty." As some further action is contemplated in the premises, we may have occasion to refer to it hereafter.

to inquiries upon the subject, the Provost Marshal General has instructed some of the boards of enrollment that "a substitute must be entirely acceptable to the board in all other respects, as well as in regard to his physical qualifications. The board must establish such rules as will insure ac. ceptability." Does this mean that the board of enrollment are arbitrarily empowered to accept one substitute and reject another, the physical condition of each being equal and satisfactory? It looks as if the board might refuse to receive nonresidents as substitutes, unless certificates of good character accompany their offers of service. Such a decision, allowing the board such discriminating power, is contrary to the conscription law, and can and will be perverted to partisan uses. We hope that the decision will not stand, and that the more tolerable provisions of a law which is unacceptable at best may not be defeated and nullified by such unreasonable decrees as this.
