

LOCAL NEWS.

The Daily Patriot and Union may be had at Jack's Book Store, corner of Third and Market streets.

Also, at the News Agency of George L. Walter, 12 Market street, near Fifth.

DEMOCRATIC CLUB MEETINGS.—The Democratic Clubs of the respective wards in this city will meet weekly as follows: First Ward—On Saturday evenings. Second Ward—On Monday. Third Ward—On Tuesday. Fourth Ward—On Wednesday. Fifth Ward—On Thursday. Sixth Ward—On Friday. By order of the City Executive Committee. Geo. F. WEAVER, Sec'y.

MELONS.—Watermelons and cantaloupes are just now in abundance in our market. Their quality this season is excellent, and the prices, taking everything into consideration, quite reasonable.

NOTICE.—The funeral of James Pasco, Esq., will take place on Wednesday morning next at 9 o'clock from St. Stephen's Episcopal church in this city.

His friends and those of the family are invited to attend without further notice.

DEPARTURE OF CONSCRIPTS.—Yesterday morning a car load of conscripts and deserters passed through this city, on the Northern Central railway, on their way to join the Army of the Potomac. They were under guard, but appeared in good spirits. May their good spirits never desert them, is the wish of a "fellow conscript."

A BRASS THEIF.—James Burns, a young man residing in the Second ward, was arrested by officer Campbell on Saturday, charged with stealing, at various times, a quantity of brass castings from the shops of the Pennsylvania railroad company. Failing to procure bail he was committed by Alderman Kline for his appearance at court.

ACCIDENT.—A lad named Patterson, aged about ten years, was run over by a horse yesterday in Market street, and severely injured. The accident was the result of the child carelessly playing in the street, and was not the fault of the person riding the horse. The lad's parents reside in the Sixth ward, where he was conveyed.

COURT PROCEEDINGS.—The regular quarterly sessions met yesterday morning at 10 o'clock in the Court House. The day was consumed principally by the returns of Constables and the delivery of the Judge's charge to the jury, which was quite lengthy. The business of the present term is not very heavy, and no cases of more than ordinary interest to the public will be brought before them.

FATAL ACCIDENT.—On Friday last a boy about 13 or 14 years of age, son of George W. Conrad, of Alabama, when attempting to jump on an engine as the upper end of the yard, in that place, missed his footing and fell with one leg over the rail. One or two wheels passed over it, crushing it from the knee to the ankle, and producing injuries from which death ensued.

THE WEATHER.—Yesterday and the day before were fair samples of tropical weather. Both days the thermometer was above ninety. Yesterday afternoon a delightful breeze from the west sprung up which went a great way to relieve without humidity. Notwithstanding the excessive heat we have had for the past few weeks, we have not heard of a single case of sun stroke in this vicinity.

MUSQUITOES.—These tormenting pests have recently made their appearance in these parts to a more than usual extent. We see a very simple remedy going the rounds of the press, which we are assured by one who has tried it, is very efficacious in their destruction. Close the room and burn a teaspoonful of brown sugar on some live coals and the insects become paralyzed at once. Try it.

THIRD WARD CLUB.—Woodward, Lowrie, the Constitution and the Union.

The Third Ward Democratic Club will meet this evening at half past 7 o'clock at the Franklin House in Walnut street, between Second and Third streets.

All that would rather see Woodward inaugurated Governor of Pennsylvania than that General Lee and the whole rebel army should be quartered in Harrisburg are respectfully invited to attend. Geo. J. SNOWMAKER, Pres't.

APPOLOGY.—The regular local editor being among the lucky ones who draw prizes in the late Government lottery, is at present engaged in fixing up his matters in regard to the draft. He is out in search of a substitute, and falling in that he intends to "suck" the three hundred dollars "in lieu thereof." For that purpose he is absent from his post-to-day and has put on a "sub." Any little shortcomings we hope our readers will overlook, as the mind of the "sub." is just now exceedingly troubled with a desperate attack of the draft, which has, and still does, sorely tax his mental capacities how to get rid of. Ain't it distressing?

DISHONEST RAILROAD EMPLOYEES.—Some time since the officers of the Pennsylvania railroad company detected some of their employees at Millifin, (Pottsville), in a nice little scheme of fraudulent financing, by which the company was robbed of a considerable amount of money. The exact nature of the transaction we have been unable to learn, but one of the means of swindle was to place the names of persons on the pay roll who were not employed by the company, and the company's agent drew the money and pocketed it. The guilty parties were all detected and discharged, but, we believe, no arrests were made. New men were placed in the positions of those discharged. Mr. Charles Gordon, for a number of years foreman of the company's shops in this city, has now charge of the Patterson shops at Millifin. He is one of the oldest employees of the company, and enjoys their highest confidence.

