#### From Oregon.

We gather the following facts from a letiter in the Galena (111:) Advertiser, dated Oregon City, May 2d: The products of Oregon average, in val-

ue, \$500 for every adult individual. .. The quantity of sawing timber is immense. The great export, however, is lumber ; the forests are inexhaustible, the water power immense, the market extensive and increasing. It is now worth from \$40, to \$60 per thousand, owing to the gold discoveries in California, and will always be worth \$20 for exportation to the Islands.

They are 3,000,000 of acres of fine timher land unoccupied, some immediately on ship navigation.

The water power is stated to be abundant for manufacturing purposes. Astoria, near the mouth of the river, is destined to be the New-York of Oregon, while Portland, on the Willemettee, is to be the Albany-the ed. head of the ship navigation.
