My Mother's Grave.

The world was altered loo; and as I stood at my mother's grave, I could hardly realize that I was the same thoughtless, happy creature, whose cheeks the had so often kissed in excess of tenderness. But the varied events of thirteen years had not effaced the remembrance of that mother's smile. It seemed as if I had seen her yesterday—as if the blessed sound of her voice was then in my car. The gay dreams of my infancy and childhood were brought lack so distinctly to my mind, that had it not been for one bitter recollection, the tears ing. The circumstance may seem a trifling rather than thrive in idleness on the hard I shed would have been gentle and refreshone-but the thought of it even now agonizes my heart-and I relate it that children who have parents may love them as they

My mother had been ill a long time; and I had become so much accustomed to herpale face and weak voice, that I was not frightened at them as children asually are. At first, it is true, I subbed violently-for they told me she would die; but when day after day I returned from school, and found her the same, I began to believe she would

always be spared to me. One day when I had lost my place in the class, and done my work wrong side outthink my heart must have been stone, not to have been melted by it. She requested me to go down stairs, and bring her a glass call a domestic to do it. With a look of mild reproach, which I shall never forget, if I live to be a hundred years old, she said, "And will not my daughter bring a glass of

water for her poor sick mother?" I went and brought her the water, though I did not do it kindly. Instead of smiling and kissing her, as I was wont to do, I set the glass down very quick and left the room. but, when alone in my room, in darkness ordered to the aunt's bedroom. looked, and how her voice trembled when glass of water for her poor sick mother?" I bowed down by her side, and sobbed in the bitterness of my heart. I then wished I could die, and be buried with her; and old as I now am, I would give worlds, were they mine to give, could my mother but have lived to tell me she forgave my childish ingratitude. But I cannot call her back, and when I stand by her grave, and whenever, I think of her manifold kindness, the memory of that reproachful look she gave me, will "bite like a serpent and sting like an ndder."

What a Prudent Wife Bid. A correspondent of the National Era, relates the following: A fact which I came in possession of a couple of years ago, may illustrate the character of the New Englanders, and reveal the origin of some branches of their profitable business. S. W. was the son of our country clergyman, and was accustomed to laboring on a farm in the summer, and keeping school in winter. He was moral, industrious and frugal, and took a wife possessing the same qualities, together with a shrewd propensity to calculate

pay. S. W. soon left farming and school keeping, bought the cloth, button-moulds, hired the woman and girls of the neighboring towns to make thein up, and sold them at great profits. Soon another entered into nery to do the work. Then the plain lastbuttons. S. W. now owns one of the sweetest villages in the Connecticut valley, and almost supplies the United States with buttons for coast and overcoats. He has eny distinguished and useful female seminary, and has rescued a noble college from embarrassment. So much for the carefulness of a prudent wife, and so much for a disposition to earn an honest-living in some way

The price paid was \$16,000 in hand, and an annuity forever of \$45,000.
