

net at night; a despotism established; with a dreadful horde opening upon the people of crushing debt, taxes, public and private spoliation, unbridled license and hopeless anarchy.

And Whereas, Northern Apathy, after years of persistent effort, has enthroned upon the high seat of power, bent upon its hideous purposes of negro equality, amalgamation, devastation and extermination of the white race of the South.

And Whereas, This demon has evoked Southern secession, and under their combined influence our glorious Union of States, with its manifold blessings, is wasting away.

Therefore, the Democracy of the county of Chester, assembled in its regular annual meeting, do resolve,

That the only sure way for the people to regain their former happy condition, is by a return to the good old order of things—the Constitution and the Union as they were established by our Fathers.

The preamble and resolutions met a cordial reception and were adopted with enthusiasm and unanimity.

FOR GOVERNOR,
HON. GEO. W. WOODWARD,
OF PHILADELPHIA.

FOR JUDGE OF THE SUPREME COURT,
WALTER H. LOWRIE,
OF ALLEGHENY COUNTY.

At a meeting of the County Committee, held at the public house of Jas. Raymond, in the City of Harrisburg, on the 15th inst., it was unanimously

Resolved, That the Democratic voters of the several wards, boroughs and townships in Dauphin county, are requested to meet at their usual places holding delegate elections, in the townships, between the hours of five and seven o'clock, P. M., and in the wards and boroughs, between the hours of seven and a half, and nine o'clock, P. M., on Saturday the 5th day of September next, for the purpose of electing two delegates from each ward, borough and township, to represent them in a County Convention, which shall be held at the Court House, in the City of Harrisburg, on Tuesday, the 8th day of September next, at two o'clock, P. M., for the purpose of forming a county ticket.

The following changes in the places of holding delegate elections were made, viz:

- Shuylkill township—From Miller's school house, to Michael G. Scharf's hotel, Oxe-town.
- Middleton—Middle Ward—To the public house of Raymond & Kendig.
- A. W. Watson, Chairman.
- Franklin Smith, Secretary.

Governor Curtin.
We have no disposition to do Gov. Curtin injustice. Indeed, there is no necessity to resort to such means in order to place him before the people in an odious light. Truth and justice are the two keener weapons that can be used against him. In this respect the case between him and Judge Woodward is widely different. He pronounces the latter in the estimation of the people, his opponents are obliged to resort to the vilest abuse and most detestable calumny, while to defeat the former it is not necessary to resort to falsehood, or even to tell half the truth.

Curtin has belonged to all the factions which, since he attained his majority, have been arrayed against the Democratic party. He has been Whig, Know Nothing, Republican, Abolitionist, by turns, and stands ready, to day, to throw himself into the arms of any other organization that may arise, strong enough to elect him and gratify his ambition.

These are facts which need not be enlarged upon—they are patent to the people—and all the puerile attempts made by his supporters, all the mendacity resorted to by them to whitewash him, to set him spotless before the public, and blacken the fair fame of his opponent, will signally fail.

The Draft—Exemptions.
We take the following at random, concerning the draft, from our exchanges. It will be seen that "down east," where Abolitionism flourishes most abundantly, and shoddy contractors most congregate, and "loyal" people abide in great numbers, the draft turns out a practical failure.

At Portland, on Friday last, eighty-three conscripts were examined. Of these forty-seven were exempted for physical disability, thirteen by furnishing substitutes, and twenty-three for other causes.

Of the whole number of drafted men in Berkshire county, 1,847, there have now been examined 1,160. The following are the totals of exemptions from different causes: Physical disability, 489; alienage, 180; fathers of motherless children, 17; only sons of aged and infirm parents, 26; only sons of widows, 30; clerics, 1; two members of family in service, 15; in service March 3d, 2; under twenty years, 9; over thirty-five and married, 26; over forty-five years, 6; non residence, 14; paid commutation money, 207; total of exemptions, 1,022.

Five regiments of the Army of the Potomac, with Artillery, have been sent to Schuylkill county, in this State, to enforce the draft; several others, also with Artillery, to Luzerne. Unless by these means "Uncle Abraham" can succeed in nabbing Pennsylvania conscripts, he is not likely to get many of Greeley's 900,000.

Curtin the Tool of Lincoln.
The fact that Andrew G. Curtin stands pledged to sustain the Federal Administration in all its measures, is one among the many signs with which he stands charged.

Which is True?
In one paragraph the Telegraph informs us that, under Curtin's administration, the "repeals" of the State have been "bridged," and in another that they have been "imposed." Which of these assertions are we to believe? The Telegraph should be consistent, or it will soon lose the confidence of the few who now believe in it.

Substitutes.—Substitutes in Richmond have touched as high a figure as \$5,000.

