DEMOCRATIC CLUB MEETINGS.—The Democratic Clubs of the respective wards in this city will meet weekly as follows, viz:

First Ward—On Saturday evenings.
Second Ward—On Monday "
Third Ward—On Tuesday "
Fourth Ward—On Wednesday "
Fifth Ward—On Thursday "
Sixth Ward—On Friday "

By order of the City Executive Committee.
GEO. F. WEAVER, Sec'y.

QUARTER SESSIONS.—The Court of Quarter Sessions for this county commences its labors to-day. A large number of criminal cases are docketed for trial, including crime of many kinds and degrees, some thirty-two of which were continued from last term.

WOUNDED SOLDIERS.—There are ten thousand two hundred and forty-two sick and wounded soldiers in the government hospitals at Philadelphia. Thirty-five deaths occurred during last week, and during the same period two hundred and ninety-nine were returned to duty.

REVENUE DECISION.—The Commissioner of Internal Revenue has decided that the amount expended by a physician for the keeping of a horse used exclusively in the business of his profession, is a legitimate deduction from the amount of income assessed against him.

HARRISBURG FEMALE SEMINARY.—The fall session of this excellent educational institution begins on Wednesday, September 23. While under the superintendence of its worthy and accomplished principal, Mrs S. E. Dixon, this seminary has grown rapidly in the public favor. It is commended to the patronage of all parents who would entrust the education of their daughters to practised and competent hands.

THE COAL TRADE.—Statistics of the Pennsylvania coal trade for the present season show an aggregate production of nearly four million tons, against less than three and three quarter millions to the same time last year. Notwithstanding the numerous strikes which have occurred among the miners in the coal district this season, and the unprecedented advance in the wages of miners, these statistics show a favorable increase in the coal trade of our Commonwealth.

SOLDIERS' BOUNTIES.—Mr. Solicitor Whiting recently decided that the volunteers first called out by the President are not entitled to bounty under the act of 1861. At the accounting offices this decision is tabooed, as the first section of the act provides that all provisions of law applicable to three years' volunteers shall apply to all volunteers who have been or may be accepted into the service of the United States for a period not less than six months.

CAUTION TO CORRESPONDENTS.—By a very harsh rule of the Postoffice Department, which perhaps is justified by the letter of the law, if the amount of the postage stamp upon a letter does not fully prepay it, double the amount of the deficiency is charged to the receiver. Formerly only the amount of the deficiency was charged. Thus, a letter weighing the merest fraction over half an ounce, if prepaid with but a single stamp, is burdened with an additional postage of six cents, which the receiver must pay.

A WARNING TO BUMMERS.—A lawyer of Paterson, N. J., was tried last week by a jury for the crime of nibbling—going into groceries and cutting off pieces of cheese, taking crackers and buttering them, and taking other liberties of the same sort. The jury, after hearing the evidence, found the accused guilty, and rendered a verdict of $25 for the grocer, Mr. John Bayard, at whose store the nibbling occurred. This is another solemn warning to nibblers and "bummers" to desist from their unconstitutional acts and turn from the error of their bumming ways. "No reference to an allusion."

UNTRUE.—A Lancaster gentleman, who was in the same car at the time ex-President Buchanan passed through this city on his way home from Bedford Springs, says that the article which appeared in the Harrisburg *Telegraph* of that evening relating to a "withering" scene that occurred at the railroad depot between the ex-President and a soldier who had his arm amputated, is untrue in every particular. The gentleman affirms that no such scene as that related transpired at all, and is certain that the writer of the article was misinformed in reference to it. Upon the authority of the gentleman, the *Express* retracts the article, adding: "We are sorry that the article has been published, because we do not design or desire at any time to be the means of doing injury to any one."

OLD SOLDIERS.—We "lucky cusses" that were drafted in "that draft" are old soldiers. This we have discovered, with some feeling of pride, by picking up the following decision which was floating about on the sea of newspaper literature: "Drafted men become soldiers in the service of the United States by the fact of their names having been drawn in the draft. The notification, served upon them by the Provost Marshal, is merely an announcement of the fact, and an order for them to report for duty at a designated time and place. This being the case, it behooves the conscripts, while wearing their honors meekly, to see to it that every inglorious citizen "minds out himself," and conducts himself gingerly toward those who have "become soldiers in the service of the United States." If your authority is disputed, pull out your notification papers.

A TRUE SNAKE STORY.—Mr. Barnum has succeeded in securing for his museum the largest snake ever seen in this country. It is a python of the species boa, from the East Indies. It is a wonder to spectators how this appalling monster was ever caught alive. He is twenty-five feet long, with a body larger in girth than that of a large-sized man. He has a shining skin and a graceful taper of the body.

