# To the Members of the Mutual Fire Insurance Comp.

OF SINKING SRING, BERKS COUNTY. The Board of Managers of the Mutual Fire Insurance Company of Sinking Spring Berks County, herewith respectfully sub mit the 8th annual Report and Statement of the affairs of the Company, agreeably to the provisions of the charter.

During the past year six hundred new members were admitted in the Company, about two hundred transfers and alterations of Policies effected, and 50 Policies renewed. The gross receipts from these sources were 32.140,49. The amount paid in, on the assessment 05,500, and the balance in the Treasury as per last statement, with interest \$2061,43, making a sum total of 89, 701,92, cut of which the Board appropriated the sum of 96,257 90 towards damages and expenses incurred during the past year, leaving a balance of \$3,443 02 in the Treasurv at interest.

The Company now numbers full four thousand members, forming a capital of nine millions of dollars to levy upon in case of necessity.

The Board have the printification to say, that the members of the Company met the first assessment with alacrity and promptness, giving ample assurance that Matual Insurance Companies, with sufficient capital and prudent management are by far the safest and cheapest in a country community. The Damages were awarded as follows:

To Levi Kramlich, Lehigh county, stone smoke house, F. A. Wallace, Lehigh county, frame store house, John Bloss, Lehigh county, bake house, John B. Loos, in Berks county

out of the stomach. Digestion - Digestion is chiefly perrunal in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion -- no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Clastric Juice, and hence the

disease, distress and debility which ensue. Pepsin and Rennet .-- Pepsin is the chief element, or great digesting principle of the Clastric Juice. It is found in great abundance in the solid parts of the human stomuch after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as i the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the spenet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its.own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water. will digest ment and other food." Diseased stomachs produce no good Gastrie Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the ollowing

Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry. says: "An Artificial Digestive Fluid may be readily prepared from the mucous mem brane of the stomach of the Call, in which various articles of food, as meat and eggs will be softened, changed, and digested, just in the same manner as they would be in the human sto:nach."

Dr. Pereira, in his famous treatise on Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preuration. There are few higher authorisies than Dr. Percira

Dr. John W. Draper, Professor of Chenistry in the Medical College of the University of New York, in his "Text Book of! Chemistry," page 386, says, "it has been question whether artificial digestion could he performed—but it is now universally ad-

niited that it may be." Professor Dauglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examina-tion of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," "he says" "digestion occurred as perctly in the artificial as in the natura gestions."

As a Dyspepsia Curer .- Dr. Houghton's preparation of Pepsin has produced the nost marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement - but authenticated certificates have been given of more than 270 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and from the astonishingly small quantity necessary to produce healthy digestion, is believed to

# Brandreth's Pills.

FOR THE CURE OF Consumption, Coughs, Colds, &c.,

TO THE PUBLIC!

THOSE who are suffering from remitting or Intermitting Bilious Complaints, should read the following, and be guided thereby: . Cause of Pain .- Pain is the consequence

of the exertion of the organ or part where it is present to throw off morbid or corrupt humore, for no pain can exist but from the presence of those matters which are of an unhealthy character. When we have pain in the head, in the bowels, or in any other part of the body, it only proves the presence of matters which the blood is trying to remove, and it is this struggle which is the occasion of pain- To be bled, only removes the anguish in proportion as the amount of life is reduced, and the same may be said of all fulling or soothing remedies. Not so with Brandreth's Pills : they at once go to the assistance of the blood in aiding it to discharge had humors, to conquer the Death Principle. To relieve pain in this way does not leave any bad effects. The Life Principle is not reduced, nor are the teeta destroyed; but all the organs are cleansed and their health insured.
