A Jenny Lind Song. By Samson, Wagner & Co.

TUNE - "SHE HAS COME." 1. An appeal to the judgement, A candid appeal; With facts on our side, An assurance we feel. Fact, Fact, is our maxim, On facts we rely, And to facts we appeal, In the Goods we supply.

2. In this town our Store. Is seen to attract, A triumph in trade, And in truth a great Fact! And still it shall stand

As it ever has done; A glorious fact For the name it has won.

Readers! We are not about to carry you away with any false or unfounded assertions. We intend, in appealing to your judgment to state facts and facts only with- in the Borough of Allentown. out the slightest fear of contradiction. One prominent fact is, that the articles of

Samson, Wagner & Co. are distinguished by unequalled style, in

Fall and Winter Goods,

which we have just recieved and unpacking. And the prominent fact is, that at our store you will find an extensive assortment of every thing which is usually kept in a country store. But the fact of all facts is, that Samson, Wagner & Co. sell goods cheeper dont take our word for it, but come and see.

Come men of all stations, Each rank and degree, Come old maids and young maids, Who yet are so free, Come Jews and come Christian,

Come Gentiles and all. Come each and come every one And give us a CALL.

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice! A GREAT DISPEPSIA CURER!

Another Scientific Wonder!

PEPSINI

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by S. Houghton, M. D., No. 11, North

Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipution, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Fluid a tenspoonful of this Fluid; infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours,

out of the stomach.

Digestion. - Digestion is chiefly perormed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion -- no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pensin and Rennet .-- Pepsin is the chief element, or great digesting principle of the Castric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the tomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Luebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the

Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of prearation. There are few higher authoriies than Dr. Pereira

Dr. John W. Draper, Professor of Chemistry in the Medical College of the Uni-Persity of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could pe performed—but it is now universally ad-

mitted that it may be." Professor Dunglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, ob-"he says" "digestion occurred as per feetly in the artificial as in the natural di-

As a Dyspepsia Curer .- Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. Electro-Magnetic Principles!-There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent, purity of blood and vigor of body, follow at once. It is particularly excellent in cases of Nausca, Vomiting, distress after cating, low, cold, state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.
