TO THE PUBLIC!

THOSE who are suffering from remiting or Intermitting Bilious Complaints, should read the following, and be guided For one copy of the Weekly Globe for one thereby:

Cause of Pain .- Pain is the consequence of the exertion of the organ or part where it is present to throw off morbid or corrupt humors, for no pain can exist but from the presence of those matters which are of an unhealthy character. When we have pain in the head, in the bowels, or in any other part of the body, it only proves the presence of matters which the blood is trying to remove, and it is this struggle which is the octasion of pain. To be bled, only removes: the anguish in proportion as the amount of life is reduced, and the same may be said of all lulling or soothing remedies. Not so with Brandreth's Pills; they at once go to the assistance of the blood in aiding it to discharge bad humors, to conquer the Death Principle. To relieve pain in this way loes not leave any bad effects, The Life Principle is not reduced, nor are the teeth destroyed; but all the organs are cleansed

CECOED CEC A Congressional, Literary and Agricultural Newspaper.

The undersigned submits to the public his proposals for the GLOBE and its reports for the next session of Congress. Congress much after death, and sometimes causes the taking, that it will be established as a standard work worthy of its official imprimatur, the ox, calf, &c. It is the material used by unless the undersigned fails in his duty. This will not be the case if carnest effort can avail. The Globe is the only paper that will furnish full reports of the proceedings and debates of the two Houses of Congress, and having received their sanction as such, the best Reporters will be engaged to write work, after passing through the DAILYGLOBE will digest meat and other food." Diseased and receiving correction, will-be-presented,as finished, in the Congressional Globe and APPENDIX.

The debates will probably increase in increst during the next session. The one subject which engrossed the last, will doubtless give way to others of great variety, which, in this progressive country, the conflicts of party and the ambition for place and distincion, necessarily produce. Vast interests will be at stake upon the decisions of the next Congress, and there is great talent in both branches, which will be evoked in their discussion. All the honors of the Republic dependent on the succession to the Presidency, as well as all the great and permanent interests which go to the advancement of the power of the country, will give impulse to the action of the next session of

The DAILY GLOBE will be published daily during the session of Congress, and weekly the remainder of the year. It will contain full and faithful reports of the proceedings of both Houses of Congress; and miscellaneous articles on those general subjects to which it is devoted.

The WEEKLY GLOBE will contain Agricultural and miscellaneous articles; and will occasionally give debates of such importance as command universal interest.

The price of the Weekly Globe is reduced to one dollar, with a view to obtain a more general circulation,

Another Scientific Wonder! PEPSIN! AN ARTIFICIAL DIGESTIVE

Fluid, or Gastric Juice!

A GREAT DISPEPSIA CURER! Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own-agent, the Gastric Juice. Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five

Pounds of Roast Beef in about two hours

out of the stomach.

Digestion. - Digestion is chiefly per formed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserv ing and Stimulating Agent of the stomach and intestines. Without it there will be no and no nutrition of the body; but rather a

digestion -- no conversion of food-into blood, foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet .- Pepsin is the chief element, or great digesting principle of the Clastric Juice. It is found in great abundance in the solid parts of the human stohas now so liberally patronized the under- stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as farmers-in-making-cheese, called-Rennet milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron out the debates of each day, which will-un- Liebig states that, "One part of Pepsin dergo the revision of the Members. The dissolved in sixty thousand parts of water stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may_be_perfectly_supplied,_we_quote_the following

Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on 'Food and Diet," published by Wilson & Co, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira Dr. John W. Draper, Professor of Che-

mistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could performed-but it is now universally admitted that it may be."

Professor Dunglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examina-tion of this subject. His experiments with tion of this subject. His experiments with Dr. Benumont, on the Gastric Juice, obses," "he says" "digestion occurred as per feetly in the artificial as in the natural digestions."

As a Dyspepsia Curer.—Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossi-ble to give the details of cases in the limits of this advertisement - but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and from the astonishingly small quantity necessary to produce healthy digestion, is believed to

act upon Electro-Mugnetic Principles !- There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent, purity of blood and vigor of body, follow at once. It is particularly excellent in cases of Nausca, Vomiting, Cramps, Soreness of the pit of the Stomach distress after enting, low, cold, state of the 1 00 Blood, Heaviness, Lowness of Spirits, Desyear, 1 00 Blood, Heaviness, Lowness of Spirits, Des-For one copy of the Congressional Globe pondency, Enaciation, Weakness, tenden-1 50 cy to Insanity, Suicide, &c.
