WORKING GIRLS .- Happy girls -- who cannot love them? With cheeks like the rose, bright eyes and elastic step, how cheerfully they go to work. Our word for it, such girls will make excellent wives. Blessed indeed will men be who secure such prizes. Contrast those who do nothing but sigh all day and live to follow the fashions; who never earn the bread they eat or the shoes they wear; who are languid and lazy from one week's end to another. Who but a simpleton and a popinjay would prefer one of the latter, if he were looking for a companien? Give us the working girls. They are worth their weight in gold. You never see them mineing along, or jumping a dozen feet to steer clear of a spider or a fly. They have no affectation, no silly airs about them. When they meet you, they speak without putting on a half-dozen airs, or trying to show off to better advantage, and you feel as if you were talking to a human being, and not to a painted

If girls knew how sadly they miss it while they endeavor to show off their delicate hands and unsoiled skin, and put on a thousand airs, they would give worlds for the situation of the working ladies, who are above them in intelligence, in honor, in everything, as the heavens are above the earth.

An Incident and an Epigram. - The Saratoga correspondent of the Boston Post, in a gossiping letter about "What they do at the Springs," gives publicity to the following jeu d'esprit :

"It chanced, the other evening, at one of the | an unsound tooth. great hotels, that a gentleman, seeking in vain for a candle with which to light himself to his room at a late hour, passed a young lady who had two candles, of which she politely offered him one. He took it and thanked her; and the next morning acknowledged the courtesy in the following epigram. Luckily for the poet (for his epigram would have been pointless), the young lady was as handsome as she was

polite:
You gave me a candle: I give you my thanks,
And add—as a compliment justly your due—
There isn't a girl in these feminine ranks.
Who could—if she tried—hold a candle to you!

PACIFIC MINING.—A San Francisco paper of September 11th says :- "The receipts of treasure from the mining districts since the first instant, amount to \$1,500,000—about \$100,000 in soin. Nearly one-third of this amount came from the North Coast mines in Oregon, Washington Territory, Idahoe and Cariboo. The latter are turning out large sums; about \$200,-000 from thence was deposited in the Branch Mint in this city, a few days since, by three miners, and had been taken out of their claims in a surprisingly short period-108 pounds in a single day. The deposits at the Mint during the period under review have been about \$750,000-more than three-quarters of the amount within three days after the arrival of the North Coast steamer. A very large portion of the receipts from that direction come in the hands of passengers."

POPULATION OF THE EARTH. -- A Professor of the University of Berlin has recently published the result of his researches as to the population of the earth, according to which Europe contains 272 millions; Asia, 720 millions; Africa, 80 millions; America 200 millions; and Polynesia. 2 millions; making a grand total of 1,283 millions of inhabitants. As in places where deaths are accurately registered the annual mortality is at least 1 in 40, the number of deaths must be about 82 millions every year. which gives 87,761 per day, 3,653 per hour, and 61 per minute, so that every second witnesses the extinction of one human life. Another calculator states that the number of persons who have lived on the earth since the preation is 36,627,843,275,075,855:

Sincing is a great institution. It oils the wheels of care—supplies the place of sunshine. A man who sings has a good heart under his shirt front. Such a man not only works more willingly, but he works more constantly. A singing cobbler will earn twice as much money as a cobbler who gives way to low spirits and indigestion. Avarioious men never sing. The man who attacks singing throws a stone at the head of hilarity, and would, if he could, rob June of its roses, or August of its meadow

New discoveries are constantly being made in the exhumed city of Pompeii. A house has been lately found where the dining room is paved with messic. The completely served table is covered with petrified remnants of dishes: and around it are found three divans, with gold with messic address address with gold with messic when the condition water, then add two gallons warm, when cool you will have three gallons Handsome White soft soap. The soap thus made is an excellent wash for trees, shrubs and plants of all kinds. For sale by myss.

WM. DOCK, jr., & CO. New discoveries are constantly being made or table-beds, of bronze, adorned with gold and silver, upon which reposed several skeletons. A great many precious jewels were found near them. On the table stood, among other ornaments, a very beautiful worked statue of Bacchus in silver, with eyes of ena-mel, a collar of jewels, and precious armlets.

BATTLE FIELD NOMENCLATURE.—Chattanooga is the Cherokee for hawk's nest or eagle's nest. The town was originally the headquarters of John Ross, the Cherokee chief. It received its name from its location, being surrounded on all sides by mountains, the poetic vision of the red man seeing in it an an exact resemblance to a hawk's nest. Rossville, to which our army fell back after the second day's fight, was named in honor of John Ross.

ors: but it is not always short: "What do you think of Mr. So and so?" was saked of an eminent man. The answer was a striking example of simple justice: "I havn't time to tell you. The character is too large to be disposed of in a minute. An epigram is long enough for a sarcasm, but it is much too short for a candid opinion. It would take an hour to discuss the faults of the man you mention, and another hour to do justice to his excellencies."