The people of Pennsylvania are at length fairly embarked upon the most memorable political contest in the history of the State. The Democratic party faithful to its prestige, has put in nomination for the highest positions in the people's gift next October two men of tried integrity and capacity—fit to interpret and wisely administer the laws of the Commonwealth. It will be their office to watch over and protect. It has adopted a platform perfectly consistent with all its past principles and its unwavering devotion to the Union and the Constitution.

The Abolition party which met in convention at Pittsburg, has again put forward for the suffrages of the freemen of Pennsylvania, a man who has been found wanting in all the qualities which constitute a wise and resolute Executive. His weakness and vacillation, and want of integrity have been made palpable by the experience of the past two years during which he has failed to conduct our State affairs with becoming propriety, wisdom and firmness. A man whose reputation depends, not upon solid virtues as a statesman, but upon bombastic speeches and political clap trap—one who in the hour of our peril, when the invader was upon our borders, sat craven and bewildered and suffered himself to be superseded by a military strap from New England, and the property of our citizens to be plundered, through his miserable imbecility and indecision. The party principles of his supporters express no applicable devotion to the Constitution, they proscribe without measure terms, in the platform of their adoption, all who may see fit to differ with the pronouncements of a perjured President, and the higher law doctrines of New England fanaticism.

The Draft in New York.
To-day the draft will be commenced in New York. The President has determined to delay no longer, and of course it will proceed.

Let the Abolition leaders, who have set themselves resolutely to work to carry the election by falsehood, fraud and corruption, bear this prophecy in mind, for it will assuredly be fulfilled, and all their unscrupulous efforts to prevent it will prove impotent. The doom of Curtin and his party is sealed. It has been decreed, and there is no power in the National Administration or the Union Leaguers, in money, or fraud, or falsehood to prevent it.

Curtin's Economy.
"The economy of the State Administration" is one of the themes harped on by Curtin's supporters. With the same propriety they might urge the economy of the National Administration, which every body knows has been robbing the people to squander money upon unworthy favorites, ever since it came into power.

A Question Answered.
In reply to the question put to us by a subscriber in Northumberland county, we answer: Our opinion is that the conscript who pays \$300 to the government officer appointed to receive it, is as free from any future draft for three years as the conscript who furnishes a substitute. The law itself makes no distinction that we can perceive. Forney thinks it does, and we believe the Provost Marshal General at one time decided so—but we do not think the decision so stand. We answered this same question more fully in our paper a week or ten days ago, in reply to a similar question from Snyder county. We refer our subscriber to that paper.

RECENT PUBLICATIONS.—We have received from Leonard Scott & Co., 38 Walker street, this valuable periodical. Its table of contents is unusually interesting. I. "Napier's Memorials of Clonhouse." II. "Druids and Bards." III. "Ferguson's History of the Modern Styles of Architecture." IV. "Louis Blanc's French Revolution." V. "Sir George Cornwall Lewis on Forms of Government." VI. "Xavier Raymond on the Navies of France and England." VII. "The Source of the Nile." VIII. "The Scots in France. The French in Scotland." IX. "Lysle on the Antiquity of Man."

KENTUCKY GOVERNORIAL ELECTION.—Hon. Charles A. Wickliffe has published the following card in Kentucky papers, probably as a prelude to contesting the election of his opponent, Bramlette:

"Some friend in each county will incline to me a full statement of all the facts which occurred at the several places of voting at the last election, which prevented voting and full exercise of the elective franchise by citizens who were entitled to vote. Address to my residence, Bardonia, Ky. C. A. WICKLIFFE."

Colonel Forney announced that himself and paper were pledged to the support of Government and the overthrow of slavery.—N. Y. Tribune.

This announcement was made at the memorable Re-union held the other day in Washington, which the President and Cabinet attended. This is the announcement of the Administration organ. Now we ask, what is the war waged for? Is it to overthrow slavery, or is it to subdue an insurrection against the Union and the laws? Who will give us an answer?

M'Clellan's Report.—Gen. M'Clellan has not only furnished his report to the War Department, but also accompanied it with an urgent request that, if the Department declined the trouble and expense of its publication, he should be allowed to publish it himself at his own cost. Whether the Administration will grant him even this privilege is very uncertain.

NEWS OF THE DAY.

BY TELEGRAPH.

FROM WEST TENNESSEE AND MISSISSIPPI.
FEDERAL SUCCESS—BRAGG AT CHATTANOOGA WITH 25,000 MEN—JOHNSON AT BRANDON WITH 25,000 MEN—THE GUNBOAT CINCINNATI—GOV. HORNER, &c.

CINCINNATI, August 13.—A dispatch from Cairo to the Commercial, says that West Tennessee is cleared of guerrillas. Col. Rowitt, commanding a brigade that went north, captured Col. Campbell, of the 23d Tennessee, together with ten captains and thirty privates. Col. Hatch, of the 2d Iowa, went to Paris and drove out Richardson, Biffle's and Milson's guerrillas. The 1st Alabama cavalry returned to Gen. Bragg with ten prisoners. The 18th Missouri regiment captured a captain and five privates in the vicinity of Ripley.

