

The Lehigh Register.

Allentown, Pa.

THURSDAY, JANUARY 18, 1849.

We are again under sincere obligations to our friends Boas of the Senate, and Laubach of the House, for valuable legislative favors.

New Mail Routes.

We notice that proposals will be received by the Postmaster General, for carrying the mails from the 1st of July, 1849, to the 30th of June. 1852-between now and the 4th of April next -to be decided upon the 24th of April by the Department. We find the following routes in Lehigh county in the list advertised.

No. 1708. - From Perkimen Bridge, via Schwenk's Store, Frederick, Colebrookdale and Emans to Allentown, 43 miles, twice a week. Proposals to commence this route at Norristown-three times a week-will also be received. No. 1713.-From Trexlertown by Middle-

town to Hereford, 10 miles, and back again the same day, Saturday. No. 1720 .- From Summytown by Spinners-

town to Emans, 18 miles, and back again the same day, Monday. No. 1724.-From Allentown by Schnecks-

ville to Kern's Mills, 10 miles, and back again the same day. Saturday.

The Governor's Message.

We published to-day the admirable Message of Gov. Johnston, delivered to both houses on the 6th instant. Although of great length, it ought to be read by all, as it contains information to the citizens of Pennsylvania, that could hardly have been compressed in a smaller compass. He passes a well-merited tribute to the life, character and public pervices of the late Governor Shunk

Upon the Tariff, he takes strong grounds in favor of the protective policy, and fortifies his position by citing extracts from the messages Thompson, publisher of Thompson's Bank Note of Washington, Jefferson, Mudison, Monroe, and former Governors of the Keystone State.

The revenue of the current year is estimated at | people) denounced the Institution as a fraud \$3.857,900, and the expenses at \$3.716,600.

a very correct view. He is opposed to an un-criminal offence, and might probably be connecessary increase of banking, and recommends signed to the State Prison. For this alleged the refusal of a re-charter to any bank not so libel the plaintiff has obtained a verdict for ten Jocated as to be useful to the commercial com- ! thousand dollars. munity, and urges that in no instanc should a charter be renewed without a thorough examination of the affairs of the institution by a committee of the Legislature.

The Governor is opposed to the circulation of Notes under the denomination of tive dollars; should they be deemed practicable, however, that our own institutions be authorized to issue

Upon the subject of Slavery, the Governor is opposed to its further extension in newly acquired territory. In this respect the citizens of Pennsylvania are nearly unanimous.

Ohio Legislature.

The difficulties in the Legislature of this State seem to have no end. The 8th instant was the day appointed for the two Houses to meet in joint convention, to open and read the returns for the election of Governor. The Speaker of the Senate being the superior officer, proceeded according to custom to open and announce the returns of the counties respectively. All passed were announced, which gave 610 majority for of the county not having been affixed to the same, gave rise to an annimated debate, between the Democratic and Whig members of the convention. The Democrats protesting against receiving the vote of Loraine, on the ground of informality in transmitting the returns, and contending that Weller, the Democratic candidate was elected by 289 majority. A tumult arose and the convention broke up in a row .-The next morning, however, the convention again assembled, the Speaker of the Senate proceeded to call off the returns of the balance of the counties, and upon footing up the same, pronounced the election of Scabury Ford as Governor of Ohio by the following vote, viz: Ford, 148,191; Weller, 147,320. Ford's maj. 871.

Upon the footing of the returns it appeared clearly that Ford had a majority of 871, and that if the county of Loraine would be excluded, it would not change the result, so Ford was de- Kentucky, and inviting him to visit the capital clared elected. Thus the matter rests for the present.

Suicide.

On Thursday evening, the 11th instant, Mr. Jacob Mohry, a highly respectable citizen of dervett. Saucon township, Lehigh county, made away ! with himself in the following manner: During | Richmond, Va. with a capital of 20,000 to \$25,000, the temporary absence of the inmates of his to to California, house, he took his gun, toaded, and discharged the same, in order, no doubt, to be sure in his efforts to take his life. He again louded his gun-and with a strong string, one end of which he held in his hand, and the other he had attached to the trigger-and placed it in such a position as to level it to the head above the ear and with the use of one of his feet placed against the string, drew the trigger, and discharged the load through his head, instantly killing himself. He was in good circumstances, and leaves a wife and two children, a son and a daughter, both grown up, to mourn his loss. His health had been impaired for some time, and he labored much in consequence of a depressed state of mind.

Division of Texas. - It is the opinion of many that, within a very few years, a new state must be formed from the western part of Texas, out of that portion mostly settled by Germans, in which playery will not be tolerated.

Pacific Railroad-New Project.

A new project for a Railroad to the Pacific has been brought before Congress in the shape of a memorial from Wm. Bayard & Co., of New York, who propose to construct a railroad from States engineers and the grant of a strip of land of twenty-five miles on each side of the road : they covenanting on their part to deposit in the reasury \$5,000,000 in Government security, as guaranty for the work, which they are to complete within eight years. They propose to sell the lands, in small proportions, to actual settlers, at Government prices;-to build the road of heavy iron;-to carry army and navy stores free, and troops and sailors at one-fourth the regular fare, which, they propose, shall not exceed one-half the rates now charged on the Panama mail-steamers.

