The political fires which have slumbered long remain pent up no more. Inconsistent with the character of the inhabitants, the nature of their occupations and the immdiate requirements of California as it may appear, our citizens have in mass meeting revived political distinctions, zealously ad vocated extreme if not ullra measures, and plunged into the unhesitating support of party principles, abandoning, in many instan-ces, business pursuits, and wholly forgetful

of the chief desire of their lives. This heated state of public feeling is confined almost exclusively to the district of San Francisco. The mass meeting of the friends of Mr. T. B.
