CHOICE APPLES AND POTATOES, -A boat load of choice apples and potatoes now lies at the wharf of Boas and Foster, which will be retailed at wholesale prices. A rare opportunity is afforded housekeepers to lay in their winter supply.

DIED IN THE CARS .- A soldier, belonging to the forces stationed at Scranton, died on the train which arrived here from that place last evening. His remains were placed in a coffin at the depot and forwarded to his home at Lancaster. We did not ascertain his name or that of his regiment.

PASSED THROUGH .- Lieut. J. B. Rife, late in command of Newport Barracks, Ky., and formerly belonging to Middletown, this county, passed through this city yesterday, having been ordered to Fort Hamilton, New York harbor.

MAN KILLED .--- Passengers by the one o'clock train yesterday on the Pennsylvania road, report that a man was killed on the track by that train near Lancaster. He had been whitewashing a bridge, and in attempting to cross the track was caught by the engine and instantly killed.

CONTRACT FOR REMOVING THE DEAD .- The contract for disinterring the bodies on the Gettysburg battle field and at the surrounding hospitals, and again interring them in the Soldiers' National Cemetery, has been awarded to John Hoke and Franklin Biesecker, at \$1.59 per body. The work is to be commenced immediately, the cemetery grounds having been appropriately laid out for the purpose.

FATAL COLLISION .- A man named Adam Brown was killed near Pine Grove on Tuesday, by the train of the Schuylkill and Susquehanna railroad which leaves this place at $1\frac{1}{2}$ o'clock p. m. He was driving a team across the track, when the locomotive struck the wagon, smashing it to pieces, killing one of the horses, and throwing the driver in such a manner that his neck was broken by the fall.

A GOOD WORK .- The U. S. Sanitary Commission Sunday last were 600 woolen shirts, 600 pairs at least two-thirds of the receipts of the read arise drawers, 600 pairs socks, 1,000 handkerchiefs, and | from the carrying of that staple. The total net two cases of reading matter. These timely donaprisoners of war in and around Richmond, who now number over 12,000.

COAL MINING MACHINE .- It is singular that, with all the inventions and improvements made in other branches of labor, no advancement has heretofore been made in the manner of mining coal. It is still taken' from the mine by hand labor, in the old fashioned way. We are pleased to notice, however, that a machine for mining coal has re_ cently been introduced into some of the cellieries of England, with marked success; and it is to be hoped that the invention will speedily be tested in this country. It would not only cheapen the price of coal, by cheapening the cost of its production, but would also protect the trade from the frequent checks and annovances which it now suffers from

"strikes" and disaffections among the miners. The new machine is worked by compressed air, and is thus described :

The steam-engine works an eighteen inch air-pump at a pressure of about fifty pounds to the square inch. The air is conducted down the shaft in four-inch iron pipes, and thence about eight hundred yards to the workings in gas-piping, and connected by one-inch India rubber piping to the machine, which travels on rails. It is propelled a little by a hand-wheel after every blow given by its pick, and generally it passes three times over the face of the coal scam, on each occasion armed with a longer pick; the first cut being about eighteen to twenty inches, the second nine to eleven inches, and the third six to eight inches-the depth aimed at being about a yard. The actual quantity of work done with the machine, in six consecutive days of eight hours each, by one man and two boys, was six hundred and eighteen and a half yards, or about eight hundred tons of coal. A man will average zeven and a half yards per day, so that if the machine were worked by shifts of eight hours, three men and six boys would do the work of forty men. The machine also effects a saving of good coal from destruction equal to an average of ninepence per ton.

District Attorney Carnaban appeared for the prosecution and L. W. Taylor and S. R. Mason, Esqs., for the defence. The jury returned a verdict of "not guilty." In the case of her husband, John Forrest, charged with opening letters, a verdict of "guilty" was rendered. He was sentenced to a term of years in the penitentiary.

PLANT TREES .- The autumn, just before the frosts of winter set in and while the ground is easily broken and worked, is the best of all the sea-sons of the year for transplanting trees. Either fruit or shade trees should be taken from the earth at once and placed in the localities where they are intended to remain. Persons having unoccupied lands, yards, &c., should plant them with trees. The result will amply repay the cost of labor and yield a thousand per cent. in profit, comfort and beauty.

pleased to announce that this popular amateur combination will give us another taste of the drama at Brant's Hall, on Saturday evening. Two capital plays are in rehearsal for the occasion, and, at the urgent request of many persons, the spirited play of "The Toodles" will be reproduced. A committee of our most responsible citizens, whose names will be announced on Saturday, have been appointed to take charge of and distribute the charitable fund arising from the proceeds of these performances. We predict a full house for the amateurs on Saturday night.