THE ALL-ABSORBING TOPIC.—Despite the sweltering heat we have just now to endure, there are people, and plenty of them too, in our midst whose whole thoughts and talk are on the conscription. Some who are drafted take it very cool, but by far the largest number "stamp and swear, and tear their hair" in the despondency of their despair. Whichever you meet a little collection, their topic of conversation is on the draft. Arguments pro and con as to the law and the decisions upon the same, place in the shade the profound knowledge and astuteness of Solicitor Whiting. His decisions are nowhere, compared to the soundness of those promulgated upon our street corners and bar rooms. But all this fuss and feather flutters amounts to nothing. Those whom the fatal arrow has struck should submit with as good a grace as possible. The law as it stands provides the only way to claim exemption from its operation. Those who feel aggrieved can only wait patiently for the coming of a better day. That day will come as surely as to-morrow's sun will rise, and its first dawn will be on the second Tuesday of October next, when George W. Woodward will be called to take the place of theabelle who at present fills the first office in this Commonwealth. Ventilate this all-absorbing topic—by doing so you send conviction to the hearts of those who, through prejudice, oppose the Democratic party and are siding the enemies of our country to hasten its destruction.

POLICE AFFAIRS.—Police matters for the past few days have been very dull, whether from the near approach of the quarter sessions or the debilitating heated term, we are unable to say—at all events the business is very dull and we feel thankful.

On Saturday officer Campbell arrested William S. Lascow on the charge of assault and battery, preferred by Henry Houler: Lascow drives for Pluff's line, and while near the railroad was run into by Houler with a horse and cart and his horse and himself nearly brought in contact with a passing train of cars. Held to bail.

Mary Magdalene Weigl was delivered over to the authorities by her father and placed in prison preparatory to her being sent to the House of Refuge. Mary Magdalene is only fourteen years of age, but has already in her tender years been given over to the most depraved habits. Utterly beyond the control of her parents, she has been handed over to the authorities to be placed in the House of Refuge.

BY THE MAILS.

IMPORTANT CIRCULAR FROM THE PROVOST MARCHAL GENERAL. The following circular is issued by the Provost Marshal General: CIRCULAR NO. 73. WAR DEPARTMENT, PROVOST MARCHAL GENERAL'S OFFICE, WASHINGTON, August 20.

The following opinion of Colonel Jos. Holt, Judge Advocate General, is published for the information and guidance of all officers of this bureau: In the case where there are only two sons of aged and infirm parents, and both are drafted. (Clause 4, section 2, Enrollment act.) OPINION.—"Where, through inadvertence or ignorance of the law, aged or infirm parents, having two sons, have omitted, before the draft, to elect which shall be exempt, and both have been drafted, it seems that the right of election should still be allowed to be exercised at any time before the notice to report to the board of enrollment expires. The reason of the rule heretofore established, requiring this election to be made before the draft, was that a different course would result in a 'practical exemption of two sons instead of one.' This reason, however, does not apply in the case—necessarily of rare occurrence—where both sons have been drafted, since whichever may be elected, one still remains for the military service, which is all that the law claims or contemplates. The reason of the rule failing, the rule itself should be relaxed in such extreme cases, since the object of the law will thereby be accomplished, without the slightest hazard of compromising the public interests."

With regard to the meaning of the word "labor," in section 2, of the Enrollment act. OPINION.—"Labor is defined to be 'bodily or mental exertion.' It may, within the meaning of the law, be either physical or intellectual; it may be professional, commercial or agricultural; and each of these forms of labor may exist under modifications, or in combinations with each other. The means for the support of the parent or widow must be produced by this labor, whatever may be its character. It need not be wholly produced from it; but it must be mainly so. A parent or widow receiving support from a son whose income is derived from dividends or rents, cannot be said to be dependent on his labor; but if that income were entirely from the fruit of professional or physical toil, then the case would be clearly within the purview of the law. In mixed cases, where the income is the product of labor and capital cooperating together, the application of the law is rendered more difficult. Its objects will probably be best secured by holding, as suggested, that in such cases the income which furnishes the support must be mainly derived from the personal labor of the son. If, for example, the son be a merchant or manufacturer, whose business, under his personal superintendence, yields him an income of \$10,000—and such personal superintendence could not be estimated as worth more than \$3,000 per annum—it could not be said, in the sense of the law, that his labor yielded the income to which his parent looks for support. It is, true, an element in the production, but not a preponderating one. A test may be found in an answer to the question, whether, if the son's personal labor were withdrawn by calling him to the military service, a support for the parent or widow would remain. If it would—and in the case supposed it would, since his superintendence could be supplied, and the productive capability of his capital would remain—then the claim to exemption cannot be allowed." JAMES B. FRY, Provost Marshal General.

THE WAR IN THE SOUTHWEST.

IMPORTANT RAID TO GRENADA, MISS.—GREAT DESTRUCTION OF RAILROAD PROPERTY. MEMPHIS, August 20.—About two weeks since Major General Harbut ascertained that there was a large amount of railroad stock at Grenada, which the rebels were endeavoring to get off South by making temporary repairs to the railroad. With his usual energy and promptness, General Harbut arranged an expedition to destroy this stock, sending a request to Gen. Grant to make a diversion from the south to aid in the enterprise. The expedition started from Lagrange, Tennessee, on the 13th inst., under command of Lieut. Colonel Phillips, of the Ninth Illinois mounted infantry, and reached Grenada on the 17th, driving Gen. Slemmer, with two thousand men and three pieces of artillery, from the place. They destroyed fifty-seven locomotives, upwards of four hundred cars, together with the depot building, machine shops, blacksmith shop, and a large quantity of ordnance and commissary stores. They also captured about fifty railroad men, and a number of other prisoners. After Colonel Phillips had thoroughly accomplished his work, Col. Winslow, from General Grant's army, arrived with a force from below. The expedition returned to Lagrange to-day. Great praise is certainly due Col. Phillips and his command for enduring the hardships of such a march through central Mississippi in mid-August, and so thoroughly clipping the remaining energy of the rebellion in the South west.

