

LOCAL NEWS.

Notice.—In consequence of an exhibition for the benefit of the sick and wounded soldiers in the upper hall, the meeting of the Young Men's Democratic Club will be held in the dining room at Brant's Hall, this evening.

REPORT AT PHILADELPHIA.—All the hospitals east of the Susquehanna river, including those in this city, now make their weekly reports at the office of the Medical Director in Philadelphia, and not to the Medical Director at Chambersburg, as heretofore.

CARRION.—A dead horse lies unburied in a field adjoining the Lebanon Valley railroad, in a very decomposed condition, rendering it exceedingly offensive to passengers and persons traveling over the road, and detrimental to the health of those living in that vicinity. The field was lately occupied by army horses.

COAL GATHERERS.—We often see boys and girls standing about the tracks of the different railroads watching for the coal which drops. We would suggest that by following up the tracks to a short distance out of town they might get as much as desired. There is any quantity of it dragged out from the engines which is not more than one-third burnt.

CARRIERS.—While passing along Front street yesterday we noticed a gross instance of carelessness. A man who was pushing a two wheeled cart along the pavement heedlessly knocked and nearly ran over a small child. If people cannot exercise due care in the use of the sidewalk, they should be obliged to take to the roadway, which is, under all circumstances, the proper place for such vehicles.

NEWSPAPER THIEVES.—Complaints are frequently made to us by subscribers that the carriers have failed to leave the paper at their doors. In many cases we learn from eye witnesses that the papers are stolen before they are secured by the subscribers. The pilferers are generally boys, but older ones are often guilty of the misdemeanor. This offense is very annoying to us, as our carriers are often charged with a negligence of their duty. The carriers use every effort to please our patrons, and from their well known familiarity with all parts of the city, and strict attention to business, they have our entire confidence.

THE NIGHT AIR IN AUYUK.—It is a fallacy to suppose that it is advantageous to the health to sleep with the windows open during the nights of September and October. The air, moist and damp as it always is in different periods of these months, enters the lungs and generates fevers of many kinds, thoroughly undermining the constitution. "Hall's Journal of Health" takes this view of the subject, and we recommend it to the attention of all our readers. No doubt it is prejudicial to sleep in a close and confined room, and inhale for hours together the atmosphere, but there are means of ventilation which answer every reasonable purpose. Always be careful to have the room well aired during the day.

THE WEATHER.—The variation in the weather during the last few days, has been decidedly more than is agreeable. Many persons that had changed their wearing apparel, have in all probability exchanged again for cooler. Such changes should always be carefully made, and in particular, by those delicately constituted. This is a season of the year more liable to sickness than any other. Persons from a want of proper care contract complaints, which if they do not die at the time, linger on them for a great length of time, and often eventually end in their death. The eating of immoderate quantities of fruit and at improper times, tend to bring on sickness. The great appetite for all kinds of fruit felt by children should be carefully guarded against by parents from being carried to excess.

STREET BEGGARS.—These characters continue quite numerous, and as the season advances they continue to move rapidly, until the town shall be entirely subjugated. There are probably many of this class who are objects worthy of charity, but the majority are entirely undeserving of any attention. Despising labor, they resort to begging as the easiest means of obtaining a livelihood, and when this fails them, they do not hesitate to steal and practice all kinds of petty rascalities. At different times, a number of them have been arrested and committed for pilfering, and charges of a like character, this clearly proves that there are many undeserving ones among them. We do not mean to say that charity should be withheld in all cases; but that persons should not give away, without first being satisfied of the propriety of doing so.

HUMBUG.—For a week past the boxes and drawers in our post office have been afflicted with circulars from J. T. Lloyd, a New York map publisher, setting forth the value of his relief maps, and the various directories, etc. We would simply say that J. T. Lloyd is an ardent humbug. We advertised for him some time since and he refused to pay for the same, according to agreement. Look out for him.—Consent Reporter.

We cordially endorse every word of the above. If Lloyd's maps and directories are not more reliable than he is himself, they are not worth the paper they are printed upon. He is a great con-artist, and those who send money to him will hardly be likely to hear of it again.—Erie Observer.

We also endorse every word of the above statements. We presented our bill for advertising to J. T. Lloyd in person, and he refused to pay on the ground that we had attacked him. This was a falsehood, and he knew it at the time; he only made use of it as an excuse to escape an honest debt. The above statements show that he has been carrying on this cheap way of advertising, as he thinks it, rather extensively. In regard to his maps, we are compelled to condemn them as most miserable failures. We had several of them, but were compelled to lay them aside as utterly unreliable.

POLICE AFFAIRS.—Before Alderman Kline.—Several commitments for petty offences transpired yesterday. The following cases of drunkenness and disorderly conduct were before the magistrate: Mary Bailey, arrested by officer Fry. Discharged. Catharine Little, arrested by officers Piesig and Cline. Discharged. Catharine was kicked up at Camp Curtin, where she was found in a very dilapidated condition. George Myers, arrested by officer Cline. Discharged.