HELD TO BAIL .- Mrs. Layman, the woman mentioned in our paper yesterday morning as having been arrested for infanticide, was brought before Alderman Maglauchlin yesterday by officer Massey, where she was bound over in \$500 to answer the charge at the next term of Court. The case is involved in considerable mystery. The child is alleged to have been still-born, but the fact that it was concealed beneath the bed for more than a week gives some reason for doubt on that point. At all events, there are rumors of foul play, which implicate others beside the principal actor in the tragedy. A full investigation will doubtless clear the matter up.

OBSTRUCTING AN OFFICER .- William Hastings, John Hastings, Edw. Ambler, Joseph Shank and Clarkson Jeffries were sent from Lancaster to Philadelphia on Tuesday morning, for a hearing before the U.S. Commissioner, on the charge of obstructing a United States officer in the discharge of his duty. The parties reside in Drumore township, Lancaster county. The offence alleged is, that on election day a conscript, who had failed to report as required, was arrested at the polls of the township by order of the provost marshal, and that the parties named interfered with the guard. Their arrest was accordingly ordered by U. S. District Attorney Coffee.

POLICE AFFAIRS .- Before Alderman Kline .-Clara Baltimore, a rather good looking quadroon. who said the had her headquarters in State street, was found drunk by officer Kane on Tuesday even. ing and put in the lock-up until morning. She declared before the Alderman that she had been drugged, as she had no recollection of having taken liquor more than once. Discharged.

William Evans, who had just been released from the lock-up the day before, was brought up again yesterday on a charge of drunkenness. As this made the seventh time he had been before the magistrate during the past season, he was committed to prison for thirty days.

Charles Miller, a vagrant without money cr friends, was, at his own request, lodged in the lock-up on Tuesday night, whence he was discharged yesterday morning.

Henry Lanbach, drunk, arrested on Tuesday night by officer Essig, was released from custody in the morning.

> HEALTH OF MIDDLETOWS .- Persons residing in Middletown state that there has never been more sickness known in that place than at present. Our latest advices from that borough represent about every other family as afflicted with a case of sickness in some form, most of which are of a febrile character. The funerals have averaged one a day for the past two weeks. We can imagine no reason for such unusual sickness and mortality, inasmuch as this city, situated in a location similar to that of Middletown, enjoys a general state of health quite as good as usual.

CUMBERLAND COUNTY .- The Cumberland county Teachers' Institute will convene in Mechanicsburg on Wednesday, Dec. 2d.

The next term of Court will commence on the second Monday of November.

On Thursday morning, at a point new Newville, on a Cumberland Valley railroad, the axle of a car of a freight train broke, throwing a number of cars off the track, and smashing several of them. No person injured.

ENIGRANTS .- The number of emigrants landed at New York last week was 3,101, making 126,537 since January 1st, against 64,830 during the same time last year. Thus it will be seen that foreign immigration has increased 61,707, or nearly two fold, during the past year, in spite of our civil troubles.

TOTAL NUMBER OF TROOPS --- The total number of troops raised in the loyal States by volunteering, from the commencement of the war to the first of January last, amounts to 1,276,246. It probably now amounts to over 1,500,000.

THE GREAT SECRET .-- It is admitted by all physicians that the grand secret of health and long life lies in keeping the blood and various fluids of the body in a high degree of fluidity. When you feel continued pain in the head or bowels, or any contipued uneasiness in any organ or other parts of the body, you can prevent serious sickness by taking

BRANDRETH'S PILLS. Bleeding may give momentary ease, because the blood left will have more room. But as the body is made from the blood and sustained by the blood, to waste our blood is to waste our life and ruin our constitution. But Brandreth's Pills relieve the circulation as readily as bleeding by only taking away what it can well spare,

and THEY NEVER HURT. Mrs. Hooper, of Barnatable, Mass., was cured of St Vitus Dance, General Debility, poorness of blood and costiveness of many years standing, by Brandreth's Pills. The case at length is published in the Pam-

phiets. For sale in Harrisburg by GEO. H. BELL. 07-d&wtf

BELL'S SPECIFIC PILLS are warranted in all cases and can be relied on. No change of diet required. They do not nauseate, nor interfere with business pursuits. Upwards of 200 cases have been cured the past month. More than one hundred physicians use them in their private practice, and all speak well of their efficacy. They are entirely harmless on the system, and can be relied on in all cases arising from youthful indiscretion or self abuse, which often incapacitates the sufferer from fulfilling the duties of married life.

A TREATISE of 64 pages, containing means of cure, sent free to all. Two stamps required for postage. The Pills will be sent by mail, securely scaled, or receipt of One Bollar, by J. BRYAN, M. D., No. 76 Cedar street, New York.
