

### Arrival of the America.

In the National Assembly, on Monday, the President of the Council of Ministers made a communication relative to the intervention of France in Italy. He stated, in substance, that the *contra toup* of the victories gained by the Austrians over the Piedmontese would be felt throughout the whole of Central Italy; that a crisis appeared to be imminent in the Roman States, and that France would not remain indifferent to such a state of things. He added, that the protection of natives of France, resident in Italy, the necessity of maintaining the legitimate influence which France no longer possessed in Italy, and the desire which the French government felt to contribute towards obtaining for the Roman people a good government, based upon liberal institutions, rendered it a duty of the cabinet to make use of the liberty which the Assembly had granted to it, by its vote of the 20th of March, to occupy temporarily the territory of that peninsula. The Minister said that it was impossible for him to enter upon further details. Out of the intervention of France would arise efficacious guaranty for the interest of their (the French) policy, and for the cause of liberty. On finishing his speech, M. Odillon Barrot read a project of law granting a credit to the government of 1,200,000 francs, to meet the additional expenses required for the support, on a war footing, during three months, of the troops forming the expedition. At the request of the Minister, the Assembly immediately met in its bureau, to appoint a committee to make a report on the urgency of the project of the law in question. The communication of the council was listened to by the Assembly with profound silence.

M. Jules Favre presented the report of the committee, which was unanimous, of the urgency demanded by the government. A debate ensued on the project of law proposed by M. Odillon Barrot.

The first clause of 1,200,000 francs to enable the government to meet the expense of putting the expedition to Civita Vecchia on a war footing, was passed by a vote of 365 to 283, making a majority in favor of the government of 112.

The second clause was passed without a division of the Assembly. On the final division—for the bill, 393; against it, 104—making a majority of 289; but on this occasion the "mountain" having obtained from voting the total number of votes was only 409, which is one less than the number required by the regulations. The vote was consequently null. A second vote was taken on the question on Tuesday, when the measure was carried by a majority of 388 to 131. It appears from the accounts from Paris, that the government have determined to send an army of 14,000 to Rome to assist the Pope, Lenore l'Outinot to command.

The President of the Council says that care will be taken to secure a free and liberal government to the Roman people. Rumors were in circulation in Paris on the 18th ult., of the modification of the ministry. General Lamoriciere is spoken of for the Ministry of War, and Bedau for that of Foreign Affairs.

### Reform in South Carolina

It appears that some individuals in South Carolina, friendly to a Republican Government instead of an Oligarchy, are circulating through the State a series of reform publications, in which "Palmettoism" is weighed in the balance and found wanting. These documents are circulated anonymously, and are looked upon with alarm as the lever of abolitionism by those who consider slavery the bulwark of free institutions.

The South Carolinian publishes one of these dangerous documents as an illustration of their treacherable tendency. It shows that while the State has the form of a Republic the substance is wanting. Tables are given showing that eleven districts containing 77-973 whites, have 28 Senators and 61 Representatives. While eighteen districts with 151,145 whites, have only 17 Senators and 60 Representatives.

Here it is seen that less than one third of the free population have the supreme control of the State. As a remedy for these evils, it is urged that a general assembly be obtained redress, the people should assemble in their primary assemblies, in their respective neighborhoods, parishes and districts and, appoint delegates to a State Convention, in which the interests of free labor shall be provided for, and an equality of representation.