OIL REFINERIES IN CLEVELAND .- There are sixteen petroleum refineries in the vicinity of Cleveland, in which 103,691 gallons of the refined oil were produced during the month of August last, of which 23,709 gallons were for exportation. This does not include the heavy lubricating oil and the benzoin also obtained from the crude petroleum. There are thirtynine refining stills in operation in these refineries; the petroleum is obtained from the wells in Pennsylvania, and costs from \$6 to \$7 per barrel.

A DILEMMA.—The situation of things along the Missouri and Kansas State line is graphically pictured in two short sentences from the Leavenworth Bulletin:

"The general order requiring all to leave the border counties has been carried out. All persons found without proper papers are shot at sight."

And Jennison says he will hang every man with papers. A hard alternative, the rope or the bullet.

A New Hampshire paper says those who went to Lebanon one day last week, for examination, were shocked to see a white man there, followed by his young son, whom he was endeavoring to sell at the highest price as a substitute. The man, at last, after much bantering, sold his boy for \$450, and pocketed the greenbacks with the coolest satisfaction, while the boy dejectedly passed into the Provo's office to report for service.

A correspondent of a London paper writes: "I have just returned from Germany after a month's knocking about. I had glorious weather, and saw all the little kings at Frankfort. There is a good anecdote of one of them. He wanted his army instructed in the use of the Armstrong gun, so he got one, but was obliged to ask leave of the next king to have the target put up in his kingdom, his own not being big enough for the Armstaong range!'

A NARROW ESCAPE.—A woman, supposed to be dead, was removed to the hospital of Blidah, in Algeria, for the purpose of being subjected to a post mortem examination, her disease having appeared inexplicable to the medical men who had attended her. As the surgeon was about to make use of the scalpel and commence her dissection, the supposed corpse ut tered a loud shrick and sat up. She had been in a state of lethergy, and awoke just in time.

A firm of biscuit manufacturers in Carlisle, England, by way of showing what could be done by rapid work, recently had a field of wheat reaped, the grain thrashed and ground, and the flour made into biscults, which were served hot on the breakfast table at 8 o'clock, in exactly four hours from the time the sickle was first put into the standing grain.

Administration of Quining.-The bitter taste of quinine is easily concealed by putting the nowder to be exhibited on a portion of the white of an egg, and covering it with another portion. In this manner children, or the most 'spleeny" adults will swallow it readily .- Chicago Medical Journal.

A writer from Long Island, S. C., says "Mosquitoes swarm by millions day and night; redheaded lizards, big spiders, and various nondescript reptiles crawl over us; yesterday a large mocassin snake tried to find quarters in my

rally throughout the country. JOHNS & CROSLEY.

78 WILLIAM STREET. (Corner of Liberty Street,)

LYON'S PURE OHIO CATAWBA BRANDY.

THE OHIO CATAWBA BRANDY has, for several years, been manufactured from the pure juice of the AMERICAN CATAWBA and ISABELLA GHAPE, and has attained a rare popularity throughout the West and South, where great quantities of this superbarticle is sold for MEDICINAL and FAMILY purposes. It not only equals, but excels the most choice IMPORTED BRANDIES in PURITY, QUALITY and RICHNESS OF FLAVOR, and wherever it has been introduced it had invariably met the most unqualified favor and extended sale.

sale.

The want of really pure Brandy has long been felt in this country, and the opportunity to procure an article of such quality as to supercede the sale and use of the many vile compounds so often sold under the name of "Brandy," can be regarded only as a public good.

L. LYON'S CATAWBA BRANDY possesses all the choice qualities of the best imported liquor, and is positively known to be of PERFECT PURITY and of SU-PERFOR FLAVOR.

In support of the above statement, we refer to the certificate of the undermentioned well-known chemists:
Dr. A. A. Hayes, Assayer, Boston, Mass.
Dr. James R. Chilton & Co., Chemists, New York.
Dr. James B. Nichols, Analytical Chemist, Boston, Mass.

Dr. James E. Nichols, analytical Chemist.

Mass.
Dr. J. V. F. Blaney & Dr. G. A. Marriner, Analytical and Consulting Chemists, Chicago, Illinois.
Dr. Cox. Chemist, Cincinnati, Ohio.
Dr. Charles Upham Sheppard, Charleston, S. C.
Messrs. Gentry and Blackwood, Chemists, Tenn.
Dr. N. A. Pratt, Savanush, Georgia.
All of whom have analyzed the Brandy and recommend it as a perfectly pure article and as an invaluable medicinal agent.
