The whole number of votes polled in the State does not exceed 15000. Of this number, 12,061 are in favor of the Constitution, while 811 are against it. This is owing to the fault that a large number of tickets were printed whereon the question relative to the the part of a large portion of this communiadoption of the Constitution did not appear. Both houses met pursuant to adjournment, most with the opening of spring, that the squatof the members being present. The Senate organised by the election of Hon. E. K. The Governor then delivered the inaugural address.

Gov. Burnetts Message.

The Message of the Governor was deliv ered to both bouses of the Legislature, at 12 o'clock, on the first day of the session, on Athe 21st, and ten thousand copies in English. and two thousand in Spanish, ordered to be printed. Wander

In commenting upon the message, the Pacific News thus remarks :

The views which it presents of the con dition and future policy of the State, will also, we think, commend themselves, both to your own community and the American people in general, as being, in the main, sound

and well-judged. In view of the limits and character of the Federal and State jurisdictions, respectively, under our political system—in view of the present condition of California-and especially of the precedents in the cases of Missouri and Michigan, both of which States put their State Governments in full practi-cal operation before their admission into the Union the Governor does not doubt that it bolh proper and expedient for the State Legislature to proceed at once with the business of State Legislation which is before them. In regard to the great question of raising Jevenue for State purposes, the Governor advises, that resort should at once be had to a general system of direct taxation, both upon persons and upon property, in place of

any attempt to negotiate a loan.

The views of the Governor in relation to the expediency of immediate action, by the Legislature, to prohibit the settlement of free people of color in the State, will also doubtless excite much interest and attention. He thinks that if allowed to immigrate, they will form contracts with their masters, and thus be to all intents and purposes, slaves.

The Governor estimates the current expenses of the State for the first year, at 500, 000 dollars. To meet this large sum, the message reccommends the immediate imposition of a poll tux and a tax upon real and grasp of slavery. personal property, "in proportion to its val-

The election of U. S. Senators took place on the first day of the Legislative session, immediately after the inauguration of the Governor.

Both houses assembled, in pursuance of previous resolutions, at 50'clock, P. M. to proceed in joint ballot to the election of U. S. Senators. A solemn silence reigned for a few minutes throughout the house. When Fremont and Hon. Wm. M. Gwin were first nominated, followed by Capt. H. W. Halleck, Hon. T. B. King, Robert Semple,

The ballotings commenced, which resulted in the election of the Hon. J. C. Fremont, he receiving 20 votes.

Much alarm is felt by the California resi dents of the Mission, particularly the females on account of the reckless behaviour of certain evil-disposed men who have recently arrived there.

The Brag Game of the South.

It has been the uniform custom of the South to brag bully and bluster, whenever they thought their preponderance, either in the Senate or the House of Representatives where in danger from the necessary increase of the States and their perputation. They have never assigned the true reason for this course, but have always sought for some other excuse to hide the reality from the

Now the North and West have 140 members in the House of Representatives, representing an entirely free population, while the South have only 01, 21 of whom stand on slave population, leaving only 70, or one half of the members from the free States, standing on free population. The free States contain upwards of 12,000,000 of free white people, while the slave States only contain 4.000,000, 400,000 of white people.

The true proportion of the Committee for the House of Representatives should, therefore be the same, but then there might be some possible excuse for an equality there.

But no, Mr. Cobb says the 70 or 91 slave members shall have 10, and, the 143 free members only 10 also, who are to be appointed by a Southern Speaker, and in this manner hand over a part or the whole of the free territories of the Union, into the iron

Fire in San Francisco.- An appalling and destructive fire occurred on the 24th of December, which threatened for a time to reduce the famous city of San Francisco to a heap of smoking ruins, and caused the de-struction of a million and a half of dollars worth of property.

The Alla California says :- The fire originated in Dennison's Exchange, in the econd and upper story. At about one quarter before 6 o'clock in the morning of the 21th was discovered by an inmate of the house. and almost immediately, also, the alarm was communicated by a watchman, in the Parker House, adjoining. Before water could be procured, the blaze had reached the painted cotton ceiling, and streaming through the sides, ignited the tarred roof. The alarm was sounded, but by the time this was accomplished, the building was in flames.

The Placers .- From the mines we learn that winter has come down, and wild winds, snow and sleet, are beating the fude heights of the Sierra Nevava, as if, for the despoiliation of its glittering wealth there were rush swollen and thundering through gloomy and rugged cannons, and all day long the cold rain drives stendily downward; ejected from a thick mass of a heavy cloud on the blast from the icy North, holding forth scarce a hope of favorable mining weather, again until Spring bursts upon the barren mountain lands, and awakes to blooming verdure the fields of California.

SCALDS AND BURNS -It is no time o run for a remedy when an accident of this kind occurs. An immediate application of Merchants Gargling Oil, or Universal Family Embrocation will arrest his progress and prevent any soreness or pain, in even those of an extensive nature. Therefore keep it on hand. It will also cure your chilblains, frost-bites, and corns. See advertisement in
