GERMAN REFORMED SYNOD .- The synod of the German reformed Church convenes at Carlisle tomorrow evening.

PRESENTERIANS .- The returns of this denomination show that there are, in the loyal States, 22 synods, embracing 106 presbyteries, 1,615 ministers, 162 licentiates, 191 candidates, 1454 churches. Added on examination, 4,744; on certificate, 4,079; communicants, 185,894.

DIVIDEND DECLARED.—The Pennsylvania railroad company announces a semi-annual dividend of five per cent., free of government tax, payable on and after the 15th day of November. The transfer books, now closed, open on the 1st of November.

A PARADISE FOR SPORTSMEN.-A St. Paul (Minn.) paper says prairie chickens are so numerous in that vicinity that the people have no longer to go out and hunt them. During the past week, it says, quite a number have been caught alive in different parts of the city. On Wednesday afternoon a fat pullet flew into the bar room of John Rogers, on Robert street, and was captured by

On a Tour.-Prof. Lee, who has given three exhibitions of the amusing effects of "laughing gas" in this place, with good success, starts up the valley for Carlisle, Chambersburg, &c., on Wednesday next. Returning, he will proceed to Williamsport and other points in the up-river country. He will be accompanied by Prof. Haller, the magician and prestidigitateur. They will doubtless meet with angcass.

IMPORTANT OFFICIAL DECISION .- Col. W. Hoffman, Commissary General of Prisoners, U.S. A., has decided, in a case recently submitted by Messrs. Joseph E. Devitt & Co., of Philadelphia, that the allowance for the commutation of rations while a prisoner is entirely a personal one, and cannot be claimed by heirs or relatives. This decision is one which affects the interests of many families of | for the man who would venture, in times like these, prisoners who may have died in Libby or the other prisons of rebeldom.

Fairview, opposite this place, was killed by the accidental discharge of a gun on Saturday last. The deceased and his brother were gunning in the woods near the village, and at the time of the accident was standing in front of the muzzle of the gun, the lock of which his brother was repairing. By an unfortunate accident it was discharged, killing the lad almost instantly.

TRANQUIL -- Our city is very tranquil of late, and the best of order reigns at the present writing Not a single case was before Alderman Kline yesterday, and no arrests were made during the day. No fights, no accidents, no collisions, no raids marred the quiet that reigned throughout our municipal borders—we had a sort of a calm little Indian summer, morady speaking. Consequently, news of local interest, like men among the Mormons, "is skeerce." and the itemizer's occupation is gone on that occasion. for the time being.

SHORT DRESSES .- All the girls with pretty feet and ankles are in favor of the new fashion of short dresses. All those neat enough to have a partiality for clean stockings may be set down in the same category. Now that fashion no longer dcmands untidy sacrifice, nothing but the possession of unduly developed ankles, or of stockings unwashed and unpresentable, could induce a lady to sweep the streets with long dresses until her skirts became as filthy as the cart of a street scaven

IMPORTANT ALTERATION IN THE SCHOOL LAW.-The attention of our readers is directed to the fact that, by the act of April 14th, 1863, the sum appropriated for the support of common schools for the school year ending on the first Monday of June, 1864, is to be divided among the several districts, in proportion to the number of children attending school therein, and not, as formerly, according to the number of resident taxables. This is an important alteration, and will materially change the amounts received by the different districts. Now, as we understand the subject, the greater the number of scholars and the more regular their attendance upon the public schools, the greater will be the amount of money received from the State treasury,

As this is a matter of interest to every citizen in the Commonwealth, we hope that editors throughout the State will call attention to it in their editorial columns.

FICKLE.—The weather at present is manifesting a remarkably fickle disposition. The warm, golden sunshine and balmy air of Sunday, with its evening of warmth and loveliness, giving promise of bright fall weather on the morrow, was changed to blackness during the watches of the night, and was superceded by thick clouds and one of the most forious rains that has fallen for months. The air yesterday was cold, and the sky which had smiled so genially the day before, was dark and lowering. It can hardly be that the few days of fine weather, with which we have been favored during the past week, are to constitute our Indian summer this year. Some weather prophets have so stated, but we cannot believe them. That summer belongs properly to November. It ought to belong to that month, for its yellow sunlight, smoky, romantic atmosphere, and almost preternatural warmth, combine to produce a charming season in which to rest from the trials consequent upon equinoctial rains and fall mud, and prepare us for the dreary months of winter which follow so close upon its heels. Let us hope that the beauties of the dreamy Indian summer are yet to gladden our hearts.

ARTEMUS WARD ON GHOSTS .- The renowned showman is delivering a lecture on Ghosts in the eastern cities, preparatory to his departure for California. His advertisement in the New York papers is unique. He is "permitted to refer" to a number of persons, among whom are James Buchanan, Wendell Philips, Mr. Czar, of Russia, the Bedouin Arabs, Young Albert Wales and wife, &c. The following certificate also appears, the point

to which can be seen without explanation: ARTEMUS WARD .- Dear Sir :- I have never heard any of your lectures, but from what I can learn I should say that for people who like the kind of lectures you deliver, they are just the kind O. ABE.

