Walls of the City.—After a severe bom-bardment, the squadrons of the French army succeeded in establishing themselves within the outer walls of Rome, early on the 22d ult. They have since, been occupied with operations for acquiring possession of the inner bastions and defences, but up to the 23d and 24th they had not made much progress. Every inch of ground was stoutly defended by Garibaldi, who still continues to animate

his troops to resistance. LATEST !- City of Rome at the Mercy of the French Troops .- The last intelligence received by the government from the expeditionary camp at Rome, states that General Oudinot had so far succeeded in his operations upon the outworks, that the city was entirely at his mercy, to spare which and the Ministry introduced into the Legislagive the horrors of a frightful carnage, he has submitted fresh terms to the Triumvirate, through M. Corcelles, which it is thought would be accepted by the Romans.

Cessation of Hostilities at Venice .- The bombardment of Venice has been suspended in consequence of proposals of capitulation having been made by the besieged.

REPUBLIC OF HUNGARY.—Progress of the Struggle for Freedom.—The Hungarians were partially defeated by the Austrian troops on the 21st, and were forced to retire beyond the Wang, where, from the nature of the country, they will be better able to repel the advance of the invading forces. It appears from letters in the Austrian and German jonrnals, that engagements have recently taken place between the Hungarians and Austirans at Kavoor Syred, and on points of the Wang. Whilst some ascribe the victory to the Austrians, others give it to the Hungarians.

GERMANY .- The accounts from Central Germany and Prussia are of a much more pacific character than heretofore.

Termination of the Troubles in Schles-toig Holstein.—The London Globe of Friday, on information in which it places full credit, states that the Schleswig affair draws carefully considered the subject, he had been rapidly to a conclusion, and that the final settlement may be expected in a fortnight. Hostilities, however, are still carried on by the belligerents, but without any important

CHINA .- More Trouble Browing .- We fused to carry out the stipulation or the two opened to foreigners. In the communication of Seu, the Governor of Canton, to Mr. Bonham, he says the Emperor had determined that as the people of Canton had refused to receive foreigners into the town, how can he force an opposite course to the people. From the nature of the proclamation, it is quite plain that the authorities were prepared to resist the entrance of the foreigners into the city. But a great sacrifice of human blood has been avoided, by Lord Palmerston having given special directions that nothing more should be done than report the repudiation of the treaty to him.

The large naval force which had assembled in British Cauton to protect interests had all dispersed.

JAVA-Great Battle .- From Vallan the accounts announce a complete victory by the Dutch. The attack commenced on the 13th April, and after 13 hours hard fighting, all the fortifications were taken and the Netherland flag was hoisted within the walls .-The Vallan, it is said, had 5000 killed &c., and the loss of the Dutch was about 250 .-It is assumed that the island will forthwith be annexed to the Dutch possessions.

Austria and Hungary. Vienna papers and letters of the 24th installment that the details of the last battles on the banks of the Wang had not reached Vienna, though it would appear that the result is the frustration of a most obstinate attempt of the Hungary, ans to cross the Wang. On the morning of the 20th inst., they had actually got posses-sic of the right bank of the river, but they were eventually obliged to return to their for-mer position. In the meantime, General Georgey had come up with reinforcements, which it appeared that she brought \$20,000 and the Imperialist leader, Wohlgemuth, with his 15,000 men, was reduced to the necessity of acting entirely on the defensive, until upon the arrival of Russian reinforcements a fierce battle ensued which contin- the last purchase of over \$100,000 .- Saued till night parted the combatants. The four Rusian corps which have entered Hungary by way of Dukla, Komuna, Grab, and Izby, amount to 1:14,000 men.— It was stated at Vienna that part of this force had already advanced at Eperiesh and Kashun, and that it was intended to push them forward upon Debreczin and Grosswardein. It is stated that the misunderstanding by-tween-the Prussian and Austrian governments is daily on the increase.

FRANCE.—The new law against Clubs has already been put in force. It is not a little remarkable that while the disunionists of South Carolina—the clique who worship J. C. At Abington, we believe the Declaration was read.

> STEAMBOAT NAVIGATION .- The Susquehanna, in its most beautiful portion, is about to be navigated by steamboat from Oswego to Wilkesbarre, 410 miles. We ardently hope the experiment may succeed. Many will doubtless visit that delightful valley for the first time, via Erie Railroad, if this attempt prove successful.

Ohio and Pennsylvania Railroad .- The formal ommencement of the railroad to connect the Ohio and Pennsylvania road was celebrated on himself to be over-persuaded by M. Thiers, the 4th of July at Pittsburg with great parade.-More than four thousand persons participated in the ceremonial, which passed off with great unanimity. The first shovel of earth was thrown up by Col. Robinson, of Alleghany. At the same time and place, twenty sections of the road were let out to contractors. There is little doubt that it is one of the most important works ever commenced in the country, and every reason to hope that it will be speedily completed.