Gen. Bragg is at Chattanooga with 25,000 men. He has lost 10,000 by desertion. Johnston's army, numbering 25,000, is at Brandon and Enterprise. It has lost one-third by desertion. The mountains of North Alabama are full of deserters from Johnston's and Bragg's armies. The gunboat Cincinnati has been raised, and is now undergoing repairs at Vicksburg.

Gov. Shorter, of Alabama, has issued an address to the citizens of that State, urging upon them an impression of their slaves into the Confederate service.

FROM WESTERN NEW YORK.
A PRESIDENTIAL CONCLAVE.
ROCHESTER, Aug. 18.—A number of influential gentlemen from this and other States, are in this city, for the purpose of having consultation in regard to the next Presidential campaign. They have assembled in accordance with a call signed by E. F. Stevens. A private caucus is now being held, and the meeting will be convened at noon. Among those in attendance are Hon. Leslie Coombs and Hon. Garret Davis, of Kentucky; other prominent and distinguished men are expected to arrive during the morning.

ROCHESTER, Aug. 18.—The caucus to-day was attended by about 30 representatives, and was somewhat prolonged. At the close, the formal meeting was postponed until 3 o'clock. Representatives from several States were present, including Kentucky, Missouri, Maryland and Wisconsin.

Letters were received from Ex. President Fillmore and other distinguished men. The object of those present seem to be to hold a Convention, but a series of private consultations in the different States in which the old Whig elements still exist, and create a National lead, to act in the next Presidential campaign, as a balance of power party.

EUROPEAN INTELLIGENCE.
CAPS RACE, August 17.—The steamship Asia, from Liverpool on the 8th, and Queen Mary on the 9th, passed this point at 9 o'clock on Sunday morning.

The London Globe announces, apparently upon authority, that no authentic intelligence had been received giving any assurance to the statement that the American conscription was a menace to England. It says there is no interruption of the general amity between the two countries.

The rebel loan on the 7th was quoted at 27 1/2 per cent. discount. The rebels were agreed to send a common note to Russia. An iron ram, which was building for Russia in England, had been hurried off to Russia, although incomplete in its construction.

The Vienna and Warsaw railroad had been seized for the transportation of troops for one week. The Paris bourse was again excited. In the London money market funds are weaker.

Specimens of cotton grown in Java had been received in England, and they were pronounced to be equal to the fair middling quality of American cotton. Several tenders had been made to the Atlantic Telegraph company for laying a new cable.

WASHINGTON, August 18.—A dispatch received this morning by the Government, dated the 17th inst., from a distinguished military officer in Tennessee, stating that the Cheat River Rebels of the 16th announced that the bombardment in Charleston harbor, on Saturday, was awful, and that the firing from Gillmore's land batteries on Morris Island and Sumpter. The combined land and naval force of the Federals seemed to be engaged.

The information published in the Rebel telegraph, and the fight was going on when the paper went to press on Sunday. The officer who communicates the contents of the Rebel telegraph to the editor, instead of making any boasts about the result of manifesting the least jubilant feeling over the situation of affairs at Charleston, exhibits the most positive evidence of gloom. The Rebel states that the Ironsides and all the Monitors were not only in the action, but that the whole fleet and a large number of transports were inside the bar during the engagement.

BY THE MAILS.
THE WAR IN THE SOUTHWEST.
CAIRO, August 16.—A bearer of dispatches from General Grant has passed through here on the way to Washington. It is understood that the Government says the editor, instead of making any boasts about the result of manifesting the least jubilant feeling over the situation of affairs at Charleston, exhibits the most positive evidence of gloom. The Rebel states that the Ironsides and all the Monitors were not only in the action, but that the whole fleet and a large number of transports were inside the bar during the engagement.

here this afternoon of the destruction by fire of Hurst's Shoddy mill at Cohoes, and the burning to death of fifteen female operatives. The flames spread with fearful rapidity, and the only means of escape left to the girls were the windows. Some were so terror-stricken that they abandoned themselves to their fate and perished in the building. Others fell from the windows into the fire below, and many were badly injured by jumping to the ground. Twenty-five persons missing and fifteen are reported burned to death.

FRAUDULENT EXEMPTION CERTIFICATES.
AUGUSTA, Ga., August 17.—Two young men employed in the Surgeon's Department were arrested on Saturday for forging out certificates of exemption for a pecuniary consideration. Only five certificates were issued, and \$250 realized by the fraud.

1,200 DRAFTED MEN FOR THE ARMY OF THE POTOMAC.
BOSTON, Aug. 17.—Twelve hundred drafted soldiers embarked from Long Island, Boston Harbor, to-day, on the steamer Forest City, to join the Army of the Potomac. The 4th Massachusetts arrived to-day from Port Hudson.