The stories which imaginative nurses are wont to recite to credulous urchins concerning the monsters of the serpent world are tame beside this great reality. On his voyage from the East Indies nobody dared to approach him to give him anything to eat, and it was not until he was got into Mr. Barnum's glass cage that anything went into the vast receptacle where he is wont to put his food. He was then regaled with rabbits, guinea pigs, and pigeons. He has a way of eating which has a tendency to make the spectators feel very thankful that he is shut up in a tight cage. This gentle pet caught with his own hideous mouth, and took into his own body, five fat guinea pigs, and sixteen full-grown rabbits, finishing with a dessert of several plump pigeons, and then curled himself up for an after-dinner nap. He was shortly after seized with another pang of hunger, however, and swallowed a rooster that had been previously tempting his appetite near his corner of the cage. There were before several tremendous boas in the cage, but all of them rolled into one could be swallowed whole by the python.

This monster boa will be visited not merely by thousands of curiosity seekers, but by students of zoology, as a marvel of the serpent world. As such a marvel, we give his snakeship this brief introduction to the public through our columns.

THE MANUFACTURE OF ICE.—An ingenious Frenchman has discovered a method for manufacturing ice by which the article may be produced at a trifling cost. A cylinder of metal (tin will answer) with a movable cover at one end, to be kept lightly in its place by a screw when shut; with two openings, one at each end, to receive through two funnels the materials used; and a discharge cock at one end to discharge the contents when the cylinder is to be emptied, is all the apparatus required. This cylinder, when properly charged, is placed on a pair of rockers, so that the see-saw motion may be obtained. To convert five hundred French grammes of water into ice (each gramme being nearly seventeen grains avoirdupois) it is necessary only to place in this cylinder or well twelve hundred grammes of sulphate of soda and eight hundred grammes of hydrochloride of muriatic acid. Into this preparation or bath, says the inventor, place a form or vessel containing the water to be frozen, a bottle of champaign to be *frapped*, or any other materials required to be frozen. Close the cover, screw it fast, and then for seven or eight minutes give the cylinder or well a see-saw motion on its cradle, and you obtain the desired result. A solid block of ice of five hundred grammes may be produced by this operation. If we may believe the half of what is said of the discovery, our dependence for cool drinks will no longer be upon the icemen but on the chemists.

NOMINATION OF CANDIDATES FOR DELEGATES TO THE DEMOCRATIC COUNTY CONVENTION.—At a meeting of the City Democratic Executive Committee, held on the 3d of June last, the following amendment to the "Rules and regulations for the government of the Democratic party of the city of Harrisburg" was unanimously adopted, viz:

"All candidates for Ward Delegates to County Conventions shall hereafter be named and placed in nomination at a regularly called ward meeting in each ward of the city, to be held on the Saturday evening preceding their election."

The Democratic voters of the several wards in the city of Harrisburg are, in compliance with the foregoing amendment, requested to meet at their respective ward houses on *Saturday evening next*, August 29th, for the purpose of *nominating* suitable candidates for delegates to represent them in the County Convention to be held at Harrisburg on the 8th of September next.

By order of the City Executive Committee.
GEO. F. WEAVER, Sec'y.

Harrisburg, August 24, 1863.

MUST BE REMEDIED.—The filthy condition in which the meat stalls are left in the market house every Wednesday and Saturday morning must be remedied. The person who passes through the building twenty-four hours after meat market will find himself assailed on either hand by villainous smells, which, on closer inspection, he will discover to proceed from bits of meat and clots of blood that have been left upon the meat blocks and tables. It would seem that most of the butchers, disregarding the express municipal regulations upon the subject, shove their blocks under the counters without so much as brushing them off. A hot atmosphere soon decomposes the remnants adhering to them, filling the air with foul odors and sending qualms even to the stomach of stout digestion at the thought of feasting upon the steaks and roasts that are to lay in such filthy places.

It is the duty of the clerk of the market to see that every butcher washes his blocks and tables after each market morning. Let him perform that duty, and then the community can eat their sirloin with a keener gusto, and hungry dogs, scenting corruption afar off, will no longer be trotting along the counters foraging among the tables for dainty titbets of tainted meat.

CITIZENS,

Testifying of their own personal knowledge, to the beneficial effects and medical virtues of these Bitters.

From Rev. J Newton Brown, D. D., Editor of Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this more readily in regard to "Hoofland's German Bitters," prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN.

In Young or Aged, Male or Female,
Are speedily removed, and the patient restored to health.

DELICATE CHILDREN,

Those suffering from MARASMUS, wasting away, with scarcely any flesh on their bones, are cured in a very short time; one bottle in such cases will have a most surprising effect.

PARENTS

Having suffering children as above, and wishing to raise them, will never regret the day they commenced with these Bitters.

LITERARY MEN, STUDENTS,

And those working hard with their brains, should always keep a bottle of HOOFLAND'S BITTERS near them, as they will find much benefit from its use, to both mind and body, invigorating and not depressing.

IT IS NOT A LIQUOR STIMULANT,
And leaves no prostration.

Attention, Soldiers!
AND THE FRIENDS OF SOLDIERS.

We call the attention of all having relations or friends in the army to the fact that "HOOFLAND'S German Bitters" will cure nine-tenths of the diseases induced by exposures and privations incident to camp life. In the lists, published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured by Hoofland's German Bitters. We have no hesitation in stating that if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise would be lost.

The proprietors are daily receiving thankful letters from sufferers in the army and hospitals, who have been restored to health by the use of these Bitters, sent to them by their friends.
