DENCCRATIC CLUB MEETINGS .- The Democratic Clubs of the respective wards in this city will meet weekly as follows, viz:

First Ward—On Saturday evenings. Third Ward-On Tuesday Fourth Ward—On Wednesday " Fifth Ward-On Thursday Sixth Ward-On Friday

By order of the City Executive Committee. GEO. F. WHAVER, Sec'y.

His Condition.—The man who was bitten by a rattlesnake in this city several days since has been removed to his home in Perry county. We learn that he has almost entirely recovered from the effects of the bite of the poisonous reptile.

THE WEATHER.-A very marked change in the weather has taken place, and yesterday was as cool and bracing as October. It was almost cold enough to be uncomfortable, and heavier elothing than that worn for several weeks past was in deman.d

Pacenessing.—The work of laying a double track between Middletown and Columbia, on the Pennsylvania railroad, is progressing finely, and it is expected the work will be shortly completed. When it is finished the business of the company will be greatly facilitated.

THE RAILROAD PECULATIONS -- In our notice of peculations by some employees on the Pennsylvania railroad at Mifflin we mentioned that a number of the employees were discharged on account of complicity in the fraud. Mr. F. M. Mickey, late supervisor on the road at that point, informs us that he has no knowledge of any of the dishonest transactions. As we are not aware that he was in any way connected with the affair, we certainly will not do him the injustice of accusing him of dishonesty.

THE CONSCRIPT CAMP -- We were informed yesterday, though not on official authority, but from a source which we deem perfectly reliable, that the conscipt camp located at Carlisle will be removed to this city, and the probability is that all the conscripts from this State will rendezvous here. The trouble and cost of transportation is the alleged cause of this change in the programme. We think it is a very sensible move in making a single rendezvous for these soldiers, as the facilities at and near this city are such as to render it the most desirable point in the State both to receive and send off soldiers to the army.

CAMP CURTIN.-Camp Curtin is at present almost deserted, there being but very few soldiers at this post. Captain Sands, the commandant, for several days past has been engaged as we learn it is the intention to locate the conscripts here, everything will be in readiness in a few days to receive them. The old buildings known as the barracks, are still standing. They were condemned some time since by a government commission and will shortly be removed. Before winter sets in it is expected there will be commodions and comfortable quarters erected in their

TWENTY MILES AN HOUR.—In defiance of the city ordinance regulating the speed of railroad cars running through the different streets of this city, the passenger cars of the Northern Central railway, as a general thing, make twenty miles an hour through Mulberry street. We have an idea that if Mayor Roumfort would station one of h s policemen about noon any day at the corner of Second and Mulberry streets he could bring a suit | held on the 3d of June last, the following amendagainst the conductor, which we think would put a stop to this reckless violation of a law that was framed to protect the lives of our citizens. If our suggestions are heeded we will venture to wager that fast running on all the railroads through the streets of our city will cease.

FATAL RAYLEGAD ACCIDENT.-John Keech, fireman on the Pennsylvania railroad, was so senia railroad at Kittanning Point, as to cause bis death. It seems that the engine upon which he was fireman had been detached from a freight Angust 29th, for the purpose of nominating suitapurpose of taking water, and while Mr. Keech was attending to that duty, a portion of the train broke loose, and, running back, came in collision with the engine, knocking him from the tank up against the boiler, and from thence upon the track, injuring him as above stated, but not leaving a single mark upon his person. He was a young man of good moral character, and possessed the confidence and respect of all who knew him.

How to DETECT COUNTERFEIT NOTES. - Counterfeit notes may in almost every instance be detected by examining the vignette or picture in the mid. dle at the top; see if the sky or back-ground looks clear and transparent or soft and even, and not scratchy. Examine well the faces; see if the expression is distinct and easy, natural and life-like -particularly the eyes; see if the drapery or dress fits well-looks natural and easy. Examine the medallion rating and heads and circular ornaments around the figures, &c. See if they are regular, smeeth and uniform. The work on the genuine looks as if raised on the paper, and is very seldom successfully imitated. Examine the principal line of letters or name of the bank. See if they are al upright, perfectly true and even; or, if sloping, of a makerm slope. Carefully examine the shading or parallel rating on the face or outside of the lettons, &c.; see if it is clear or looks as if colored with a brush. The wine and parallel lines in the genuine are of equal size, smooth and even.

Fraud in Everything.—The contract atmosphere is impregnated with fraud. It really seems as if contractors have contracted the habit of Jack's Book Store, corner of Third and Market swindling until it has become a second nature. Hence they farnish an inferior article when they could supply a good article at the same price-nay more-so great is the pleasure derived from gouging government, that in many instances they will even give the Quartermaster or Commissary the lion's share of the profits.

The soldier has been cheated in his rations, gov-

ernment has been terribly swindled in horses, are invited. gouged in mules, and had its eyes shut up in everything from a Parrot gun to a soldier button, and the spoils have been divided among the contractors and its honest officers. Lately we have noticed the members is requested. a new swindle. According to the Philadelphia Sunday Transcript, tents enough have been fur-

nished in Philadelphia to supply the army, say one to each man, and at something like \$200,000 more than other responsible parties offered to furnish them. The secret of so many being called for lies in the fact that they were an inferior article, soon

became rotten and worthless. The Quartermasters, like Sheridan, doubtless thought that a rip was the accident of a day, while a patch bespoke undisguised poverty, let them rip, and tons of them probably went to the paper makers as old rags, for which somebody else than government got pay. It now appears, by the Washington Chronicle, that some government employee at Washington, being seized or possessed of an economical fit, has fitted up a large warehouse expressly for the purpose of repairing tents, and the Chronicle exult-

ingly boasts that it will save the government many thousand dollars. We should like to see the amount in round figures, after the salaries of all the employees are paid. But will this stop the tent swindles in Philadelphia? Dare the government shut down on this large class of patriots and the votes they can control on the eve of an important election? Not a bit of it. Until the 13th of October has passed these Arabs will continue to

SHOOTING AFFAIR -Yesterday afternoon quite an excitement was created in the lower part of the city, by the circulation of a report that "a nigger had shot a white man." After much inquiry, and considerable circumlocation among the alleys and by-ways of the lower part of the city, we ascertained that three negroes were gunning along Paxton creek, and while shooting birds had accidentally shot a Mr. G. Roper, who was passing at the time. The shot took effect in the face, and in having the grounds thoroughly cleaned up, and | did not inflict a dangerous injury. One of the negroes was arrested and brought before Alderman Kline, but as there was no evidence that he committed the act, the Alderman discharged him. It appears, from the statement of persons residing in the neighborhood in which this shooting affair took place, that worthless darkies are in the habit of daily shooting chickens and ducks, and committing other depredations. This is an evil that should be remedied, and as the locality is within the city limits, we think an occasional visit by a policeman would have a beneficial effect.

CASE O. .. UNCOE K. WATSON. Dr. B Brandreth, New York: SIR: I was a private in Co. P. 17th Regiment, New York Vols. While at Marrison's Landing and on the Rappahannock near Falmouth, I and many of the Company were sick with bilious diarrhes. The Army Sucgeon did not cure us and I was reduced to skin and bone. Among the Company were quite a number of members who had worked in your Laboratory at Sing Sing. They were not sick, because they used Brandreth's Pills. These men prevailed upon me and others to use the Pills, and we were all cured in from two to five days After this our boys wed Brandreth's Pills for the typhus fever, colds, rheumatism, and an no case did 'hey fall to restore health.