Here is another, which must not be confounded with the prevailing style of patent medicine certi-

ficates. It's genuine: RESPECTED SIR :- My wife was afflicted with the pipsywipsy in her head for nearly eight years. The doctors all gave her up. But in a fortunate moment she went to one of your lectures, and commenced recovering very rapidly. She is now in perfect health. We like your lectures very much. Please send me a box of them. They are purely vegetable. Send me another five dollar bill and I'll write you another certificate twice as long as this. Yours, &c., AMOS PILKINS, this. Yours, &c., and 1,000 others.

The delivery of this lecture has been dividing public attention in New York with the Russian naval officers and Edwin Forrest. Artemus spoke his piece at Niblo's Garden before all the audience that the hall could contain, after twice as many people had been turned away from the doors without receiving a morsel of the humorous banquet. As Artemus would admit none but deaf phonographere, there is no telling exactly what he had to say on the occasion. He spoke, however, of men and things, which is an original topic in some countries, but has been treated of slightly on former occasions in the latitude of Gotham. The "World" sketches his lecture as follows:

He was to have struggled with ghosts the other evening, but began talking about something else, and gave a lecture on that and other interesting matters. He has no objection to Mr. Lincoln parting his hair in the middle if Mrs. L. and Loyal League have not, nor does he expect Secretary Chase to resume specie payment se long as the memorable "Four-Cent-Man" has any paper to sell. He thinks that Forrest makes the most of Shakspeare's old English hieroglyphics, and that T. Tilton ought not to be exposed to another draft. That the hug of a bear, whether Russian or polar, is not always the most ardent proof of disinterested affection, and that the Southern Confederacy, after getting arms from England, will beg alms at area doors throughout several bounteous counties. He considers German a capital specific for a man who has a sore throat, and supposes that the coroners suffer by the suspension of the habeas corpus to an alarming extent. Gold has gone up in a balloon and the nation is dangling under it. Byand-by the balloon will collapse and the nation will derive a swelled head and a month in the hospital. The army is all right but the enemy is a little queer—he doesn't always act on the square.
Artemus will soon visit Brooklyn and California. He has already acquired a distaste for postal currency and speaks glowingly of paying stage fare

We wish the renowned "moral showman" could find it convenient to visit our city before he turns his rather homely face toward El Dorado. He would be received in a manner wonderfully "flattering to behold."

A Well-Dressed "Spy."-The Columbia Spy comes to us this week in a very neat and tidy dress, looking as "pooty as a picter" and as "proud as a licker merchant" in its "new clodings." The Spy is a good paper, faithful to the local interests of the community in which it is published. and its editor deserves a liberal patronage at their hands for his daring enterprise. We say daring, to dress his paper in a new suit of primer and minion, from top to toe, displays a daring faith in the liberality of his friends and the chances of the FATAL ACCIDENT AT FAIRVIEW .- Josiah Lance, | future. We wish our neighbor success. Never-"it is neither cold nor hot," but simply neutral,-Let your trumpet blow with no uncertain sound, one way or the other-for or against somebody, system or thing.

> A PRINTERS' BALL.—The printers of Lancaster have determined to give a ball in that city on Thanksgiving eve, November 25th. We have no doubt that the enterprise, like everything else that printers undertake, will be carried through to a triumphant termination. The idea is a new and brilliant one. A printers' ball! The devotees of the black art, priests and 'prentices to its mystic rites, club together their proverbially exiguous means and assemble in terpsichorean congress !-It ought to be a brilliant affair, winding up in fireworks and a blaze of glory. Happy be the "jour" or "devil" who may shake a leg to the lively fiddle

MISDIRECTED LETTERS .- It is stated at the Post Office Department that the dead letter office is burdened by communications of army and navy officers throughout the country, who write to their several bureaus at Washington without endersing on the outside of the envelope the words "official business," with their proper signature attached. Officers writing to their departments on business should take notice accordingly.

DENTIFRICE.-Put half a drachm of tincture of myrrh on half an ounce of powered borax : rub them well together, and then dissolve the mixture in a quarter of a pint of boiled water. Wet a brush with this mixture, with which clean the teeth every night before going to rest. No dentist need apply for your custom in after years.

These glasses are now recommended by the first medical men through the country, and all who purchased hem from me on former visits will testify to their great advantage over all other ones in use. They assist and strengthen the weak and impaired vision, and enable the wearer to do the most critical work without the feeling of weakness always caused by common glasses. The Lenses, which are ground from the fiaest crystal, will last from ten to tweve years without change.

These spectacles are manufactured at No. 221, New Street, Philadelphia, and may be exchanged any time if not suited to the eye.