A band of guerrillas drove in the pickets at

Jaffayette, Tenn., at midnight. Our boys rallied and followed them a few miles, killing four and capturing seven, with which they returned well satisfied with the night's adventure. The movements of our forces below are contraband. The weather is very hot.

There is considerable cotton coming into Memphis by wagons.

NEW ORLEANS.

PAPERS FROM NOBLE—BRAVEGARD REPRINTED. New York, August 23.—The steamer Cromwell, from New Orleans on the 15th instant, arrived here to-day. The Mobile Tribune copies approvingly an article from the Charleston Mercury, which says that since the Federal successes Beauregard had better lay aside his engineering and artillery duelling, which are now played out, and take to the bayonet; and advises the authorities to reinforce Morris Island, or else abandon Charleston to flames. Gen. Pemberton has issued an order calling upon his troops to assemble within thirty days at Demopolis, Ala. He compliments them upon their valor at Vicksburg.

Francis Scott was executed at New Orleans on the 15th, for the murder of Major Bullen, of the 20th Maine regiment, on the 5th of July. The opening of the New Orleans, Opelousas and Great Western railroad through to Brashear City, is a great event in this department. At a government sale on the 14th, 388 bales of cotton brought prices ranging from 63 to 64c. per pound. The rebels had sent a flag of truce into Brashear City to get permission for Mrs. Gardner, the wife of Gen. Gardner, late of Port Hudson, to go to New Orleans, to be with her husband. Everything was quiet at that place. A man named A. H. Church, had been killed at Brashear City by B. F. Shattuck, agent of the government. A political dispute was the cause. Shattuck had been arrested.

NORTH CAROLINA.

A REBEL CARGO SEIZED BY THE PEOPLE OF WILMINGTON. The Philadelphia correspondent of the Cincinnati Gazette has learned the following from private sources: "On the 8th a vessel ran the blockade at Cape Fear river. She was loaded with subsistence for the rebel army. The colored in command of a part of the rebel forces detained the vessel at what he called the quarantine. The people of Wilmington, N. C., demanded of the colored soldiers to surrender the cargo to them. He indignantly refused. They called upon Governor Vance who finally got on a stall in the market house and addressed them. He said they should be protected. The Governor made a formal demand of Gen. Whiting to deliver the vessel to him at the Wilmington wharf. The General hesitated, the people became infuriated, and finally Gen. Whiting, to appease them, acceded to the demand of the Governor. After this the people demanded the removal of the colored. This was also granted. You can judge from this how the general pulse beats in that well-fortified city."

ARMY OF THE POTOMAC.

From the Army of the Potomac the news is that Gen. Lee is receiving large reinforcements, and is supposed to be preparing for another raid into Maryland, similar to the movement of last August, which preceded the battle of Antietam.

SPECIAL NOTICES.

SURGEON-GENERAL HAMMOND. By ordering Calomel and destructive minerals from the supply table, has conferred a blessing on our sick soldiers. Let not our soldiers, let not our country, be the continuance of "bleeding," and the use of BRANDRETH'S PILLS in the place thereof. Then will commence a "new era" in the practice of Medicine, which would then become emphatically THE HEALING ART. I have for thirty years taught that no diseased action could be cured by mercury or tartar emetic. That the human body could only be "made whole" by "vegetable food"—Animal food being, in fact, condensed vegetables. BRANDRETH'S PILLS should be in every Military Hospital. These Pills cure BILIOUS DIARRHEA, CHRONIC DIARRHEA, CHRONIC DYSENTERY, and all fevers and Affections of the Bowels, sooner and more surely than any medicine in the world. BRANDRETH'S PILLS in these cases should be taken night and morning. Read directions and get new style.

GABE OF HORNER K. WATSON. Dr. B. Brandreth, New York: Sir: I was a private in Co. I, 17th Regiment, New York Vols. While at Harrison's Landing and on the Rappahannock, in March, I was severely wounded. I was sick with bilious diarrhoea. The Army Surgeon did not cure me, and I was reduced to skin and bone. Among the Company were quite a number of members who had worked in your Laboratory at Ring Street. They were not sick, because they used Brandreth's Pills. These men prevailed upon me and others to use the Pills, and we were all cured in from two to five days. After this our boys used Brandreth's Pills for the typhus fever, colds, rheumatism, and in no case did they fail to restore health. Out of gratitude for my good health, I send you this letter, which, if necessary, the entire Company would sign. I am, respectfully, yours, GABE OF HORNER K. WATSON.