John Booney, colored, arrested by officer Stook. This negro, who broke his promise on Monday, by not going home, was yesterday brought up for the same old offence—getting drunk. This time, fortunately, his employer secured him and compelled him to go home. THE YOUNG MEN'S CENTRAL DEMOCRATIC CLUB will meet this evening, at 7 o'clock, in Brant's Dining Hall.

YOUNG MEN'S CENTRAL DEMOCRATIC CLUB.

CENTRAL DEMOCRATIC CLUB.

The undersigned, feeling the importance of a cordial and united effort to sustain and secure the election of State and County nominations of the National, Conservative Democratic party in October, in pursuance of a resolution heretofore adopted, invite the co-operation of all who are friendly to the cause of the Democracy, the Union and the maintenance of the Constitution, in organizing a Young Men's Central Democratic Club; and for this purpose, request their attendance at Brant's Hotel on Wednesday evening, Sept. 9, at seven o'clock.

The foes of Civil Liberty, breakers of the Constitution—enemies of the Union as it was, are moving every appliance of unrighteous power to seduce the virtue of the people, trample on their most sacred rights, and confirm the projected despotism of Force over the Freedom and Equality which has been bought for us by the precious blood of our Fathers as a heritage to their posterity forever. Vigilance, energy, and a determination to stand by at all hazards, these, the birthrights of every American Citizen in this hour of their peril, will insure their preservation; an indifference to the unspeakable blessings they bestow, may end, too late to be regained, in their destruction. Their keeping has been sacredly entrusted to the People—unaided and unawed this duty devolves alone upon them.

To the end that we may be ready to meet the great issues before us, the undersigned earnestly invoke their fellow-citizens—and especially the young Democracy of this district—to assemble at the time and place above stated, and lend their aid and sanction to the task of securing upon a general plan an effective local organization of the party for a free, full vote at the coming election and to carry out, so far as possible, the great purposes of National Conservatism and Constitutional Liberty and Law.

SURGEON-GENERAL HAMMOND. By order of Colonel and destructive minerals from the supply tables, has conferred a blessing on our sick soldiers. Let him not stop here. Let him order the discontinuance of "Bleeding," and the use of BRANDRETH'S PILLS in the place thereof. Then will commence a new era in the practice of Medicine, which would then become sensationally THE HEALING ART.

I have for thirty years taught that no diseased action could be cured by mercury or tartar emetic. That the human body could only be "made whole" by "vegetable food"—Animal food being, in fact, condensed vegetables. BRANDRETH'S PILLS should be in every Military Hospital. These Pills cure BILIOUS DIARRHEA, CHRONIC DIARRHEA, CHRONIC DYSENTERY, and all fevers and Affections of the Bowels, sooner and more surely than any medicine in the world. BRANDRETH'S PILLS in these cases should be taken six or seven times a day, according to the directions, and get new style.

CASE OF JONAS K. WATSON. Dr. B. Brandreth, New York: Sir: I was a private in Co. F, 17th Regiment, New York Vols. While at Harrison's Landing and on the Rappahannock near Pamunkey, I and many of the Company were sick with bilious diarrhoea. The Army Surgeon did not cure us, and I was reduced to skin and bone. Among the Company were quite a number of members who had worked in your Laboratory at Slag Slag. They were not sick, because they used Brandreth's Pills. These men prevailed upon me and others to use the Pills, and we were all cured in from two to five days. After this our boys used Brandreth's Pills for the typhus fever, colds, rheumatism, and in no case did they fail to restore health. Out of gratitude to you for my good health, I send you this letter, which, if necessary, the entire Company would sign. I am, respectfully, yours, JONAS K. WATSON, Slag Slag, N. Y. Principal office, 284 Canal street, New York. Dr. B. Brandreth, New York. GEO. H. BELL, md&w

DURYEAS' MAIZENA.

Was the only "Preparation for food from Indian Corn."

That received a medal and honorable mention from the Royal Commission, the competition of all prominent manufacturers of "Corn Starch" and "Prepared Corn Flour" of this and other countries notwithstanding.

MAIZENA. The food and luxury of the age, without a single fault. One trial will convince the most skeptical. Makes a rich and palatable sauce, without fat, without oil, without sugar, with few or no eggs, at a cost astonishingly the most economical. A slight addition to ordinary wheat flour greatly improves Bread and Cake. It is also excellent for thickening sweet sauces, gravies for fish and meat, soup, &c. For Ice Cream nothing can compare with it. It is also used in the manufacture of Macaroni, Pasta, and other delicacies. Put up in one pound packages, under the trade-mark MAIZENA, with directions for use. It is also a most delicious article of food for children and invalids of all ages. For sale by Grocers and Druggists everywhere. Wholesale Depot, 166 Fulton street. WILLIAM DURYEAS, General Agent. Aug 15-6dm