PROCLAMATION FROM GOV. SEYMOUR.
ALBANY, August 17.—Governor Seymour has prepared a proclamation warning all citizens against any disorderly conduct when the draft is made in New York and Brooklyn.

FROM THE ARMY OF THE POTOMAC.
WASHINGTON, August 17.—From the Army of the Potomac we have the following, dated August 16: Deserters report a movement of portions of Lee's army in the direction of Dumfries, for the purpose of attacking General Meade on the left. Scouts report, however, that all is quiet as to any movement.

The rebels are engaged in throwing up earthworks. Part of Longstreet's corps are at United States Ford. A proper disposition of forces has been made to prevent any advance of the enemy.

Everything continues quiet. The rumor that Lee had crossed a portion of his force over the Rappahannock has been proved untrue by our cavalry. The army holds itself in readiness to move at a moment's notice, so that any attempt on the part of Lee to advance will be promptly met.

The N. Y. Herald of the 18th says: There are signs of motion in the Army of the Potomac. A demonstration was made by the enemy yesterday on the left of our army, and heavy cannonading was heard for a long time. The impression at headquarters was that a battle was going on in the direction of the United States Ford, or probably towards Fredericksburg, but no intelligence of that kind having reached Washington last night, it is most likely that it was merely a reconnaissance. There is very little doubt that Gen. Lee's army is moving in a southerly direction from Centerville and Gordonsville. Deserters and refugees confirm this fact, and report that the demoralization in Lee's army is correct, as before stated. The Tennessee, Georgia, Alabama and Mississippi regiments are said to be in open revolt.

FROM SAN FRANCISCO.
SAN FRANCISCO, August 15.—Accounts come via Los Angeles of the discovery of a very rich and extensive gold mine region in the San Francisco mountains, lying east of the Colorado river. The La Pas and other recently formed mining companies on the Colorado have been deserted for new mines. The latter are described as a new California.

There is a general complaint among the growers of vegetables and fruit, the supply being greatly in excess of the demand. Baskets of plums and excellent peaches are sold at about two cents a pound, which will scarcely pay the cost of gathering and sending to market. Every day large quantities of fruit and vegetables are thrown away for want of buyers.

WASHINGTON ITEMS.
CAPTURE OF BUTLERS BY MOSBY'S GUERRILLAS.
WASHINGTON, August 17.—On Saturday night Mosby's guerrillas captured seventeen soldiers, with their wagons, horses and guards, near Fairfax Court House. After stripping the wagons of such articles as could be easily carried off, and relieving the soldiers of their "greenbacks," the guerrillas, allowing the disconsolate soldiers to return sadder if not wiser men.

GUERRILLA ATTACK ON A GOVERNMENT TRAIN.
Last night the guerrillas made an attack upon one of the Government trains near Ball's Church, but a volley from the troops stationed there caused the party to beat a hasty retreat. No soldiers are allowed to go out now without a proper escort.

REBEL CAVALRY RAID INTO POLESVILLE.
Last Saturday night a small party of rebel cavalry made a raid into Polesville, Maryland, capturing the telegraph operator and carrying off his instrument. The operator, however, escaped. After ransacking the stores in the village the rebels returned to the Virginia side, carrying with them horses, goods, &c. The party is believed to have been composed of citizens of Loudon county, acting as guerrillas for the purpose of procuring supplies for their families.

THE CASE OF GEN. MILROY.
The court of inquiry, to investigate the execution of Winchester and Middletown, was in session to-day. Maj. Gen. B. H. Milroy was before it for several hours. He presented as evidence his official report and gave some verbal evidence in explanation thereof. He testifies that at the commencement of the attack on Winchester he had three full batteries, four 20 pound Parrotts, and two 24 pounder howitzers, all of which were abandoned after being spiked; also 100 rounds of fixed artillery ammunition for each gun in battery. When he retreated on Sunday, the 14th of June, he had left, according to his testimony an average of 30 pounds of fixed ammunition for each gun. A recent allegation that he had removed the guns is, that the noise created by their removal would reveal their position to Ewell's corps and Imboden's, Jenkins' and Jones' divisions, then surrounding him. This court will probably continue its daily sessions for a month.

CABINET QUARREL.
It is said that Gen. Hitchcock's reply to the reflection of Secretary Stanton upon the members of the court martial in the Cashel case will soon be printed. In power and dignity it is said might be expected from so distinguished and honored an officer as General Hitchcock.

MOVEMENTS OF GEN. CUTLER.
Gen. Cutler arrived in town to-day, and leaves to-morrow for Fort Monroe. It was reported at one time that his resignation had been accepted; but the Secretary of War did not feel disposed to relinquish his services, and has given him instead thirty days' leave of absence.
