persons who are troubled with STUTTERING OR STAMMERING.

So confident is he of success, that no pay will be required until the utmost satisfaction is given. His method is so easy, that any child five years old may understand it, and yet so efficient, that he will forfeit One Thou sand Dollars to any person who will stammer and apply it.

DR. J. V. WYCKOFF, No. 37 Chambers St., New York. P. S. For further testimonies as to the efficacy of his method; he refers to the Medical Faculty of New York, who witnessed the application upon a gentleman, who was an inveterate stammerer, and had been operated upon by other Physicians, without the least benefit, and astonishing as it may seem, Dr. Wyckoff cured him in 20 minutes, that he was able to speak and read with ease, without hesitancy or semblance

of Stammering.
The Doctor also has over One Hundred Certificates of cures performed, among which are several medical gentlemen.

BOUNTY LAND PENSION AGENCY

At Washington, D. C. The undersigned Attorney and General Agent at the City of Washington, offers his services in procuring Bounty Lands and Pensions for those cutitled.—Being perma-3 00 nently located at the seat of Government,

8 00 with a thorough and familiar acquaintance 16 05 with the necessary forms and routine of bus-26 44 iness, and having access to registers and 3 96 Rolls filed in the U.S. war office, he pos-15 sesses facilities for the speedy and satisfac-8 00 tory adjustment of Government claims of every kind. By a late Act of Congress, Bounty Land

88 is granted to the officers and Soldiers of the war of 1812, and of the various Indian wars since 1790. To those who served nine months 160 Acres, to those who served four months 80 Acres, and to those who served one month 40 Acres.

Arrangements have been made with gendemen of the Legal professions in different sections of the country, for the location of warrants and the sale of the patents, when issued, on the most advantageous terms: for the payment of taxes, redemption of Lands, sold for taxes: collection of debts: and for the transaction of general Law busness, in the different States, and Territories.

He tenders his services to members of the profession at a distance, and when, claims against the Government, are prepared by a local Agent, will abate one half his usual fee. The necessary forms and instructions, and information on all subjects appertaining to a successful prosecution of this business, will be furnished to regular correspondents without charge. Information cheerfully given, and all

communications promptly replied to, if addressed, post-paid to CHARLES TUCKER, (Box No. 167, Washington, D. C. P. O.) Dec. 31.

ing and Stimulating Agent of the stomach and intestines. Without it there will be no destroyed; but all the organs are cleansed digestion -- no conversion of food into blood, and their health insured. and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet .-- Pepsin is the chief lement, or great digesting principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers-in-making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The sto-mach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, may be perfectly supplied, we quote the following

Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira
Dr. John W. Draper, Professor of Che-

mistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could be performed-but it is now universally ad-