Senator Cooper.

The election of the Hon. James Cooper, seems to meet with general favor among the Whigs in this State, and among the Democrats he anpears to be the least objectionable of their opponents for the Senatorchip. Mr. Cooper is a man of splendid talents, and an able and experienced legislator, who will on all occasions urge the true interest of the Keystone State in the Senate branch of the National Government.

Mammoth Sleight.

Our enterprising townsman, Major William Fry. who is determined not to be outdone, has, in the extraordinary short space of five and a half days finished a splendid six horse sleigh out of the rough." The Major introduced the same through town. It is a beautiful piece of workmanship, considering the short time the workmen had to do it in. Twenty-one grown persons, besides the driver, can be conveniently be seated. Who can go ahead of the Major?

Heavy Damages.

On Friday last, a verdict was rendered in the Supreme Court of New York against Moses Y. Beach, publisher of the New York Sun, for a libel published in his journal upon Mr. John Reporter. The case was as follows: Thompson, about a year and a half ago, (at the time The public debt of the State is \$40,424,736, the famous Plainfield Bank was fleecing the upon the public, and Beach retaliated by insin-On the subject of banking the Governor takes uating that Thompson had been indicted for a

> Difficult Task. - In the Ohio House of Representatives, on the 6th instant, a committee of 3, consisting of a Whig, Democrat and Free Soiler, was appointed to prepare and report "a suitable record of the first twenty days of the session." We think the annarchy which marked that period defics record.

Fearful Accident .- On the 7th instant, while a sleighing party were descending the Broad mountain, above Pottsville, Schuylkill county, Pa. the sleigh upset, and the horse, which was a full blooded racer, started off down the declivity at break neck speed, until coming in contact with a drove of cattle, he ran with such violence against them, that both horns of a stout bull entered his breast and shoulders. One of the horns dignitaries to those in command in Califorwas broken off in the body, and the horse dfopped dead instantly, in his death struggle knocking another ox insensible upon the ground, where he laid for some minutes as if killed by the violence of the shock. The Gold Fever.

The gold fever, says the Philadelphia Inquirer, seems to have a new impulse. The recent rumors are of a character so astounding, that we cannot be surprised at the re-St. Louis to California, via the valleys of the kindled excitement. Our exchanges teem Rio Grande and the Gila river. The memorial- with letters, speculations, and accounts of ists ask for a survey of the route by United expeditions. If only one half that is told be true, California is indeed the modern El Dorado. We proceed to glean a few of the facts and fancies, but think it right at the same time, to utter a word of caution. The New York Tribune says:

"One house in Broad street, on Wednesday insured \$50,000 in gold dust, now on s way to this city, and it is said that a New York officer, lately arrived, brings the same amount.°

One letter gives the price of pork at \$200 per barrel, and other provisions in proporion. The same statement proceeds:

"The people were in hopes of getting a speedy supply of food from Mexico. Vesels at San Francisco, which had been abandoned or neglected, were once more in request, to proceed along the coast for food. ne latter having become more valuable than old. Whale ships were selling off their utfits at immense profits."

The Commercial publishes the following extract from a letter, dated Oct. 25, which declares, to be from a perfectly reliable

"I cannot get men at even \$15 a day to put up the buildings I want. At this rate hey will not work over six or seven hours. This is not so surprising, when I assure you, that several persons of my acquaintance, who have returned, averaged \$1000 per diem in gold digging. Gold is now so much more bundant than money, that it is only worth ight dollars per ounce, payable in coin."

At Lima, the reports of the wonderful gold findings," had, on the 13th of Novemper, been for a month almost the sole topic converse, and several expeditions were on foot for that quarter. Four vessels had sailed from Chili, two from Guayaquil, one from Buenaventura, two from Paita, and one from Lima, and others would no doubt follow.

We learn from the Boston Post, that the astounding news which the government dare not publish is that a man, name unmown, has found one lump of gold weighng 250 lbs., and valued at \$75.000!!

Letters, says the Boston Traveller, have een received by one of our most respectale houses, stating that "their agent in California had shipped \$260,000 in gold to England, and that there was upwards of two nillions of dollars ready to be shipped N. York as soon as vessels could be found to bring it. This amount is independent of the tock held and consigned to other places."

Another letter from the Gold Region, says "bread is getting to be scarcer than gold," The writer says, that those who land on the coast with money in their pockets, do very well, but advises no one to come unless he can calculate upon a surplus after paying for his passage."

And now a word as to the Expeditions. They are fitting out in all parts of the Union. Philadelphia has already sent out several, and others are in preparation. The chooner "Anthem," Captain Elridge, left New York on Thursday afternoon, for San rancisco, via the Straits of Magellan. Capt. Elridge intends sailing up the Sacramento river as far as Sutter's fort. This company go out under savorable circumstances, tak ng letters of introduction from our official nia.
